Note 1: Description Of Plan

The following description of the Huck Finn Clothes, Inc. 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan Agreement for a more complete description of the Plan's provisions.

General - The Plan was adopted January 1, 2003, and is a defined contribution 401(k) plan established to provide retirement benefits for employees of Huck Finn Clothes, Inc. and PHC Distribution Co., Inc (the Companies). The Plan provides for the participation of all employees over the age of 21 who have completed one year of eligibility service. A year of eligibility service is accomplished after completing 1,000 hours of service during any calendar year. The Plan is subject to the requirements of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions - Participants can contribute up to 90% of eligible compensation subject to the maximum amount allowed by Internal Revenue Code limitations. Eligible employees who have attained age 50 before the close of the Plan year shall be eligible to make catch-up contributions in accordance with Internal Revenue Code provisions. Participants may also contribute amounts representing distributions from other qualified plans. The Company may make matching contributions to the Plan at the discretion of the Board of Directors.

Participant accounts - Each participant's account is credited or charged, as applicable, with the participant's contribution, earnings (losses), transfers, payments, withdrawals, or other distributions made to or from such accounts during the period. Allocations are based on participant earnings or account balances in accordance with terms of the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. In accordance with the provisions of the Plan, each participant has the right to direct the investment of the contributions and any rollover/transfers, if applicable, into the Plan.

Vesting - Participants are immediately vested in their voluntary contributions, plus actual earnings thereon. A participant's vested interest in the Company's discretionary contributions is based on the number of years of continuing service as follows; a participant is 100% vested after six years of credited service.

Forfeited accounts - At December 31, 2009 and 2008, no employer contributions have been made to the Plan; therefore, there are no forfeited nonvested accounts.

Payment of benefits - On termination of service or separation of service, due to death, disability, or retirement, a participant or their beneficiary will be entitled to receive a distribution of their total vested account balance. Benefits will be paid in accordance with terms of the Plan.

Note 1: Description Of Plan (Continued)

Plan termination - Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA. In the event the Plan terminates, each participant's account will become fully vested and be distributed in accordance with the Plan Agreement.

Participant loans - Participants may borrow from their accounts a minimum of $500 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. The loans are secured by the balance in the participant's account and are made in accordance with the terms of the Plan.

Note 2: Summary Of Significant Accounting Policies

Investment valuation and income recognition - The Plan's investments are held by an independent trust company. Investments are valued at market prices reported on the last day of the year.

Dividend income is recorded when earned based on the ex-dividend date. Interest income is recorded when earned on the accrual basis. Purchases and sales of securities are reflected on a trade date basis. Gains or losses on sales of securities are based on the actual costs of the securities sold.

Generally accepted accounting principles in the United States of America establish a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, and Level 3 inputs have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. Level 3 inputs are used only when Level 1 or Level 2 inputs are not available.

The three levels of the fair value hierarchy in accordance with generally accepted auditing principles are described below:

(a) Level 1: Unadjusted quoted prices in active markets for identical, unrestricted assets, or liabilities that the Plan has the ability to access at the measurement date;

(b) Level 2: Quoted prices which are not active, quoted prices for similar assets or liabilities in active markets, or inputs other than quoted prices that are observable (either directly or indirectly) for substantially the full term of the asset or liability; and

(c) Level 3: Significant unobservable prices or inputs (including the Plan's own assumptions in determining the fair value of investments) where there is little or no market activity for the asset or liability at the measurement date.

Note 2: Summary Of Significant Accounting Policies (Continued)

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Use of estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan Administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Income taxes - The Plan is exempt from Federal income tax under the Internal Revenue Code. Tax positions are evaluated and recognized in the financial statements when it more-likely-than-not the position will be sustained upon examination by the tax authorities.

Note 3: Fair Value Measurements

The following information included in the accompanying financial statements (other than assignment of levels) was obtained from data that has been prepared and certified as complete and accurate by State Street Bank and Trust at December 31, 2009, and 2008.

The Plan's investments are reported at fair value in the accompanying statements of net assets available for benefits.

The following is a description of the valuation methodologies used for assets at fair value at December 31, 2009 and 2008.

Mutual fund: Valued at quoted market prices.

Common collective trusts: Valued according to established pricing matrices based on units owned.

Money market: Valued at a constant dollar per share.

Participant loans: Valued at the amortized cost of the loans.

The preceding methods may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurements at the reporting date.

The Plan obtained its latest determination letter on November 6, 2001, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan has been amended since receiving the determination letter. However, the Plan Administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code.

Note 7: Related Party Transaction

Certain fees for administrative services may be paid by the Companies.

Note 8: Risks And Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 9: Commitments And Contingencies

The Plan follows the guidance for uncertainty in income taxes. As of December 31, 2009, the Plan believes that it has appropriate support for the income tax positions taken and to be taken on its returns based on an assessment of many factors including experience and interpretations of tax laws applied to the facts of each matter. The Plan has concluded that there are no significant uncertain tax positions requiring disclosure, and there are no material amounts of unrecognized tax benefits.

Note 10: Subsequent events

Subsequent events have been evaluated through September 27, 2010, which is the date the financial statements were available to be issued.
