SPITZER INDUSTRIES, INC. EMPLOYEES' SAVINGS AND PROFIT SHARING PLAN
NOTES TO FINANCIAL STATEMENTS
December 31, 2009

NOTE 1 - DESCRIPTION OF THE PLAN

The following description of the Spitzer Industries, Inc. Employees' Savings and Profit Sharing Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

General

The Plan is a defined contribution plan covering all employees except non-resident aliens of Spitzer Industries, Inc., Orizon Industries, Inc., and Curtis Kelly, Inc. (collectively the "Company"). Employees are eligible to participate upon the attainment of age 21 and completion of one year of service, as defined by the Plan. Entry dates for participation are on the first day of January or July coinciding with or following meeting the eligibility requirements. The Plan is participant directed and participants may change their contribution amounts as of the first day of the quarter and investment options at any time.

Plan Merger

Effective December 1, 2009, the Plan was amended to merge the Orizon Industries, Inc. 401(k) Plan ("Orizon Plan") and the Curtis Kelly, Inc. 401(k) Profit Sharing Plan ("Curtis Kelly Plan") into the Plan. The amendment also allowed for recognition of eligibility and vesting schedules with either Orizon Industries, Inc. or Curtis Kelly, Inc.

Plan accounts were established for all participants with a balance in the Orizon Plan, and all elective deferral contributions for pay periods ending subsequent to December 1, 2009 were remitted to those accounts. Participants in the Orizon Plan were notified that the Orizon Plan would enter a blackout period on March 2, 2010 and remain in the blackout period until the Plan merger was complete. On March 10, 2010, net assets of $576,344 were transferred from the Orizon Plan into the Plan. The individual participant records were also transferred into the Plan, and after the net asset transfer was completed, the individual participant accounts remained in blackout while the demographics, balances, loan details, and the participants' investment allocations were verified. The blackout period for the Orizon Plan ended the week of March 14, 2010, and participants were able to access their Orizon Plan balance through the Plan.

Plan accounts were established for all participants with a balance in the Curtis Kelly Plan, and all elective deferral contributions for pay periods ending subsequent to December 1, 2009 were remitted to those accounts. Participants in the Curtis Kelly Plan were notified that the Curtis Kelly Plan would enter a blackout period on March 10, 2010 and remain in the blackout period until the Plan merger was complete. On March 17, 2010, net assets of $784,362 were transferred from the Curtis Kelly Plan into the Plan. The individual participant records were also transferred into the Plan, and after the net asset transfer was completed, the individual participant accounts remained in blackout while the demographics, balances, loan details, and the participants' investment allocations were verified. The blackout period for the Curtis Kelly Plan ended the week of March 21, 2010, and participants were able to access their Curtis Kelly Plan balance through the Plan.

NOTE 1 - DESCRIPTION OF THE PLAN (CONTINUED)

Contributions

Each year, participants may contribute up to 100% of eligible compensation, as defined in the Plan and subject to certain Internal Revenue Service limitations. The Company may make discretionary matching and profit sharing contributions at the end of each plan year. The matching contribution may not exceed 6% of eligible compensation for the plan year, and the participant must be employed by the Company at the end of the plan year and complete 1,000 hours of service during the plan year. The Company did not make any discretionary matching or profit sharing contributions for the year ended December 31, 2009.

Effective December 1, 2009, the Plan was amended to allow participants to make Roth elective deferrals to the Plan. Roth elective deferrals are contributions that are made to the Plan by participants on an after-tax basis. Earnings on Roth deferrals will generally not be subject to federal income tax upon distribution provided certain requirements are satisfied. Roth deferrals are subject to the Internal Revenue Service limitations applicable to pre-tax deferrals to the Plan.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution and (b) Plan earnings and charged with any applicable administrative expenses. Allocations are based on a participant's earnings or account balance, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Participant Loans

Plan participants may borrow a minimum of $1,000 and up to a maximum of the lesser of $50,000 or 50% of their vested account balance in the Plan. Loans are repaid in level installments through payroll deductions for periods ranging up to five years or longer for the purchase of a primary residence. The loans bear interest at reasonable rates and are secured by the participant's vested account to the extent of the principal amount of the loan plus accrued interest.

Vesting

Participants are at all times fully vested in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of participant accounts plus earnings thereon is based on years of continuous service. A participant must complete 1,000 hours of service during a plan year to qualify for a year of service and count toward vesting. Participants are vested as follows:

Years of Service	Percent of Nonforfeitable Interest
Less than 2	0%
2	25%
3	50%
4	75%
5 or more	100%

NOTE 1 - DESCRIPTION OF THE PLAN (CONTINUED)

Payment of Benefits

A participant shall become immediately vested upon retirement, disability, or death. Normal retirement age under the Plan is age 65. Upon retirement, disability, death, or termination of employment, participants are eligible for a benefit payment. The Plan also allows hardship and in-service withdrawals. Benefit payments are distributed in a lump-sum or an annuity payment. Effective December 1, 2009, the Plan was amended to change normal retirement age under the Plan to age 55.

