Independent Auditor's Report

The Board of Trustees  
Spectrum Glass Company, Inc. Employees  
401(k) Pension Plan

We have audited the accompanying statements of net assets available for benefits of the Spectrum Glass Company, Inc. Employees 401(k) Pension Plan as of December 31, 2009 and 2008, and the related statements of changes in net assets available for benefits for the years then ended. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2009 and 2008, and the changes in its net assets available for benefits for the years then ended in conformity with accounting principles generally accepted in the United States of America.

401(k) PENSION PLAN  
Notes to Financial Statements  
December 31, 2009 and 2008

1. Description of the Plan -

- a. General - The Spectrum Glass Company, Inc. Employees 401(k) Pension Plan (The "Plan"), a defined contribution plan, was established on January 1, 1998 to provide retirement benefits for all eligible employees of Spectrum Glass Company, Inc. and Summit Management Company (collectively called the "Company"). It became effective on July 1, 1998. Participants should refer to the plan document for complete information regarding the plan's definitions, benefits, eligibility and other matters.

All employees not covered by a retirement plan under a collective bargaining agreement are eligible and shall participate in the Plan after they have attained the age of twenty-one and completed one year of service at the Company with a minimum of one thousand hours of service. Such employees become participants in the Plan on the first day of January or July following the completion of the eligibility requirements.

- b. Contributions - Annual employer profit sharing contributions are determined by an amount equal to four percent of eligible compensation plus an additional four percent of the eligible compensation in excess of the social security taxable wage base for the plan year. Forfeitures will be applied to current year employer contributions. The Company did not make a contribution for 2009. Participants may contribute up to fifteen percent of their annual compensation, not to exceed the maximum set by the federal government. Participants direct the investment of their contributions and the employer's contributions into various investment options offered by the Plan.
- c. Participant accounts - Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution and, (b) plan earnings. Allocations are based on participant account balances. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.
- d. Vesting - Participants are fully vested in their voluntary employee contribution to the Plan. Participants achieve twenty percent vesting in their employer contribution account after three years of service and they achieve one hundred percent vesting in their employer contribution account after six years of service. If employees terminate prior to six years of service, they forfeit the right to their nonvested accumulated benefits. In the event that a participant dies, becomes permanently disabled, or retires at the normal retirement age of 65, the participant will become fully vested in their employer contribution account.
- e. Investment options - A participant may direct contributions in any of the investment options provided. Participants may change their investment options at any time throughout the plan year by using the automated account system.

2. Summary of Accounting Policies -

- a. Basis of accounting - The financial statements of the Plan are prepared under the accrual method of accounting.
  - b. Investment valuation and income recognition - Investments are recorded at fair value. Fair value is the price that would be received to sell an asset in an orderly transaction between market participants at the measurement date. See note 7 for a discussion of fair value measurement. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex dividend date. Net appreciation includes the plan's gains and losses on investments bought and sold, as well as held during the year.
  - c. Payment of benefits - Benefits are recorded when paid.
  - d. Use of estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires Trust management to make estimates and assumptions that affect the reported amount of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could vary from the estimates that were used.
3. Plan termination - The Company intends to continue the Plan on a permanent basis, but reserves the right to modify or terminate the Plan. In the event of termination of the Plan, the interests of all affected participants shall fully vest and become non-forfeitable.
4. Tax status - The Company adopted a Prototype Standardized Profit Sharing Plan with a cash or deferral arrangement which received a favorable opinion letter from the Internal Revenue Service (IRS) on December 10, 2001 which stated that the Plan and related trust are designed in accordance with applicable sections of the IRC.
5. Concentration of risk - The plan's assets consist primarily of financial instruments including cash equivalents, mutual funds, and common/collective funds. The financial instruments may subject the Plan to concentrations of risk as, from time to time, cash balances exceed amounts insured by the Federal Deposit Insurance Corporation, market value of securities are dependent on the ability of the issuer to honor its contractual commitments, and the investments are subject to changes in market values.
6. Investments - The Plan's investments are held by a bank-administered trust fund. Investments that represent 5 percent or more of the total plan assets are separately identified.

7. Investment Fair Value Measurements - Financial Accounting Standards Board (FASB) *Accounting Standards Codification* (ASC) 820, *Fair Value Measurements and Disclosures*, establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted market prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;

- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value.

Short Term Funds: Valued at the closing price reported on the active market on which the individual securities are traded.

Mutual Funds: Valued at the net asset value ("NAV") of shares held by the Plan at year end.

Common/Collective Funds: Valued at estimated fair value as determined by the Fund's investment managers.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.
