REPORT OF INDEPENDENT PUBLIC ACCOUNTANTS

To the Participants
and The Board of Trustees Committee on Investments of
The Johns Hopkins University

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit for the December 31, 2021 Financial Statements

We have performed an audit of the financial statements of the John Hopkins University 403(b) Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statement of net assets available for benefits as of December 31, 2021, and the related statement of changes in net assets available for benefits for the period July 1, 2021 to December 31, 2021, and the related notes to the financial statements (December 31, 2021 Financial Statements).

Management, having determined it is permissible in the circumstances, has elected to have the audit of the 2021 financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audit need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or Federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained a certification from a qualified institution as of December 31, 2021 and for the period July 1, 2021 to December 31, 2021, stating that the certified investment information, as described in Notes 3 to the financial statements, is complete and accurate.

Opinion on the December 31, 2021 Financial Statements

In our opinion, based on our audit and on the procedures performed as described in the *Auditor's Responsibilities for the Audit of the December 31, 2021 Financial Statements* section:

- The amounts and disclosures in the accompanying December 31, 2021 financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

- The information in the accompanying December 31, 2021 financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion on the December 31, 2021 Financial Statements

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the December 31, 2021 Financial Statements* section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the December 31, 2021 Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal controls relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Management is also responsible for maintaining a current plan instrument, including all Plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the December 31, 2021 Financial Statements

Except as described in the *Scope and Nature of the ERISA Section 103(a)(3)(C) Audit of the December 2021 Financial Statements* section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists.

The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal controls. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal controls. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audit did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the December 31, 2021 financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America. Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal controls-related matters that we identified during the audit.

Other Matters

Supplemental Schedule Required by ERISA

The supplemental Schedule H, Line 4i – Schedule of Assets (held at period end) as of December 31, 2021, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and

Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- the form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Other Matter – June 30, 2021 Financial Statements

The financial statements of the Plan as of June 30, 2021 were audited by predecessor auditors. As permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan administrator instructed the predecessor auditors not to perform, and they did not perform, any auditing procedures with respect to the information certified by the qualified institution. Their report, dated April 14, 2022, indicated that (a) because of the significance of the information that they did not audit, they were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion and accordingly, they did not express an opinion on the financial statements and (b) the form and content of the information included in the financial statements other than that derived from the information certified by the qualified institution, were presented in compliance with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

To the Participants
and The Board of Trustees Committee on Investments of
The Johns Hopkins University

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit for the December 31, 2021 Financial Statements

We have performed an audit of the financial statements of the John Hopkins University 403(b) Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statement of net assets available for benefits as of December 31, 2021, and the related statement of changes in net assets available for benefits for the period July 1, 2021 to December 31, 2021, and the related notes to the financial statements (December 31, 2021 Financial Statements).

Management, having determined it is permissible in the circumstances, has elected to have the audit of the 2021 financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audit need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or Federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained a certification from a qualified institution as of December 31, 2021 and for the period July 1, 2021 to December 31, 2021, stating that the certified investment information, as described in Notes 3 to the financial statements, is complete and accurate.

Opinion on the December 31, 2021 Financial Statements

In our opinion, based on our audit and on the procedures performed as described in the *Auditor's Responsibilities for the Audit of the December 31, 2021 Financial Statements* section:

- The amounts and disclosures in the accompanying December 31, 2021 financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

- The information in the accompanying December 31, 2021 financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion on the December 31, 2021 Financial Statements

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the December 31, 2021 Financial Statements* section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the December 31, 2021 Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal controls relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Management is also responsible for maintaining a current plan instrument, including all Plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the December 31, 2021 Financial Statements

Except as described in the *Scope and Nature of the ERISA Section 103(a)(3)(C) Audit of the December 2021 Financial Statements* section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists.

The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal controls. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal controls. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audit did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the December 31, 2021 financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America. Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal controls-related matters that we identified during the audit.

