INDEPENDENT AUDITOR'S REPORT

To the Plan Administrator of
Boston University Supplemental Retirement and Savings Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit for the 2021 Financial Statements
We have performed an audit of the financial statements of Boston University Supplemental Retirement and Savings Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statement of net assets available for benefits as of December 31, 2021, and the related statement of changes in net assets available for benefits for the year then ended, and the related notes to the financial statements (2021 Financial Statements).

Management, having determined it is permissible in the circumstances, has elected to have the audit of the Plan's 2021 financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audit need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institutions).

Management has obtained a certification from qualified institutions as of and for the year ended December 31, 2021, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion on the 2021 Financial Statements
In our opinion, based on our audit and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the 2021 Financial Statements section-

- the amounts and disclosures in the accompanying 2021 financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

- the information in the accompanying 2021 financial statements related to assets held by and certified to by qualified institutions agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion on the 2021 Financial Statements

We conducted our audit in accordance with auditing standards generally accepted in the United States of America ("GAAS"). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the 2021 Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the 2021 Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments; administering the plan; and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the 2021 Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit of the 2021 Financial Statements section of our report, our objectives are to obtain reasonable assurance about whether the 2021 financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.

INDEPENDENT AUDITOR'S REPORT (CONTINUED)

Auditor's Responsibilities for the Audit of the 2021 Financial Statements (continued)

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audit did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the 2021 financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matters

2021 Supplemental Schedule Required by ERISA

The supplemental schedule of Schedule H, Line 4i – Schedule of Assets (Held at End of Year) as of December 31, 2021 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements.

INDEPENDENT AUDITOR'S REPORT (CONTINUED)

Other Matters (continued)

2021 Supplemental Schedule Required by ERISA (continued)

The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion—

- the form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplemental schedule related to assets held by and certified to by qualified institutions agrees to or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Auditor's Report on the 2020 Financial Statements

We were engaged to audit the 2020 financial statements of Boston University Supplemental Retirement and Savings Plan. As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the plan administrator instructed us not to perform and we did not perform any auditing procedures with respect to the information certified by qualified institutions. In our report dated September 16, 2021, we indicated that (a) because of the significance of the information that we did not audit, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion and accordingly, we did not express an opinion on the 2020 financial statements, and (b) the form and content of the information included in the 2020 financial statements other than that derived from the certified information were presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

BOSTON UNIVERSITY SUPPLEMENTAL RETIREMENT AND SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS
December 31, 2021 and 2020

Note 1 **Description of Plan**

The Boston University Supplemental Retirement and Savings Plan (the "Plan"), is sponsored by the Trustees of Boston University (the "University").

The following description of the Plan provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution benefit plan established to provide certain employees of the University with retirement benefits in accordance with Section 403(b) of the Internal Revenue Code ("IRC"). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Eligibility

All employees of the University, other than employees that are students at the University, are eligible to participate in the Plan on his/her first day of employment.

Newly eligible employees (as defined) are automatically enrolled in the Plan with eligible salary deferral contributions of 3%. Participants who subsequently elect to discontinue their elective deferrals are again automatically enrolled with eligible salary deferral contributions of 3% when they are determined, by the University, to have met the service requirements for participation in the Boston University Retirement Plan. Employees become eligible for the Boston University Retirement Plan upon completing two years of service. Participants may cancel, modify, or otherwise change the automatic election at any time.

Participant contributions

Eligible participants may make voluntary contributions through salary reductions from 1% to 100% of their eligible compensation, as defined, limited to the maximum amount allowable under the provisions of the IRC ($19,500 in 2021). Further, participants who are 50 years of age or older as of December 31, 2021 may contribute an additional "catch up" contribution ($6,500 in 2021). The Plan also allows rollover contributions from other qualified plans, as defined in the Plan document.

