401(k) Profit Sharing Plan
Notes to Financial Statements

Note 1 – Summary of Plan Provisions:

The following brief description of the J. Fletcher Creamer & Son, Inc. 401(k) Profit Sharing Plan (the Plan), sponsored by J. Fletcher Creamer & Son, Inc. (the Company), is provided for general information purposes only. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

A. Description of Plan – For years 2009 and 2008, the Plan is a defined contribution plan covering all employees of J. Fletcher Creamer & Son, Inc. and Creamer Management Corporation who have reached the age of twenty-one, are not covered by a collective bargaining agreement which provides for retirement benefits, and have completed three months of consecutive service. Employees who have reached the age of twenty-one are eligible to receive a profit sharing contribution upon completion of 1,000 hours of service. Employees who have reached the age of twenty-one are eligible to receive a safe harbor contribution upon completion of 1 year of employment. The Plan is subject to the Employee Retirement Income Security Act of 1974 (ERISA) and all the requirements of Sections 401(a) and 401(k) of the Internal Revenue Code.

B. Contributions – Pre-tax employee contributions are made pursuant to salary deferral agreements. The minimum percentage of compensation a participant may elect to defer is 1% and the maximum is 80%. The Company provides for a safe harbor contribution based on 3% of eligible compensation. The Plan provides for discretionary contributions as determined by the Company.

The Plan sponsor has elected to make discretionary contributions in the amount of \$-0- and \$1,868,782 for the years ended December 31, 2009 and 2008, respectively.

C. Rollovers – The Plan allows participant employees to make rollover contributions of amounts received from other qualified approved retirement plans, provided they are made within 60 days of receipt of such amounts by an employee.

D. Participant Loans – Participants may borrow, from their fund accounts, a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50 percent of their account balance. Loan terms can range from 1 to 5 years or some reasonable period in excess of 5 years if the loan is for the purchase of a primary residence. The loans are collateralized by the balance in the participant's account and bear interest at a rate commensurate with the prevailing interest rate charged by a bank for a secured personal loan. Principal and interest are paid ratably through weekly payroll deductions.

Note 1 – Summary of Plan Provisions (Continued):

- E. Vesting – Participants are immediately vested in their voluntary contributions and employer safe harbor contributions plus actual earnings thereon. For the discretionary contribution, the Plan provides for participants to vest in their account balance as follows:

2 years	20%
3 years	40%
4 years	60%
5 years	80%
6 years	100%

- F. Participant Accounts – Each participant's account is credited with an allocation of (a) the participant's contributions, (b) the Company's contributions, (c) Plan earnings, (d) forfeitures of terminated participants' non-vested account and charged with an allocation of administrative expenses, if any, that are incurred by the Plan. Allocations are based on participant earnings or account balances as defined. The benefit to which a participant is entitled is the amount that can be provided from the participant's vested account.

- G. Forfeited Accounts – At December 31, 2009 and 2008 forfeited non-vested accounts totaled \$44,033 and \$132,339 respectively. In 2009, the Plan's trustees elected to have \$30,950 of forfeitures set aside to pay Plan expenses. The remaining amounts have been reallocated to the participants in the same manner as employer contributions.

- H. Benefits Upon Termination of Employment – The Plan provides for benefits upon termination of employment through retirement, death, disability, or for other reasons. A participant may elect to receive an amount equal to the value of the participant's interest in his or her account in either a lump sum amount or in annual installments over a twenty and ten year period for December 31, 2009 and 2008 respectively. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump sum distribution.

- I. Investment – Upon enrollment in the Plan, a participant may direct employee contributions in varying percentage increments in any of the following investment options:

Vanguard International Value Portfolio Fund – The Fund seeks to provide long-term capital appreciation. The Fund invests mainly in common stocks of companies located outside the United States that are considered by an advisor to be undervalued.

T. Rowe Price Real Estate Fund – The Fund seeks long-term growth through a combination of capital appreciation and current income. The fund normally invests at least 80% of its assets in the equity securities of real estate companies.

Note 2 – Summary of Significant Accounting Policies:

A. Valuation of Investments and Income Recognition:

The Plan's investments are stated at fair value except for its investments in life insurance policies which are valued based on the policies' cash surrender value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 2F for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains or losses on investments bought and sold as well as held during the year.

