Participants and Plan Administrator
Mortara Instrument, Inc. Profit Sharing Plan

We were engaged to audit the statements of net assets available for benefits of the Mortara Instrument, Inc. Profit Sharing Plan (the “Plan”) as of December 31, 2009, the related statement of changes in net assets available for benefits for the year ended December 31, 2009, and the supplemental schedule of assets (held at end of year) as of December 31, 2009, as listed in the accompanying table of contents. These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in note E, which was certified by the trustee of the Plan, John Hancock Life Insurance Company (“Trustee”), except for comparing such information with the related information included in the financial statements and supplemental schedule. We have been informed by the Plan administrator that the Trustee holds certain Plan investment assets and executes certain investment transactions. The Plan administrator has obtained a certification from the trustee as of December 31, 2009, and for the year ended December 31, 2009, that the information provided to the Plan administrator by the Trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the Trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

We have compiled the accompanying statement of net assets available for benefits of the Plan as of December 31, 2008 in accordance with Statements on Standards for Accounting and Review Services issued by the American Institute of Certified Public Accountants.

A compilation is limited to presenting in the form of financial statements information that is the representation of management. We have not audited or reviewed the accompanying statement of net assets available for benefits and, accordingly, do not express an opinion or any other form of assurance on it.

NOTES TO FINANCIAL STATEMENTS
December 31, 2009 and 2008

NOTE A - DESCRIPTION OF THE PLAN

The following description of the Mortara Instrument, Inc. Profit Sharing Plan (the “Plan”) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan’s provisions.

1. General

The Plan is intended to meet the requirements of Section 401(a) of the Internal Revenue Code (IRC) and qualify as a defined contribution plan. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”), as amended. It was established to provide retirement benefits to eligible employees of Mortara Instrument, Inc. (the employer). The assets of the Plan are held for the exclusive benefit of the participating employees. An employee is eligible to participate in the elective deferral and employer non-discretionary matching portion of the Plan after reaching 21 years of age and completing 249 hours of service within a three month period. If an individual does not complete the 249 hours of service, they will become eligible when they have completed 1,000 hours of service within a twelve month period. Participants are eligible to join the plan on the first day of a Plan quarter. An employee eligible to participate in the employer discretionary contribution is defined as any employee who has completed at least 1,000 hours of eligible service during the year and is employed on the last day of the Plan year or was an active participant at some time during the Plan year and retired, died or became totally disabled, as defined by the Plan, during the Plan year.

2. Contributions

Participants are permitted to make elective pre-tax deferrals pursuant to a salary reduction agreement that authorizes the employer to defer wages, subject to certain limitations, through this Plan. Participants can contribute up to \$16,500 in 2009. In addition, participants age 50 or over can make catch-up contributions up to an additional \$5,500 in 2009. The employer makes discretionary matching contributions in an amount equal to 125% of the first 5% of each participant’s elective deferral and 50% of the next 5% of the participant’s elective deferral.

The employer may make additional discretionary contributions to the Plan. There were no discretionary contributions made in 2009.

3. Participant Accounts

Each participant’s account is credited or charged with the participant’s contribution and the employer’s matching contribution, an allocation of the employer’s discretionary contribution based on participant compensation and an allocation of investment income or loss. Participants share pro rata in any investment income or loss of the funds based upon individual participant account balances in the respective funds as of the end of each day.

Participants direct the investment of all employee and employer contributions into various investment options offered by the Plan.

NOTE A - DESCRIPTION OF THE PLAN - Continued

4. Vesting

Participants are immediately vested in their employee elective deferral contributions, catch-up contributions and rollover contributions and the earnings thereon. Employer matching and discretionary contributions and the earnings thereon become fully vested and non-forfeitable upon normal retirement, disability or death. A participant who terminates, for any reason other than the above, but has completed one or more years of service shall have a non-forfeitable right to a percentage of the accrued benefit derived from employer contributions in accordance with the following schedule:

Years of service	Percentage vested
Less than 1	0%
1	20%
2	40%
3	60%
4	80%
5 or more	100%

Forfeitures arising from terminating participants who are not fully vested shall be used to pay administrative fees or offset the employer's matching contribution. At December 31, 2009 and 2008, forfeited non-vested accounts totaled \$3,516 and \$25,205, respectively. Forfeitures of \$25,205 were used during the year ended December 31, 2009.

