1. PLAN DESCRIPTION

The following description of the MTO 401(k) Profit Sharing Plan (the "Plan") provides only general information. Participants and other interested parties should refer to the Plan document for a more complete description of the Plan's provisions.

General - The Plan is a defined contribution plan covering eligible partners and employees of Munger, Tolles & Olson LLP (the "Firm" and the "Plan Sponsor") or related employers. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"), as amended.

Contributions - For purposes of making deferral contributions to the Plan, partners and employees become eligible to participate in the Plan after completing three months of service and effective October 1, 2018, the service requirement was eliminated for elective deferrals. Each year, participants may contribute pretax or Roth deferrals from one percent to 25 percent of eligible compensation, as defined in the Plan and subject to certain limitations under the Internal Revenue Code ("IRC"). Effective October 1, 2018, the maximum deferral percentage was increased to 100 percent. Also effective October 1, 2018, the Plan provides for an automatic enrollment feature whereby eligible employees, unless they elect otherwise, are automatically enrolled at a pretax deferral rate of five percent of eligible compensation, increasing by one percent annually, up 10 percent; however, the first automatic escalation increase will occur on the first change date (January 1) that is at least six months after the participant's entry date. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other eligible retirement plans, as defined in the Plan.

The Plan provides for discretionary Firm profit sharing contributions. For purposes of receiving the Firm's profit sharing contributions, partners and employees become eligible to participate after completing one year of service. Each year, the Firm makes profit sharing contributions equal to (a) three percent of eligible compensation, as defined by the Plan document, for non-partner participants and (b) seven and one-half percent of eligible compensation for partners. If a non-partner participant received a profit sharing contribution in the Firm's Profit Sharing Plan, they are ineligible to receive the Firm's profit sharing contribution in this Plan. The Firm's contributions are subject to certain limitations under the IRC. For the year ended December 31, 2018, the Firm profit sharing contribution was $2,413,043.

Participants direct the investment of their contributions into various investment options offered by the Plan which includes a self-directed brokerage account ("SDBA") option. With a SDBA, a participant may specifically direct the investment of their account.

Participant Accounts - Each participant's account is credited with the participant's contributions, as well as allocations of the discretionary Firm profit sharing contributions and Plan earnings, and charged with any withdrawals or distributions requested by the participant, investment losses and allocation of administrative expenses, if applicable. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting - Participants are vested immediately in their contributions and Firm contributions plus actual earnings thereon.

Payment of Benefits - On termination of service due to death, disability, retirement, or other reasons, a participant will receive a distribution in a lump-sum, which may be transferred to an individual retirement account ("IRA"), another qualified retirement plan, or to a Roth IRA. For retired and terminated participants, they may receive a distribution in the form of installment payments. The Plan provides for a mandatory cash-out following severance of employment for account balances less than $5,000. Effective October 1, 2018, the Plan was amended to add installment payments as a form of distribution.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting - The accompanying financial statements have been prepared on the accrual basis of accounting, in accordance with accounting principles generally accepted in the United States of America, primarily from information provided by Wells Fargo Bank, N.A (the "Trustee") and Charles Schwab Bank and AB Bernstein (collectively, the "Custodians").

Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition - The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Investments are valued daily. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on an accrual basis. Dividends are recorded on the ex-dividend date. Net depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants - Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2018 and 2017.

Administrative Expenses - Certain administrative expenses incidental to the administration of the Plan, including fees of the Trustee, the Custodians, and independent public accountants, may be paid by the Plan. Administrative expenses not paid by the Firm are paid by the Plan.

Most investment options have fees which reduce the overall return on assets. The net depreciation of investments is inclusive of these fees.

According to the Wells Fargo Master Services Agreement ("Agreement") between the Firm and the Trustee, the Trustee shall rebate to the Plan revenue sharing amounts received through certain investment options. Such revenue sharing amounts are allocated prorata to the accounts of the participants who were invested in the applicable investment options on the last day of the period for which the revenue sharing amounts are attributable, based upon the participants' account balances in the particular investment option as of the last day of the applicable period. During the year ended December 31, 2018, $48,983 was received as revenue sharing and allocated to participant accounts.

Benefits Payable to Participants - Benefits are recorded when paid.

3. FAIR VALUE

The Plan accounts for its financial instruments using a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The fair value measurement hierarchy is based on three levels of inputs, of which the first two are considered observable and the last unobservable.