Other Matters

Supplemental Schedule Required by ERISA

The supplemental Schedule H, Line 4i – Schedule of Assets (held at period end) as of December 31, 2021, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and

Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- the form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Other Matter – June 30, 2021 Financial Statements

The financial statements of the Plan as of June 30, 2021 were audited by predecessor auditors. As permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan administrator instructed the predecessor auditors not to perform, and they did not perform, any auditing procedures with respect to the information certified by the qualified institution. Their report, dated April 14, 2022, indicated that (a) because of the significance of the information that they did not audit, they were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion and accordingly, they did not express an opinion on the financial statements and (b) the form and content of the information included in the financial statements other than that derived from the information certified by the qualified institution, were presented in compliance with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

(1) Description of the Plan

The following description of The Johns Hopkins University 403(b) Plan (formerly the Faculty and Senior Staff Retirement Plan) (the Plan) provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

(a) General

The Plan is a defined-contribution retirement program established by The Johns Hopkins University (the Plan Sponsor or University) in accordance with Section 403(b) of the Internal Revenue Code of 1986 (the IRC), as amended. The effective date of the Plan was July 1, 1969. Effective July 1, 2011, the Johns Hopkins University Staff Voluntary 403(b) Retirement Plan was merged into the Johns Hopkins University Faculty and Senior Staff Retirement Plan, which was renamed the Johns Hopkins University 403(b) Plan. The merger was part of the University's overall revision to its retirement plans and programs. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Prior to July 1, 2011, the Plan covered substantially all faculty and senior staff employees of the University who have completed two years of service, as defined. Effective July 1, 2011, the Plan covers all faculty, executive employees, "grandfathered" faculty and senior staff employees, and staff employees who have completed two years of service, as defined. The two years of service requirement is waived for eligible employees that have reached the age of 35 or above.

Effective July 1, 2020, the Plan was amended and restated to suspend employer contribution for the Plan Year starting July 1, 2020. In April 2021, the University reinstated employer contributions retroactive to July 1, 2020.

The Plan has changed its fiscal year end from June 30 to December 31. As such, the period ended December 31, 2021 is a stub year, comprised of six months. The comparative audited year ended June 30, 2021 is a full year.

(b) Plan Administration

The Plan Administrator is the University.

(c) Contributions

Prior to July 1, 2011, the University contributed 6% of the eligible participant's base salary, as defined, up to the age of 35 after two years of service and 12% of base salary for participants aged 35 and older.

Effective July 1, 2011, for faculty, executives, and senior staff eligible or hired prior to July 1, 2011 and tenured/tenure-track/core faculty and some executives hired July 1, 2011 or later, the University contributes 6% of the eligible participant's base salary, as defined, up to the age of 35 after two years of service and 12% of base salary for participants aged 35 and older. Prior to January 1, 2014, participants with 15 or more years of service were possibly eligible to make additional contributions to the Plan per IRS Publication 571.

For support staff employees who elected this plan as part of the retirement choices provided by the Plan Sponsor, support staff hired July 1, 2009 or later, senior staff and nontenured/nontenure - track/noncore faculty and some executives hired July 1, 2011 or later, the University contributes 4% of the eligible participant's base salary, as defined, up to the age of 35 after two years of service and 8% of base salary for participants aged 35 and older.

Participants may voluntarily contribute to the Plan subject to the IRC's limits. The Plan allows for participants who are at least aged 50 to make additional catch-up contributions to the Plan subject to the IRC's limits. Participants may also contribute amounts representing rollovers from other qualified plans.

(d) Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of the employer's contribution and plan earnings (or losses). The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested accounts. Participants may direct their contributions into a variety of investment options.

(e) Vesting

Each participant is fully and immediately 100% vested in their employee and employer account balances.

