We were engaged to audit the accompanying financial statements and supplemental schedules of the Golden Peanut Pension Plan (the Plan) as of December 31, 2009 and 2008, and for the years then ended, as listed in the table of contents. These financial statements and supplemental schedules are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 4, which was certified by Wells Fargo Bank, N.A., the trustee of the Plan, except for comparing such information with the related information included in the financial statements and supplemental schedules. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained certifications from the trustee as of and for the years ended December 31, 2009 and 2008 that the information provided to the plan administrator by the trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedules taken as a whole. The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

GOLDEN PEANUT PENSION PLAN

Notes to Financial Statements

December 31, 2009 and 2008

Note 1 - Description of plan:

The following description of the Golden Peanut Pension Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan sponsor is Golden Peanut Company, LLC (the Company). The Plan is a defined benefit pension plan covering all eligible employees of the Company. Eligible employees are hourly and salaried employees age twenty-one or older that are either full-time or part-time benefits eligible, as defined in the Plan document, who have completed 1,000 hours of service in a consecutive 12-month period. Participation begins automatically for eligible employees after completing twelve months of employment service.

The Company has the responsibility of administering the Plan, and thus is responsible for supervising and directing the administrative activities of the Plan, including investment of Plan assets. Assets of the Plan are held by Wells Fargo Bank (the Trustee). The Trustee maintains all investment records and executes investment transactions for the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Pension benefits

Salaried employees with at least 30 years of credited service receive a retirement income for life commencing at age 65 of 50% of final average compensation, as defined by the Plan, less 50% of Primary Social Security benefit. Benefits are reduced on a pro rata basis for participants with fewer than 30 years of credited service. Hourly employees receive a retirement income for life commencing at age 65 of \$11 per month times years of credited service subject to a minimum monthly pension of \$36. Reduced monthly benefits are available to plan participants who elect early retirement from active employment on or after age 55. In some cases, unreduced monthly early retirement benefits are available.

The normal form of payment for retirement income for single participants is a monthly annuity payable for the life of the participant. The normal form of payment for retirement income for married participants is a monthly joint and survivor annuity payable for the life of the participant or spouse. Other forms of payment including lump sum payments, subject to spousal consent, can be elected. The spouse of a participant who is receiving a monthly retirement income continues to receive 50% of the participant's normal form of pension upon his or her death.

Note 1 - Description of plan - continued:

Death and disability benefits

The spouse of an employee who dies in service (or while accruing pension credits on disability), after completion of at least five years of service or after attainment of age 55, receives 50% of the employee's accrued retirement income. This benefit is payable on a reduced basis at the employee's earliest retirement age. Participants who become disabled after completion of five years of service continue to accrue credited service while disabled. These participants may retire under the terms of the Plan upon becoming eligible to do so.

Vesting

Employees who terminate after completion of five years of service or after attainment of age 55 are fully vested and eligible to receive a retirement income at the normal retirement date. Reduced benefits are available as early as age 55.

Plan termination

Although it has not expressed any intent to do so, the Company has the right under the Plan, in certain circumstances, to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA. Upon such termination of the Plan, the funds held by the Trustee must be used to benefit the plan participants and their beneficiaries and/or to pay expenses of final liquidation or termination. None of the funds may be withdrawn by the Company unless all pension rights under the Plan have been fully paid.

Plan benefits are insured by the Pension Benefit Guaranty Corporation (PBGC). Generally, the PBGC guarantees most vested normal retirement age benefits, early retirement benefits, and certain disability and survivor benefits. The PBGC does not guarantee all types of benefits under covered plans and the amounts of benefit protection are subject to certain limits.

In the event of Plan termination participant benefits will depend on the sufficiency, at that time, of the Plan's net assets to provide those benefits, the priority of those benefits to be paid, and the level and type of benefits guaranteed by the PBGC. Some benefits may be fully or partially provided from the existing assets and the PBGC, while other benefits may not be provided for at all.

