## NOTES TO FINANCIAL STATEMENTS

### (1) Description of plan

The following description of the Invisible Fence of N.E. Ohio, Inc. Profit Sharing Plan (the "Plan") provides only general information. Participants should refer to the Plan document or Summary Plan Description for a more complete description of the Plan's provisions.

**General** - The Plan is a defined contribution plan covering all eligible employees of JGB Distributing, Inc. (the "Company") who have completed one year of service and are age twenty-one or older. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

**Contributions** - Participants may contribute up to 20% of pretax annual compensation (as defined in the Plan) or \$16,500. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Additionally, participants age 50 or older, who are making contributions to the Plan, are allowed to make catch-up contributions as defined in the Plan. The Company makes non-discretionary safe harbor matching contributions equal to 100% of the first 3% and 50% of the next 2% of base compensation that a participant contributes to the Plan for each pay period. At the option of the Company's board of directors, additional discretionary amounts may be contributed to the accounts of participants that complete at least 1,000 hours of service during the year and are employed on the last day of the year. The Board approved a discretionary profit sharing contribution of \$122,838 for the year ended December 31, 2009. Contributions are subject to certain limitations.

**Participant investment account options** - Participants direct the investment of all contributions into various investment options offered by the Plan. The Plan offers a variety of registered investment company securities (mutual funds) as investment options for participants.

**Participant accounts** - Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution and (b) Plan earnings, and charged with an allocation of administrative expenses. Allocations of the Company's safe harbor matching contributions are based on participants' contributions. Allocations of the Company's discretionary contributions, plan earnings and administrative expenses are based on participant compensation or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

**Vesting** - Participants are immediately vested in their contributions and employer safe harbor contributions plus actual earnings thereon. Vesting in employer discretionary contributions plus actual earnings thereon is subject to the following vesting schedule:

| <u>Years of Service</u> | <u>Vested %</u> |
|-------------------------|-----------------|
| 1                       | 0%              |
| 2                       | 25%             |
| 3                       | 50%             |

## NOTES TO FINANCIAL STATEMENTS

### ( 1 ) Description of plan (continued)

**Payment of benefits** – On termination of service (as defined), a participant will receive a lump sum amount equal to the value of the participant's vested interest in his or her account. Participants may also withdraw amounts from their accounts under certain defined conditions.

**Forfeited accounts** – Forfeited nonvested accounts totaled \$4,571 and \$1,997 at December 31, 2009 and 2008, respectively. These accounts will be used to reduce future employer contributions. In 2009, employer contributions were reduced by \$15,140 from forfeited nonvested accounts.

### ( 2 ) Summary of significant accounting policies

**Basis of accounting** - The financial statements of the Plan are prepared under the accrual method of accounting.

**Use of estimates** - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Accordingly, actual results may differ from those estimates.

**Investment valuation and income recognition** - Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 7 for discussions of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

**Payment of benefits** - Benefits are recorded when paid.

**Administrative expenses** - Certain expenses of the Plan are paid by the Company and are not included in the statement of changes in net assets available for benefits.

### ( 3 ) Plan termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer contributions.

### ( 5 ) Information prepared and certified by the custodian

The Plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, EMJAY Corporation, the custodian of the Plan, has certified that the following data included in the accompanying financial statements and supplemental schedule is complete and accurate with respect to investments:

- Investments at fair value
- Net appreciation in fair value of investments
- Interest and dividends
- Schedule of assets (held at end of year)

The Plan's independent public accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

### ( 6 ) Related party transactions

Certain Plan investments are shares of mutual funds managed by Federated Retirement Plan Services. Federated Retirement Plan Services provides investment management services to the Plan; therefore, these transactions qualify as party-in-interest transactions which are exempt from the prohibited transactions rules.

### NOTES TO FINANCIAL STATEMENTS

#### ( 7 ) Fair value measurements

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, (formerly SFAS No. 157, *Fair Value Measurements and Disclosures*) provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described below:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2 - Inputs to the valuation methodology include quoted prices for similar assets and liabilities in active markets; quoted prices for identical or similar assets and liabilities in inactive markets; inputs other than quoted market prices that are observable for the asset or liability; inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The financial instrument's fair value measurement level within fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The Plan's investments in registered investment company securities (mutual funds) are valued fair value based on the net asset value (NAV) of shares held by the Plan at year end.

There have been no changes in the methodology for determining the fair value of investments used at December 31, 2009 and 2008. The methodology described may produce a fair value calculation that may not be indicative of the net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of the Plan's financial instruments could result in a different fair value measurement at the reporting date.