(f) Investment Options

Plan contributions are invested in one or more of the funding vehicles available to participants under the Plan. The fund sponsors are as follows:

- The Variable Annuity Life Insurance Company (VALIC) – Available to participants who were actively investing with VALIC as of June 30, 2011 until January 1, 2016 when participants were no longer able to contribute
- Teachers Insurance and Annuity Association/College Retirement Equities Fund (TIAA-CREF)
- Fidelity Management Trust Company (Fidelity)
- American Century – Available to participants who were actively investing with American Century as of April 30, 2012 until January 1, 2016 when participants were no longer able to contribute
- Vanguard Fiduciary Trust Company (Vanguard).

For certain funds held at TIAA-CREF, TIAA-CREF Trust Company, FSB is the custodian.

TIAA-CREF is the master record keeper for all investments held by the trustees listed above.

In March 2021, the Retirement Plan Investments Committee (RPIC) approved TIAA as the Plan's sole recordkeeper. Additionally, RPIC approved a more streamlined investment menu reducing the investment options available to participants. This was effective in July 2022.

(g) Payment of Benefits

Participants may receive all or a portion of their vested account balance upon termination of employment, retirement, death, or permanent disability. A participant may elect to receive benefit payments in the form of a lump-sum payment, an annuity, or installment based payment, as set forth by the Plan and Fund Sponsors. Active participants can access their voluntary nonmatched salary reduction and rollover contributions, including earnings upon attainment of age 59½ or permanent disability. Participants may receive hardship withdrawals from their matched and nonmatched contributions, excluding earnings, for reasons of financial hardship. All sources of withdrawals are permitted for active participants upon attainment of age 70½ or older.

(h) Loans with TIAA-CREF and VALIC

Generally, participants may borrow from their account a minimum of $1,000 up to a maximum equal to the lesser of $50,000, or 45%, of the assets held with TIAA-CREF (50% with VALIC), subject to certain restrictions. Participants may borrow from employee/rollover contributions plus earnings in the manner specified by and subject to the approval of TIAA-CREF or VALIC. Loans used to purchase a primary residence may be repaid over 10 years. Loans for all other purposes must be repaid within 5 years. Adequate security is required and a portion of the participant's account is reserved, or held in collateral, to cover 110% of the outstanding loan from TIAA-CREF (100% from VALIC) in case of default. Interest rates are variable and can increase or decrease once per year. Loans are issued directly from funds owned by TIAA-CREF or VALIC, and loan proceeds are not removed from the participant's account balance. The participant's account balance in the TIAA Traditional Annuity Account or the VALIC Fixed Annuity Account is used as collateral. Interest and principal are paid by the participant directly to TIAA-CREF or VALIC. The loans are not considered investments of the Plan and, therefore, are not reported in the statements of net assets available for benefits. The TIAA-CREF loans amounted to approximately $6,660,000 as of December 31, 2021 and $6,325,000 as of June 30, 2021. Interest rates on the loans ranged from 4.00% to 7.62% as of December 31, 2021 and June 30, 2021. The VALIC loans amounted to approximately $538,919 as of December 31, 2021 and $660,421 as of June 30, 2021. Interest rates on the loans from VALIC ranged from 2.00% and 4.50% as of December 31, 2021 and June 30, 2021. The VALIC loan program was frozen effective as of January 1, 2014, and no new loans were available to plan participants subsequent to this date.

(i) Notes Receivable from Participants

Generally, participants may borrow from their account a minimum of $1,000 up to a maximum equal to the lesser of $50,000, or 50%, of the assets held with Fidelity, subject to certain restrictions. Participants may borrow from employee/rollover contributions plus earnings in the manner specified by and subject to the approval of Fidelity. Loans used to purchase a primary residence may be repaid over 15 years. Loans for all other purposes must be repaid within 5 years.

Participant loans issued by Fidelity are secured by the balance in the participant's account and bear interest at rates that range from 4.25% to 9.25% as of December 31, 2021 and June 30, 2021. Fidelity participant loans are considered assets of the Plan and, therefore, are reported in the statements of net assets available for benefits.

