To the Participants and Administrator of
The Southline Metal Products Company 401(k) Savings Plan

We were engaged to audit the accompanying statements of net assets available for benefits of The Southline Metal Products Company 401(k) Savings Plan as of December 31, 2009 and 2008, and the related statement of changes in net assets available for benefits for the year ended December 31, 2009. These financial statements are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the investment information summarized in Note 3, which was certified by MetLife Insurance Company of Connecticut, the trustee of the Plan, except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of December 31, 2009 and 2008, and for the year ended December 31, 2009, that the information provided to the plan administrator by the trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements taken as a whole. The form and content of the information included in the financial statements, other than that derived from the investment information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Subject: The Southline Metal Products Company 401(k) Savings Plan, Plan 001, Plan Year 2009
Employer ID 74-1050933

Attached is the Plan's Form 5500 for 2009.

Although the Plan merged into the Greif 401(k) Retirement Plan effective July 31, 2009, and the majority of Plan's assets transferred into that plan on August 3, 2009, a short plan year was not triggered by the plan merger because a nominal amount of unallocated cash (less than \$700) was not transferred until August 10, 2010. Thus, the Plan's final short plan year will run from January 1, 2010 to August 10, 2010.

I authorize Julie Gerosa, Manager, Benefits to receive information regarding this matter. Should you have any questions, please contact Julie directly at 740-549-6158.

The Southline Metal Products Company 401(k) Savings Plan

Notes to Financial Statements

December 31, 2009

1. Description of Plan

The following description of The Southline Metal Products Company 401(k) Savings Plan (the Plan) provides general information about the Plan's provisions. The Southline Metal Products Company (the Company) is the Plan Sponsor. Participants should refer to the plan document and summary plan description for more complete information.

On February 20, 2009, The Southline Metal Products Company was acquired by Greif Packaging LLC, a subsidiary of Greif, Inc.

General

The Plan is a defined contribution plan covering all employees of the Company who have at least one year of service and have attained age 21. The Plan Sponsor is responsible for the general administration of the Plan. MetLife Insurance Company of Connecticut is the trustee of the Plan. ING Institutional Plan Services, LLC is the recordkeeper for the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

Participant Contributions

Each year, participants may contribute up to 92% of pretax annual compensation, as defined in the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Discretionary matching contributions may be contributed at the discretion of the Company. No such amounts were contributed for 2009 or 2008. All contributions are subject to certain limitations of the Internal Revenue Code (the Code).

Participants direct their elective contributions into various investment options offered by the Plan and can change their deferral election and investment options on the first day of any payroll period. The Company's contributions are allocated in the same manner as that of the participant's elective contributions.

Participant Accounts

Each participant's account is credited with the participant's contributions and the Company's matching contributions and allocations of plan earnings. Plan earnings are allocated based on the participant's share of net earnings or losses of their respective elected investment options. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

The Southline Metal Products Company 401(k) Savings Plan

Notes to Financial Statements (continued)

1. Description of Plan (continued)

Vesting

Participants have full and immediate vesting in all participant contributions and related income credited to their accounts. Vesting in the Company's discretionary matching contribution portion of their accounts plus actual earnings thereon is based on years of continuous service. A participant is 100% vested after five years of credited service.

Participant Loans

Participants may not borrow from their fund accounts.

Payment of Benefits

Upon separation from service with the Company due to death, disability, retirement or termination, a participant whose vested account balance exceeds \$1,000 may elect to receive either a lump-sum or may elect annuity payments. A participant whose vested account balance is \$1,000 or less and has not commenced receiving installment payments will automatically receive an immediate lump-sum distribution equal to their vested account balance.

Hardship withdrawals are allowed for participants incurring an immediate and heavy financial need, as defined by the Plan and are strictly regulated by the Internal Revenue Service (IRS).

Forfeitures

Upon termination of employment, participants forfeit their nonvested balances. If a participant is rehired within a five year period, the forfeited contributions are reinstated. Forfeited balances of terminated participant's nonvested accounts are used to reduce future Company contributions. There were no forfeitures for the years ended December 31, 2009 or 2008.

Funding

Participant contributions, which are withheld from pay, are paid into his or her account on a monthly basis. Employer contributions, if any, are paid in a lump sum.

The Southline Metal Products Company 401(k) Savings Plan

Notes to Financial Statements (continued)

1. Description of Plan (continued)

Administrative Expenses

All administrative expenses are paid by the Company.

Plan Merger

Effective July 31, 2009, the Plan was merged into the Greif 401(k) Retirement Plan and Participants became 100% vested in their accounts. In connection with the merger, the majority of the plan assets in the amount of \$856,880, representing the account balances for all participants, were transferred into the Greif 401(k) Retirement Plan on August 3, 2009. The remaining non-allocated cash account (\$674 as of December 31, 2009) will be transferred into the Greif 401(k) Retirement Plan in 2010.

2. Summary of Significant Accounting Policies

Basis of Presentation

The accompanying financial statements have been prepared on the accrual basis of accounting.

Payment of Benefits

Benefits are recorded when paid.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principals requires management to make estimates that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments held by the Plan are stated at fair value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (an exit price). See Note 3 and Note 4 for further discussion of fair value measurements.