Participants direct the investment of their contributions into various investment options offered by the Plan at both Fidelity Management Trust Company ("Fidelity") and Teachers Insurance and Annuity Association of America ("TIAA"). Effective July 1, 2021, the Plan was amended to cease contributions into the various investment options offered by TIAA. Participants that have accounts with TIAA may continue to maintain their accounts with TIAA. The Plan currently offers various mutual funds, a pooled separate account, money market funds, variable annuity accounts, annuity contracts, brokerage funds and fully benefit responsive investment contracts as investment options for participants.

Note 1 **Description of Plan (continued)**

Participant contributions (continued)

In addition, the Plan enables participants to defer funds into a "Roth 403(b) deferral". These deferrals are subject to income tax, and the maximum allowable combined contributions of the Roth 403(b) and pre-tax deferrals is $19,500.

Participants' accounts

Each participant's account is credited with its respective contribution and allocation of Plan earnings or losses.

Vesting

Participants are immediately vested in their voluntary contributions and actual earnings thereon.

Payment of benefits

Upon termination of employment, retirement, death or disability the participant or the participant's beneficiary is entitled to receive the vested portion of the participant's account in a single lump-sum, in the form of installment or annuity payments, as defined, or in a rollover distribution in accordance with the Internal Revenue Service ("IRS") regulations and Plan provisions. Further, withdrawals from the Plan before leaving the University are available for special "hardship" reasons, as defined in the plan document, or after attaining the age of 59½. Distributions to participants are recorded when paid.

During the year ended December 31, 2020, the Plan adopted the distribution provisions of the Coronavirus Aid, Relief, and Economic Security ("CARES") Act. A CARES act distribution allows certain eligible participants to take a coronavirus related distribution up to $100,000 from the Plan retroactive to January 1, 2020 and through December 30, 2020. The Plan has not been formally amended to reflect these provisions, Plan amendments related to coronavirus related distributions must be adopted by December 31, 2025.

Notes receivable from participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2021 and 2020. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Participants may borrow up to 50% of their Fidelity account balance with a minimum of $1,000 and maximum of $50,000. Notes receivable from participants are subject to the approval of the plan administrator and bear interest at market rates for similar types of loans. Loan terms range from one to five years. However, if the loan is to acquire the principal residence of the participant, the term may be extended to 15 years. Notes receivable are secured by the balance in the participant's account. Principal and interest is paid monthly or quarterly directly by the participant.

Note 1 **Description of Plan (continued)**

Notes receivable from participants (continued)

Through January 31, 2019, Participants who borrowed on their TIAA account balance are granted a loan directly from TIAA. Effective February 1, 2019, participants who borrow on their TIAA account balance are granted a loan from the Plan. Participants may borrow up to 50% of their vested account balance with a minimum of $1,000 and maximum of $50,000.

Loans bear interest at the rate determined under TIAA's loan policy. Loan terms range from one to five years. However, if the loan is to acquire the principal residence of the participant, the term may be extended to 10 years. Principal and interest is paid ratably, directly by the participant.

For loans directly from TIAA, a portion of the participant's account balance is reserved, or held as collateral, to cover the outstanding loan amount for the period of time the loan is outstanding. At December 31, 2021 and 2020, participants had outstanding Plan loan balances due to TIAA of $349,643 and $578,860, respectively.

During the year ended December 31, 2020, the Plan adopted the loan provisions of the CARES Act, effective for participant loans initiated on or after March 27, 2020 and before September 23, 2020. The CARES Act provided Plan participants with the option to borrow 100% of their account balance, up to a maximum of $100,000. Participants also have the option of suspending loan payments due between March 27, 2020 and December 31, 2020 for up to one year, however, originally scheduled payments must resume beginning on January 1, 2021. The Plan has not been formally amended to reflect these provisions, Plan amendments related to participant loans taken under the CARES Act must be adopted by December 31, 2025.

Other income

Certain mutual fund, variable annuity account and pooled separate account expenses that are charged by the mutual fund companies to the individual participants are recaptured by the Plan and held in money market accounts. These funds are then used to pay for expenses of the Plan that benefit the Plan participants, as approved by the IRS, Department of Labor and ERISA. As of December 31, 2021 and 2020, the balance in these accounts amounted to $35 and $34 respectively, and is invested in money market funds. During the year ended December 31, 2021, total funds recaptured amounted to $589,703, and are included as other income in the accompanying statement of changes in net assets available for benefits.