(j) Reclassifications

Certain June 30, 2021 amounts have been reclassified in order to conform to the December 31, 2021 presentation.

(2) Summary of Significant Accounting Policies

(a) Basis of Accounting

The accompanying financial statements of the Plan are prepared on the accrual basis of accounting.

(b) Investment Valuation and Income Recognition

The Plan's investments are stated at fair value other than investments in fully benefit-responsive investment contracts which are stated at contract value. The investment companies are valued using the net asset value (NAV) of the respective funds/accounts, as reported by the respective fund advisor. The investment companies consist of registered investment companies.

The shares in registered investment companies consist of various mutual funds that invest principally in equity securities, fixed-income instruments, other mutual funds, and short-term investments in accordance with each fund's investment objectives. Fund holdings are generally valued using market quotations or prices obtained from independent pricing services, except those held by the money market funds, whose holdings are valued at amortized cost. The money market funds are managed to maintain a constant value, though not guaranteed, of $1 per share.

The TIAA's Real Estate Account (the REA) is a pooled separate account/insurance company separate account of TIAA investing mainly in real estate and real estate – related investments. This is a variable annuity. The REA's value is principally derived from the market value of the underlying real estate holdings or other real estate – related investments. Real estate holdings are valued principally using external appraisals, which are estimates of property values based on a professional's opinion. The REA sometimes holds securities as well. These are generally priced using values obtained from independent pricing sources. Returns are not guaranteed and accumulations and returns fluctuate based on the performance of the underlying investments.

The TIAA's Traditional Annuity Account represents insurance contracts issued by TIAA, which guarantee principal and a contractually specified interest rate to account participants. The earnings on this account are included in interest and dividends in the statements of changes in net assets available for benefits. The account is invested in the TIAA general account that invests in individual bonds, commercial mortgages, real estate, stocks, and other assets that target different sectors of the marketplace. The portfolio follows specific guidelines with respect to major asset classes, sectors, industries, property types, geographic regions, individual issuers/borrowers, foreign holdings, liquidity, quality, and derivatives.

The VALIC's Annuity Account represents insurance contracts issued by VALIC at a fixed or variable interest rate. The earnings on this account are included in interest and dividends in the statements of changes in net assets. The investments in the VALIC's Annuity Account are valued based on the Plan's pro rata share of the fund's equity, as determined by VALIC. The fund equity is determined based on the fair values of the underlying investments.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains on investments bought and sold as well as held during the year.

(c) Contributions Received

Contributions are recorded when received.

(d) Benefits Paid

Benefits are recorded when paid.

(e) Administrative Expenses

Administrative expenses related to investment management are allocated among various funds and are included as an offset to net appreciation in fair value of investments. Other administrative expenses of the Plan are generally paid by the Plan Sponsor. To the extent the University does not pay plan expenses with its own assets, the Plan generally will pay the expenses of plan administration by assessing the expenses against each participant's account.

(f) Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires the Plan's management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates and assumptions.

(g) Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent loans, if any, are recorded as distributions in accordance with the plan document.

(3) Information Certified

Certain information related to investments and notes receivable from participants disclosed in the accompanying financial statements and ERISA-required supplemental schedule, including investments and notes receivable from participants held as of December 31, 2021 and June 30, 2021, and net appreciation in fair value of investments, interest and dividends for the periods ended December 31, 2021 and June 30, 2021 were obtained or derived from information supplied to the plan administrator and certified as complete and accurate by TIAA-CREF; TIAA-CREF, as agent for TIAA-CREF Trust Company, FSB, Fidelity, Vanguard, and VALIC.

(4) Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described below:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets.

Level 2 – Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability; and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means; if the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

When observable prices are not available, investments are valued using one or more of the following valuation techniques:

- Market approach – this approach uses prices and other relevant information generated by market transactions involving identical or comparable assets or liabilities.
- Income approach – this approach determines a valuation by discounting future cash flows.
- Cost approach – this approach is based on the principle of substitution and the concept that a market participant would not pay more than the amount that would currently be required to replace the asset.

