INTERCONNECT SYSTEMS INC 401(k) PLAN
NOTES TO FINANCIAL STATEMENTS
December 31, 2009

NOTE 1 - DESCRIPTION OF PLAN

The following description of the Interconnect Systems Inc 401(k) Plan provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General. The Plan is a defined contribution plan covering all employees of Interconnect Systems Inc., and their wholly owned subsidiaries Comm Conn Worldwide, Inc. and Emulation Technology, Inc. (Company) who have completed three months of eligibility service, and are age eighteen or older. Fidelity Management Trust Company is the Plan's trustee. Interconnect Systems Inc 401(k) Plan has adopted Fidelity Basic Plan Document No. 14 and amendments to that Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Automatic Enrollment. Effective March 1, 2007, the Plan adopted an automatic enrollment feature. If the participant is eligible to participate and does not take action, they are automatically enrolled at a default deferral rate of 3%. The default investment is the Fidelity Freedom Fund that most closely aligns with the participant's projected retirement date based upon their birth year. The new hire pamphlet and enrollment package explain the automatic enrollment process, including how to opt out of participation and how to change the contribution rate and/or investment option.

Contributions. Participants may contribute up to 90% of pretax compensation, as defined in the Plan. The employer may allow participants to enter into a special salary reduction agreement to make additional deferral contributions in an amount up to 100% of their compensation for the payroll periods in the final month of the Plan year. Total deferrals in any taxable year may not exceed the amount set by federal tax laws, \$16,500 for 2009. The employer may make discretionary matching contributions during each Plan year. Employees must be employed by the employer on the last day of the Plan year and have earned at least 501 hours of service to receive a matching contribution. The Plan allows certain participants to make additional pre-tax "catch up" contributions to the Plan in an amount not to exceed the federal tax laws for that calendar year.

Expenses. Any fees and expenses of the Plan may be paid at the discretion of the employer. The employer may reimburse the Plan for any fees and expenses paid by the Plan. Such reimbursement shall not be deemed to be a contribution for purposes of Code Sections 404 and 415.

Participant Accounts. Each participant's account is credited with the participant's contributions, allocations of the employer's contributions, Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting. Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the employer's contribution portion of their accounts plus actual earnings thereon is based on years of credited service. A participant is 100% vested after five years of credited service.

Participant Loans. Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum of \$50,000 or 50% of their vested account balance, whichever is less. The loans are secured by the balance in the participant's account and bear a reasonable interest rate as determined by the plan administrator. Principal and interest are paid ratably through payroll deductions over a five year period; 10 years if the loan is for the purchase of a principal residence.

NOTES TO FINANCIAL STATEMENTS

NOTE 1 - DESCRIPTION OF PLAN - Continued

Payment of Benefits. A distribution may be made to participants upon request due to disability, retirement, or termination of employment. Upon the death of a participant, their beneficiary may request a distribution on their vested account balance. Participants upon reaching age 59-1/2, even if still employed, may elect to withdraw all or a portion of their account. Participants may elect to withdraw their vested account balance after reaching the Plan's normal retirement age of 65, or delay it until they retire. A participant may withdraw balances in their rollover contributions account.

Forfeited Accounts. Any forfeitures occurring during a plan year will be transferred to the forfeiture account and will first be used to pay administrative expenses of the Plan. Any remaining amounts will be used to reduce future Company contributions to the Plan. At December 31, 2009, forfeited non-vested accounts totaled \$51,885.

Investment Options. Each employee is permitted to direct the investment of funds in his or her individual account among any of the investment funds permitted under the Plan. The Plan offers various investment options with Fidelity Investments and each participant can select from one or more. To the extent that the employee directs the investment of his individual account, the trustees are relieved of their fiduciary responsibilities as provided in Section 404(a)(1)(C) of ERISA.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation. The accompanying financial statements of the Plan have been prepared on the accrual basis and are presented in accordance with generally accepted accounting principles.

Estimates. The preparation of financial statements in conformity with generally accepted accounting principles requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Investment Valuation and Income Recognition. The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

Purchase and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

Concentration of Credit Risk. The Plan's exposure to credit loss in the event of nonperformance of investments is limited to the carrying value of such investments.

Payment of Benefits. Benefits are recorded when paid.

Subsequent Events. The Plan has evaluated subsequent events through September 20, 2010, the date the financial statements were available to be issued.

NOTE 3 - FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board (FASB) *Accounting Standards Codification* (ASC) 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of fair value hierarchy under FASB ASC 820 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include: quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2009 and 2008.

Common stocks, corporate bonds and U.S. government securities: Valued at the closing price reported on the active market on which the individual securities are traded.

Mutual funds: Valued at the quoted net asset value of shares held by the Plan at year end.

Interest-bearing cash: Includes investment in a money market account and is valued at carrying value which approximates fair value due to the short maturity of this instrument.

Participant Loans: Valued at amortized cost, which approximates fair value.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2009 and 2008:

Accordingly, as permitted under such regulations, the plan administrator instructed its independent auditors not to perform, and they did not perform, any auditing procedures with respect to the information certified by the trustee, except for comparing that information to the financial statements. The trustee has certified the accuracy and completeness of investments of \$6,061,342 and \$4,115,405 at December 31, 2009 and 2008, respectively, and investment income of \$1,148,445 for the period ending December 31, 2009.

NOTE 8 - RISKS AND UNCERTAINTIES

The Plan provides for various investment options in mutual funds. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

The Plan invests through some mutual funds in the securities of foreign companies, which involve special risks and considerations not typically associated with investing in U.S. companies. These risks include devaluation of currencies, less reliable information about issuers, different securities transaction clearance and settlement practices, and possible adverse political and economic developments. Moreover, securities of many foreign companies and their markets may be less liquid and their prices more volatile than those of securities of comparable U.S. companies.

NOTE 9 – PLAN TERMINATION

Although it has not expressed intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and amend or modify, or to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants will become 100% vested in their accounts.

NOTE 10 - TAX STATUS

The Plan was established to qualify under section 401(a) and section 401(k) of the Internal Revenue Code (IRC) by adopting the terms and conditions of Non-Standardized Adoption Agreement No. 001 for use with Fidelity Basic Plan Document No. 14 and amendments to that standardized plan. The Internal Revenue Service has determined and informed Fidelity Management and Research Company that their standardized plan and amendments are acceptable under Section 401 of the IRC, the most recent of which was effective January 1, 2006. Interconnect Systems Inc 401(k) Plan has not received an IRS determination letter, however, the plan administrator believes that by adopting Fidelity Basic Plan Document No. 14 standardized plan and amendments to that standardized plan, the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.