Note 2 - Summary of significant accounting policies:

Basis of presentation

The Plan has adopted Financial Accounting Standards Board (FASB) Statement of Financial Accounting Standards (SFAS) No. 168, *The FASB Accounting Standards Codification* (Codification) and the *Hierarchy of Generally Accepted Accounting Principles* (GAAP) (SFAS No. 168). SFAS No. 168 required that the Codification become the source of authoritative U.S. GAAP recognized by the FASB to be applied by nongovernmental entities. All of the Codification's content carries the same level of authority. The adoption of SFAS No. 168 did not have a material impact on the Plan's financial statements or disclosures.

Basis of accounting

The financial statements of the Plan are prepared under the accrual method of accounting in accordance with accounting principles generally accepted in the United States.

Investment valuation and income recognition

The Plan's investments are valued at fair value based on a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

- Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
- Level 2 Inputs to the valuation methodology include:
- Quoted prices for similar assets or liabilities in active markets;
 - Quoted prices for identical or similar assets or liabilities in inactive markets;
 - Inputs other than quoted prices that are observable for the asset or liability;
 - Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Notes to Financial Statements - Continued

December 31, 2009 and 2008

Note 2 - Summary of significant accounting policies - continued:

Investment valuation and income recognition - continued

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

There have been no changes in the methodology used at December 31, 2009 and 2008. The following is a description of the valuation methodology used for assets measured at fair value:

- Mutual funds are valued by the fund's trustee based on the fair values of the underlying assets of the fund at year end.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value by major categorization for debt and equity securities on the basis of nature and risk of the investments as of December 31, 2009 and 2008:

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Use of estimates

The preparation of financial statements in conformity with U.S. GAAP require management to make certain estimates and assumptions. These estimates and assumptions affect the reported amounts of assets and liabilities and changes therein, disclosure of contingent assets and liabilities, and the actuarial present value of accumulated plan benefits at the date of the financial statements. Actual results could differ from those estimates.

Payment of benefits

Benefit payments are recorded when paid.

Administrative expenses

Certain administrative expenses of the Plan are paid directly by the Company and from Plan assets through contributions by the Company. During the years ended December 31, 2009 and 2008, the Plan paid \$367,144 and \$372,904, respectively, in administrative expenses related to the Plan.

GOLDEN PEANUT PENSION PLAN

Notes to Financial Statements - Continued

December 31, 2009 and 2008

Note 2 - Summary of significant accounting policies - continued:

Risks and uncertainties

The Plan invests in mutual funds. Investment securities are exposed to various risks, such as interest rate risk, market risk, and credit risk. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risks in the near term would materially affect the amounts reported in the financial statements.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions processes, it is at least reasonably possible that changes in these estimates and assumptions in the near term could materially affect the amounts reported and disclosed in the financial statements.

New accounting pronouncements

In April 2009, the FASB issued an accounting standard update related to fair value disclosures. This guidance expanded fair value disclosures and required that major categories for debt and equity securities in the fair value hierarchy be determined on the basis of the nature and risks of the investments. This guidance is effective for periods ending after June 15, 2009. The adoption of this guidance did not have a material impact on the Plan's financial statements.

In September 2009, the FASB issued an accounting standard update which provides a practical expedient for measuring the fair values of Plan investments in investment companies that calculate a net asset value per share (such as hedge funds, private equity funds, funds of funds, and certain collective trusts, common trusts and pooled separate accounts). The practical expedient permits an entity holding investments in certain entities that calculate net asset value per share or its equivalent for which the fair value is not readily determinable, to measure the fair value of such investments on the basis of that net asset value per share or its equivalent without adjustment. This guidance also provides enhanced disclosure requirements about the nature and risks of investments within its scope. Such disclosures include the nature of any restrictions on an investor's ability to redeem its investments at the measurement date, any unfunded commitments, and the investment strategies of the investee. This guidance is effective for periods ending after December 15, 2009. The adoption of this guidance did not have a material impact on the Plan's financial statements.

Note 2 - Summary of significant accounting policies - continued:

New accounting pronouncements - continued

In January 2010, the FASB issued an accounting standard update which adds new disclosure requirements for Levels 1 and 2, separate disclosures of purchases, sales, issuances, and settlements relating to Level 3 measurements, and clarification of existing fair value disclosures. This accounting standard is effective for periods beginning after December 15, 2009, except for the requirement to provide Level 3 activity of purchases, sales, issuances, and settlements on a gross basis, which will be effective for fiscal years beginning after December 15, 2010. The Plan is currently evaluating the impact this accounting standard will have on the financial statements.

