Comprehensive Pharmacy Services, Inc. and Affiliates 401(k) Plan

Notes to Financial Statements

December 31, 2009 and 2008

1. Plan Description

The following description of the Comprehensive Pharmacy Services, Inc. and Affiliates 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Summary Plan Description for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all of the employees of PPS, Inc. and its subsidiaries (Comprehensive Pharmacy Services, Inc. ("CPS"), Institutional Pharmacy Services, Inc. ("IPS"), Medication Management ("MM") and Medication Management Puerto Rico ("MMPR")) (the "Company" or "Employer"). During April 2008, the Company purchased MM and MMPR and in accordance with Plan requirements, all employees became eligible to participate in the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

All employees are eligible to participate immediately upon hire; however, to participate in the Company match the employee must have been employed for six months and worked 1,000 hours. Additionally, employees are required to be employed at year end to be eligible to receive the match.

Contributions and Vesting

Each year participants may contribute up to maximum allowable amount of their pre-tax annual compensation, as defined in the Plan, subject to certain Internal Revenue Code limitations. The contributions made by participants are 100% vested. Employer match contributions are discretionary.

Effective January 1, 2009, the Plan was amended to include a safe harbor matching contribution in which all employees as of December 31, 2009, were eligible to receive. The Company provides an employer match of 100% on the employee's deferral amount for up to 3% of the employee's annual compensation, after that, the Company provides an employer match of 50% on the dollar on the employee's deferral amount in excess of 3% for up to 5% of the employee's annual compensation. Employees are 100% invested in the safe harbor match immediately. Participants who have reached the age of 50 before the end of the Plan year are eligible to make catch-up contributions.

1. Plan Description (continued)

Contributions and Vesting (continued)

For those employer contributions that were made prior to January 1, 2009, the employee will still vest at the vesting schedule established by the previous Plan agreements.

Also prior to January 1, 2009, participants employed by CPS and IPS were provided an Employer 50% match contribution up to 4% of compensation contributed by the participant as a 401(k) salary deferral and participants employed by MM and MMPR were provided an Employer 100% match contribution up to 3% of compensation and an Employer 50% match contribution of an additional 2% of compensation contributed by the participant as a 401(k) salary deferral. Participants employed by CPS and IPS vest in Employer match contributions made prior to January 1, 2009, on a graduated scale and are fully vested after 5 years of qualified employment. Participants employed by MM and MMPR are immediately 100% vested in the Employer matching contributions.

Investment Options

Participants may specify the manner in which their own contributions and their allocated portion of Company matching contributions are invested. Investment options include several common/collective trust funds managed by Diversified Investment Advisors, Inc. ("Diversified"), and other self-directed investments in Vanguard mutual funds and a Schwab retirement account.

Participant Accounts

Individual accounts are maintained for each Plan participant. The Plan offers participant-directed investment options. Each participant's account is credited with the participant's contribution, the Company's matching contribution, and Plan earnings, and charged with withdrawals (such as participant loans) and an allocation of the Plan's losses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Payment of Benefits

On termination of service due to death, disability, or retirement, a participant may elect to receive a lump-sum amount equal to the value of the participant's vested interest in his or her account, annual installments over a period of time not to exceed the life expectancy of the participant or the joint life expectancy of the participant and his or her designated beneficiary, or an annuity for the life of the participant or any other permitted period. For termination of service for other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

1. Plan Description (continued)

Participant Loans

Participants may borrow from their accounts a minimum of $1,000 up to a maximum of (a) the lesser of 50% of the vested account balance or (b) $50,000 less the amount of the participant's outstanding loan balance in the previous 12 months. The loans are secured by the balance in the participant's account and bear interest at the prime rate in effect at the date of the loan. Principal and interest are paid ratably through monthly payroll deductions.

Forfeitures

Forfeitures are used to reduce future Employer contributions. For 2009 and 2008, $45,004 and $23,035, respectively, were used to reduce contributions. At December 31, 2009 and 2008, there was $45,004 and $27,361, respectively, in forfeited accounts available for future use.

2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting in conformity with accounting principles generally accepted in the United States of America.

Significant Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts of assets, liabilities, and changes therein and disclosure of contingent assets and liabilities. Accordingly, actual results may differ from estimates.

Payment of Benefits

Benefits are recorded upon distribution.

Administrative Expenses

The Plan's administrative expenses are paid by either the Plan or the Employer, as provided by the Plan document. Certain administrative functions are performed by employees of the Employer. No such employee receives compensation from the Plan.