The Southline Metal Products Company 401(k) Savings Plan

Notes to Financial Statements (continued)

2. Summary of Significant Accounting Policies (continued)

The MCM Stable Asset Fund invests in fully benefit-responsive investment contracts. These investment contracts are recorded at fair value; however, since these contracts are fully benefit-responsive, an adjustment is reflected in the statements of net assets available for benefits to present these investments at contract value. Contract value is the relevant measurement attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The contract value represents contributions plus earnings, less participant withdrawals and administrative expenses.

In accordance with ASC 820, *Fair Value Measurements and Disclosures* (formerly FASB Statement No. 157), assets and liabilities measured at fair value are categorized into the following fair value hierarchy:

Level 1 – Fair value is based on unadjusted quoted prices for identical assets or liabilities in an active market that the Plan has the ability to access at the measurement date.

Level 2 – Fair value is based on quoted prices in markets that are not active, quoted prices for similar assets and liabilities in active markets, and inputs that are observable for the asset or liability, either directly or indirectly, for substantially the full term of the asset or liability.

Level 3 – Fair value is based on prices or valuation techniques that require inputs that are both significant to the fair value measurement and unobservable. These inputs reflect management's judgment about the assumptions that a market participant would use in pricing the investment and are based on the best available information, some of which may be internally developed.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded as earned. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

The Southline Metal Products Company 401(k) Savings Plan

Notes to Financial Statements (continued)

2. Summary of Significant Accounting Policies (continued)

New Accounting Pronouncements

In April 2009, the Financial Accounting Standards Board (FASB) issued FASB Staff Position 157-4, *Determining Fair Value When the Volume and Level of Activity for the Asset or Liability Have Significantly Decreased and Identifying Transactions That Are Not Orderly* (FSP 157-4). FSP 157-4 amended FASB Statement No. 157 (codified as ASC 820) to provide additional guidance on estimating fair value when the volume and level of activity for an asset or liability have significantly decreased in relation to its normal market activity. FSP 157-4 also provided additional guidance on circumstances that may indicate that a transaction is not orderly and on defining major categories of debt and equity securities to comply with the disclosure requirements of ASC 820. The Plan adopted the guidance in FSP 157-4 for the reporting period ended December 31, 2009. Adoption of FSP 157-4 did not have a material effect on the Plan's net assets available for benefits or its changes in net assets available for benefits.

In May 2009, the FASB issued FASB Statement No. 165, *Subsequent Events*, which was codified into ASC 855, *Subsequent Events*, to provide general standards of accounting for and disclosure of events that occur after the balance sheet date, but before financial statements are issued or are available to be issued. ASC 855 was amended in February 2010. The Plan has adopted ASC 855, as amended.

3. Investments

During 2009, the Plan's investments (including investments bought, sold, as well as held during the year) appreciated \$88,000 in fair value.

Individual investments that represent 5% or more of the Plan's net assets available for benefits are as follows:

	December 31,	
	2009	2008
Fidelity VIP Mid Cap	\$ —	\$ 54,482

4. Fair Value Measurements

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (i.e., an exit price). The fair value hierarchy prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets and liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described below:

Level 1 – Unadjusted quoted prices in active markets that are accessible to the reporting entity at the measurement date for identical assets and liabilities.

Level 2 – Inputs other than quoted prices in active markets for identical assets and liabilities that are observable either directly or indirectly for substantially the full term of the asset or liability. Level 2 inputs include the following:

- quoted prices for similar assets and liabilities in active markets
- quoted prices for identical or similar assets or liabilities in markets that are not active
- observable inputs other than quoted prices that are used in the valuation of the asset or liabilities (e.g., interest rate and yield curve quotes at commonly quoted intervals)
- inputs that are derived principally from or corroborated by observable market data by correlation or other means

Level 3 – Unobservable inputs for the asset or liability (i.e., supported by little or no market activity). Level 3 inputs include management's own assumption about the assumptions that market participants would use in pricing the asset or liability (including assumptions about risk).

The level in the fair value hierarchy within which the fair value measurement is classified is determined based the lowest level input that is significant to the fair value measure in its entirety.

Following is a description of the valuation methodologies used for major categories of assets measured at fair value by the Plan.

4. Fair Value Measurements (continued)

Mutual Funds: Valued at quoted market prices, which represent the net asset value of the shares of the mutual fund held by the Plan at year end.

Common Collective Trusts (Stable Value Fund): Valued at the fair value of the underlying investments as determined by the issuer by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit worthiness of the issuer.

5. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market volatility and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

6. Related Party Transactions

There are no related party transactions.

7. Income Tax Status

The underlying non-standardized prototype plan has received an opinion letter from the Internal Revenue Service (IRS) dated March 31, 2008, stating that the form of the plan is qualified under Section 401(a) of the Internal Revenue Code, and therefore, the related trust is tax exempt. In accordance with Revenue Procedure 2009-6 and Announcement 2005-16, the Plan Sponsor has determined that it is eligible to and has chosen to rely on the current IRS prototype plan opinion letter. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualification. The plan administrator believes the Plan is being operated in compliance with the applicable requirements of the Code and, therefore, believes that the Plan is qualified and the related trust is tax exempt.

8. Subsequent Event

On August 9, 2010, the remaining non-allocated cash account was transferred into the Greif 401(k) Retirement Plan.

Management evaluated subsequent events for the Plan through October 7, 2010, the date the financial statements were available to be issued.
