General - The following description of the Brown and Caldwell Savings Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

The Plan is a defined contribution plan established by Brown and Caldwell (the Company) in 1985 to provide benefits to eligible employees, as defined in the Plan document. The Plan is currently designed to be qualified under the applicable requirements of the Internal Revenue Code (the Code), as amended, and the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Administration - The Company has appointed the Administrative Committee (the Committee) to manage the operation and administration of the Plan. The Company has contracted with a third-party administrator to process and maintain the records of participant data and J.P. Morgan Chase Bank, N.A. (J.P. Morgan) to act as the trustee. Substantially all expenses incurred for administering the Plan are paid by the Company, except for certain financial advisor fees, brokerage fees and transaction costs, which are paid by the Plan.

Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Basis of accounting - The financial statements of the Plan are prepared on the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America.

Forfeited accounts - Forfeited nonvested accounts at December 31, 2009 and 2008 totaled approximately $8,000 and $12,000, respectively. Forfeitures are used to reduce future employer contributions or pay Plan administrative expenses. Forfeitures utilized during 2010 and 2009 to reduce the employer's contributions for the years ended December 31, 2009 and 2008 were approximately $15,000 and $12,000, respectively.

Investment valuation and income recognition - The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 2 for discussion of fair measurements.

Purchases and sales of securities are recorded on a trade date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net realized and unrealized appreciation (depreciation) includes the Plan's gains and losses on investments bought or sold as well as held during the year.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attributable for the portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan has fully benefit-responsive common / collective trusts as an investment.

The statements of net assets available for benefits present the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The statements of changes in net assets available for benefits are prepared on a contract value basis.

Income taxes - The Plan has been amended since receiving a favorable determination letter dated February 27, 2004. The Company believes that the Plan is operated in accordance with, and qualifies under, the applicable requirements of the Code and related state statutes, and that the trust, which forms a part of the Plan, is exempt from federal income and state franchise taxes.

Risks and uncertainties - The Plan provides for various investment options in any combination of investment securities offered by the Plan. Investment securities are exposed to various risks, such as interest rate, market fluctuations and credit risks. Due to the risk associated with certain investment securities, it is at least reasonably possible that changes in market values, interest rates and other factors in the near term would materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits and the statements of changes in net assets available for benefits.

Recent accounting pronouncements - In January 2010, the Financial Accounting Standards Board issued Accounting Standards Update 2010-06 which expanded the required disclosures about fair value measurements. In particular, this guidance requires: 1) separate disclosure of the amounts of significant transfers in and out of level 1 and level 2 fair value measurements along with the reasons for such transfers, 2) information about purchases, sales, issuances and settlements to be presented separately in the reconciliation for level 3 fair value measurements, 3) fair value measurement disclosures for each class of assets and liabilities and 4) disclosures about the valuation techniques and inputs used to measure fair value for both recurring and nonrecurring fair value measurements for fair value measurements that fall in either level 2 or level 3. This guidance is effective for annual reporting periods beginning after December 15, 2009 except for 2) above which is effective for fiscal years beginning after December 15, 2010. The Company is currently evaluating the impact that this guidance will have on the Plan's financial statement disclosures.

Subsequent events - The Plan has evaluated subsequent events through September 22, 2010, which is the date the financial statements were available to be issued.

NOTE 2 - FAIR VALUE MEASUREMENTS

The fair value measurements standard establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to adjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of fair value hierarchy under standard are described below:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- Quoted market prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;

- Inputs other than quoted prices that are observable for the assets or liability;

- Inputs that are derived principally from or corroborated by observable market data by correlation or the other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2009 and 2008.

Mutual funds: Valued at the net asset value (NAV) of shares held by the Plan at year end. It is not probable that the mutual funds will be sold at amounts that differ materially from the NAV of shares held.

Non-fully benefit-responsive common/collective trust fund: Valued at quoted redemption value of units owned by the Plan at year end.

Fully benefit-responsive common/collective trust fund: Valued by the funds trustee based on the underlying investments in the fund.

Common stock, corporate bonds and U.S. government securities: Valued at the closing price reported on the active market on which the individual securities are traded.