The three levels of the fair value hierarchy are the following:

- Level 1 – Inputs to the valuation methodology that are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

- Level 2 – Inputs other than Level 1 that are observable, either directly or indirectly, such as quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in markets that are inactive; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities.

- Level 3 – Inputs to the valuation that are unobservable and significant to the fair value measurement.

A financial instrument's categorization within the valuation hierarchy is based upon the lowest level of input that is significant to the fair value measurement.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2018 and 2017.

Mutual Funds – This category consists of publicly traded funds of registered investment companies. The net asset value of the mutual fund's shares is quoted on the exchange where the fund is traded and therefore classified as Level 1 within the valuation hierarchy.

Self-directed Brokerage Account – Investments consist primarily of equities and mutual funds and are valued at the closing price reported on the active market in which the investments are traded and are therefore classified as Level 1 within the valuation hierarchy.

Collective and Common Trusts – The Northern Trust All Country World ex-U.S. Investable Market Index Fund, the Northern Trust Extended Market Index Fund, the Northern Trust Aggregate Bond Index Fund, the Northern Trust S&P 500 Index Fund, and the T.Rowe Price Stable Value Fund, held in a collective trust (the Northern Trust funds) or a common trust, are valued at the net asset value ("NAV") of units of a bank collective trust. The NAV, as provided by the fund's trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. The collective and common trusts do not have any unfunded commitments relating to its investments, or any significant restrictions on redemptions. Participant-directed redemptions can be made on any business day and do not have a redemption notice period.

The following tables set forth by level, within the fair value hierarchy, the Plan's investments at fair value:

Investments at Fair Value as of December 31, 2018

	Level 1	Level 2	Level 3	Total
Mutual funds	$ 119,096,279	$ -	$ -	$ 119,096,279

4. FINANCIAL DATA CERTIFIED BY THE TRUSTEE

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the following information was certified as complete and accurate by the Trustee and was not subjected to any auditing procedures performed by the independent public accountants:

a. Investments, at fair value, of $138,877,054 and $146,754,202, respectively, and notes receivable from participants as shown in the accompanying statements of net assets available for benefits as of December 31, 2018 and 2017.

b. Net depreciation of investments of $9,877,969, interest and dividend income on investments of $2,158,604, and interest income on notes receivable from participants as shown in the accompanying statement of changes in net assets available for benefits for the year ended December 31, 2018.

c. Investments of $138,877,054 and participant loans as listed in the accompanying Schedule H, Line 4i - Schedule of Assets (Held at End of Year) as of December 31, 2018.

5. NOTES RECEIVABLE FROM PARTICIPANTS

Participants may borrow from their fund accounts up to a maximum equal to the lesser of $50,000 less the highest outstanding loan balance during the prior 12 months or 50 percent of their vested account balance. Loans are generally issued with a maturity of up to five years. The term of any loan for the purpose of purchasing a primary residence shall not exceed 15 years. The loan interest rate is set at two percent above the prime rate, as defined. Principal and interest are paid ratably through payroll deductions.

6. PLAN TERMINATION

The Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan, subject to the provisions of ERISA.

7. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

8. TAX STATUS

The Plan is a prototype plan that is the subject of a favorable tax opinion letter from the IRS dated January 31, 2017. The plan administrator believes the Plan is currently being operated in accordance with the applicable provisions of the IRC and, accordingly, the plan administrator believes that the Plan is exempt from income taxes.

Accounting principles generally accepted in the United States of America require Plan management to evaluate uncertain tax positions taken by the Plan. The financial statement effects of a tax position are recognized when the position is more likely than not, based on the technical merits, to be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2018, there are no uncertain positions taken or expected to be taken. The Plan has recognized no interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

9. PARTY IN INTEREST TRANSACTIONS

Plan investments are held by the Trustee and Custodians. Transactions with the Trustee and Custodians qualify as party in interest transactions for which exemptions exist. The Trustee received $94,883 for administration fees which were paid by the participants through the Plan as well as indirect compensation. In addition, the Plan utilizes various advisors who received a total of $33,889 in advisory fees which were paid by the participants through the Plan.

10. DELINQUENT PARTICIPANT CONTRIBUTIONS

Certain loan repayments were not remitted timely to the Trustee as required by the Department of Labor's regulations. These late remittances are detailed in the attached Schedule H, Line 4a - Schedule of Delinquent Participant Contributions.

11. SUBSEQUENT EVENTS
