As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 4, which was certified by Aetna Life Insurance Company (Aetna), and ING Investment Trust, except for comparing such information with the related information included in the financial statements and supplementary schedules. We have been informed by the Plan administrator that Aetna holds the Plan's investment assets and executes investment transactions. The Plan administrator has obtained certifications from Aetna as of December 31, 2009 and 2008 and for the year ended December 31, 2009, that the information provided to the Plan administrator by Aetna and ING is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying 2009 and 2008 financial statements and supplementary schedules taken as a whole. The form and content of the information included in the financial statements and supplementary schedules, other than that derived from the information certified by Aetna, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

RETIREMENT PLAN FOR EMPLOYEES OF MOELLER ELECTRIC CORPORATION

NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2009 AND 2008

1) DESCRIPTION OF THE PLAN

The following brief description of the Retirement Plan for Employees of Moeller Electric Corporation (the Plan) is provided for general information purposes only. Participants should refer to the Plan agreement for more complete information.

GENERAL

The Plan is a qualified, noncontributory, defined benefit plan established on May 1, 1970 by Moeller Electric Corporation (formerly known as Klockner-Moeller Corporation) (the Company), to provide benefits to its employees. The Plan was amended and restated on December 23, 1994, effective January 1, 1989, to comply with the Tax Reform Act of 1986. The Plan was amended on October 1, 2002, effective January 1, 2001, to comply with the Uruguay Round Agreements Act of 1994, the Uniformed Services Employment and Reemployment Rights Act of 1994, the Small Business Job Protection Act of 1996, and the Taxpayer Relief Act of 1997. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

ELIGIBILITY

Employees of the Company become eligible for participation on the earlier of January 1 or July 1 following the date on which they have completed one year of continuous service (defined as completion of 1,000 hours of service) and attained age 21. No service is credited after December 17, 2004.

FUNDING POLICY

The Company assumes the full cost of the Plan through annual contributions based on actuarial valuations prepared by the Plan's actuary. The Company's funding policy is to contribute funds to the trust for the Plan as necessary to provide for current service and for any unfunded projected benefit obligations over a reasonable period. To the extent that the requirements are fully covered by assets in the trust, the Company may elect not to make any contribution in a particular year. In no event will the contribution be less than the minimum required contribution under ERISA using this method. The contributions for 2009 and 2008 are in compliance with the minimum funding required by ERISA.

RETIREMENT BENEFITS

The Plan provides for retirement benefits to be paid to participants who have attained their normal retirement date or later if the individual so elects. The normal retirement date, as defined in the Plan, is age 65. Participants retiring before their normal retirement date, who are within 10 years of their normal retirement date and have completed at least 5 years of service, as defined in the plan document, are also eligible for benefits. Such benefits and alternative methods of payment are defined in the plan document and are based on compensation levels, years of credited service and age at retirement or termination.

1) DESCRIPTION OF THE PLAN CONTINUED
RETIREMENT BENEFITS CONTINUED

The Plan also provides death benefit payments to the surviving spouse of any participant who dies after meeting the age and service requirements.

VESTING

Participants are vested in their benefits according to years of credited services, as set forth in the following table:

<u>Years of Credited Service</u>	<u>Percentage</u>
Less than five years	0%
Five years or more	100%

2) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A summary of the Plan's accounting policies that affect the more significant elements of the financial statements is stated below.

BASIS OF PRESENTATION

Accounting records are maintained by Aetna on the cash basis. The financial statements included therein have been prepared using the reports furnished by Aetna, with all adjustments necessary to present them on the accrual basis of accounting.

ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS

Accumulated plan benefits are those future benefit payments attributable under the Plan's provisions to service that employees have rendered. Accumulated plan benefits include benefits expected to be paid to: (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. Benefits under the Plan are based on employees' compensation during their last five years of credited service. The accumulated plan benefits for active employees are based on their average compensation during the five years ending on the date as of which the benefit information is presented (the valuation date). Benefits payable under all circumstances - retirement, death, disability, and termination of employment are included, to the extent that are deemed attributable to employee service rendered to the valuation date. Benefits to be provided via annuity contracts excluded from Plan assets are also excluded from accumulated plan benefits.