Participant loans: Valued at amortized cost, which is approximates fair value.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2009 and 2008:

The Stable Value Fund's objective is to seek current income while maintaining stability of invested principal. To achieve this, the fund invests in synthetic guaranteed investment contracts, U.S. Treasury and Agency securities, and cash and cash equivalents, including money market instruments. All contracts purchased for the fund are fully benefit-responsive.

NOTE 3 - RELATED PARTY TRANSACTIONS

Certain Plan investments are managed by affiliates of J.P. Morgan, the trustee of the Plan. Any purchases and sales of these funds are performed in the open market at fair value. Such transactions, while considered party-in-interest transactions under ERISA regulations, are permitted under the provisions of the Plan and are specifically exempt from the prohibition of party-in-interest transactions under ERISA.

NOTE 4 - PARTICIPATION AND BENEFITS

Participant contributions - Participants may elect to have the Company contribute their eligible pre-tax or after tax compensation to the Plan up to the amount allowable under the Plan document and current income tax regulations. Participants who elect to have the Company contribute a portion of their compensation to the Plan agree to accept an equivalent reduction in taxable or taxed compensation. Contributions withheld are invested in accordance with the participant's direction.

Participants are also allowed to make rollover contributions of amounts received from other tax-qualified employer-sponsored retirement plans. Such contributions are deposited in the appropriate investment funds in accordance with the participant's direction and the Plan's provisions.

Employer contributions:

Matching contributions - The Company is allowed to make matching contributions as defined in the Plan and as approved by the Board of Directors. In 2009 and 2008, the Company matched 25% of each eligible participant's contribution up to a maximum of 6% of the participant's eligible compensation. Company matching contributions were approximately $1,469,000 and $1,448,000 in 2009 and 2008, respectively.

Discretionary employer contributions - The Company may make a discretionary employer contribution that is equal to a specified percentage of each eligible participant's compensation (1.5% was specified in 2009 and 2008). Discretionary employer contributions totaled approximately $1,841,000 and $1,824,000 in 2009 and 2008, respectively.

Employer supplemental contributions - For each Plan year that the Company makes a matching contribution, the Company contributes a supplemental contribution to all eligible employees employed on the last day of the Plan year. The supplemental contribution is equal to the difference between the matching contributions for the Plan year and the amount of matching contributions for the Plan year that otherwise would have been made if each participant who was eligible to make contributions during the year was an eligible employee on the last day of the Plan year and made pre-tax contributions during the Plan year in an amount equal to the maximum percentage of compensation qualifying for matching contributions. There were no such contributions for the 2009 and 2008 Plan years.

Discretionary profit sharing contributions - The Plan allows for discretionary profit sharing contributions of up to 3% of eligible compensation. There were no such contributions for the 2009 and 2008 Plan years.

Vesting - Participants are immediately vested in their contributions. Participants are fully vested in the employer's matching contributions, discretionary contributions and supplemental contributions allocated to their account following one year of credited service.

Participant accounts - Each participant's account is credited with the participant's contribution, Plan earnings or losses and an allocation of the Company's contributions, if any. Allocation of the Company's contributions is based on participant contributions or eligible employee compensation, as defined in the Plan.

Payment of benefits - Upon termination, the participants or beneficiaries may elect to leave their account balance in the Plan, or receive their total benefits in a lump-sum amount or monthly, quarterly or semi-annual installments equal to the value of the participant's vested interest in their account. The Plan allows for the automatic distribution of participant vested account balances that do not exceed $1,000.

Loans to participants - The Plan allows participants to borrow not less than $1,000 and up to the lesser of $50,000 or 50% of their vested account balance. The loans are secured by the participant's vested balance. Such loans bear interest at the available market financing rates and must be repaid to the Plan within a five-year period, unless the loan is used for the purchase of a principal residence in which case the maximum repayment period may be longer. The specific terms and conditions of such loans are established by the Committee. Outstanding loans at December 31, 2009 carry interest rates ranging from 4.25% to 10.5%.

NOTE 5 - PLAN TRANSFERS

Approximately $615,000 and $955,000 was transferred from the Brown and Caldwell Employee Stock Ownership Plan into the Plan in 2009 and 2008, respectively.