These valuation techniques may include inputs, such as price information, volatility statistics, operating statistics, specific and broad credit data, recent transactions, earnings forecasts, discount rates, reserve reports, futures pricing, and other factors.

The following is a description of the valuation methodologies used for assets measured at fair value as of December 31, 2021 and June 30, 2021. There were no changes in methodologies used as of December 31, 2021 or June 30, 2021.

Registered investment companies: The shares in registered investment companies consist of various mutual funds that invest principally in equity securities, fixed-income instruments, other mutual funds, and short-term investments in accordance with each fund's investment objectives. Fund holdings are generally valued using market quotations or prices obtained from independent pricing services, except those held by the money market funds, whose holdings are valued at amortized cost. The money market funds are managed to maintain a constant value, not guaranteed, of $1 per share. Shares in registered investment companies are valued using the NAV held by the Plan at year-end. The fair values of accumulation units held by the Plan in TIAA-CREF accounts (registered investment companies) are based on each account's daily NAV. TIAA-CREF accounts are not exchange traded but are classified within Level 1 of the fair value hierarchy because they are redeemable daily at the NAV quoted by TIAA-CREF. Data for NAVs are available daily to the Plan Administrator and Plan's participants on NASDAQ's website and provide sufficient corroborative evidence to ascertain the relationship between each fund's NAV and the values of individual underlying holdings. Underlying holdings are primarily valued using market quotations or prices obtained from independent pricing sources. There are no unfunded commitments from participants in the Plan who invest in these accounts, and there are no restrictions on redemptions and no notice period for redemption.

Pooled separate accounts: Valued at the NAV of shares held by the Plan at year-end, as determined by the issuer. Participants can redeem on a quarterly basis. The fair value of the Plan's interest in the REA (a pooled separate account) is based on the fund's published NAV. The unit value of the fund is calculated daily and available to the Plan Administrator and plan participants on NASDAQ's website. Underlying holdings are primarily valued using independent appraisals or independent pricing sources. There are no unfunded commitments from participants in the Plan who invest in this account.

TIAA's Traditional Annuity and VALIC's Annuity accounts: Valued at contract value that approximates fair value. The contract value of the TIAA Traditional Annuity and the VALIC Annuity accounts equals the accumulated cash contributions and interest credited to the Plan's contracts less any withdrawals. The annuity accounts are not available for sale or transfer on any securities exchange. Transfers from the

annuity accounts are also restricted. Participants may only transfer among investment options in substantially equal amounts over a 10-year period. Accordingly, transactions in similar investment instruments are not observable.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables present the Plan's fair value hierarchy for those investments measured at fair value as of December 31, 2021 and June 30, 2021:

(5) TIAA Traditional Annuity Accounts

The TIAA Traditional Annuity accounts are one of the investment options that represent insurance contracts issued by TIAA-CREF, which guarantees principal and a contractually specified interest rate to plan participants. The accounts are backed by individual bonds, commercial mortgages, real estate, stocks, and other assets that target different sectors of the marketplace. The portfolio follows specified guidelines with respect to major asset classes, sectors, industries, property types, geographic regions, individual issues/borrowers, foreign holdings, liquidity, quality, and derivatives.

Interest credited to TIAA's Traditional Annuity accumulations includes a guaranteed rate, plus additional amounts that are not guaranteed but may be established on a year-by-year basis. These additional amounts, when declared, remain in effect through the end of the "declaration year," which begins each March 1. The guaranteed annual interest rate is 3% for all premiums remitted since 1979 under TIAA's Traditional Retirement Annuity accumulating contracts. Both the one-year total returns and the yield credited to participants for 2021 and 2020 are out of annual fees. The crediting interest rate is calculated daily.

