INDEPENDENT AUDITOR'S REPORT

To the Trustees of
Lionakis 401(k) Plan
Sacramento, California

We were engaged to audit the financial statements and supplemental schedule of the Lionakis 401(k) Plan as of December 31, 2009 and 2008, and for the year ended December 31, 2009 as listed in the accompanying table of contents. These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 6, which was certified by Principal Life Insurance Company (for the period from January 1, 2008 to March 31, 2009) and First Mercantile Trust Company (for the period from April 1, 2009 to December 31, 2009), the custodians of the Plan, except for comparing such information with the related information included in the financial statements and supplemental schedules. We have been informed by the plan administrator that the custodian holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained certifications from the custodians as of December 31, 2009 and 2008 and for the year ended December 31, 2009, that the information provided to the plan administrator by the custodians is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the custodians, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

LIONAKIS BEAUMONT DESIGN GROUP, INC.
401(k) PROFIT SHARING PLAN

NOTES TO FINANCIAL STATEMENTS
December 31, 2009

NOTE 1: DESCRIPTION OF PLAN

The following description of the Lionakis 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan providing all employees (except student interns) of Lionakis, Inc. (Lionakis) who are at least eighteen years of age, with the opportunity to defer a portion of their eligible compensation on a pretax basis. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Participant Contributions

Using a compensation reduction agreement, eligible employees may direct Lionakis to make contributions to their account. These agreements may only be entered into during election periods as established by the Plan. Participant contributions are subject to the maximum limits established annually by the Internal Revenue Service. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Contributions are allocated to participant accounts following each periodic payroll and are fully vested upon contribution.

Employer Contributions

Participants who complete three months of service are eligible for a discretionary profit sharing contribution. When a profit sharing contribution is made, the contribution is allocated on a pro rata basis based on a participant's compensation as a percentage of the total compensation of all participants eligible to share.

Vesting

Vesting in the Company's profit sharing contributions are as follows:

1 year	0%
2 years	25%
3 years	50%
4 years	75%
5 years	100%

For vesting purposes, one year of service is a year in which a participant has worked at least 1,000 hours.

Participant Accounts

Participant deferrals are allocated to the participant's account as of the date the deferral is deducted from payroll. Lionakis's contributions are allocated to the participant's account for each eligible participant. The value of a participant's account is determined by the contributions allocated and any investment gain or losses attributable to the participant's account.

NOTE 1: DESCRIPTION OF PLAN (Continued)

Participant Loans

Participants may borrow from their accounts a minimum of $1,000 and up to a maximum equal to the lesser of $50,000 or 50% of their vested interest. Loan transactions are treated as a transfer to (from) the investment fund from (to) the Participant Loans fund. Loan terms for newly disbursed loans range from one to five years or longer if used to purchase the primary residence of the participant. The loans are secured by the balance in the participant's account. The interest rate charged on participant loans shall be fixed at the time of borrowing and be equal to the prime rate charged by local banks plus 2%. Interest rates range from 5.25% to 10.25%. Principal and interest is paid ratably through bi-weekly payroll deductions.

Distributions to Participants

Upon termination of employment, reaching age 65, or other reasons specified by the plan, a participant may elect to: (1) receive a single lump-sum payment, (2) collect periodic installments over the participant's assumed life expectancy (or life expectancies of participant and spouse), or (3) rollover funds to a qualified plan.

Administrative Costs

The Plan sponsor absorbs significant costs of plan administration.

Forfeitures

When certain terminations of participation in the Plan occur, the nonvested portion of the participants account, as defined by the Plan, represents a forfeiture. Forfeitures are utilized to reduce the employer contributions for the plan year. At December 31, 2009, forfeited nonvested accounts totaled $44,314. Also, for the year ended December 31, 2009, $58,036 in nonvested accounts were used to reduce employer contributions.

NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared using the accrual method of accounting.

Investment Valuation and Income Recognition

In 2004, the Plan entered into an investment contract with Principal Life Insurance Company (Principal). Principal maintained the contributions in pooled separate accounts and investments in registered investment companies. The contract is included in the financial statements at contract value, (which represents contributions made under the contract, plus earnings, less withdrawals and administrative expenses), because it is fully benefit-responsive. For example, participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. There are no reserves against contract value for credit risk of the contract issuer or otherwise.

NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

As described in Financial Accounting Standards Board Staff Position, FSP AAG INV-1 and SOP 94-4-1, Reporting of Fully Benefit-Responsive Investment Contracts Held by Certain Investment Companies Subject to the AICPA Investment Company Guide and Defined-Contribution Health and Welfare and Pension Plans (the FSP), investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. As required by the FSP, the Statement of Net Assets Available for Benefits presents the fair value of the investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis. As of December 31, 2008, the contract value of the plan's fully benefit-responsive contract approximates fair value therefore no adjustment is needed to adjust the net assets attributable to the fully benefit-responsive investment contract from fair value to contract value.

Mutual Fund accounts are valued at quoted market prices. Participant loans receivable are valued at cost which approximates fair value. Purchases and sales of securities are recorded on a trade date basis. Dividends are recorded on the ex-dividend date. Net appreciations (depreciations) in fair value of investments includes net unrealized market appreciation and depreciation of investments.

Payment of Benefits

Benefits are recorded when paid.

Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires the Plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

NOTE 4: FAIR VALUE MEASUREMENT

FASB Accounting Standards Codification 820, Fair Value Measurements (Formerly *Statement of Financial Accounting Standards No. 157*), established a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in inactive markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the assets or liability;
- Inputs that are derived principally from or corroborated by observable market data correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2009 and 2008.

Mutual funds: Valued using quoted market prices which are available on an active market.

Participant loans: Valued at amortized cost, which approximates fair value.

Pooled separate accounts: Valued at the net asset value ('NAV') of shares held by the plan at year end.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE 4: FAIR VALUE MEASUREMENT (Continued)

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2009.

	Level 1	Level 2	Level 3	Total

Purchases, sales, issuances and settlements (net)	67,659
Balance, end of year	$ 150,188
Unrealized gains/(losses) relating to instruments still held at the reporting date	$ -

NOTE 5: INCOME TAX STATUS

On March 15, 2008, the Internal Revenue Service stated that the prototype adopted by the Plan, as then designed, qualifies under Section 401(a) of the Internal Revenue Code (IRC). The Plan has not received a determination letter specific to the Plan itself; however, the administrator believes that the Plan currently is designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

NOTE 6: INFORMATION CERTIFIED BY PLAN'S CUSTODIAN

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Principal Life Insurance Company (for the period from January 1, 2008 to March 31, 2009) and First Mercantile Trust Company (for the period from April 1, 2009 to December 31, 2009), the custodians of the Plan, have certified to the completeness and accuracy of all investments reflected on the accompanying statements of assets available for benefits as of December 31, 2009 and 2008, Note 3, and the supplemental Schedule H, line 4i-Schedule of Assets (Held at End of Year) as of December 31, 2009, and the related investment activity reflected in the statement of changes in assets available for benefits for the year ended December 31, 2009.

NOTE 7: PLAN TERMINATION

Although it has not expressed any intent to do so, Lionakis has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA, and the IRC. Upon termination of the Plan, the total net assets of the Plan are to be distributed to the participants in proportion to their account balance.

NOTE 8: SUBSEQUENT EVENTS

Subsequent events were evaluated through September 14, 2010, which is the date the financial statements were available to be issued.