Forfeited Accounts

Forfeitures of nonvested employer contributions shall be used to pay administrative fees and any remaining forfeitures will reduce the employer's contributions. No employer contributions have been made; therefore, there was no forfeitures balance at December 31, 2009 and 2008. There were no forfeitures used to pay administrative fees or to offset employer contributions during 2009.

Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer contributions and related earnings.

NOTE 2 - SIGNIFICANT ACCOUNTING POLICIES

Accounting Standards Codification

The Financial Accounting Standards Board (FASB) issued the FASB Accounting Standards Codification (ASC) effective for financial statements issued for interim and annual periods ending after September 15, 2009. The ASC is an aggregation of previously issued authoritative U.S. generally accepted accounting principles (GAAP) in one comprehensive set of guidance organized by subject area. In accordance with the ASC, references to previously issued accounting standards have been replaced by ASC references. Subsequent revisions to GAAP will be incorporated into the ASC through Accounting Standards Updates (ASU). The adoption of the ASC did not have an impact on the Plan's financial statements.

Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting.

Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

NOTE 2 - SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Investments

Investments are reported at fair value, which is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan invests in a fully benefit-responsive investment contract through the guaranteed interest fund. As required, the statement of net assets available for benefits presents the fair value of the investment contract as well as the adjustment of the fully benefit-responsive investment contract from fair value to contract value. The statement of changes in net assets available for benefit is prepared on a contract value basis.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Administrative Expenses

Administrative expenses of the Plan are paid by the Plan or the Company.

NOTE 3 - PLAN INVESTMENTS

Investments that represent 5% or more of the Plan's net assets at December 31, 2009 and 2008 are separately identified below:

Identity of Party Involved	Description	2009	2008
Guaranteed Investment Contract:			
Standard Insurance Company*	Guaranteed Interest Fund	$205,679	$215,810
Pooled Separate Accounts:			
Standard Insurance Company	Vanguard 500 Index	145,384	102,289
	T. Rowe Price Mid-Cap Growth	81,339	51,600
	T. Rowe Price Blue Chip Growth	246,739	156,056
	T. Rowe Price Growth Stock	98,597	53,601
	Dodge & Cox International Stock	76,856	56,076

*Includes adjustment to contract value of $391 and $4,748 relating to fully benefit-responsive investment contract for 2009 and 2008, respectively.

During 2009, the Plan's investments in pooled separate accounts (including investments bought, sold, and held during the year) appreciated in value by $218,408.

NOTE 4 - FAIR VALUE MEASUREMENTS

FASB ASC 820, *Fair Value Measurements and Disclosures,* clarifies the definition of fair value for financial reporting, establishes a framework for measuring fair value, and requires additional disclosure about the use of fair value measurements in an effort to make the measurement of fair value more consistent and comparable.

Various inputs are used in determining the value of the Plan's investments. Valuation techniques used to measure fair value must maximize the use of observable inputs and minimize the use of unobservable inputs. In addition, FASB ASC 820 establishes a three-tier fair value hierarchy, which prioritizes the inputs used in measuring fair value. The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. The three levels of the fair value hierarchy, including the types of Plan investments that fall under each category and the valuation methodologies used to measure fair value, are described below:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets.

Level 2 - Inputs to the valuation methodology are other than quoted market prices in active markets that are observable, either directly or indirectly, such as quoted prices for similar assets or liabilities; quoted prices that are in inactive markets; inputs other than quoted prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means.

Pooled Separate Accounts: The pooled separate accounts invest directly in designated mutual funds or, in some cases, collective investment trusts. The separate account owns and holds the underlying mutual fund or collective trust shares, which are valued daily at their net asset value (NAV). Plans and participants hold "units of participation" in the separate account. The accumulation unit value (AUV) is the value of each unit in the separate account and the separate account is valued daily as the number of accumulation units held multiplied by the AUV. The AUV is first established when a new separate account starts (typically the beginning AUV is $10.00) and is then determined daily based on the NAV of the shares of the underlying fund, the fund's dividends, and the contract's separate account charges. The pooled separate accounts held by the Plan provide for daily redemptions by the Plan at reported AUV with no advance notice requirement. The Plan has no unfunded commitments and no contractual obligations to further invest in the accounts.

Level 3 - Inputs to the valuation methodology are unobservable inputs (i.e. projections, estimates, interpretations, etc.) that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities.

NOTE 4 - FAIR VALUE MEASUREMENTS (CONTINUED)

Guaranteed Interest Fund: The credited rate is communicated to the Plan and credited daily. Any market value adjustment or surrender charge is based on the formulas and schedules in the Plan's contract. The fair value of the Guaranteed Interest Fund is calculated by discounting the related cash flows based on current yields of similar instruments with comparable durations.

