For the Year Ended December 31, 2009

1. Description of Plan

The following description of the Jonathan's Landing Golf Club, Inc.(Club) 401(k) Retirement Plan, (the Plan) provides only general information. Participants should refer to the Plan Document for a more complete description of the Plan's provisions.

a) General – The Plan is a defined contribution plan covering all employees of the Club, except employees of a collective bargaining unit, who have at least one year of service to the Club and have attained the age of twenty-one. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan was formed on January 1, 1999, and most recently restated on August 29, 2009.

b) Plan Administration – Board of Directors and employees serve as trustees of the Plan. Principal Financial Group (Principal) is the Plan's servicer, administrator, and custodian of the Plan. Principal held custody and serviced the Plan's investment assets as of December 31, 2009 and 2008.

c) Contributions – Each year, participants may contribute up to 100% of pretax annual compensation, as defined in the Plan and as subject to limitations defined by the Internal Revenue Code. Participants may also contribute amounts representing distributions from other qualified plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers 21 investment options for participants. Participants may change their investment allocation and their individual contributions at any time. The Plan allows the Employer to make matching, and/or discretionary contributions. For the year ended December 31, 2009 and 2008, the Club matched 100% of participant deferrals up to 3% of participant's plan compensation.

d) Participant Accounts – Each participant's account is credited with participant's contributions, Plan earnings, and the employer's matching contribution, if any. In addition, participant accounts may be credited with an allocation of employer non-matching contributions and forfeitures of terminated participants' non-vested accounts, if any. Allocations are based upon an eligible participant's relative compensation.

e) Vesting – Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Club's matching and discretionary contribution portion of their accounts plus actual earnings thereon is based on years of continuous service. A participant becomes 100% vested after 3 years of credited service, or immediately upon death or disability.

f) Administrative Expenses – Individual participants pay for loan and distribution fees, and investment management expenses. The Plan sponsor pays for other costs of plan administration.

1. Description of Plan, continued

g) Participant Loans Receivable – Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their account balance. Loan transactions are treated as a transfer to (from) the investment fund from (to) the Participant Loans fund. Loan terms range from 1-5 years. The loans are secured by the balance in the participant's account and bear interest at a rate commensurate with local prevailing rates as determined by the loan administrator. The interest rate on participant loans as of December 31, 2009 was 5.50%. Principal and interest are paid ratably through weekly payroll deductions.

h) Payments of Benefits – Upon retirement, disability, or termination of service a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or an option of annuities.

i) Forfeited Accounts – All non-vested benefits are forfeited by participants should they terminate employment prior to becoming vested. Amounts forfeited are used to offset the employer matching contribution. For the year ended December 31, 2009, there was $865 applied to employer contributions.

2. Summary of Significant Accounting Policies

The following are the significant accounting policies followed by the Plan:

a) Basis of Accounting – The accompanying financial statements are prepared on the accrual basis of accounting.

b) Use of Estimates – The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

c) Valuation of Investments and Income Recognition – The Plan's investments are valued at fair value. Guaranteed interest contracts (i.e., benefit responsive investment contract,) are generally valued at contract value (Note 5) which approximates fair value. The circumstances under which fair value is used is when the applicable interest rate is greater than the contract rate. Investment funds held in pooled separate accounts are valued at quoted market prices (i.e. net asset value – NAV), if available, of a national securities exchange on the last business day of the year. Investment options that do not have readily available market quotations are valued according to quotations from the custodian. Purchase and sales of securities are recorded on a trade-date basis. Interest income is recorded on an accrual basis. Dividends are recorded on the ex-dividend date.

d) Payment of Benefits – Benefits are recorded when paid.

