PIPELINERS' RETIREMENT PLAN
NOTES TO FINANCIAL STATEMENTS
December 31, 2009 and 2008

NOTE 1 - DESCRIPTION OF THE PLAN

Pipeliners' Retirement Plan (the Plan) was established on January 1, 1991. The following description of the Plan provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined-contribution plan that covers all employees of InfraSource Underground Construction, LLC and InfraSource Underground Installation LLC (the Companies) who are members of the United Steelworkers Union, Local 348-08 (Successor to the Paper, Allied Industrial, Chemical and Energy Workers International Union). All employees, except foreman of InfraSource Underground Construction, LLC, are eligible when they have completed 12 months of employment and are age 18 or older. Foreman of InfraSource Underground Construction LLC are eligible the first of the month following the completion of sixty days of service and if they are 18 or older. Effective June 30, 1998, upon expiration of the union contract, employees of Mid-Atlantic Pipeliners, Inc. (Mid-Atlantic) were no longer eligible for participation in the Plan. Account balances of some of the former Mid-Atlantic participants still remain in the Plan. However, no company contributions have been made by Mid-Atlantic since June 30, 1998. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA) and amendments.

Contributions

Each year, participants may contribute to the Plan up to 20% of their wage base, not to exceed Internal Revenue Code (IRC) limitations. The Companies may contribute a discretionary match amount for participants based on participants' contributions. For the years ended December 31, 2009 and 2008, the Companies contributed 50% of the first 10% of participant contributions. In addition, the Companies contribute between $.60 to $.85 for each hour of service worked by all participants based on the union contract. Participant forfeitures are used to reduce the Companies' total contribution.

Participant Accounts

Each participant's account is credited with the participant's voluntary contribution, the Companies' contributions, and earnings thereon. The account is charged for benefit and withdrawal payments. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account balance. Participants may choose to direct their contributions and account balances among the Plan's various investment alternatives. Participants are allowed to change their investment options daily.

Vesting

Participants are immediately vested in voluntary contributions plus actual earnings thereon. In addition, participants vest immediately in the Companies' contributions based on hours of service under union contracts, plus earnings thereon. Participants become fully vested in the matching contributions made by the Companies after three years of service.

NOTE 1 - DESCRIPTION OF THE PLAN (continued)

Payment of Benefits

Upon retirement at age 65, death or termination of employment, a terminating participant's account of less than $1,000 may be distributed in a lump-sum without the consent of the participant. Account balances exceeding $1,000 are paid in an annuity, lump-sum or installment payments, at the participant's discretion, but benefit payments must begin at a date no later than the April 1, following the end of the calendar year in which the participant attains age 70-1/2, even if still employed by the Companies.

Plan Expenses

The Companies absorb substantially all administrative expenses of the Plan.

Plan Termination

Although they have not expressed any intent to do so, the Companies reserve the right at any time by action of their Boards of Directors to amend or terminate the Plan subject to the provisions of ERISA and the Union contract. In the event of Plan termination, participants would become fully vested in their account balances.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The accompanying financial statements are prepared under the accrual method of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan invests in investment contracts through a group annuity contract. The Statements of Net Assets Available for Benefits present the fair value of the investment in the group annuity contract as well as the adjustment of the investment in the group annuity contract from fair value to contract value. The Statements of Changes in Net Assets Available for Benefits are prepared on a contract value basis.

Use of Estimates in Preparing Financial Statements

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions to net assets and deductions from net assets during the reporting period. Actual results could differ from those estimates.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Risks and Uncertainties

The Plan utilizes various investment instruments, including pooled separate accounts and investment contracts. Investment securities, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such change could materially affect participants' account balances and the amounts reported in the financial statements.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Management fees and operating expenses charged to the Plan for investments in the pooled separate accounts are deducted from income earned on a daily basis and are not separately reflected. Consequently, management fees and operating expenses are reflected as a reduction of investment return for such investments.