5. Payment of Benefits

Upon retirement, disability, termination or death, payment of a participant's vested benefit will be made in a single lump sum payment. Hardship withdrawals are permitted under certain circumstances.

6. Loans to Participants

With the approval of the Plan administrator, participants may obtain loans against their account for a minimum of \$1,000 up to a maximum equal to \$10,000 or 50% of the participant's account balance. Loans must be repaid at least quarterly within five years. The interest rate and loan terms are fixed at the inception of each loan based on the requirements in the Plan document. As of December 31, 2009, outstanding loans had interest rates ranging from 4.25% to 9.25%.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A summary of the Plan's significant accounting policies consistently applied in the preparation of the accompanying financial statements follows.

1. Basis of Accounting

The financial statements of the Plan have been prepared using the accrual basis of accounting.

2. Use of Estimates

In preparing financial statements in conformity with accounting principles generally accepted in the United States of America, management is required to make estimates and assumptions that affect the reported amounts of assets and liabilities, and changes therein, and the disclosure of contingent assets and liabilities. Actual results could differ from these estimates.

3. Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See note D for discussion on fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's realized gains and losses on investments bought and sold during the year, as well as the Plan's unrealized gains and losses on investments held as of the end of the year.

4. Benefits Paid to Participants

Benefits are recorded when paid.

5. Administrative Expenses

The participant is responsible for all administrative fees charged by the Trustee relating to loan origination and monthly fees that are incurred for administering the Plan.

6. New Accounting Pronouncements

In May 2009, new accounting pronouncements and disclosure requirements for subsequent events were incorporated into generally accepted accounting principles. These requirements introduce new terminology, define a date through which management must evaluate subsequent events, and list the circumstances under which an entity must recognize and disclose events or transactions occurring after the statement of net assets date. See note J for the expanded disclosure related to this standard.

NOTES TO FINANCIAL STATEMENTS

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

6. New Accounting Pronouncements - continued

The Plan adopted the amended guidance in Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") 820, *Fair Value Measurements and Disclosures*, in its December 31, 2009 financial statements. The new guidance affects how the Plan measures the fair value of investments in certain funds that do not have a quoted market price but calculate net asset value ("NAV") per share or its equivalent. As a practical expedient, the amendments permit, but do not require, the Plan to measure the fair value of an investment within the scope of the amendments based on the NAV per share or its equivalent. As a result of applying the practical expedient, the fair value of the Plan's investments in the pooled separate accounts were determined based on the NAV beginning with the December 31, 2009 valuation. The guidance also expanded disclosures on a prospective basis and required that major categories for debt and equity securities in the fair value hierarchy table be determined on the basis of the nature and risks of the investments. Adoption did not have a material impact on the fair value determination of applicable investments. See Note D for the additional disclosures related to the amended guidance.

NOTE C - INVESTMENTS

The fair values of individual investments that represent 5% or more of the Plan's net assets at December 31 are as follows:

	2009	(Compiled) 2008
Pooled separate accounts:		
MFC Lifestyle - Balanced Fund	\$ 1,992,746	\$ 1,277,959
MFC Lifestyle - Growth Fund	3,124,510	2,137,629
MFC Lifestyle - Aggressive Fund	1,092,259	653,509
Oppenheimer Developing Market Fund	1,104,281	552,255
American Funds - The Growth Fund of America	759,809	538,598
MFC Money Market Fund	1,201,153	850,419
T. Rowe Price Equity Income Fund	Less than 5%	408,725

The net appreciation in fair value of pooled separate accounts (including investments bought, sold and held during the year) is \$2,635,172 for the year ended December 31, 2009.

NOTE D - FAIR VALUE MEASUREMENTS

The Plan records investments at fair value using a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels for the fair value hierarchy are described below:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the valuation methodologies used at December 31, 2009 and 2008.

Pooled separate accounts - Valued based on the net asset value of the fund shares, which is calculated based on the valuation of the funds' underlying investments at fair value at the end of the year.

Participant loans - Valued at unpaid principal balances, which approximates fair value.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different estimate of fair value at the reporting date.

