Report of Independent Auditors

To the Participants and Administrator of
the Plans included in the Alcoa Inc. Retirement Plans' Master Trust

We were engaged to audit the individual financial statements of Reynolds Metals Company Pension Plan for Hourly Employees (Reynolds Hourly Plan), Reynolds Metals Company Merged Hourly Pension Plan (Reynolds Merged Plan), Southern Graphic Systems, Inc. Pension Plan (Southern Graphics Plan) and the Presto Products Company Employees' Retirement Balance Plan (Presto Products Plan) (collectively the "Plans"), which participate in the Alcoa Inc. Retirement Plans' Master Trust at December 31, 2009 and 2008, and for the years then ended, as listed in the accompanying index. These individual financial statements are the responsibility of the Plans' management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 7, which was certified by The Bank of New York Mellon, the trustee of the Plans, except for comparing such information with the related information included in the individual financial statements. We have been informed by the plan administrator that the trustee holds the Plans' investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of December 31, 2009 and 2008 and for the years then ended, that the information provided to the plan administrator by the trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying individual financial statements taken as a whole. The form and content of the information included in the individual financial statements, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

As described in Note 9, effective December 31, 2009, the Reynolds Hourly Plan merged into the Alcoa Subsidiaries Merged Inactive Plan.

Employees' Retirement Plans of Reynolds Metals Company and Subsidiary Companies

Notes to Financial Statements

December 31, 2009 and 2008

1. Description of Plans

The following description of each Plan's provisions provides only general information. Participants should refer to each Plan document for a more complete description of each Plan's provisions.

General

The Reynolds Metals Company Pension Plan for Hourly Employees (Reynolds Hourly Plan), Reynolds Metals Company Merged Hourly Pension Plan (Reynolds Merged Plan), Southern Graphic Systems, Inc. Pension Plan (Southern Graphics Plan) and the Presto Products Company Employees' Retirement Balance Plan (Presto Products Plan) (collectively the "Plans") are noncontributory defined benefit plans which provide retirement benefits to substantially all eligible employees of the Reynolds Metals Company ("Reynolds"). See the accompanying index for all the Plans included in these financial statements that participate in the Alcoa Inc. ("Alcoa" or the "Company") Retirement Plans' Master Trust ("Alcoa Master Trust" or "Master Trust") at December 31, 2009 and 2008.

The investments of the Plans are maintained under one trust pursuant to a "Master Trust Agreement" with the trustee, The Bank of New York Mellon ("trustee"). In July 2007, Mellon Financial Corp. was acquired by The Bank of New York to form The Bank of New York Mellon Corp. On July 1, 2008, Mellon Bank N.A. was renamed The Bank of New York Mellon. There has been no substantive effect to the Plans or the Alcoa Master Trust as a result of the merger.

All fiduciary responsibility is maintained by the Alcoa Benefits Management Committee. The Plans are subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). The Employees' Retirement Plans of Alcoa Inc. and Subsidiary Companies ("Alcoa Subsidiary") and the Employees' Retirement Plans of Huck International, Inc. and Howmet Corporation ("Huck/Howmet") also participate in the Alcoa Master Trust. The financial statements of the Alcoa Subsidiary and Huck/Howmet retirement plans are included in separate reports.

The Plans provide, in general, for monthly pensions upon retirement at or after age 65, or earlier upon disability, incapacity, special circumstances or with certain minimum age and service requirements. Pension benefits generally depend upon length of service, job grade or remuneration, and certain social security and other benefits.

At December 31, 2007, the Reynolds Metals Company Pension Plan for Hourly Employees of Downingtown Plant ("Reynolds Downingtown Plan") and Reynolds Metals Company Pension Plan for Hourly Employees of Louisville Laminating Plant ("Reynolds Louisville Plan") were part of the Master Trust. These plans held \$13,191,247 or 0.15% and \$16,092,968 or 0.18% of total Master Trust assets, at December 31, 2007, respectively. Effective February 29, 2008, Alcoa Inc. completed the sale of its Packaging and Consumer business to the Rank Group. As a result, the Reynolds Downingtown and Reynolds Louisville Plans were acquired by the Rank Group and no longer participate in the Alcoa Master Trust. In the first quarter of 2008, the Reynolds Downingtown Plan and Reynolds Louisville Plan transferred assets of \$12,525,251 and \$15,224,906, respectively, and accumulated plan benefits of \$12,329,042 and \$14,512,986, respectively, to the Rank Group Trustee.