NOTE 3 - INVESTMENTS

The Plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the custodian has certified that the following data included in the accompanying financial statements and supplemental schedule is complete and accurate:

a. Total investments as shown in the accompanying statements of net assets available for benefits of $2,557,590 and $2,442,051 as of December 31, 2009 and 2008, respectively.

b. Net investment income (loss) as shown in the accompanying statements of changes in net assets available for benefits of $298,542 and $(710,329) for the years ended December 31, 2009 and 2008, respectively.

NOTE 3 - INVESTMENTS (continued)

The fair value of individual investments that represent 5% or more of the Plan's net assets as of December 31 are as follows:

	2009	2008
Pooled separate accounts, at fair value		
ING VP Money Market Portfolio	$ 721,326	$ 819,090
ING VP Intermediate Bond Portfolio	210,306	262,292
ING VP Balanced Portfolio	289,145	256,154
ING VP Growth & Income Portfolio	409,746	367,313
Fidelity VIP Growth Portfolio	168,247	*
Unallocated group annuity contract, at contract value		
ING Fixed Account	231,008	307,284

* Below 5% threshold in the Plan.

Net investment income (loss) is comprised of the following for the years ended December 31:

	2009	2008
Interest and dividends	$ 8,659	$ 6,584
Net appreciation (depreciation) in fair value of pooled separate accounts	289,883	(716,913)
Net investment income (loss)	$ 298,542	$ (710,329)

The Plan's independent auditors did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedules.

NOTE 4 - GUARANTEED INVESTMENT CONTRACT

The Plan invests in a fully benefit-responsive investment contract, the ING Fixed Account. The contract provides that participants execute Plan transactions at contract value. Contract value represents contributions made to the fund, plus earnings, less participant withdrawals. The interest rates are reset at different times based on various factors, including the performance of the underlying assets, however, are subject to a minimum rate of 3.00%. Certain events, such as a Plan termination that would have a material and adverse effect on the investment contract, may limit the ability of the Plan to transact at contract value or may allow for the termination of the investment contract at less than contract value. At this time, the Companies believe that any events that may limit the ability of the Plan to transact at contract value are remote.

The methodology to calculate performance based on the last day of the Plan year end includes the fund's interest distributed to Plan participants on the last day of the Plan year end divided by fair value of all the Plan assets. The average rate credited to the participants was 3.00% and 3.15% in 2009 and 2008, respectively.

NOTE 5 - FAIR VALUE MEASUREMENTS

Generally accepted accounting principles establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:
- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value.

Pooled separate accounts are valued at the net asset value of units of the fund held by the Plan based on the fair value of the underlying investments of the fund. Pooled separate accounts do not have finite lives, unfunded commitments relating to these types of investments, or significant restrictions on redemptions.

The group annuity contract is valued at the net asset value (NAV) of units held by the Plan at year end. NAV is based on the fair value of the underlying investments held in the fund based primarily on quoted market prices. The group annuity contract does not have a finite life, unfunded commitments relating to this type of investments, or significant restriction or redemptions

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE 5 - FAIR VALUE MEASUREMENTS (continued)

Following is a description of the nature and risks of the categories of assets by major security type.

Intermediate funds include investments that seek to maximize total return. The focus is investing in portfolio bonds which are investment-grade rated. The fund may engage in swap agreements and dollar roll transactions as well.

Large cap funds include investments that seek to outperform the S&P 500 index and in investments that seek long-term growth of capital income. The funds primarily invest in common stocks. Growth funds invest in big companies that are projected to grow faster than other large-cap stocks. The funds may invest in derivative instruments and may lend securities on a short-term or long-term basis.

Mid cap funds include investments that seek capital appreciation primarily through investing in medium-sized companies or a combination of stocks from companies of all sizes. Blend funds contain investments of various sizes and characteristics and typically avoid high-priced growth stocks. These funds may invest in derivative instruments and may lend securities on a short-term or long-term basis.