The TIAA's Traditional Annuity accounts consist of various contract types, such as Retirement Annuity (RA), Group Retirement Annuity (GRA), Retirement Choice Plus (RCP), Group Supplemental Retirement Annuity (GSRA), and Supplemental Retirement Annuity (SRA) contracts. Each type has various restrictions on withdrawals. For the GRA, lump-sum withdrawals are available only within 120 days after termination of employment and are subject to a surrender charge. All other withdrawals and transfers from the RA and GRA must be spread over a period of 10 annual installments, or 5 annual installments for withdrawals after terminations of employment close. The GSRA, RCP, and SRA are fully benefit-responsive contracts and do not have restrictions on withdrawals except that transfers cannot be made to competing funds. For the GSRA, RCP, and SRA, there are no events that limit the ability of the Plan to transact at contract value.

Certain events might limit the ability of the Plan to transact at contract value with the contract issuers. These events may be different under each contract. Examples of such events include the following:

1. Amendments to the Plan documents (including complete or partial Plan termination or merger with another Plan);

2. Changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions;

3. Bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan;

4. The failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA; and/or

5. Premature termination of the contract.

No events are probable of occurring that might limit the ability of the Plan to transact at contract value with the contract issuers and that also would limit the ability of the Plan to transact at contract value with the participants.

In addition, certain events allow the issuer to terminate the contracts with the Plan and settle at an amount different from contract value. Those events may be different under each contract. Examples of such events include the following:

1. An uncured violation of the Plan's investment guidelines;

2. A breach of material obligation under the contract;

3. A material misrepresentation; and/or

4. A material amendment to the agreements without the consent of the issuer.

(6) Tax Status

The Plan has been designed to qualify under Section 403(b) of the Internal Revenue Code (IRC). The Plan Administrator intends to apply for a determination letter on the Plan once the Internal Revenue Service opens such a program. The Plan Administrator and its legal counsel believe that the Plan is currently designed and operated in compliance with the applicable requirements of the IRC and as such is exempt from federal income taxes.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by taxing authorities. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to 2018.

(7) Risks and Uncertainties

The Plan provides for various investment options consisting of a variety of investment funds, some of which are registered investment companies and pooled separate accounts. The investment funds include U.S. equities, international equities, and fixed-income securities. Investment securities, in general, are exposed to various risks, such as significant world events, interest rate, credit, and overall market volatility risk. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits and participant account balances.

The Plan invests directly or indirectly in securities with contractual cash flows, such as asset-backed securities, collateralized mortgage obligations, and commercial mortgage-backed securities, including securities backed by subprime mortgage loans. The value, liquidity, and related income of these securities are sensitive to changes in economic conditions, including real estate values, delinquencies or defaults, or both and may be adversely affected by shifts in the market's perception of the issuers and changes in interest rates.

(8) Plan Termination

Although it has not expressed any intent to do so, the Plan Sponsor has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants are fully vested in their accounts.

(9) Related-Party and Party-in-Interest Transactions

Certain Plan investments are managed by TIAA-CREF, Fidelity, Vanguard, American Century, and VALIC, trustees for the Plan, and, therefore, these transactions qualify as party in interest transactions.

(10) Commitments and Contingencies

On August 11, 2016, a group of participants and beneficiaries in The Johns Hopkins University 403(b) Plan (the Plan) filed a class action lawsuit against the University in federal court in Maryland, alleging that the University violated the Employee Retirement Income Security Act (ERISA) by causing the Plan to pay excessive fees for recordkeeping and other administrative services, and by selecting investment options for the Plan that allegedly underperformed their benchmarks and charged excessive fees. The Court approved the parties' settlement in the amount of $14,000,000 on January 8, 2020. In July 2020 (fiscal year 2021) the final payment of $5,422,237 was paid to the participant accounts.

(11) Subsequent Events

The Plan Sponsor has evaluated subsequent events through April 11, 2023, the date the financial statements were available to be issued.
