INDEPENDENT AUDITORS' REPORT

The Trustees
Westchester Modular Homes, Inc. Employee Stock Ownership Plan:

Opinion

We have audited the accompanying financial statements of Westchester Modular Homes, Inc. Employee Stock Ownership Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits as of December 31, 2021 and 2020, the related statements of changes in net assets available for benefits for the years then ended, and the related notes to financial statements.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of Westchester Modular Homes, Inc. Employee Stock Ownership Plan as of December 31, 2021 and 2020, and changes in net assets available for benefits for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments; administering the Plan; and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedule Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of assets (held at end of year), is presented for the purpose of additional analysis and is not a required part of the financial statements, but is supplemental information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of the management and was derived

from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with generally accepted auditing standards.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

WESTCHESTER MODULAR HOMES, INC.
EMPLOYEE STOCK OWNERSHIP PLAN

Notes to Financial Statements

December 31, 2021 and 2020

(1) Plan Description

The following description of the Westchester Modular Homes, Inc. Employee Stock Ownership Plan (the Plan) is provided for general information purposes only. Participants should refer to the Plan agreement for complete information.

Westchester Modular Homes, Inc. (the Company) established the Plan which was adopted effective as of January 1, 2000. The Plan operates as a unleveraged Employee Stock Ownership Plan (ESOP), and is designed to comply with Section 4975(E)(7) and the regulations thereunder of the Internal Revenue Code of 1986, as amended (IRC), and is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA). The Plan is administered by an Employee Benefits Administration Committee comprising of six persons appointed by the Board of Directors of the Company. Charles W. Hatcher is the Plan's Trustee.

The Plan purchased 100% of the Company's common stock through a promissory note issued by the ESOP to a selling shareholder. That loan was paid in full on December 31, 2019. As the Plan makes each payment of principal, an appropriate percentage of stock was allocated to eligible employees accounts in accordance with applicable regulations under the Code. Shares vest on a seven year vesting schedule prior to January 1, 2020. Effective January 1, 2021, vesting is based on a six year vesting schedule.

(a) Eligibility

Employees of the Plan and its participating subsidiaries are generally eligible to participate in the Plan retroactively to the first day of the Plan year (each January 1st) during the Plan year in which you first complete 1,000 hours of service, provided you have attained age eighteen (18). Participants who do not have at least 1,000 hours of service during such Plan year or are not employed on the last working day of a Plan year are generally not eligible for an allocation of Plan contributions for such year.

(b) Contributions

The Company was obligated to make contributions in cash to the Plan which, when aggregated with the Plan's dividends and interest earnings, equaled the amount necessary for the Plan to make its regularly scheduled payments of principal and interest that were due on the loan. Employee contributions are not permitted by the Plan.

(c) Payment of Benefits

No distributions from the Plan will be made until a participant retires, dies (in which case, payment shall be made to his or her beneficiary or, if none, his or her legal representatives), or otherwise terminates employment with the Plan and its participating subsidiaries. Notwithstanding the other provisions, the Plan shall not be required to distribute any employee securities acquired with the proceeds of a securities acquisition loan until the close of the Plan year in which such securities acquisition loan has been repaid in full.

(1) Plan Description, Continued

(d) Operating Expenses

All expenses of maintaining the Plan are paid by the Plan except direct investment fees, which are paid from the income earned on investments.

(e) Voting Rights

Each participant shall be entitled to direct the voting of any voting shares of Company stock allocated to their Company stock account with respect to any vote required for the approval or disapproval of any corporate merger or consolidation, recapitalization, reclassification, liquidation, dissolution or sale of substantially all the assets of a trade or business. In accordance with instructions from the Plan committee, the Trustee shall vote any unallocated shares held by the trust as well as any allocated shares for which a participant has failed to give timely voting direction.

(f) Participant Accounts

The Plan is a defined contribution plan under which a separate individual account is established for each participant. Each participant's account is credited as of the last day of each Plan year with an allocation of shares of the Company's common stock released by the Trustee from the unallocated account and forfeitures of terminated participants' non-vested accounts. Only those participants who are eligible employees of the Company as of the last day of the Plan year will receive an allocation. Allocations are based on a participant's eligible compensation, relative to total eligible compensation.