Subsequent events

The Plan has evaluated subsequent events through October 05, 2010, which is the date these financial statements were available to be issued. All subsequent events, if any, requiring recognition as of December 31, 2009, have been incorporated into these financial statements.

Note 3 - Funding policy:

The Company has voluntarily agreed to make contributions to the Plan sufficient to provide the Plan with assets with which to pay pension benefits to Plan participants. All contributions are made by the Company. The appropriate amount to be contributed each fiscal year is determined by the Company based on the actuary's report. The Projected Unit Credit Actuarial Cost Method was used. The Company has met the minimum funding requirements of ERISA for the years ended December 31, 2009 and 2008.

Note 4 - Investments and information certified by the trustee:

All investment information disclosed in the accompanying financial statements and supplemental schedules, including investments held at December 31, 2009 and 2008, and net appreciation (depreciation) in the fair value of the common collective trust funds and interest and dividends and administrative expenses for the years ended December 31, 2009 and 2008, was obtained or derived from information supplied to the Plan administrator and certified as complete and accurate by the Trustee.

Note 4 - Investments and information certified by the trustee - continued:

The following is a summary of investments, at fair value, that represent 5% or more of the Plan's net assets at December 31, 2009 and 2008:

<u>Description of Funds</u>	<u>2009</u>	<u>2008</u>
Common collective trust funds:		
Intermediate Government/Credit Index Bond Fund, 184,259 units	\$ 3,878,652	\$ 3,167,539

Russell 2000 Index Fund, 217,582 units	2,865,557	2,156,037

The Plan's investments in the mutual funds (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value by \$3,583,474 during 2009 and depreciated in value by \$4,698,305 during 2008.

Note 5 - Related party transactions:

Certain Plan investments are funds administered by Wells Fargo Bank. Wells Fargo Bank is the Trustee as defined by the Plan. Certain actuarial services are provided by Bryan, Pendleton, Swats & McAllister, LLC (BPS&M), which is a Wells Fargo Company. Per the Department of Labor, these transactions are considered to be exempt party-in-interest transactions. However, in accordance with U.S GAAP, these transactions are being disclosed. Fees expensed by the Plan to Wells Fargo Bank amounted to \$85,481 and \$87,750 for the years ended December 31, 2009 and 2008, respectively. Fees expensed by the Plan to BPS&M amounted to \$240,725 and \$236,686 for the years ended December 31, 2009 and 2008, respectively. These fees are included in administrative expenses on the statements of changes in net assets available for benefits.

Note 6 - Actuarial present value of accumulated plan benefits:

Accumulated plan benefits are those future periodic payments, including lump-sum distributions, that are attributable under the Plan's provisions to the service employees have rendered as of the valuation date. Accumulated plan benefits include benefits expected to be paid to (1) retired or terminated employees or their beneficiaries, and (2) present employees or their beneficiaries. The actuarial present value of accumulated plan benefits is determined by an independent actuary and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

The actuarial present value of accumulated plan benefits of the Plan as of January 1, 2009 and 2008 is as follows:

	<u>2009</u>	<u>2008</u>
Actuarial present value of accumulated plan benefits:

Note 7 - Income tax status:

A favorable determination letter for the Plan was received from the Internal Revenue Service on August 22, 2005, stating that the Plan is qualified under Section 401(a) of the Internal Revenue Code (the Code), and therefore the related trust is tax-exempt. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualification. The Plan administrator and the Plan's tax counsel believe that the Plan continues to operate in compliance with the applicable requirements of the Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Note 7 - Income tax status - continued:

Effective January 1, 2009, the Plan recognizes the tax benefit from an uncertain tax position only if it is more likely than not that the tax position will be sustained upon examination by the taxing authority, based on the technical merits of the position. The Plan is exempt from federal and state income taxes under Section 401(a) of the Internal Revenue Code. Tax years that remain subject to examination by major tax jurisdictions date back to the year ending December 31, 2006. All federal and state income tax positions taken or anticipated to be taken in the income tax returns are attributable to the plan sponsor and not to the Plan. As of December 31, 2009, there are no known items which would result in a material accrual related to where the Plan has federal or state attributable tax positions.

