To the Administrative Committee of
The Zande Employees Profit Sharing 401(k) Plan & Trust

Independent Auditors' Report

We were engaged to audit the financial statements of The Zande Employees Profit Sharing 401(k) Plan & Trust as of December 31, 2009 and 2008, and the supplemental schedules as of and for the years ended December 31, 2009 as listed in the accompanying index. These financial statements are the responsibility of the Plan's management.

As permitted by 20 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note X, which was certified by The Reliance Trust Company, the trustee of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedules. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of and for the year ended December 31, 2009 that the information provided to the plan administrator by the trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and schedules taken as a whole. The form and content of the information included in the financial statements and schedules, other than that derived from the information certified by the trustee, have been audited by us in accordance with generally accepted auditing standards and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

As described in Note B, these financial statements and supplemental schedules were prepared on a modified cash basis of accounting, which is a comprehensive basis of accounting other than generally accepted accounting principles.

As further discussed in Note C to the financial statements, the Board of Directors of the Zande Companies, the Plan's sponsor, voted in January 2008 to terminate the Plan. In accordance with accounting principles generally accepted in the United States of America, the Plan has changed its basis of accounting used to determine the amounts at which investments in insurance contracts and the accumulated benefit information are stated, from the ongoing plan basis used in presenting the 2007 financial statements to the liquidation basis used in presenting the 2008 statements. On May 15, 2009, Internal Revenue Service approval was received, and the net assets were distributed to participants.

The Zande Employees Profit Sharing 401(k) Plan & Trust
Notes to Financial Statements
December 31, 2009

A. Description of Plan

The following description of the Zande Companies, Inc. ("Company") Profit Sharing 401(k) Plan ("Plan") provides only general information. Participants should refer to the Plan Adoption Agreement and Plan document for a more complete description of the Plan's provisions.

1. General – The Plan is a defined contribution plan covering all eligible employees of the Company who have one year of service and are age twenty-one or older. It is subject to the provision of the Employee Retirement Income Security Act of 1974 (ERISA).
2. Contributions – Each year, participants may contribute up to the IRC Section 402 (g) limit of pretax annual compensation, as defined in the Plan. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. The Company may make (but is not required) profit sharing and matching contributions plans to the Plan in such amounts as its Board of Directors may determine for any plan year. Contributions are subject to certain limitations.
3. Participant Accounts – Each participant's account is credited with the participant's contribution and allocations of plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. Forfeited balances of terminated participants' non vested accounts are allocated among the other participants. The benefit to which a participant is entitled is the benefit that can be provided from the participants' vested account.
4. Vesting – Participants are immediately vested in their contributions plus actual earnings thereon and are immediately vested in Company matching contributions.
5. Investment Options – Upon enrollment in the Plan, a participant may direct the Trustee in writing to invest all or any part of the amounts credited to such participant's accounts in one or more cash funds, mutual funds, or other investment vehicles that may from time to time be designated by the Trustee for this purpose. Such direction shall be made to the Trustee on a form prescribed by the Trustee. Participants may change their investment options at will.
6. Participant Notes Receivable - participants may borrow from their fund accounts at any time, any amount up to a maximum equal to the lesser of \$50,000 or 50 percent of their account balance. Loan transactions are treated as a transfer to (from) the investment fund from (to) the Participant Notes fund. Loan terms range from 1-5 years. The loans are secured by the balance in the participant's account and bear interest at a rate commensurate with local prevailing rates as determined quarterly by the Plan administrator. Principal and interest is paid monthly by the participant.

Notes to Financial Statements
December 31, 2009

7. Payment of Benefits - on termination of service due to death, disability, or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or annual installments over a ten year period. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.
8. Plan Administration Costs - the company absorbs cost of Plan administration related to legal, accounting, auditing, and general administration.

B. Summary of Accounting Policies.

Basis of Accounting

The financial statements of the Plan have been prepared on a modified cash basis, which is a comprehensive basis of accounting other than generally accepted accounting principles. Consequently, investment income is recognized when received and disbursements when made. Securities investments are reflected at fair value. Accordingly, the financial statements are not intended to present the net assets and changes in net assets of the Plan in conformity with generally accepted accounting principles.

As described in Financial Accounting Standards Board Staff Position, FSP AAG INV-1 and SOP 94-4-1, *Reporting of Fully Benefit-Responsive Investment Contract Held by Certain Investment Companies Subject to the AICPA Investment Company Guide and Defined-Contribution Health and Welfare and Pension Plans* ((the FSP), investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. As required by the FSP, the Statement of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

The Zande Employees Profit Sharing 401(k) Plan & Trust
Notes to Financial Statements
December 31, 2009

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Shares of registered investment companies are valued at quoted market prices which represent the net asset value of shares held by the Plan at year-end. Participant notes receivable are valued at amortized cost which approximates fair value.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the cash basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefits are recorded when paid.

C. Plan Termination

By action of its Board of Directors, The Zande Company and its subsidiaries (the Company) terminated the Plan on January 2, 2008, and filed an application with the Internal Revenue Service for approval.

On May 15, 2009, Internal Revenue Service approval was received, and the net assets were distributed to participants. Participants had a choice of options regarding these distributions. Participants elected either an annuity, lump-sum payment, or IRA rollover.

D. Tax Status

The Internal Revenue Service has determined and informed the Company by a letter dated September 5, 2002, that the Amended Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although, the Plan has been amended since receiving the determination letter, the plan administrator and the plans tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

E. Fair Value Measurements

FASB Statement No. 157, Fair Value Measurements, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The

three levels of the fair value hierarchy under FASB Statement No. 157 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2: Inputs to valuation methodology include

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2009 and 2008.

Mutual Funds: Valued at the net asset value (NAV) of shares held by the plan at year end.

Participant loans: Valued at amortized cost, which approximates fair value.

Guaranteed investment contracts: Valued at contract value (See Note F).

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

F. Investment Contract with Insurance Company

In 2003, the plan entered into a benefit-responsive investment contract with MET Life Insurance Company (MET Life). MET Life maintains the contributions in a general account. The account is credited with earnings on the underlying investment and charged for participant withdrawals and administrative expenses. The contract is included in the financial statements at contract value as reported to the plan by MET Life. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the plan.

As described in Note B, because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. Contract value, as reported to the plan by MET Life, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

The Plan Administrator does not believe that any events which would limit the plan's ability to transact at contract value with participants are probable of occurring.

The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

H. Risks and Uncertainties

Participants of the plan invest in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