(g) Vesting

If a participant's employment with the Company ends for any reason other than retirement, permanent disability or death, he or she will vest in the balances in his or her account based on total years of service with the Company. Participants vest 20% per year of service starting in the second year and are 100% vested after six years of service.

(h) Put Option

Under Federal income tax regulations, the Company common stock that is held by the Plan and its participants and is not readily tradable on an established market, or is subject to trading limitations, includes a put option. The put option is a right to demand that the Plan buy any shares of its stock distributed to participants for which there is no market. Company put price is representative of the fair market value of the stock. The Company can pay for the purchase with interest over a period of five years. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash.

(1) Plan Description, Continued

(i) Diversification

Diversification is offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in Company common stock into investments which are more diversified. Participants who are at least age 55 with at least 10 years of participation in the Plan may elect to diversify a portion of their account. Diversification is offered to each eligible participant over a six year period. In each of the first five years, a participant may diversify up to 25% of the number of post-1986 shares allocated to his or her account, less any shares previously diversified. In the sixth year, the percentage changes to 50%. Participants who elect to diversify receive a cash distribution.

(j) Participant Accounts and Forfeitures

Employer contributions and Plan forfeitures are allocated to each participant's account based upon the relation of the participant's compensation to total compensation for the Plan year. Forfeitures of terminated non-vested account balances allocated to remaining participants at December 31, 2021 and 2020 amounted to $10,038 and $32,443, respectively. Plan earnings are allocated to each participant's account based on the ratio of the participant's beginning of the year account balance to all participant's beginning of the year account balances.

(2) Summary of Significant Accounting Policies

(a) Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

(b) Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts of assets, liabilities and changes therein, and disclosures of contingent assets and liabilities. Accordingly, actual results may differ from those estimates.

(c) Allocations

The financial statements of the Plan present separately the assets and liabilities and changes therein pertaining to: (a) the accounts of employees with rights in allocated stock (allocated) and (b) stock not yet allocated to employees (unallocated), including shares that are committed to be released. Shares are released from collateral and become allocated generally in the period in which the debt service is actually paid.

(2) Summary of Significant Accounting Policies, Continued

(d) Investment Valuation and Income Recognition

The Plan's investments are reported at fair value. Fair value is the price that would be received from the sale of an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See note 4 for a discussion of the fair value measurements. Dividends are recorded on the ex-dividend date. Purchases and sales of investments are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held at the end of the year.

(e) Payments of Benefits

Benefits are recorded when they are paid out to participants.

(f) Subsequent Events

The Plan has evaluated subsequent events through the date of the report which is the date the financial statements were available to be issued.

(3) Investments

The Plan's investment in the Company's allocated common stock shares at December 31, 2021 and 2020 is as follows:

	2021	2020
Number of shares	2,202,247	2,202,247
Cost	$ 19,600,000	19,600,000
Estimated fair value	$ 50,431,456	41,292,131

(4) Fair Value Measurements

A framework has been established for measuring fair value. The framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities. (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability; and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

(4) Fair Value Measurements, Continued

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following tables present fair value measurement information for the Plan's assets at fair value as of December 31, 2021 and 2020:

	2021	2020
Investment in Company common stock	$ 50,431,456	41,292,131
Money market funds and cash	832,100	1,482,603
Corporate bonds	640,828	299,300
U.S. government obligations	10,272,306	8,160,048
Common stocks	9,556,134	8,865,392
Exchange-traded and closed-end funds	2,372,130	1,510,336
	$ 74,104,954	61,609,810

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2021 and 2020.