Administrative expenses of \$300,000 are assumed.

Social Security

Social Security benefits are assumed to increase in the future based on increases in the national average wage index of 4.50% per year and increases in the cost of living of 3.50% per year.

Actuarial Valuation Method

All liabilities and normal costs shown in this report are calculated based on the Traditional Unit Credit method as described in IRC Section 430 and relevant final and proposed regulations. This method is prescribed for funding, PBGC, and SFAS No. 35 calculations.

Under the Traditional Unit Credit method, the liability is the present value of all benefits that have been accrued or earned under the plan as of the first day of the plan year. The normal cost is the present value of all benefits that are expected to accrue or be earned during the plan year, including any expected increase in compensation during the year.

Asset Valuation Method

The actuarial value of assets is equal to the average of the market value of assets as of the valuation date and the adjusted market value of assets for the prior two years. The adjusted market value of assets as of a prior determination date is the market value of assets as of that date adjusted for contributions, benefit payments, expenses, and expected earnings for periods after the determination date but prior to the current valuation date. In no event will the actuarial value of assets be less than 90%, or greater than 110% of the current market value of assets.

Miscellaneous

The limitations under IRC Sections 401(a)(17) and 415(b) have been taken into account in our calculations.

Any actual or potential limitations under IRC Section 436 have not been taken into account for any purpose.

To the best of our knowledge, all benefits payable from the plan, including retirement-type and ancillary benefits, have been incorporated into our calculations.

No liability is included for participants who terminated without vested benefits prior to the first day of the plan year.

No liability is included for any employees who are not yet participants as of the first day of the plan year.

At-Risk Assumptions

At-Risk liabilities are calculated using the assumptions outlined above, modified to assume that all participants eligible to retire within eleven years of the valuation date will do so at the later of the end of the year and their earliest retirement date under the plan. Upon retirement, all married participants are assumed to elect a 50% joint & survivor annuity; all unmarried participants are assumed to elect an immediate lump sum distribution.

BASIS OF VALUATION

Summary of Provision of the Plan

Effective Date:

Originally established as of July 1, 1947, as the Cotton Producers Association Plan, amended as of July 1, 1970, into the Supplemental and Basic Plans, and merged as of January 1, 1976, into the Retirement Income Plan for Salaried Employees of Gold Kist and Cotton States and the Pension Plan for Hourly Employees of Gold Kist; amended effective January 1, 1981; amended and restated as of January 1, 1985, as the Gold Kist Inc. Retirement Income Plan for Salaried Employees and the Gold Kist Inc. Pension Plan for Hourly Employees; amended and restated as of January 1, 1989; amended as of January 1, 1992, January 1, 1994, October 1, 1996; amended and restated as of January 1, 1997; amended as of May 18, 1998; amended and restated effective January 1, 2000, the Gold Kist Inc. Retirement Income Plan for Salaried Employees and the Gold Kist Inc. Pension Plan for Hourly Employees were merged to form the Gold Kist Pension Plan. Effective May 1, 2003, the Golden Peanut Pension Plan was spun-off. Employees of Golden Peanut who meet the eligibility requirements can participate. The plan was most recently restated effective January 1, 2008.

Eligibility:

All full-time and part-time benefits eligible employees upon completion of one year of service and attainment of age 21, or part-time not benefits eligible employees who worked 1000 hours or more in a 12-month period and attain age 21.

Credited Service:

Each year of service with proportionate allowance for fractional years after meeting the eligibility requirements above. Salaried employees are given credit from hire date retroactively upon becoming eligible.

Earnings:

Gross annual income including W-2 compensation, employee contributions to a 401(k) plan, and salary reductions pursuant to a cafeteria plan, but excluding severance compensation, distributions from a nonqualified deferred compensation plan, and earnings in excess of \$200,000 adjusted for cost of living factor. Under EGTRRA earnings in prior years are also limited to \$200,000.

Final-Average Earnings:

The average of the highest five years of Earnings out of the last ten years before retirement or other termination of employment.