NOTE D - FAIR VALUE MEASUREMENTS - Continued

Level 3 Gains and Losses

The table below sets forth a summary of changes in the fair value of the Plan's Level 3 assets for the year ended December 31, 2009:

Participant loans	
Balance, beginning of year	\$ 277,634
Purchases, sales, issuances and settlements (net)	<u>42,051</u>
Balance, end of year	<u><u>\$ 319,685</u></u>

The following table sets forth additional disclosures for the fair value measurement of investments in certain entities that calculate net asset value per share (or its equivalent) as of December 31, 2009:

	Fair Value	Unfunded commitments	Redemption frequency	Redemption notice period
Pooled separate accounts				
Asset allocation funds	\$ 7,148,906	\$ -	Daily	Daily
Aggressive growth funds	1,354,104	-	Daily	Daily
Growth funds	891,580	-	Daily	Daily
Growth and income funds	767,896	-	Daily	Daily
Income funds	128,083	-	Daily	Daily
Conservative funds	1,201,153	-	Daily	Daily

Aggressive growth and growth fund pooled separate accounts include investments that invest in companies the account believes have above-average growth potential (stocks of these companies are often called "growth stocks"). Most underlying holdings are in domestic common stocks. The accounts may make limited use of futures and/or options for the purpose of maintaining equity exposure. These accounts may participate in securities lending.

Asset allocation funds target a lifestyle or life cycle. A lifestyle fund features an asset mix determined by the level of risk and return selected by the investor. A life cycle fund will adjust its asset allocation automatically over time to become more conservative as an expected retirement date approaches.

Growth and income and income funds seek to provide stability of principal and income generation through investments in fixed income securities with a smaller emphasis on the pursuit of capital growth through investment in stocks.

Conservative funds seek to protect principal while providing a higher rate of return than shorter maturity investments. To achieve this, the fund invests in instruments which are not expected to experience significant price fluctuation in most economic or interest rate environments. However, there is no assurance that this objective can be achieved.

NOTES TO FINANCIAL STATEMENTS
December 31, 2009 and 2008

NOTE E - FINANCIAL DATA CERTIFIED BY THE PLAN'S TRUSTEE

The Plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the Plan's Trustee has certified that the following data included in the accompanying financial statements and supplemental schedule is complete and accurate:

- (a) Investments, as shown in the statements of net assets available for benefits as of December 31, 2009.
- (b) Investment income, as shown in the statement of changes in net assets available for benefits for the year ended December 31, 2009.
- (c) Schedule H, line 4(i) - schedule of assets (held at end of year) as of December 31, 2009.

The Plan's independent accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

NOTE F - PARTY-IN-INTEREST TRANSACTIONS

The Plan periodically invests in pooled separate accounts managed by the Trustee. These transactions are not considered prohibited transactions by statutory exemptions under ERISA regulations.

NOTE G - PLAN TERMINATION

Although it has not expressed any intention to do so, the employer has the right under the Plan to discontinue the contributions at any time and to terminate the Plan subject to the provisions of ERISA. Upon permanent discontinuance of contributions to the Plan or termination of the Plan, all participants' account balances shall become fully vested.

NOTE H - RISKS AND UNCERTAINTIES

Investment securities are exposed to various risks including, but not limited to, interest rate, market and credit risks. Due to the level of risks associated with certain investments, it is at least reasonably possible that changes in the value of investment securities will occur in the near term and such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

MORTARA INSTRUMENT, INC. PROFIT SHARING PLAN
NOTES TO FINANCIAL STATEMENTS
December 31, 2009 and 2008

NOTE I - TAX STATUS

The employer adopted the prototype Non-Standardized 401(k)/Profit Sharing Plan of John Hancock Insurance Company, which received a determination letter dated September 5, 2003, in which the Internal Revenue Service has ruled that the prototype plan qualifies under Section 401(a) of the IRC and is, therefore, not subject to tax under present income tax laws. The Plan has not received a determination letter specific to the Plan itself.

The Plan has been amended since receiving the determination letter. However, the Plan administrator believes the Plan is designed and currently being operated in compliance with the applicable requirements of the IRC. Therefore, the Plan administrator believes that the Plan is qualified and tax-exempt as of the financial statement date.

NOTE J - SUBSEQUENT EVENT

The Plan evaluated its December 31, 2009 financial statements for subsequent events through September 20, 2010, the date the financial statements were available to be issued. The Plan is not aware of any subsequent events which would require recognition or disclosure in the financial statements.