Eligibility and Vesting

Employees are eligible to participate in the Reynolds Hourly Plan if they are members of certain collective bargaining units that incorporate Reynolds Hourly Plan by reference into any labor agreement with Alcoa and have attained the age of 21 with 12 consecutive months of service.

Employees' Retirement Plans of Reynolds Metals Company and Subsidiary Companies

Notes to Financial Statements

December 31, 2009 and 2008

There are no longer any active participants accruing benefits in the Reynolds Merged Plan and Southern Graphics Plan. Benefits are being provided to retired participants and will be provided to deferred vested participants in accordance with the Reynolds Merged Plan and Southern Graphics Plan provisions applicable at the time of their termination.

There are no longer any active participants accruing benefits in the Presto Products Plan. The Presto Products Plan covers full and part-time employees of the Presto Products Company who have attained 21 years of age and have completed the qualifying period (at least 1,000 hours of employment and one year of service).

Eligible participants in the Reynolds Hourly Plan vest based upon the total number of calendar quarters, as defined by the Reynolds Hourly Plan document. Effective January 1, 2008, eligible employees of the Presto Products Plan vest after three years of service.

Benefit Provisions

The benefit provisions for the Reynolds Hourly Plan determine the retirement benefit using a factor times the total number of calendar quarters of service the participant has obtained. Normal retirement for the Reynolds Hourly Plan is age 65 and completion of five years of service.

The benefit provisions for the Reynolds Merged Plan and the Southern Graphics Plan determine the retirement benefit using a compensation-based formula. Normal retirement for the Reynolds Merged Plan and the Southern Graphics Plan is age 65 and completion of five years of service.

The benefit provisions of the Presto Products Plan determine the retirement benefit based on hypothetical participant balances. The normal retirement for the Presto Plan is age 65.

Risks and Uncertainties

The Plans invest in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and such changes could materially affect the amounts reported in the statements of individual plan net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the individual Plans' financial statements.

Termination of Plans

Benefits under the Plans are insured by the Pension Benefit Guaranty Corporation ("PBGC"). Should the Plans terminate at some future time, the net assets of the Plans generally will not be available on a pro rata basis to provide participants' benefits. Whether a particular participant's accumulated plan benefits will be paid depends on both the priority of those benefits and the level of benefits guaranteed by the PBGC at that time. Some benefits may be fully or partially provided for by the then existing assets and the PBGC guaranty, while other benefits may not be provided for at all.

A full description of each Plan's termination priorities is available in each Plan document.

2. Summary of Accounting Policies

Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of the financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein, disclosure of contingent assets and liabilities, and the actuarial present value of accumulated plan benefits at the date of the financial statements. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Plans' interest in Alcoa Inc. Retirement Plans' Master Trust Investment (loss) income includes the Plans' unrealized and realized gains and losses on investments along with dividends, interest income and investment management/trustee fees.

The fair value of the Plans' interest in the Master Trust is based on the beginning-of-year value of the Plans' interest in the Master Trust plus actual contributions and allocated investment income less actual distributions, allocated investment loss and administrative expenses.

The individual Plans participate in the operations of the Master Trust through the purchase and sale of units. Cash inflows and outflows between the Plans and the Master Trust are accounted for at the beginning-of-the-month unit value. Units are revalued monthly to reflect changes in the investment values. Net investment income and losses are allocated to the Plans that participate in the Master Trust based on each Plan's units held.

Benefit Payments

Benefit payments to participants are recorded upon distribution.

Due to Plan Sponsor

Due to plan sponsor represents the allocated amount to be reimbursed for benefit payments which have been paid by Alcoa to plan participants on behalf of the Master Trust.

Administrative Expenses

Trustee, audit, legal, actuarial, investment management, and other administrative expenses are paid by the Plans. Investment management fees are included in Plans' interest in Alcoa Inc. Retirement Plans' Master Trust investment (loss) income.