RETIREMENT PLAN FOR EMPLOYEES OF MOELLER ELECTRIC CORPORATION

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2009 AND 2008

2) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES CONTINUED

ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS CONTINUED

The actuarial present value of accumulated plan benefits is determined by the Plan's actuary from Buck Consultants and is that amount that results from applying the Frozen Entry Age Actuarial Cost Method, which is based on specified assumptions, to adjust the accumulated plan benefits to reflect the time value of money and the probability of payment between the valuation date and the expected date of payment. The significant actuarial assumptions used in the most recent actuarial computations are as follows:

Normal retirement age	Age 65
Rate of return on investments:	First segment 5.45%
	Second segment 6.83%
	Third segment 7.64%
Mortality (FAS 35)	2009 Optional small plan mortality

The foregoing actuarial assumptions are based on the assumption that the Plan is frozen. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated benefits.

VALUATION OF INVESTMENTS

The Plan's investments are stated at fair value, as established by the trustee. Shares of mutual funds are valued at quoted market prices, which represent the net asset value of shares held by the Plan at year-end. Plan investments are managed by the custodian and consist of mutual funds that are principally invested in bonds and equities and international equities. Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the exdividend date.

PAYMENT OF BENEFITS

Benefits are recorded when paid.

USE OF ESTIMATES

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of Plan assets available for benefits and the actuarial present value of accumulated plan benefits as of the date of the financial statements. Actual results could differ from those estimates. The Plan uses an actuary to determine the actuarial present value of accumulated plan benefits. A change in the actuarial assumptions used could significantly change the amount of the actuarial present value of accumulated plan benefits reported in the accompanying financial statements.

RETIREMENT PLAN FOR EMPLOYEES OF MOELLER ELECTRIC CORPORATION

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2009 AND 2008

3) ADMINISTRATIVE EXPENSES

Certain expenses incurred by Aetna in the performance of its duties for the Plan, including fees for its services, are paid by the Company. Certain other administrative expenses are paid directly by the Plan.

4) INFORMATION CERTIFIED BY AETNA (Unaudited)

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Plan administrator instructed the auditors not to perform any auditing procedures with respect to the information certified by Aetna and ING, except for comparing such information to the related information included in the accompanying financial statements and supplementary schedules. The Plan administrator has obtained certification from Aetna and ING that the information related to investments and investment earnings provided to the Plan administrator by Aetna and ING is complete and accurate.

The majority of Plan assets are held in separate accounts by Aetna and ING Trust Company (Aeltus) under a contract between Aetna and Aeltus. Investments are allocated among equities, bonds and cash in accordance with parameters defined by the Plan's fiduciary.

The remainder of Plan assets are held in a disbursement account at Aetna, which acts as a holding account for all contributions and distributions to and from the Plan.

The following table presents the fair value of the investments in this Plan that were certified by Aetna. Single investments representing more than 5% of the Plan's net assets as of December 31, 2009 and 2008, are separately identified.

Aetna and ING also certified to the completeness and accuracy of \$1,229,622 of net appreciation in fair value of investments and \$254,761 of interest and dividends related to the aforementioned investments for the year ended December 31, 2009.

	2009	2008
Aeltus Active Fixed Income Fund	\$4,445,108	\$3,152,687
Research Advantage Fund	1,827,374	-0-
Aeltus International Equity Fund	432,110	264,843
Aetna Life Insurance Company disbursement payment account	116,021	1,540,830
Aeltus Opportunistic Equity Fund	1,803,234	2,704,212
Other investments	463,702	275,394

**NOTES TO FINANCIAL STATEMENTS

5) TAX STATUS

The trust established under the Plan is intended to be qualified under the Internal Revenue Code (IRC) as exempt from federal income taxes. The Plan has received a favorable determination letter dated September 11, 2002 from the Internal Revenue Service (IRS). The Plan administrator believes that the Plan is currently designed and is being operated in compliance with the applicable provision of the IRC. The Plan administrator intends to take such actions as are necessary to maintain the tax-exempt status of the Plan.

6) PLAN TERMINATION

While the Company has not expressed any intent to terminate the Plan, it is free to do so at any time, subject to the requirements set forth in ERISA. Upon termination of the Plan, each participant's interest in accrued benefits as of the date of termination will become fully vested and non-forfeitable to the extent then funded. Distributions from the retirement fund will be made as directed by the Company.

If the Plan is terminated, certain benefits under the Plan are incurred by the Pension Benefit Guaranty Corporation (PBGC), a U.S. government agency. Generally, the PBGC guarantees most vested normal retirement benefits and early retirement benefits, and certain disability survivors' benefits. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations.