Note 2 **Summary of significant accounting policies**

The following is a summary of significant accounting policies followed by the Plan.

Basis of accounting

The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Note 2 **Summary of significant accounting policies (continued)**

Investment valuation and income recognition

Accounting standards require investments, including non-benefit-responsive investment contracts, held by a defined-contribution plan, to be reported at fair value and fully benefit-responsive investment contracts to be recorded at contract value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

The Plan's sponsor determines the Plan's valuation policies utilizing information provided by the investment advisors and custodians. See Note 9 for a discussion of fair value measurements.

Realized gains and losses on investments sold and the unrealized appreciation and depreciation of investments held are reported on an average current cost basis, based on fair market value of the investments at the beginning of the plan year or at the time of purchase during the plan year. Purchases and sales of securities are recorded on a trade-date basis. Interest is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Administrative expenses

The University may, at its discretion, pay certain expenses incidental to administering the Plan. In the event the University does not pay all or part of such expenses, the expenses shall be paid by the Plan.

Use of estimates

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires Plan management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Fair value

Accounting standards provide a common definition of fair value and establish a framework to make the measurement of fair value in generally accepted accounting principles more consistent and comparable. Accounting standards also require expanded disclosures to provide information about the extent to which fair value is used to measure certain financial and non-financial assets and liabilities, the methods and assumptions used to measure fair value, and the effect of fair value measures on earnings. The Plan's financial assets reflected in the financial statements at fair value include its investments (see Note 9).

Subsequent events

The Plan has evaluated subsequent events through October 14, 2022, which is the date the financial statements were available to be issued.

Note 3 **Information certified by the custodians**

The University, acting in its capacity as the Plan Administrator, has elected the method of annual reporting permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. The investment assets, notes receivable from participants investment transactions, investment income, interest income on notes receivable from participants and other income presented in the Plan's financial statements and supplemental schedule was prepared or derived from information prepared by Fidelity and TIAA, the custodians, and furnished to the University. The University has obtained certifications from the custodians as of December 31, 2021 and 2020, and for the year ended December 31, 2021, that such information is complete and accurate. The amounts due from related plan of $19,825 and $142,354 as of December 31, 2021 and 2020, respectively, are not certified.

Note 4 **Tax status**

Retirement benefit plans in accordance with Section 403(b) of the IRC are not required to submit plans to the IRS for determination. However, the plan administrator believes that the Plan was designed and is being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

The Financial Accounting Standards Board has issued a standard regarding the accounting and recognition of income tax positions taken or expected to be taken by the Plan. The plan administrator assesses the tax positions taken by the Plan and has concluded that as of December 31, 2021, there are no uncertain tax positions taken or expected to be taken that would require recognition or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 5 **Related party transactions**

The outstanding balance due from related plan in the accompanying statements of net assets available for benefits, represents certain rollover contributions into the Boston University Retirement Plan during the year ended December 31, 2021 that are required to be deposited into the Boston University Supplemental Retirement and Savings Plan. Net transfers from related plan in the accompanying statement of changes in net assets available for benefits represent the transfer of certain participant funds from the Boston University Retirement Plan to the Boston University Supplemental Retirement and Savings Plan during the year ended December 31, 2021.

Certain Plan investments include shares of money market funds, mutual funds, the pooled separate account, variable annuity accounts, brokerage funds, annuity contracts and the fully benefit responsive investment contract managed by Fidelity and TIAA. Fidelity and TIAA are the custodians, as defined by the Plan, therefore, these transactions qualify as party-in-interest transactions.

Note 6 **Plan termination**

Although it has not expressed any intent to do so, the University has the right to terminate the Plan subject to the provisions of ERISA. In the event that the Plan terminates, all accounts will be valued as of the termination date, and all accounts will be distributed in full to participants.

Note 7 **Risks and uncertainties**

The Plan provides for various investment options in accounts which invest in investment securities. Investment securities are exposed to various risks such as interest rate, market and credit. Market risks include global events which could impact the value of investment securities. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that these changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits and the statement of changes in net assets available for benefits.