Funding Policy

The Plans are defined benefit pension plans. No employee contributions to the Plans are required or permitted. Alcoa contributes such amounts as are necessary on an actuarial basis to provide the individual Plans with assets sufficient to meet the benefits to be paid to current and future retirees or their beneficiaries. The minimum contributions required, if any, of Alcoa are designed to fund any opening deficiencies, the normal costs, amortization of the outstanding balances of the existing charge and credit bases over the balance of their remaining periods, amortization of any new bases established during the year, any additional funding charge and any other requirement of the ERISA required funding standard account in excess of accumulated prior contributions made in excess of required minimums. Alcoa may also voluntarily contribute amounts in excess of those minimum required amounts to meet company objectives.

The actuarially determined pension contribution is calculated using the Projected Unit Credit Method of Funding for the Plans.

The Plans have met the minimum funding requirements under the provisions of ERISA in 2009 and 2008.

Investment Policy and Strategy

The Alcoa Master Trust's investment policy and weighted average asset allocations at December 31, 2009 and 2008, by asset category, are as follows:

Asset Category	Policy Range
Equity securities	30-60%
Debt securities	30-55%
Real estate	5-15%
Other	0-10%

The principal objectives underlying the investments of the Alcoa Master Trust's assets are to ensure that Alcoa can properly fund benefit obligations as they become due under a broad range of potential economic and financial scenarios, maximize the long-term investment return with an acceptable level of risk based on such obligations, and to broadly diversify investments across and within the capital markets to protect asset value against adverse market movements in any one market. Alcoa's strategy balances the requirement to maximize returns using potentially higher return generating assets, such as equity securities, with the need to control the risk versus the benefit obligations with less volatile assets, such as fixed-income securities.

Investment practices must comply with the requirements of the Employee Retirement Income Security Act of 1974 ("ERISA") and any other applicable laws and regulations. The use of derivative instruments is permitted where appropriate and necessary for achieving overall investment policy objectives. Derivatives are used primarily to manage interest rate risk within the portfolio. Currently, the use of derivative instruments is not significant when compared to the overall investment portfolio.

New Accounting Pronouncements

On September 30, 2009, the Plans adopted changes issued by the Financial Accounting Standards Board ("FASB") to the authoritative hierarchy of Generally Accepted Accounting Principles ("GAAP"). These changes establish the FASB Accounting Standards CodificationTM (Codification) as the source of authoritative accounting principles recognized by the FASB to be applied by nongovernmental entities in the preparation of financial statements in conformity with GAAP. Rules and interpretive releases of the Securities and Exchange Commission (SEC) under authority of federal securities laws are also sources of authoritative GAAP for SEC registrants. The FASB will no longer issue new standards in the form of Statements, FASB Staff Positions, or Emerging Issues Task Force Abstracts; instead the FASB will issue Accounting Standards Updates ("ASU"). Accounting Standards Updates will not be authoritative in their own right as they will only serve to update the Codification. These changes and the Codification itself do not change GAAP. Other than the manner in which new accounting guidance is referenced, the adoption of these changes had no impact on the Plans' financial statements.

In April 2009, the FASB issued FASB Staff Position ("FSP") No. FAS 157-4, *Determining Fair Value When the Volume and Level of Activity for the Asset or Liability Have Significantly Decreased and Identifying Transactions that are Not Orderly*, ("FSP FAS 157-4"). FSP FAS 157-4 provides additional guidance for estimating fair value in accordance with Accounting Standards Codification ("ASC") No. 820, *Fair Value Measurements and Disclosures*, when the volume and level of activity for the asset or liability have significantly decreased and includes guidance for identifying circumstances that indicate a transaction is not orderly. This guidance is necessary to maintain the overall objective of fair value measurements, which is that fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date under current market conditions. FSP FAS 157-4 is effective for fiscal years ending after June 15, 2009. The adoption of this new guidance did not have a material impact on the Plans' financial statements.