2. Summary of Significant Accounting Policies (continued)

Investment Valuation and Income Recognition

Investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchase and sales of securities are recorded on a trade-date basis. Interest income is recorded on an accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Subsequent Events

The Plan has evaluated subsequent events through October 4, 2010, which is the date of the financial statements were available to be issued.

3. Information Certified by the Trustee (Unaudited)

The Plan's investment balances and income information was certified as complete and accurate by State Street Bank and Trust Company, the trustee of the Plan, at December 31, 2009 and 2008.

	2009	2008
Total investments	$ 23,267,989	$ 13,350,919

In 2009 and 2008, the Plan's investments appreciated (depreciated) by $3,883,582 and ($4,660,602), respectively. Interest income in 2009 and 2008 was $21,240 and $22,522, respectively.

The certification mentioned above includes all investment information discussed in Note 4 and in the Supplemental Schedule of Assets (Held at End of Year).

Investments greater than 5% of net assets available for benefits as of December 31, 2009 and 2008 were as follows:

	2009	2008
Transamerica Money Market Fund	$ 1,173,810*	$ 1,000,140
Transamerica Short Horizon Fund	1,164,052*	1,014,365
Transamerica Intermediate Horizon Asset Allocation Fund	6,095,594	2,795,363
Transamerica Large Growth Fund	1,654,410	452,985 *
Transamerica Stock Index Fund	2,553,460	1,670,292
Transamerica Intermediate/Long Horizon Asset Allocation Fund	1,425,630	982,618

* Did not exceed 5% for the Plan year.

4. Fair Value of Financial Instruments

The Financial Accounting Standards Board issued a statement that defines fair value and establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The Plan utilizes market data or assumptions that market participants would use in pricing the asset or liability. The three levels of the fair value hierarchy are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurements. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2009 and 2008.

Self-directed Accounts

These investment accounts allow participants to invest in a variety of securities, including stocks, bonds and U.S. government securities. The fair value of the fund is based on the value of the underlying investments, which is generally based on the closing price reported on the active market on which the individual securities are traded. Classification within the valuation hierarchy is based on the underlying investments' classification. The underlying investments are classified within Level 1 of the valuation hierarchy.

4. Fair Value of Financial Instruments (continued)

Mutual Funds

These investments are public investment vehicles valued using the Net Asset Value ("NAV") provided by the administrator of the fund. The NAV is based on the value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of shares outstanding. The NAV is a quoted price in an active market and classified within Level 1 of the valuation hierarchy.

Common/Collective Investment Trusts

These investments are public investment vehicles valued using the NAV provided by the administrator of the fund. The NAV is based on the value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of units outstanding. The NAV is classified within Level 2 of the valuation hierarchy because the NAV's unit price is quoted on a private market that is not active; however, the unit price is based on underlying investments which are traded on an active market.

Loans to Participants

Loans to participants are valued at amortized cost, which approximates fair value and are classified within Level 3 of the valuation hierarchy.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

4. Fair Value of Financial Instruments (continued)

The following table sets forth the Plan's assets by level within the fair value hierarchy as of December 31, 2009 and 2008:

The table below sets forth a summary of changes in the fair value of the Plan's Level 3 assets for the years ended December 31, 2009 and 2008:

Issuances and settlements (net)	54,913
Fair value at December 31, 2008	340,772

4. Fair Value of Financial Instruments (continued)

Gains and losses (realized and unrealized) included in the changes in net assets for the period above are reported in net appreciation/depreciation in fair value of investments in the statement of changes in net assets available for benefits.

5. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their accounts. Any unallocated assets of the Plan shall be allocated to participant accounts and distributed in such a manner as the Company may determine.

6. Exempt Party-in-Interest Transactions

The recordkeeper for the Plan is Diversified, who also provides investment services which qualify as party-in-interest transactions. Participant loans also qualify as party-in-interest transactions. State Street is the trustee of the Plan, and therefore investment services with them qualify as party-in-interest transactions.

7. Tax Status

The Plan has not obtained a determination letter from the Internal Revenue Service (the "IRS") stating that the Plan was in compliance with applicable requirements of the Internal Revenue Code ("IRC"). The Plan is relying on the IRS approval of the Prototype Defined Contribution Plan that it is utilizing. The prototype plan obtained its latest determination letter on July 7, 2010, in which the IRS stated that the Plan, as then designed, was in compliance with the applicable requirements of the IRC. The Plan has been amended since receiving the determination letter; however, the Company and the Plan Administrator believe that the Plan is currently designed and operated in compliance with the applicable requirements of the IRC and the Plan continues to be tax-exempt. The Plan has determined that it does not have any material unrecognized tax benefits or obligations as of December 31, 2009, and there are no interests and penalties related to income tax assessments.

8. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the financial statements.