Should the Plan terminate at some future time, the receipt of benefits by the participants would depend on the sufficiency, at that time, of the Plan's net assets to provide those benefits and may also depend on the level of benefits guaranteed by the PBGC.

7) PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments are shares of mutual funds held by Aetna and are managed by Aeltus. Aetna is the Custodian as defined by the Plan, and therefore, these transactions qualify as party-in-interest transactions. Aeltus, through its investment advisory contract with Aetna, also qualifies as a party-in-interest.

The Plan administrator, Mr. Larry Sewell, is currently the attorney representing the Plan. This also qualifies as a party-in-interest, providing legal as well as administrative services.

The Plan receives auditing services from Gabel, Schnieders, Hollman & Co., CPA, PC, this qualifies as a party in interest.

These transactions are exempt party in interest transactions.

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2009 AND 2008

8) INVESTMENT INCOME

The Plan's investments (including bought and sold and held) during the period ended December 31, 2009 appreciated in value by \$1,229,622.

	Net Appreciation in Fair Value
International Equity Fund	\$ 151,145
Small Capitalization Equity Fund	145,944
Core Fixed Income	210,135
Opportunistic Equity Fund	518,800
Research Advantage Fund	203,784
Separate account	(186)
Net Appreciation in Fair Value	<u>\$ 1,229,622</u>

9) FROZEN PLAN

The Plan was frozen upon the sale of Moeller Electric Corporation on December 17, 2004. The Plan has no employees after the sale and no payroll upon which benefits would accrue.

10. FAIR VALUE MEASUREMENTS

The Plan's investments are reported at fair value in the accompanying statement of net assets available for benefit.

	Fair Value Measurements Using			
	Fair Value	Quoted Prices in Active markets for Identical Assets (Level 1)	Quoted Prices in Active Markets for Similar Assets (Level 2)	Significant Unobservable Inputs (Level 3)
Aetna Life Insurance				
Disbursement Account	\$ 116,021	\$ 116,021	\$ -0-	\$ -0-
Common Collective Trusts	<u>8,971,528</u>	<u>-0-</u>	<u>8,971,528</u>	<u>-0-</u>
	<u>\$9,087,549</u>	<u>\$ 116,021</u>	<u>\$8,971,528</u>	<u>\$ -0-</u>

FASB Statement No. 157, *Fair Value Measurements*, established a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted provides in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB Statement No. 157 are described as follows:

RETIREMENT PLAN FOR EMPLOYEES OF MOELLER ELECTRIC CORPORATION

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2009 AND 2008

10. FAIR VALUE MEASUREMENTS CONTINUED

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2009 and 2008.

Level 1 Fair Value Measurements: The fair value of Aetna Life Insurance Disbursement account is based on quoted net asset values of the shares held by the Plan at year end.

Level 2 Fair Value Measurements: The fair value of the common collective trusts is based on other significant observable inputs including quoted prices for similar securities, interest rates and credit risk.

Gains and losses (realized and unrealized) included in changes in net assets available for benefits for the year ended December 31, 2009 are reported in net appreciation in fair value of investments.

11. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes, could materially affect the amounts reported in the statement of net assets available for benefits.

Attachment to 2009 Schedule SB

Statement Regarding ERISA Section 103(d)(10) – Line 6

The actuarial assumptions used in the valuation are predicated on the assumption that the plan will continue indefinitely and do not anticipate the possible effects of extraordinary events which may occur after the valuation date. To the best of our knowledge and belief, based on inquiries made of the plan administrator, no extraordinary events have occurred since the valuation date which, in our judgment, may require a material increase in the plan's annual rate of cost or required contribution except for the following:

During 2010, the Retirement Plan for Employees of Moeller Electric Corporation was merged into the Retirement Plan for Eaton Corporation Employees.

Asset Valuation Method

The Valuation Assets are determined using a method that spreads assets gain/ (losses) over 2 years. The gain/ (loss) for each period is determined as the actual return during the period less the expected return based on an assumed earnings rate chosen by the actuary but required by PPA to be not greater than the applicable third segment rate. The resulting value is constrained to be within a corridor of 90% to 110% of market value. The discounted value of accrued contributions, if any, is included in the Valuation Assets.
