NOTE 1. DESCRIPTION OF THE PLAN

The following brief description of the Innovative Concepts in Entertainment, Inc. 401(k) Retirement Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution plan covering substantially all employees of Innovative Concepts in Entertainment, Inc. (the Company) who have one year of service, as defined, and are age 21 or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Board of Directors is responsible for oversight of the Plan and determines the appropriateness of the Plan's investment offerings and monitors investment performance.

Coronavirus, Aid, Relief and Economic Security Act (CARES Act): On March 27, 2020, the CARES Act was signed into law and included new relief provisions to tax-qualified retirement plans and participants in those plans affected by the COVID-19 pandemic. The Company amended its Plan accordingly to allow for availability of certain coronavirus-related distribution relief provisions to its Plan participants.

Contributions: Each year, participants may contribute up to 25% of pretax annual compensation, as defined by the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollover). Contributions are subject to certain Internal Revenue Service (IRS) limitations.

The Company contributes a safe harbor matching contribution equal to 100% of the first 3% of base compensation that a participant contributes to the Plan and 50% of the next 2% thereafter up to a maximum matching contribution of 4% of compensation.

Additional profit-sharing amounts may be contributed at the discretion of the Company's Board of Directors. There was no profit-sharing contribution for the years ended December 31, 2020 and 2019.

Participants direct the investment of their contributions, the Company's safe harbor matching contributions, and the profit-sharing contributions into various investment options offered by the Plan. Participants may change their investment allocation on a daily basis.

Participant Accounts: Each participant's account is credited with the participant's contributions and the Company's safe harbor matching contribution, as well as allocations of (a) the Company's profit-sharing contribution and (b) Plan earnings. Discretionary profit-sharing contributions are allocated based upon participant compensation as a ratio of total compensation. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting: Participants are vested immediately in their contributions and the Company's safe harbor matching contributions plus actual earnings thereon. Vesting in the Company's discretionary profit-sharing contribution portion of their account is based on years of continuous service. Participants are 20% vested in employer discretionary profit-sharing contributions after two years of service, as defined, with a 20% annual increase in each of the next four years. In the event of death or disability, the participant will become fully vested in their account.

Payments of Benefits: Unless a participant elects otherwise, distributions will be made as soon as practical after a participant's normal retirement date or actual retirement date occurs. The normal retirement date is the date upon which a participant reaches age 65. Benefits may be paid in the form of a lump sum distribution or an annuity. In service distributions are also permitted when a participant attains age 59 ½ or demonstrates financial hardship. During 2020, the Plan also adopted CARES Act provisions to allow Coronavirus Related Distributions (CRDs) to individuals affected by COVID-19 for up to $100,000.

NOTE 1. DESCRIPTION OF THE PLAN (CONTINUED)

Forfeited Accounts: At December 31, 2020 and 2019, forfeited nonvested accounts totaled $150 and $138, respectively. There were no forfeitures used during the years ended December 31, 2020 and 2019.

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting: The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates: The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition: Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Board of Directors determines the Plan's valuation policies utilizing information provided by the investment advisers and custodians. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation in the fair value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Guaranteed Interest Account with Insurance Company: The Plan currently invests in an investment contract with Principal Life Insurance Company. Principal Life Insurance Company maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. Contract value represents contributions made under the account, plus earnings, less participant withdrawals and administrative expenses which approximates fair value at December 31, 2020 and 2019. Due to the possible market value adjustment when funds are withdrawn prior to their maturity, the investment contract is not considered benefit responsive.

Payment of Benefits: Benefits are recorded when paid.

Expenses: Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Company. Expenses that are paid by the Company are excluded from these financial statements. Investment related expenses are included in net appreciation in the fair value of investments.

Subsequent Events: The Plan has evaluated subsequent events through October 13, 2021, the date the financial statements were available to be issued.

NOTE 3. FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board's (FASB) Accounting Standards Codification (ASC) 820: Fair Value Measurements establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

NOTE 3. FAIR VALUE MEASUREMENTS (CONTINUED)

Level 2: Inputs to the valuation methodology include:
- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.
- If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2020 and 2019.