2. Summary of Significant Accounting Policies, continued

e) Plan Risk and Uncertainties – The Plan and the Plan assets are sensitive to economic pressures prevalent in the investment market. The pressures primarily stem from interest rate, market and credit risk and their effect on bond rates, mortgage rates, the value of real estate, stock prices, and the overall stability of the market. Certain Plan investments are shares of pooled trust funds managed by the custodian. Change in the custodian's management may affect operating results of the funds adversely. Additionally, the financial position of the Plan Sponsor, Jonathan's Landing Golf Club, Inc., may have a significant impact on the Plan. Specifically, these include the ability of the Plan Sponsor to continue to make contributions under the program and/or the stability of the Plan Sponsor's operations. Other external factors which may affect the Plan and the Plan assets include legislation or regulations established by the Internal Revenue Service, Employee Retirement Income Security Act of 1974 (ERISA), and/or Department of Labor (DOL).

3. Fair Value Measurements

FASB Accounting Standards Codification 820-10 establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurement) and the lowest priority to unobservable inputs (level 3 measurement). The three levels of the fair value hierarchy under FASB ASC 820-10 are described below:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

3. Fair Value Measurements, continued

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used as of December 31, 2009.

a) *Guaranteed interest contract* – Valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer (See Note 5).

b) *Pooled separate accounts* – Valued at the net asset value ('NAV") as reported by the investment manager of the fund.

c) *Participant loans* – Valued at amortized cost, which approximates fair value.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2009 and 2008.

	Assets at Fair Value as of December 31, 2009

4. Information Certified by the Plan's Custodian

The Plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Principal Financial Group, the custodian certified that the data included in the accompanying financial statements and supplemental schedule is complete and accurate. The Plan's independent accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

As of December 31, 2009 and 2008, the Plan's investments were held by Principal Financial Group in various funds. The following table represents the fair value of investments that were certified by the custodian. Single investments that represent 5% or more of the Plan's net assets as of December 31, 2009 and 2008 are separately identified:

5. Investment Contract with Insurance Company

The Plan has a guaranteed interest contract (i.e., benefit responsive investment contract) with Principal. Principal maintains the contributions in both general and separate accounts. The accounts are credited with earnings on the underlying investments and charged for participant withdrawals. The contracts are included in the financial statements at contract value, which approximates fair market value as reported to the Plan by Principal. Net change in fair market value of $3,363 as of December 31, 2009 is reported as other expense in the statement of changes in net assets available for benefits.

The contract value (versus fair value) of the investment contract as of December 31, 2009 and 2008 was $243,408 and $187,485 respectively. There can be a difference in contract value versus fair value only when the applicable rate is greater than the contract rate. Contract values represent contributions made under the contract, plus earnings (at the contract rate), less participant withdrawals. Participants may ordinarily direct transfer of all or a portion of their investment at contract value. The average yield and crediting interest rate was approximately 3.18% for 2009. The crediting interest is based on an agreed-upon formula with the issuer. Such interest rate is reviewed on an annual basis for resetting.

6. Excess Contributions

Contributions received from participants for the year ended December 31, 2009 are net of $11,426 payable to certain active participants to return to them excess deferral contributions, as required to satisfy the relevant nondiscrimination provision of the Plan. Excess of contributions are reflected as a liability in the statement of net assets available for benefits as of December 31, 2009.

7. Related Party Transactions

Certain plan investments are managed by Principal Financial Group. Principal is the custodian as defined by the Plan, and therefore, these transactions qualify as party-in-interest transactions. However, they are not considered prohibited transactions in accordance with appropriate ERISA exceptions.

8. Plan Termination

Although it has not expressed an intent to do so, the Club has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

9. Tax Status

The Plan is adopted via a Prototype Non-standardized Profit Sharing Plan Agreement, utilized by it's Plan servicer and custodian – Principal Financial Group. The Prototype Plan has a favorable determination letter from the Internal Revenue Service. Furthermore, the Plan trustees believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

10. Subsequent Events

Management has evaluated subsequent events through October 6, 2010, the date on which the financial statements were available to be issued, and determined there were no events to disclose in these financial statements.

11. Reconciliation of Financial Statements to Schedule H of Form 5500