Small cap funds include investments in stocks of small companies and seeks long-term capital growth. The funds aim to replicate the results of indices such as the S&P Small Cap 600 Index or Russell 2000 Index. The funds may invest in derivative instruments and may lend securities on a short-term or long-term basis.

Strategic allocation includes funds that seek total return and invests in combinations of funds that are allocated between equity securities and fixed-income securities. The allocation percentages depend on whether they are growth, conservative or moderate allocation funds. The funds may have frequent and active trading of securities to achieve objectives.

Growth funds seek to maximize returns and primarily invest in common stock. They may also invest in higher risk investments such as derivative instruments and put and call options. They may also lend securities on a short-term or long-term basis.

Balanced funds seek to maximize return by balancing investments between equity securities and debt securities. They may also invest in convertible securities, foreign debt securities, and derivatives, and may lend securities on a short-term or long-term basis. Moderate allocation balanced funds have a higher concentration in stocks, and conservative allocation balanced funds have higher concentration in bonds and cash.

International funds primarily invest in non-U.S. securities and seek long-term growth. These include countries with emerging securities markets.

Fixed income funds include investments in the ING Money Market Portfolio.

NOTE 5 - FAIR VALUE MEASUREMENTS (continued)

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2009:

	Level 1	Level 2	Level 3	Total
Group annuity contract	$ -	$ 228,203	$ -	$ 228,203

NOTE 6 - RELATED PARTY TRANSACTIONS

Plan investments include pooled separate accounts and an investment contract managed by ING Life Insurance and Annuity Company (ING). This party is the custodian as defined by the Plan and, therefore, transactions with ING qualify as party-in-interest. Such transactions are not considered prohibited transactions by statutory exemptions under ERISA regulations.

NOTE 7 - RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500 at December 31, 2009 and 2008:

	2009	2008
Net assets available for benefits per the financial statements	$ 2,875,507	$ 2,470,943
Due from other qualified plan	(289,995)	-
Companies' contributions receivable	(21,850)	(23,032)
Participant contributions receivable	(6,072)	(5,860)
Net assets available for benefits per the Form 5500	$ 2,557,590	$ 2,442,051

The following is a reconciliation of the changes in net assets available for benefits per the financial statements to the Form 5500 for the years ended December 31, 2009 and 2008:

	2009	2008
Net increase (decrease) in net assets available for benefits per the financial statements	$ 404,564	$ (813,871)
Due from other qualified plan	(289,995)	-
Companies' contributions receivable beginning of plan year	23,032	35,753
Companies' contributions receivable end of plan year	(21,850)	(23,032)
Participant contributions receivable beginning of plan year	5,860	8,864
Participant contributions receivable end of plan year	(6,072)	(5,860)
Net increase (decrease) in net assets available for benefits per the Form 5500	$ 115,539	$ (798,146)

Contributions are recorded on a cash basis for the Form 5500, and on the accrual basis for financial statement presentation.

The amount due from other qualified plan represents account balances included in another qualified plan as the result of a previous acquisition that are being transferred to this Plan.

NOTE 8 - INCOME TAX STATUS

The Internal Revenue Service has determined and informed the Companies by a letter dated June 16, 2003 that the Plan and related trust are designed in accordance with applicable sections of the IRC. The Plan has been amended since receiving the determination letter. However, the Plan's tax counsel believe that the Plan is currently designed and being operated in compliance with applicable requirements of the IRC. Therefore, the Plan administrator believes that the Plan was qualified and the related trust was tax-exempt as of December 31, 2009.

NOTE 9 - SUBSEQUENT EVENTS

Management evaluated subsequent events through October 1, 2010, the date the financial statements were available to be issued. Events or transactions occurring after December 31, 2009, but prior to October 1, 2010 that provided additional evidence about conditions that existed at December 31, 2009, have been recognized in the financial statements for the year ended December 31, 2009. Events or transactions that provided evidence about conditions that did not exist at December 31, 2009 but arose before the financial statements were available to be issued have not been recognized in the financial statements for the year ended December 31, 2009.