Participant Loans: Valued at amortized cost, which approximates fair value.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The inputs and methodology used for valuing securities are not an indication of the risk associated with investing in those securities. There have been no changes in the methodologies used at December 31, 2009 and 2008.

The following tables set forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2009 and 2008:

NOTE 5 - INFORMATION CERTIFIED BY THE CUSTODIAN

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Standard Insurance Company ("Standard"), the custodian of the Plan, has certified to the completeness and accuracy of all investments reflected in the accompanying statement of net assets available for benefits as of December 31, 2009 and 2008, and the schedule H, line 4i - schedule of assets (held at end of year) as of December 31, 2009 and the related investment activity reflected in the statement of changes in net assets available for benefits for the year ended December 31, 2009.

NOTE 6 - GUARANTEED INTEREST FUND

The Plan has a fully benefit-responsive investment contract with Standard, the Guaranteed Interest Fund. Standard maintains the contributions in a general account. The account is credited with earnings and charged for participant withdrawals and administrative expenses. The contract is included in the statement of net assets available for benefits at fair value adjusted to contract value, as reported to the Plan by Standard. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

Certain events limit the ability of the Plan to transact at contract value with Standard. Such events include the following: (i) amendments to the Plan documents (including complete or partial plan termination or merger with another Plan), (ii) changes to the Plan's prohibitions on competing investment options or deletion of equity wash provisions, (iii) bankruptcy of the Plan sponsor or other Plan sponsor events which cause a significant withdrawal from the Plan, or (iv) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan administrator does not believe that the occurrence of any such event, which would limit the Plan's ability to transact at contract value with participants, is probable.

As of December 31, 2009 and 2008, the fair value of the investment in the Standard Guaranteed Interest Fund was $205,288 and $211,062, respectively. The average crediting interest rates were 3.00% and 3.01% at December 31, 2009 and 2008, respectively. The crediting interest rate is based on a formula agreed upon with the issuer, but may not be less than 3.00%. Such interest rates are reviewed on a quarterly basis for resetting. The average effective yield was 3.04% and 3.05% for 2009 and 2008, respectively.

NOTE 7 - PARTIES-IN-INTEREST

Plan investments are in pooled separate accounts and a guaranteed interest fund of Standard. Standard is the custodian, as defined by the Plan and, therefore, qualifies as a party-in-interest. Loans to participants also qualify as party-in-interest transactions. These transactions are covered by an exemption from the prohibited transaction provisions.

NOTE 8 - TAX STATUS

On March 31, 2008, the Internal Revenue Service stated that the volume submitter plan adopted by the Plan, as then designed, qualifies under the appropriate sections of the Internal Revenue Code (IRC). The Plan has not received a determination letter specific to the Plan itself; however, the Plan administrator believes that the Plan was designed and is being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

NOTE 9 - NONDISCRIMINATORY REFUNDS

At December 31, 2008, liabilities of $15,866 are recorded for amounts refundable by the Plan to highly compensated participants for contributions made in excess of amounts allowed by the Internal Revenue Service. This amount was refunded in 2009.

NOTE 10 - RISKS AND UNCERTAINTIES

The Plan provides for various investments. In general, such investments are exposed to various risks such as significant world events, interest rate, credit, and overall market volatility risks. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the value of investments will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits.

NOTE 11 - RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500 as of December 31, 2009 and 2008:

	2009	2008
Net assets available for benefits per the financial statements	$1,145,673	$811,608
Less: Participant contributions receivable	37,751	10,779
Add: Nondiscriminatory refunds payable		15,866
Net assets available for benefits per the Form 5500	$1,107,922	$816,695

The following is a reconciliation of the change in net assets available for benefits per the financial statements to the Form 5500 for the year ended December 31, 2009:

Change in net assets available for benefits per the financial statements	$334,065
Add: Participant contributions for 2008	10,779
Less: Participant contributions for 2009	37,751
Less: Nondiscriminatory refunds for 2008	15,866
Change in net assets available for benefits per the Form 5500	$291,227

NOTE 12 - DELINQUENT CONTRIBUTIONS

During 2009, there were delays by the Company in submitting employee contributions and loan remittances in the aggregate amount of $81,118 to the custodian. These amounts were remitted to the Plan in 2009. The Company calculated and remitted the lost earnings to compensate participants for the delay in remitting $79,226 of the contributions, under the Voluntary Fiduciary Correction Program with the U.S. Department of Labor in 2009. The Company intends to self correct the remaining $1,892 of delinquent contributions.

NOTE 13 - SUBSEQUENT EVENTS

The Plan has evaluated subsequent events through October 6, 2010, the date the financial statements were available to be issued.