Schedule SB, Part V – Summary of Plan Provisions
Golden Peanut Pension Plan

BASIS OF VALUATION

Primary Social Security Benefit:

Estimated benefit payable from the Social Security Administration at the Participant's age 65, or termination age if later.

Amount of Normal Retirement Income:

Salaried Employees:

Employees with at least 30 years of Credited Service receive a retirement income for life commencing at age 65 of 50% of Final-Average Earnings less 50% of Primary Social Security benefit. Benefits are reduced on a pro rata basis for fewer than 30 years of Credited Service. The minimum monthly pension is \$15.00 for each year of Credited Service. If an employee's age plus 90-point service totals 90 or more, the 50% of Primary Social Security benefit offset above is reduced if the employee is below age 63.

Hourly Employees:

Monthly retirement income for life commencing at age 65 of \$11.00 times years of Credited Service. The minimum monthly pension is \$36.00.

Early Retirement Benefits:

Benefits may commence at age 55 with the Amount of Normal Retirement Income based on Final-Average Earnings (for Salaried Employees) and Credited Service to the time of early retirement and reduced for each year that retirement precedes age 65. This reduction is 5% annually for Salaried Employees and 4% annually for Hourly Employees. If an employee's age plus 90-point service totals 90 or more, the annual reduction for each year that retirement precedes age 65 is not applicable.

Preretirement Spouse's Income Benefits:

The spouse of an employee who dies in service (or while accruing pension credits on disability) receives 50% of the employee's Monthly Amount of Normal Retirement Income based on his Final-Average Earnings and Credited Service to the time of death. To be eligible for benefits, the death must occur after completion of at least five years of service or after attainment of age 55.

Postretirement Spouse's Income Benefits:

The spouse of an employee who is receiving a retirement income continues to receive 50% of the employee's Normal Form pension upon his death.

Disability Benefits:

Participants who become disabled (such that they qualify for Social Security disability) after five years of service continue to accrue Credited Service while disabled. These participants may retire under the terms of the Plan upon becoming eligible to do so.

Schedule SB, Part V – Summary of Plan Provisions
Golden Peanut Pension Plan

BASIS OF VALUATION

Benefits Upon Termination of Continuous Employment:

Employees who terminate after five years of service or after attaining age 55 receive the Amount of Normal Retirement Income accrued to date of termination of employment. The benefit commences on the later of date of termination or age 55. The benefit is reduced actuarially from age 65 if less than 55 at date of termination or reduced 5% for Salaried Employees and 4% for Hourly Employees per year from age 65 if 55 or older at date of termination.

Employee Contributions:

None, the Company pays the entire cost.

Special Situations:

Golden Peanut Company ("Golden Peanut") is jointly owned by Archer-Daniels-Midland Company ("ADM") and Alimenta.

Each participant who transferred employment from ADM and for whom liabilities and assets are transferred from the ADM plan to the Golden Peanut plan will be treated as though he had been employed by Golden Peanut in determining Continuous Employment and Credited Service under this Plan for participation, vesting, and benefit accrual purposes. The benefit will not be less than the sum of the frozen ADM benefit plus a Golden Peanut benefit as calculated using the method in effect prior to the transfer of pension assets and obligations from the ADM plans.

Participants who transferred employment from ADM prior to January 1, 2006, and for whom liabilities and assets are not transferred from the ADM plan will be treated the same as above for service purposes. However, the accrued benefit will be reduced to reflect the benefit payable from the ADM plan.

Participants who transferred employment from ADM on or after January 1, 2006, and for whom liabilities and assets are not transferred from the ADM plan will receive vesting service only for the period of employment with ADM. The participant will be treated as a new employee as of the transfer date for all other purposes under the plan.

Alimenta employees joined the plan as a member company of Golden Peanut. Salaried employees began participating on either April 2, 1989 or July 2, 1989. Hourly employees began participating July 1, 1990, after completing one year of service.

Cargill employees joined the plan as a member company of Golden Peanut. Most Salaried and Hourly employees began participating April 1, 2000; a smaller group began participating on November 1, 2002.

Effective October 1, 2002, a 5% COLA was granted to those participants in payment status for three years. A proportion of the 5% COLA was granted to those retired less than three years based upon the length of time they had been retired