B. Plan Expenses:

The Plan is sponsored by the employer. Personnel with the employer organization perform some administrative services for the Plan. The payroll and related overhead costs associated with these services are not included as Plan expenses. Certain administrative expenses of the Plan, including trustee fees, are paid by the employer and investment fees are deducted from the participants' accounts.

C. Payment of Benefits:

Benefits are recorded when paid.

Note 2 – Summary of Significant Accounting Policies:

D. Estimates:

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

E. Subsequent Events:

In May 2009, the Financial Accounting Standards Board (FASB) issued guidance which establishes general standards of accounting for, and disclosure of, events that occur after the balance sheet date but before financial statements are issued or are available to be issued. This standard sets forth: (1) the period after the balance sheet date during which management of a reporting entity should evaluate events or transactions that may occur for potential recognition or disclosure in the financial statements; (2) the circumstances under which an entity should recognize events or transactions occurring after the balance sheet date in its financial statements; and (3) the disclosures that an entity should make about events or transactions that occurred after the balance sheet date. The Plan adopted this standard for the year ended December 31, 2009 and evaluated subsequent events through July 22, 2010, the date the financial statements were available to be issued.

F. Fair Value of Financial Instruments:

The Fair Value Standard provides a framework for measuring fair value under accounting principles generally accepted in the United States of America. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. In determining fair value, the Plan uses various methods including market, income, and cost approaches. Based on these approaches, the Plan often utilizes certain assumptions that market participants would use in pricing the asset or liability, including assumptions about risk and/or the risks inherent in the inputs to the valuation technique. These inputs can be readily observable, market corroborated, or generally unobservable inputs. The Plan utilizes valuation techniques that maximize the use of observable inputs and minimize the use of unobservable inputs. Based on the observability of the inputs used in the valuation techniques the Plan is required to provide the following information according to the fair value hierarchy. The fair value hierarchy ranks the quality and reliability of the information used to determine fair values. Financial assets and liabilities carried at fair value will be classified and disclosed in one of the following three categories:

- Level 1: Quoted market prices in active markets for identical assets or liabilities.
- Level 2: Observable market based inputs or unobservable inputs that are corroborated by market data.
- Level 3: Unobservable inputs that are not corroborated by market data.

For the year ended December 31, 2009, the application of valuation techniques applied to similar assets and liabilities has been consistent. The following is a description of the valuation methodologies used for instruments measured at fair value:

Note 2 – Summary of Significant Accounting Policies (Continued):

Mutual Funds:

These investments are valued at the net asset value ("NAV") of shares held by the plan at year end.

Participant Loans:

These investments are valued at amortized cost, which approximated fair value.

Life Insurance Policies:

These investments are valued at the cash surrender value ("CSV") of the policy investment at year end.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The table below presents the balances of assets and liabilities measured at fair value on a recurring basis:

Note 4 – Cash Surrender Value of Participants' Life Insurance (*Continued*):

The Plan, up through December 31, 2006, allowed for a participant to elect having part of his or her account invested in life insurance. The life insurance insures the participant's life and/or the lives of others in whom the participant has an insurable interest and on whose life the participant elects to purchase such insurance. Any dividends or credits earned on insurance contracts are allocated to the participant's account. The premiums on the insurance contracts are charged to each participant's account. As of January 1, 2007 the Plan no longer provides for the purchase of life insurance.

Note 5 – Tax Exempt Status:

The Plan adopted a standardized form of a Prototype Plan sponsored by Great West Life & Annuity Insurance Company. The Prototype Plan has received an opinion letter dated December 5, 2002 from the Internal Revenue Service (IRS) as to the Prototype Plan's qualified status. The Prototype Plan opinion letter has been relied upon by this Plan. Although the Plan has been amended since receiving the determination letter, the Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable provisions of the Internal Revenue Code.

Note 6 – Plan Termination:

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of the Plan termination, participants will become 100 percent vested in their accounts.

Note 7 – Risk and Uncertainties:

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of the investment securities will occur in the near term and that such changes could materially affect participant's account balances and the amounts reported in the statements of net assets available for benefits.

Note 8 – Party-in-Interest Transactions:

Certain Plan investments are held by the custodian, Great West Life & Annuity Insurance Company. Any transactions involving Great West Retirement Services are therefore considered party-in-interest transactions. There were no fees paid by the Plan for investment management services for the year ended December 31, 2009. These fees are paid directly by the Plan sponsor.