In September 2009, the FASB issued ASU 2009-12, *Fair Value Measurements and Disclosures (Topic 820) – Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent)*. ASU 2009-12 provides amendments to Subtopic 820-10, "Fair Value Measurements and Disclosures -Overall," for the fair value measurement of investments in certain entities that calculate net asset value per share (or its equivalent). The adoption of this new guidance did not have a material impact on the Plans' financial statements.

For the year ending December 31, 2009, the Plan adopted ASC No. 855, *Subsequent Events*, an update to general standards on accounting for disclosures of events that occur after the balance sheet date but before the financial statements are issued or are available to be issued. The adoption of this guidance did not have a material impact on the Plans' financial statements. See Note 11, Subsequent Events, for further discussion of subsequent events.

In January 2010, the FASB issued ASU 2010-06, *Improving Disclosure about Fair Value Measurements*. ASU 2010-06 requires additional disclosures regarding fair value measurements, amends disclosures about post-retirement benefit plan assets and provides clarification regarding the level of disaggregation of fair value disclosures by investment class. ASU 2010-06 is effective for interim and annual reporting periods beginning after December 15, 2009, except for certain Level 3 activity disclosure requirements that will be effective for reporting periods beginning after December 15, 2010. The Plans are currently evaluating the impact of the adoption of ASU 2010-06.

Notes to Financial Statements
December 31, 2009 and 2008

In the normal course of managing the Alcoa Master Trust investments, the trustee loans securities owned by the Alcoa Master Trust to brokers/dealers in exchange for a fee. The securities are then returned to the Alcoa Master Trust in accordance with the Broker Agreement. The loaned securities are included in the investment information disclosed above. At December 31, the amount of securities loaned to brokers/dealers was as follows:

	2009	2008
Investments		
U.S. government or government agency obligations	\$ 443,998,363	\$ 617,916,034
Corporate debt instruments	93,834,535	76,404,223
	<u>\$ 537,832,898</u>	<u>\$ 694,320,257</u>

Of the total securities loaned to brokers/dealers, approximately \$392,000,000 and \$551,000,000 is concentrated with five brokers/dealers at December 31, 2009 and 2008, respectively.

In support of these transactions, the brokers/dealers provide collateral of cash, treasury obligations or letters of credit which exceed the value of the securities loaned. The brokers/dealers provide collateral to secure each loan in an amount equal to 102% and 105% of the market value of securities loaned of United States issuers and of non United States issuers, respectively. The Master Trust bears the risk of loss with respect to the unfavorable change in fair value of the invested cash collateral. However, the brokers/dealers bear the risk of loss related to the decrease in fair value of the noncash collateral. At December 31, the amount of collateral provided by the brokers/dealers was as follows:

	2009	2008
Cash	\$ 540,988,611	\$ 696,142,451
Letters of credit	-	9,432,415
U.S. government or government agency obligations	8,478,016	7,562
	<u>\$ 549,466,627</u>	<u>\$ 705,582,428</u>

A portion of the income generated upon investment of cash collateral is remitted to the brokers/dealers, and the remainder is allocated between the Master Trust and the trustee in its capacity as a security lending agent. The Master Trust investment (loss) income disclosed below includes income from the investment of cash collateral of \$1,705,037 and \$5,561,981 at December 31, 2009 and 2008, respectively.

4. Fair Value Measurements

FASB ASC No. 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described below:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Employees' Retirement Plans of Reynolds Metals Company and Subsidiary Companies

Notes to Financial Statements

December 31, 2009 and 2008

Level 2 - Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data correlation or other means.

If the assets or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in methodologies used at December 31, 2009 and 2008.

Cash and Cash Equivalents – Includes investments in U.S. government securities with maturities less than one year and commingled funds. The commingled funds are valued at cost which approximates fair value. Investments in U.S. government securities are valued at fair value, as determined by the trustee through independent sources, which approximates the last reported closing price on the last business day of the year.

Fixed Income Securities – Investments in publicly traded domestic and foreign fixed interest obligations (principally corporate bonds and debentures along with U.S. government securities with maturities of one year or greater). Valued by a pricing service which determines valuations of normal institutionalized trading units of such securities using methods based on market transactions for comparable securities and various relationships between securities which are generally recognized by individual traders, or at fair value as determined in good faith by the Trustee of the Trust.