- Investment in Company common stock - Valued based on an independent appraisal using the capitalization of cash flows.
- Money market funds and cash - Valued at the daily closing price as reported by the fund. The money market fund is an open-end mutual fund that is registered with the SEC. This fund is required to publish its net asset value (NAV) and to transact at that price. The money market fund is deemed to be actively traded.
- Corporate bonds - Valued using pricing models maximizing the use of the unobservable inputs for similar securities. This includes basing value on yields currently available on comparable securities of issuers with similar credit ratings.
- U.S. Government obligations, including U.S. Treasury obligations and mortgage backed securities - Valued using pricing models maximizing the use of the unobservable inputs for similar securities.
- Common stocks, exchange-traded and closed-end funds - Valued at the closing price reported by the fund. These funds are required to publish their NAV and transact at that price. The exchange-traded and closed-end funds held by the Plan are deemed to be actively traded.

(4) Fair Value Measurements, Continued

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2021 and 2020:

The following table shows a reconciliation for all Level 3 assets measured at fair value for the years ended December 31, 2021 and 2020:

	2021	2020
Fair value at beginning of year	$ 41,292,131	43,714,603
Net unrealized appreciation (depreciation) in market value	9,139,325	(2,422,472)
Fair value at end of year	$ 50,431,456	41,292,131

(5) Tax Status

The Internal Revenue Service (IRS) has determined and informed the Plan by a letter dated January 19, 2016, that the Plan is qualified and the trust established under the Plan is tax exempt, under the appropriate sections of the IRC. The Plan has been amended since receiving the determination letter. However, the Plan administrator believes the Plan is currently designed, and being operated, in compliance with the applicable requirements of the IRC. Therefore, they believe that the Plan was qualified and the related trust was tax exempt as of the financial statement date.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

(6) Employer Contributions and Company Dividends

The Company was to make contributions and S-Corporation distributions in cash to the Plan which, when aggregated with the Plan's dividends and interest earnings, equaled the amount necessary to enable the Plan to make its regularly scheduled payments of principal and interest due on its promissory note.

The Company paid a dividend to the Plan of $1.59 and $.74 per share amounting to $3,506,569 and $1,630,028 during the years ended December 31, 2021 and 2020, respectively. Employer contributions amounted to $993,431 and $969,972 during the years ended December 31, 2021 and 2020, respectively.

(7) Related Party and Party In Transactions

The Plan invests in Company common stock which is a related party and party in interest transaction. As described in note 8, the Company pays for a portion of Plan expenses. The Plan has a number of service provides, such providers are parties in interest under ERISA.

(8) Administration of Plan Assets

The Plan's assets, which consist principally of Company common shares, are held by the Trustee of the Plan.

Plan contributions are held and managed by the Trustee, which invests cash received, interest and dividend income and market distributions to participants. The Trustee also administered the payment of interest and principal on the loan, which was reimbursed to the Trustee through S-Corporation distribution as determined by the Plan.

(8) Administration of Plan Assets, Continued

Certain administrative functions are performed by officers or employees of the Company or its subsidiaries. No such officer or employee receives compensation from the Plan. Administrative expenses of the Plan will be paid by the Company if they are not paid by the Plan. For the years ended December 31, 2021 and 2020, the Company paid $43,236 and $38,151, respectively, in administrative expenses on behalf of the Plan.

(9) Risks and Uncertainties

The Plan investments in various investments. Investments are exposed to various risks such as interest rate, market and credit risks, as well as valuation assumptions based on earnings, cash flows or other such techniques. Due to the level of risk associated with certain investments, and to uncertainties inherent in estimates and assumptions, it is at least reasonably possible that changes in the value of investments will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

The United States is presently in the midst of a national health emergency related to the COVID-19 virus. The overall consequences on a national, regional and local level are unknown, but have the potential to result in a significant economic impact. The impact of this situation on the Plan and its future results and net assets available for benefits is not presently determinable.

(10) Plan Termination

The Company reserves the right to terminate the Plan at any time, subject to Plan provisions. Upon termination of the Plan, the Employee Benefits Administration Committee directs the Trustee to pay all liabilities and expenses of the ESOP and to sell the shares of the financed common stock (if any) held as collateral to the extent it determines such sale to be necessary in order to repay the loan. Subsequently, the interest of each participant in the trust fund will be distributed to such participant or his or her beneficiary at the time prescribed by the Plan terms and IRC.
