INDEPENDENT AUDITORS' REPORT

Trustees
Wabash Technologies
401(K) Savings Plan
Troy, MI

We were engaged to audit the financial statements and supplemental schedules of the Wabash Technologies 401(K) Plan as of December 31, 2009 and 2008 and for the year ended December 31, 2009, as listed in the accompanying index. These financial statements and schedules are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note E, which was certified by Transamerica, the custodian of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedules. We have been informed by the plan administrator that Transamerica holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from Transamerica as of and for the year ended December 31, 2009, that the information provided to the plan administrator by Transamerica is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedules taken as a whole. The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

NOTES TO FINANCIAL STATEMENTS
December 31, 2009 and 2008

NOTE A - DESCRIPTION OF THE PLAN

The following description of the Wabash Technologies ("the Company") 401(K) Plan ("Plan"), participants previously participating in the KNI Group 401(K) and Profit Sharing Plan, provides only general information. Participants should refer to the Plan agreement and Summary Plan Description for a more complete description of the Plan's provisions.

1. General – Effective October 1, 2007, Wabash Technologies separated from participating in the KNI Group 401(K) and Profit Sharing Plan and all eligibility service, vesting service, accrual service, participation accounts, vested interest in accounts, rights and obligations, and all other assets and liabilities of the prior Plan (KNI Group 401(K) and Profit Sharing Plan) with respect to the employees of Wabash Technologies were transferred to Wabash Technologies 401(K) Savings Plan.

The Plan benefits are available to all employees who have completed 90 days of employment. The Plan is subject to the provisions of the Employee Retirement Income Act of 1974 (ERISA).

2. Contributions – Participants may authorize a tax-deferred deduction of 1% to 50% of their compensation each pay period, subject to Internal Revenue Code limitations. The Company and its participating subsidiaries may contribute matching contributions at a rate of 100% of the first 1% of the participant contribution, plus 50% of the next 5% of the participant contribution, not to exceed 3.5% of the participants compensation. For the year ended December 31, 2009, the Company did not contribute to the Plan.
3. Participant Accounts - Participant accounts are credited with the participant's contribution, actual earnings and allocation of the Company's contribution. Allocations are based on participant earnings or account balances, as defined. All amounts in participant's accounts are participant-directed.
4. Vesting – Participants are fully vested in employer contributions after the completion of two years of service, or if death or disability (approved by social security) ends your employment, or if the participant satisfy the conditions for retirement. Participant contributions and catch-up and rollover contributions are always 100% vested.
5. Investment Options – Upon enrollment in the Plan, a participant may direct participant and employer contributions in any of the Plan's investment options.

NOTE A - DESCRIPTION OF THE PLAN - CONTINUED

6. Participant Loans – Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of the participant's entire vested balance. Loan transactions are treated as a transfer from the respective investment funds to the loan fund. Loan maturities must be no more than 60 months unless used to acquire the borrower's principal residence. Principal and interest payments are paid ratably through payroll deductions. At December 31, 2009 and 2008 participant loans totaled \$406,421 and \$423,362 respectively.
7. Benefit Payments – The vested value of a participant's account is payable in a lump sum following termination of employment, retirement on or after early, normal or deferred retirement date or upon disability. Withdrawals by active participants are subject to hardship restrictions.
8. Forfeited Accounts – Employer contributions that have not vested are forfeited upon termination of employment. Forfeited amounts are to be applied to reduce employer matching contributions in the succeeding plan year. During 2009, there were no forfeitures used to reduce employer matching contributions.
9. Administrative Expenses – The Company pays for all administrative expense directly related to administering the plan and the plan pays all investment fees out of the plan assets.
10. Plan Termination – Although it has not expressed any intent to do so, the Company has the right to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of termination, the net assets are to be allocated to the participants on the basis of their individual interests.

NOTE B - SUMMARY OF ACCOUNTING POLICIES

Basis of Accounting

As described in Financial Accounting Standards Board Staff Position, FSP AAG INV-1, Reporting of Fully Benefit-Responsive Investment Contracts Held by Certain Investment Companies Subject to the AICPA Investment Company Guide and Defined-Contribution Health and Welfare Plans (the FSP), investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because

NOTE B - SUMMARY OF ACCOUNTING POLICIES – CONTINUED

contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. As required by the FSP, the Statement of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan Administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Valuation of Investments and Income Recognition

Mutual funds are valued at market price on the last business day of the plan year. The change in the difference between current value and the cost of investments is included in the Statement of Changes in Net Assets Available for Benefits as “investment gains”.

As described in Financial Accounting Standards Board Staff Position, FSP AAG INV-1 and SOP 94-4-1, *Reporting of Fully Benefit-Responsive Investment Contracts Held by Certain Investment Companies Subject to the AICPA Investment Company Guide and Defined-Contribution Health and Welfare and Pension Plans* (“FSP”), investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully-benefit responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under terms of the Plan. As required by the FSP, the Statement of Net Assets Available for Benefits presents the fair value of the investment contract as well as the adjustment of the fully benefit-responsive investment contract from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Payment of Benefits

Benefits are recorded when paid.

Operating Expenses

All administrative and non-settlor expenses of maintaining the Plan are the responsibility of the Plan.

Reclassification

Certain 2008 amounts have been reclassified to conform to the 2009 presentations.

