Notes to Financial Statements
December 31, 2009

Note 1: Description of Plan

The following description of The Pea Soup Andersen's Santa Nella, Inc. (the Plan Sponsor) Employee Savings Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan under which each participant has a specific account balance. The Plan covers all employees sponsored by The Pea Soup Andersen – Santa Nella, Inc. who have attained the age twenty-one and meet the service requirement of six months. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Participants may contribute to the Plan through salary reductions. The Plan Sponsor may make an employer matching contribution. In addition, the Plan Sponsor may elect to make a profit sharing contribution as determined by the Plan Sponsor. This contribution will be allocated to eligible participant accounts based on all eligible participants' compensation. Participants receiving the discretionary contribution must be employed on the last day of the Plan year and work 1,000 hours.

Participant Accounts

Each participant's account is credited with the participant's contribution via salary reductions and an allocation of the Plan Sponsor's discretionary profit sharing contribution and Plan earnings. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account.

Vesting

Participants are immediately 100% vested in their voluntary contributions plus actual earnings thereon. Vesting in the employer matching and discretionary profit sharing contributions plus earnings thereon is based on years of continuous service. A participant is 100% vested after five years of service. All years of service are counted except for years of service with less than 1,000 hours.

Payment of Benefits

Benefit payments will commence upon termination of service unless elected otherwise by the participant. Benefits may be paid in one of the following forms of payment, or in a combination: (1) single lump sum or (2) installments over a period not to exceed the participant or participant's beneficiary's life expectancy, or (3) any form acceptable to the participant and the Plan administrator.

Note 2: Summary of Significant Accounting Policies

Basis of Accounting

The accrual basis of accounting is used in preparation of information regarding net assets available for Plan benefits and related changes.

Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Fair Value Measurement and Income Recognition

Investments are reported at fair value. If available, quoted market prices are used to value investments. If quoted prices in an active market are not available, the investments are reported at estimated fair value. Many factors are considered in arriving at fair value. For example, corporate bonds could be valued based on yields currently available on comparable securities of issuers with similar credit ratings. Participant loans are valued at their outstanding balance, which approximates fair value.

Fair Value Measurements and Disclosures Topic of the FASB Accounting Standards Codification (the "Topic"), establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability (an exit price) in an orderly transaction between market participants at the reporting date. The Topic also established a three-tier hierarchy, which prioritizes the inputs used in the valuation methodologies in measuring fair value:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets and liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

Note 2: Summary of Significant Accounting Policies (Continued)

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's and liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value.

Pooled separate accounts: Valued at the net asset value ("NAV") of the shares held by the Plan at year-end.

Guaranteed investment contract: Valued at the amount plan participants would receive currently if they were to withdraw or transfer the funds within the Plan prior to maturity (some investment allow withdrawal without penalty for death, disability, termination or retirement.

Participant loans: Valued at amortized cost, which approximates fair value.

In September 2009, FASB issued an amendment "*Investments in Certain Entities That Calculate Net Asset Value per Share (or its Equivalent)*" (ASU 2009-12), which provides guidance on how entities should estimate fair value on certain alternative investments. The fair value of investments within the scope of this guidance can now be determined using net asset value ("NAV") per share as a practical expedient, when the fair value is not readily determinable, unless it is probable the investment will be sold at something other than NAV. It also requires disclosures of certain attributes by major category of alternative investments, regardless of whether the practical expedient was used. This amendment was effective for periods after December 15, 2009, with early adoption permitted. Adoption of this guidance has no impact on the financial statements of the Plan.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note 4: Plan Termination

The Plan Sponsor has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

Note 5: Additional Financial Statement Disclosures

Under ERISA, the Department of Labor and the Internal Revenue Service have the authority to issue regulations covering reporting and disclosure requirements, certain administrative responsibilities, and enforcement powers. The items enumerated below are required to be disclosed to meet ERISA guidelines.

1. The Plan received a favorable letter of determination from the Internal Revenue Service on July 5, 2005, regarding its qualified tax status for the Plan. However, the Plan was amended since receiving the letter. The Plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the Internal Revenue Code.

2. All reportable transactions have been disclosed in supplemental schedules of the annual report made available to the Plan participants.

Note 5: Additional Financial Statement Disclosures (Continued)

The Financial Accounting Standards Board issued new guidance on accounting for uncertainty in income taxes under the Income Taxes Topic. The Plan adopted this new guidance for the year ended December 31, 2009. Management evaluated the Plan's tax positions and concluded that the Plan has maintained its tax exempt status and has taken no uncertain tax positions that require adjustment to the financial statements. Therefore, no provision or liability for income taxes has been included in the financial statements.

Note 6: Investment Contract

Standard Insurance Company (Standard) maintains the contributions in pooled separate accounts as directed by the participants. The account is credited with actual earnings on the accounts as well as any changes in market value and charged for Plan withdrawals and administration expenses charged by Standard. The contract is included in the financial statements at the current values as reported to the Plan by Standard.