Equity Securities – Common Stocks and Futures Contracts – Valued at the closing price reported on the active market on which the individual securities are traded.

Equity Securities – Commingled Trust Funds – Valued at the net asset value ("NAV") of shares held by the Plans at year end.

Alternative Investments – Estimated at fair market value which considers, but is not limited to fair values reported by the investment advisor, audited financial statements, and independently appraised values. In the event that audited financial statements for these investments are not available in time to prepare the financial statements or management believes the value reported by the investment advisor does not accurately reflect fair value due to an event in the market place, management will adjust the reported value to fair value based upon information provided by the investment manager and independent valuation experts.

**Employees' Retirement Plans of Reynolds Metals Company
and Subsidiary Companies**
Notes to Financial Statements
December 31, 2009 and 2008

Gold Trust – Exchange Traded Fund - Valued at the NAV of shares held by the Plans at year end.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Master Trust's assets at fair value as of December 31, 2009 and 2008.

Notes to Financial Statements

December 31, 2009 and 2008

The Master Trust uses the NAV to determine the fair value of all of the underlying investments which (a) do not have a readily determinable fair value and (b) either have the attributes of an investment company or prepare their financial statements consistent with the measurement principals of an investment company.

Category of Investment	Investment Strategy	December 31, 2009 Fair Value	Unfunded Commitments	Remaining Life	Redemption Restrictions and Terms

5. Accumulated Plan Benefits

Accumulated plan benefits are those future benefit payments that are attributable, under each Plan's provisions, to employees' service rendered to the benefit information date. Accumulated plan benefits comprise benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of deceased employees, and (c) present employees or their beneficiaries.

The actuarial present value of accumulated plan benefits is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment. The Plans' actuary made this determination.

Based upon actuarial estimates at January 1, 2009, the present value of accumulated plan benefits for the Plans included in the Master Trust is as follows:

	Actuarial Present Value of Accumulated Plan Benefits at January 1, 2009			
	Vested Benefits Participants Currently Receiving Benefits	Other Vested Benefits	Nonvested Benefits	Total Present Value of Accumulated Plan Benefits
Reynolds Hourly Plan	\$ 7,508,889	\$ 2,990,424	\$ 65,748	\$ 10,565,061

6. Tax Status

The Internal Revenue Service has determined and informed the Company that the Plans and related trust are designed in accordance with applicable sections of the IRC. The Plans have been amended since receiving the determination letters. However, the Plans' administrator and tax counsel believe that the Plans are designed and are currently being operated in compliance with the applicable requirements of the IRC.

Determination letters received were dated as follows:

Reynolds Hourly Plan	September 9, 2002
Reynolds Merged Plan	March 22, 2001
Southern Graphics Plan	September 12, 2002
Presto Products Plan	September 19, 2007

7. Information Certified by Trustee

The information included in the Plans' financial statements and Note 3 was prepared by Bank of New York Mellon, the Trustee of the Plans, as of and for the years ended December 31, 2009 and 2008 and furnished to the plan administrator. The plan administrator has obtained a certification from the Trustee that such information is complete and accurate in accordance with Section 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA:

- Statements of Individual Plan Net Assets Available for Benefits – investments at fair value except for the alternative investments of \$712,101,873 and \$675,038,901 identified in Note 3 as of December 31, 2009 and 2008, respectively.
- Statements of Changes in Individual Plan Net Assets Available for Benefits – interest, dividends and net depreciation or appreciation in fair value of investments except for the net appreciation or depreciation in fair value of alternative investments of \$15,190,365 and \$(122,601,763) identified in Note 3 for years ended December 31, 2009 and 2008, respectively.

8. Related Party Transactions

At December 31, 2009 and 2008, the Plans are invested in funds managed by the trustee; therefore, these transactions qualify as party-in-interest transactions. The Master Trust also participates in a securities lending program with the trustee as described in Note 3, which qualifies as party-in-interest transactions.