NOTE C FAIR VALUE MEASUREMENTS

Effective January 1, 2008, the Plan adopted Accounting Standards Codification 820, *Fair Value Measurements and Disclosures* (ASC 820), formerly SFAS 157, which establishes a framework for measuring fair value. The framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are defined as follows:

- Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets in active markets.
- Level 2: Inputs to the valuation methodology include quoted prices for similar assets and liabilities in active markets, and inputs that are observable for the asset or liability, either directly or indirectly, for substantially the full term of the financial instrument.
- Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

The Plan's investment assets at fair value, within the fair value hierarchy, as of December 31, 2009 and 2008 are as follows:

Those separate accounts investing in mutual funds or equity securities are measured using quoted prices in active markets for identical assets (Level 1). Those separate accounts directly investing in fixed maturity securities are measured based on the pricing data provided by outside valuation service providers who in turn generally use the mean of bid and ask prices but may also use alternative observable pricing inputs for certain securities (Level 2).

The investment contracts with insurance company represent investments in the Transamerica Stable Value and Transamerica Stable Value Advantage Options (collectively "Stable Value Options"). The Stable Value Options investment choices are invested in the general account of the insurance company issuing the contract and are not separate account investment choices. These investments have no stated maturity and are non-tradable obligations of Transamerica. The Stable Value Options investment choices allow participants reasonable access to their assets. The terms of Transamerica's Group Annuity Contract require all permitted participant-initiated transactions involving the investment to

NOTE C FAIR VALUE MEASUREMENTS - CONTINUED

occur at contract value with no conditions, limits or restrictions; however, if an event should ever occur such that realization of full contract value for a particular investment contract is no longer probable—for example, a significant decline in creditworthiness of Transamerica, the Stable Value Option investment choice may no longer be considered fully benefit-responsive. Since the Stable Value Option investment choice is an obligation of Transamerica, the occurrence of an event that limits the ability of the investment to transact at contract value between Transamerica and a participant holding the investment is not probable. Interest rates are reset monthly as of the beginning of each month, during which a new interest rate is applied daily to the total outstanding balance of the investment. The average credited interest rates, which approximated the yields, for the years ended December 31, 2009 and 2008 were 3.49% and 3.89%, respectively.

Assets held in the Stable Value Options investment choices are commingled with assets in the general account. There is no specific portfolio of assets in which the Stable Value Options investment choices invest, so no financial statements are available. The credited interest rate is backed by the income received from assets held in the general account. In accordance with the Financial Accounting Standards Board's guidance, this type of investment is considered fairly valued at contract value; accordingly, the contract value is the fair value reported in these financial statements. Interest income earned on the Stable Value Options investment choices for the year ended December 31, 2009 totaled approximately \$175,000.

*These investments were classified as Level 3 in the 2008 Plan financial statements. Transamerica Retirement Services has clarified and represented that the Stable Value Options are Level 2 investments. They therefore have been reclassified as such as of December 31, 2008 in these financial statements.

The Plan's investments are stated at fair value. Shares of registered investment companies are valued at quoted market prices which represent the net asset value of shares held by the Plan at year end. Participant loans are valued at their outstanding balances, which approximate fair value.

NOTE D – INVESTMENTS

The following table represents investments that represent 5 percent or more of the Plan's net assets available for benefits as of December 31, 2009 and 2008:

	<u>2009</u>	<u>2008</u>
Transamerica Partners Stk Idx	\$ 570,338	\$ 570,338
Transamerica Stable Value	\$ 4,744,303	\$ 5,441,067
Transamerica Partners Total Return	\$ 735,934	\$ 930,987
Transamerica AA Conservation	\$ 753,405	-

For the year ended December 31, 2009, the Plan's investment in registered investment companies (mutual funds) appreciated in value of approximately \$1,186,000. This appreciation includes investments bought, sold and held during the year.

NOTE E – INFORMATION CERTIFIED BY THE PLAN'S TRUSTEE

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Transamerica Trust Company, the custodian of the Plan, has certified to the completeness and accuracy of all investments reflected on the accompanying statements of net assets available for benefits as of December 31, 2009, the schedule of assets (held at end of year) as of December 31, 2009 and the related investment activity reflected in the statement of changes in net assets available for benefits for the years ended December 31, 2009.

NOTE F – INCOME TAX STATUS

The Plan is relying on a determination letter from the IRS received on April 17, 2002, when it was part of KNI Group 401(K) Plan to be in compliance with all applicable requirements of the Internal Revenue Code (IRC). On July 29, 2010 Wabash Technologies 401(K) Plan received a favorable determination from the IRS. The Plan administrator believes that the Plan is being operated in compliance with the applicable requirements of the IRC and therefore believes that the Plan is qualified and the related trust is tax-exempt.

WABASH TECHNOLOGIES
401(K) SAVINGS PLAN
NOTES TO FINANCIAL STATEMENTS
December 31, 2009 and 2008

NOTE G – RISK AND UNCERTAINTIES

The Plan provides for various investment options including mutual funds and fully-benefit responsive investment contracts (the Stable Value Option). Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statement of Net Assets Available for Benefits. Mutual funds may invest in securities obligations and mortgage-backed securities, including securities backed by subprime mortgage loans.

The value, liquidity and related income of these securities are sensitive to changes in economic conditions, including real estate value, delinquencies or defaults, or both, and may be adversely affected by shifts in the market's perception of the issuers and changes in interest rates. The values of investments reported in these financial statements were based on market values as of the year-ends presented.

NOTE H – INVESTMENT CONTRACT WITH INSURANCE COMPANY

The Plan has entered into an investment contract with Transamerica. Transamerica maintains certain contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The contract is included in the financial statements at fair value as reported to the Plan by Transamerica.

NOTE I – RELATED PARTY TRANSACTIONS

Certain investments are invested in registered investment companies managed by Transamerica Trust Company. Transamerica Trust Company is the custodian of the Plan and, therefore, these transactions qualify as party-in-interest.

NOTE J – SUBSEQUENT EVENT

The Plan trustees have evaluated events and transactions for potential recognition or disclosures through September 24, 2010 which is the same date these financial statements were available to be issued.