Guaranteed interest contracts: Guaranteed interest contracts are valued at fair value by the insurance company by discontinuance value, which is the amount the plan participant will receive if they transfer or surrender their funds out of the guaranteed interest contracts with a market value adjustment which moves with market interest rates or a flat discontinuance charge. In determining the reasonableness of the methodology, the Plan Administrator evaluates a variety of factors including review of existing contracts, economic conditions, industry and market developments, and overall credit ratings. Certain unobservable inputs are assessed through review of contract terms (for example, duration or payout date) while others are substantiated utilizing available market data (for example, swap curve rate). The guaranteed interest contracts are classified as Level 3 assets.

Shares of pooled separate accounts: The separate accounts are stated at fair value based on the quoted market prices of the underlying mutual funds. The unit value of the separate accounts is calculated by dividing the total value of the assets of the separate account by the number of units in the separate account. For separate accounts that invest exclusively in mutual funds, the total value of the assets of the separate account is based on the net asset value (NAV), or price per share, of the underlying mutual fund. The mutual fund calculates its NAV by dividing the mutual fund's net assets by the mutual fund's outstanding number of shares. The NAV is used as a practical expedient to determine fair value for these accounts.

Common collective trusts: Valued based on the NAV per unit of the fund provided by the trusts. The NAV is used as a practical expedient to measure fair value. Unit values are determined by dividing the fund's net assets, which represents the fair value of the underlying investments, by its units outstanding at the valuation date.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the U.S. Securities and Exchange Commission. These funds are required to publish their daily NAV and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded. Mutual funds are classified as Level 1 assets.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2020 and 2019.

NOTE 4. FINANCIAL CERTIFICATION

Financial information relating to the Plan's assets at December 31, 2020 and 2019, as well as income and transactions for the years then ended, has been derived from information provided by Delaware Charter Guarantee and Trust Company d/b/a Principal Trust Company, Principal Life Insurance Company, and Principal Life Insurance Company as agent for Principal Global Investors Trust Company, the custodians of the Plan, and has been certified by them as complete and accurate. The incorporation of this financial information in the accompanying financial statements is based solely on their certification and has not been audited by independent accountants.

	2020	2019
Investments, at fair value:		
Guaranteed interest contracts	**$ 270,034**	$ 366,770
Shares of pooled separate accounts	**$ 12,670,371**	$ 11,062,736
Common collective trusts	**$ 4,636,936**	$ 3,379,538
Mutual funds	**$ 404,909**	$ 322,855
Transactions for the year ended:		
Net appreciation in the fair value of investments	**$ 2,214,666**	$ 2,648,803

NOTE 5. PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments are maintained in investment funds managed by Delaware Charter Guarantee and Trust Company d/b/a Principal Trust Company, Principal Life Insurance Company, and Principal Life Insurance Company as agent for Principal Global Investors Trust Company (collectively, Principal). Principal is the custodian of the Plan and, therefore, these transactions qualify as party-in-interest transactions.

Investment and gains on assets invested with the custodian, net of investment fees amounted to $2,183,357 and $2,572,588 the years ended December 31, 2020 and 2019, respectively. Fees paid by the Plan for administrative services amounted to $1,100 and $2,413 for the years ended December 31, 2020 and 2019, respectively.

NOTE 6. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer contributions.

NOTE 7. INCOME TAXES

The underlying non-standardized prototype plan has received an opinion letter from the IRS dated March 31, 2014, stating that the form of the Plan is qualified under Section 401 of the Internal Revenue Code (IRC). The prototype plan opinion letter has been relied upon by this Plan. Although the Plan has been amended and restated since receiving the opinion letter, the Plan Administrator and the Plan’s tax counsel believe that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believe that the Plan is qualified, and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken uncertain tax positions that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by the IRS; however, there are currently no audits for any tax periods in progress.

NOTE 8. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

NOTE 9. NON-EXEMPT PROHIBITED TRANSACTION

During the year ended December 31, 2019, the Plan Sponsor inadvertently failed to deposit $4,114 of participant contributions within the required time frame as stated by the United States Department of Labor (DOL). Additionally, during the year ended December 31, 2011, the Plan Sponsor inadvertently failed to deposit $3,314 of participant contributions within the required time frame as stated by the United States DOL. The Plan Sponsor intends to deposit lost earnings to correct this failure. The Plan Sponsor will file Form 5330 and pay the applicable excise tax for 2011 and 2019. The excise tax payments will be made from the Plan Sponsor's assets and not from assets of the Plan.
