Richardson Manufacturing Company 401(k) Plan

NOTES TO FINANCIAL STATEMENTS

December 31, 2009 and 2008

NOTE A - DESCRIPTION OF PLAN

The following description of the Richardson Manufacturing Company 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

1. General

Richardson Manufacturing Company (the Company), created the Plan for the benefit of the Company's employees. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

2. Contributions

The Plan permits eligible employees through a salary reduction election to contribute a portion of their salary up to the maximum amount prescribed by law. Employee rollover contributions are also permitted. The Plan provides for two categories of Company contributions, matching and discretionary. The Company made matching contributions of 2.5% of employees compensation for the years ended December 31, 2009 and 2008. There were no discretionary contributions made during 2009 and 2008.

3. Participant Accounts

Each participant's account is credited with the participant's contributions and allocation of the Company's contributions and Plan earnings on invested assets, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

4. Vesting

Participants are immediately vested in their voluntary contributions plus actual earnings thereon. Vesting in the remainder of their accounts is based on years of continuous service. Vesting in the Company's matching and discretionary contributions and their related earnings are graded with 100% vesting after six years.

NOTE A - DESCRIPTION OF PLAN - Continued

5. Investment Options

Upon enrollment in the Plan, a participant may direct contributions to selected investments as made available and determined by the Plan's Trustees. Participants may change their investment options at any time pursuant to procedures established in the Plan document.

6. Payment of Benefit

Upon termination of service, participants may elect to receive a lump-sum amount or installments based on the value of their account. Withdrawals other than for termination are permitted under circumstances provided by the Plan.

7. Forfeited Accounts

Forfeited amounts arising from the Company's contributions not vested, are available for future Company contributions.

8. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

1. Basis of Accounting

The financial statements of the Plan are prepared using the accrual method of accounting.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

2. Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Quoted market prices are used to value investments. Shares of mutual funds are valued at the net asset value of shares held by the Plan at year end.

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date.

3. Payment of Benefits

Benefits are recorded when paid.

4. Subsequent Events

The Plan assessed events that have occurred subsequent to December 31, 2009 through September 23, 2010, the date the financial statements were available to be issued, for potential recognition and disclosure in the financial statements. No events have occurred that would require adjustment to or disclosure in the financial statements.

5. Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires Plan management to make estimates and assumptions. Those estimates and assumptions affect the reported amount of assets and liabilities, the disclosures of contingent assets and liabilities, and the reported revenues and expenses. Actual results could vary from the estimates that were used.

6. New Accounting Pronouncements

In 2009, the Plan adopted Accounting Standards Update (ASU) No. 2009-01, Statement of Financial Accounting Standards No. 168, "The Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) and the Hierarchy of Generally Accepted Accounting Principles (GAAP)". This ASU includes FASB Statement No. 168 in its entirety. The ASU establishes the FASB ASC as the source of authoritative accounting principles recognized by the FASB. Rules and interpretive releases of the SEC under federal securities laws are also sources of authoritative GAAP for SEC registrants. All guidance contained in the ASC carries an equal level of authority. Following this ASU, the FASB will issue only ASUs to update the ASC. The adoption did not have a material effect on the financial statements.

NOTE D - INFORMATION PREPARED AND CERTIFIED BY THE CUSTODIAN

The Plan Administrator has elected the method of compliance as permitted by 29 CFR 2520-103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the following information certified by State Street Bank and Trust Company (the Custodian), except for comparing such information certified as complete and accurate by the Custodian to information included in the Plan's financial statements and supplemental schedules.

	2009	2008
Investments at December 31, at fair value	$ 3,481,261	$ 2,316,935
Net investment gain (loss) at fair value for the year ended December 31,	$ 871,677	$ (1,223,672)

NOTE E - FAIR VALUES OF FINANCIAL INSTRUMENTS

As required by FASB ASC 820, *Fair Value Measurement and Disclosures* (FASB 820), the Plan assess the inputs used to measure fair value using a three-tier hierarchy based on the extent to which inputs used in measuring fair value are observable in the market.

Basis of fair value measurement:

Level 1 - Values are based on unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets. An active market is a market in which transactions for the asset occur with sufficient frequency and volume to provide pricing information on an ongoing basis.

Level 2 - Values are based on (a) quoted prices for similar assets or liabilities in active markets; (b) quoted prices for identical or similar assets or liabilities in non-active markets; or (c) valuation models whose inputs are observable, directly or indirectly, for substantially the full term of the asset or liability.

Level 3 - Values are based on prices or valuation techniques that require inputs that are both unobservable and significant to the overall fair value measurement.

NOTE E - FAIR VALUES OF FINANCIAL INSTRUMENTS - Continued

The following tables set forth by level within the fair value hierarchy a summary of investment assets by major categorization on the basis of the nature and risk of the investments measured at fair value on a recurring basis at December 31, 2009 and 2008, respectively. As required by FASB ASC 820, assets are classified in their entirety based on the lowest level of input that is significant to the fair value measurement.

	2009	2008
Level 1		
Mutual funds	$ 3,481,261	$ 2,316,935
Level 2	-	-
Level 3	-	-
	$ 3,481,261	$ 2,316,935

NOTE F - RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500 as of December 31:

	2009	2008
Net assets available for benefits per the financial statements	$ 3,463,659	$ 2,316,935
Plus: Accounts payable, excess contributions	17,602	-
Net assets available for benefits per the Form 5500	$ 3,481,261	$ 2,316,935

The following is a reconciliation of the change in net assets available for benefits per the financial statements and the Form 5500 for the year ended December 31, 2009:

Change in net assets available for benefits per the financial statements	$ 1,146,724
Plus: Corrective distributions, excess contributions	17,602
Net income per the Form 5500	$ 1,164,326

NOTE G - RELATED-PARTY TRANSACTIONS

The Plan's investments are shares of mutual funds managed by T. Rowe Price. The Plan's Custodian is affiliated to T. Rowe Price. Additionally, the Company provides certain administrative services at no cost to the Plan. These transactions qualify as party-in-interest transactions; however, they are exempt from the prohibited transaction rules under ERISA.

NOTE H - INCOME TAX STATUS

The Plan has received a favorable opinion letter under Section 401(a) of the Internal Revenue Code from the Internal Revenue Service. The Plan has been amended since receiving the opinion letter. However, the Plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable provisions of the Internal Revenue Code.

Effective January 1, 2009, the Plan adopted the new requirements related to the accounting for uncertainty in income taxes (as initially required by Financial Accounting Standards Board Financial Interpretation No. 48 and subsequently superseded by Accounting Standards Codification 740). This guidance sets a minimum threshold for financial statement recognition of the benefit of a tax position taken or expected to be taken in a tax return. Tax positions for the open tax years as of December 31, 2009 were reviewed, and it was determined that no provision for uncertain tax positions is required.

NOTE I - RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