9. Plan Specific Activities

Presto Products Plan

Effective February 29, 2008, Alcoa Inc. completed the sale of its Packaging and Consumer business to the Rank Group. As a result, on the date of sale, employees became ineligible to participate in the Presto Products Plan. Only deferred vested and retirees remain in the Presto Products Plan. In addition, a significant number of Presto Products Plan participants elected to take lump sum distributions. Additionally, Alcoa became the sponsor of the Presto Products Plan which will remain in the Alcoa Master Trust.

Reynolds Merged Plan, Southern Graphics Plan and Presto Products Plan

Effective December 31, 2008, the Reynolds Merged Plan, Southern Graphics Plan and Presto Products Plan merged into the Alcoa Home Exteriors, Inc. Pension Plan. The Alcoa Home Exteriors, Inc. Pension Plan will be the surviving plan and on January 1, 2009 was renamed the Alcoa Subsidiaries Merged Inactive Pension Plan. Assets and accumulated benefits were transferred to the Alcoa Subsidiaries Merged Inactive Plan as follows:

	Assets	Accumulated Benefits
Reynolds Merged Plan	\$ 7,115,292	\$ 9,237,425
Southern Graphics Plan	12,459,324	16,764,602
Presto Products Plan	6,675,769	21,769,105
	<u>\$ 26,250,385</u>	<u>\$ 47,771,132</u>

Reynolds Hourly Plan

Effective December 31, 2009, the Reynolds Hourly Plan merged into the Alcoa Subsidiaries Merged Inactive Plan. Assets of \$7,962,105 and accumulated benefits of \$10,555,252 were transferred to the Alcoa Subsidiaries Merged Inactive Plan.

10. Commitments and Contingencies

The Alcoa Master Trust has capital commitments of \$324,600,000 and \$375,500,000 at December 31, 2009 and 2008, respectively, in relation to additional funding for Limited Partnerships in which it invests.

11. Subsequent Events

Management has evaluated the events and transactions that have occurred through October 1, 2010, the date the financial statements were available to be issued, and noted no items requiring adjustment of the financial statements or additional disclosures.

This age is derived by applying, for an employee with the characteristics of an average new entrant to the plan, the following formula, modified so that the “½” is not used for $t = \text{FRA} - \text{ERA}$.

$$\sum_{t=0}^{\text{FRA}-\text{ERA}} ({}_t p_{\text{ERA}}) * (q_{\text{ERA}+t}^r) * (\text{ERA} + t + \frac{1}{2})$$

$$\sum_{t=0}^{\text{FRA}-\text{ERA}} ({}_t p_{\text{ERA}}) * (q_{\text{ERA}+t}^r)$$

where FRA = age everyone is assumed to retire
 ERA = earliest retirement age
 ${}_t p_{\text{ERA}}$ = probability of surviving to age ERA + t
 $q_{\text{ERA}+t}^r$ = probability of retiring at age ERA + t

RETIREMENT FROM DEFERRED VESTED STATUS: Former employees are assumed to retire at Normal Retirement Age or the earliest age eligible for unreduced benefits.

FUTURE EXPENSES: Have been included in the normal cost based on prior year experience.

FORM OF PAYMENT: 95% of those assumed married elect the 50% Joint and Survivor benefit. All others elect the life annuity benefit.

ASSET VALUATION METHOD: Two-year average of adjusted market values. This method spreads asset gains/(losses) over a two year period on an annual basis. The gain/(loss) for each period is determined as the actual return during the period less the expected return based on an assumed earnings rate chosen by the actuary but required by PPA to be not greater than the applicable third segment rate. The discounted value of accrued contributions, if any, is included in the valuation assets. The resulting value is constrained to be within a corridor of 90% to 110% of market value.

VALUATION METHOD: The Funding Target is the present value of accrued benefits and based on compensation and service to date. The Target Normal cost is the present value of benefits expected to be accrued during the current plan year, including the effect of expected compensation increases during the year.

MISCELLANEOUS: The valuation was prepared on a going-plan basis; therefore, no allowance has been made for certain additional liabilities which may arise if some or all of the units of the Company are closed down. The valuation was based on participants in the Plan as of the valuation date and those employees who would be participants of the Plan except for the provision that the employee be at least age 21 with 1 year of service. The valuation did not take future participants into account. No provision has been made for contingent liabilities with respect to nonvested terminated participants who may be reemployed.