Note 8 **Fully benefit-responsive investment contracts**

The Plan invests a portion of its assets in a certain annuity contract with TIAA. The TIAA Traditional Annuity is a fixed rate annuity contract, a portion of which meets the fully benefit-responsive investment contract criteria and therefore is reported at contract value. Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan.

During the year ended December 31, 2021, the Plan invested a portion of its assets in a certain annuity contract with New York Life Insurance Company. The New York Life Guaranteed Interest Account is a variable rate annuity contract which meets the fully benefit-responsive investment contract criteria and therefore is reported at contract value. Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan.

The TIAA Traditional Annuity and New York Life Guaranteed Interest Account provide (during the accumulation phase) for guaranteed principal, a guaranteed minimum rate of interest and the potential for additional interest, as more fully described in the contractual agreement. Contract value represents contributions made under the contracts, plus earnings, less participant withdrawals and administrative expenses. When the contract value accumulation (plan asset) is converted to an annuity (plan withdrawal), based on certain actuarial assumptions, the present value of the stream of payments is equal to the accumulation.

Contract value represents contributions made under the contracts, plus earnings, less participant withdrawals and administrative expenses. When the contract value accumulation (plan asset) is converted to an annuity (plan withdrawal), based on certain actuarial assumptions, the present value of the stream of payments is equal to the accumulation.

Note 8 **Fully benefit-responsive investment contracts (continued)**

Certain events, such as the premature termination of the contract by the Plan or the termination of the Plan, would limit the Plan's ability to transact at contract value. The plan administrator believes the occurrence of such events that would limit the Plan's ability to transact at contract value with Plan participants is not probable.

Note 9 **Fair value measurements**

Accounting standards require that financial and non-financial assets and liabilities, recognized or disclosed in financial statements on a recurring basis (at least annually), be measured at fair value.

These standards define fair value as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date.

These standards also establish a fair value hierarchy which requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. These standards describe three levels of inputs that may be used to measure fair value:

Level 1 - Quoted prices in active markets for identical assets or liabilities that are accessible at the measurement date.

Level 2 - Observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities in active markets; quoted prices for similar assets or liabilities in markets that are not active; or model-derived valuations or other inputs that are observable or can be corroborated by observable market data for the assets or liabilities.

Level 3 - Unobservable inputs for the asset or liability that are significant to the fair value measurement. These inputs reflect the Plan's assumptions about the assumptions a market participant would use in pricing the asset or liability.

The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. Level 2 and Level 3 inputs are only used when higher level inputs are not available. The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurements.

Note 9 **Fair value measurements (continued)**

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2021 and 2020.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value ("NAV") and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Money market funds: Valued at the closing price reported by the fund sponsor from an actively traded exchange.

Variable annuity accounts: Valued using market quotations or prices obtained from independent pricing sources of the underlying investments, which include equity securities, fixed income instruments and other short-term investments. All values are determined daily.

Pooled separate accounts: The value reported by the fund sponsor is based on the market value of the underlying real estate holdings or other real estate-related investments. These investments are valued principally using external appraisals, which are estimates of property values based on a professional's opinion. The account sometimes holds securities, which are priced using values obtained from independent sources. The NAV of the units of the account is used as a practical expedient to estimate fair value.

TIAA non-benefit responsive traditional annuity contracts: Valued using a discounted cash flow value using a risk-based market discount rate.

MetLife non-benefit responsive fixed account annuity contracts: Valued using the current average crediting rate and the present value of payouts for new deposits.

Brokerage funds: Consists of both mutual funds, money market funds and equities. Mutual funds are valued at the daily closing price as reported by the fund. Mutual funds are open-ended funds that are registered with the Securities and Exchange Commission and deemed to be actively traded. These funds are required to publish their daily NAV and to transact at that price. Money market funds are valued at the closing price reported by the fund sponsor from an actively traded exchange. Equities are valued at the closing price as reported on the active market on which the individual securities are traded.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.
