KM Strategic Management 401(k) Retirement Savings Plan

Notes to Financial Statements

Note A—Description of Plan

1. General: The Plan is a 401(k) profit sharing plan covering all employees of the Company who have two or more months of services and a minimum age is not a requirement. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

2. Contributions: Each year, participants may contribute up to certain limits of pretax annual compensation, as defined in the plan. Participant may also contribute amounts representing distributions from other qualified defined or contribution plans as rollover contribution. The Company may make an employer discretionary contribution to the Plan. It may be contributed at the option of the Company's board of directors. All contributions are invested through custodian's Principal Life Insurance Company. Contributions are subject to certain Internal Revenue Code (IRC) annual limitations.

3. Participant Accounts: Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution and, (b) Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

4. Vesting: Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's matching and discretionary contribution portion of their accounts plus actual earnings thereon is based on continuous services. A participant is vested in the Company's share of contribution at 25% after two years, 50% after three years, 75% after four years, and 100% after five years of credited services.

5. Forfeitures: Forfeitures of non-vested Company contributions are first used to pay plan expenses. Any forfeiture left after paying plan expenses are reallocated to employees. Forfeitures from other participants may increase employees' account.

6. Administrative Expenses: Certain expenses incurred in the administration of the Plan are paid directly by the Company.

7. Participant Loans: The Plan does not offer loans to participant at this time.

8. Payment of Benefits: On termination of services due to death, disability, hardship or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or annual installments and the optional form chosen. For termination of services due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

KM Strategic Management 401(k) Retirement Savings Plan

Notes to Financial Statements

Note B—Summary of Accounting Policies

1. Basis of Accounting: The financial statements of the Plan are prepared on accrual method of accounting.

2. Estimates: The preparation of financial statements in conformity with generally accepted accounting principles requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosers. Actual results may differ from these estimates.

3. Investment Valuation and Income Recognition: The investments in all of the funds are presented at fair value, based on the quoted market prices of the underlying securities within each fund at December 31, 2008 and 2009. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on accrual basis. Dividends are recorded on the ex-dividend date.

4. Subsequent Events: For the year-ended December 31, 2009, the Company has evaluated subsequent events for potential recognition and disclosure through October 8, 2010, the date of the financial statement issuance.

Note C—Investments

The investments held at December 31, 2008 and 2009 that represent 5% or more of the Plan's net assets $598,847 and $686,442 respectively. See exhibit A for detail.

During 2009, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in the value by $95,659.

Note D—Nonparticipant-Directed Investments

The Plan has only participant directed investments.

Note E—Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue at any time and to terminate the Plan subject to the provisions of ERISA. In the event of the Plan termination, participants will become 100% vested in their accounts.

KM Strategic Management 401(k) Retirement Savings Plan

Notes to Financial Statements

Note F—Investment Contract with Insurance Company

The Plan has fully benefit-responsive investment contract with Principal Insurance Services (Principal). Principal maintains the contributions in a general account, which is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The contract is included in the financial statements at fair value and then adjusted to contract value as reported to the Plan by Principal Insurance Services. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. The participant my ordinarily direct the withdrawal or transfer of all or in portion of their investment at contract value.

Principal is contractually obligated to pay the principal and specified interest rate that is guaranteed to the plan. The crediting interest rate is based on a formula agreed upon with the issuer, but may not be less than 0% and it varies depending upon maturity of the annuity.

Note G—Reconciliation of Financial Statements to Schedule H of Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements at December 31, 2008 and 2009 to Schedule H of Form 5500:

KM Strategic Management 401(k) Retirement Savings Plan

Notes to Financial Statements

Note I—Tax Status

The Internal Revenue Service has determined and informed the Company by a letter dated 8/7/2001 that the plan is under the Principal Life Insurance Company prototype plan and the effective date of the plan is January 1, 2002. The Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan administrator and the Plan's tax counsel believe that the plan designed and is currently being operated in compliance with the applicable requirement of the IRC. Therefore, no provision for income taxes has been made in the financial statements.

Note J—Information Certified by the Trustee/Custodian (Unaudited)

At December 31, 2008 and 2009, the Plan's investments were held by the Principal Life Insurance Company, Trustee/ Custodian. The Plan's financial information that is included in the financial statements based on information certified by the Trustee as complete and accurate pursuant to 29 CFR 2520.103-5(c) of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

The fair value of investments at December 31, 2008 and 2009, as reported by the trustee are summarized in the Exhibit B.

Note K—Fair Value Measurements

FASB ASC 820, *Fair Value Measurements and Disclosures*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

> Input Level 1—Fair values are based on unadjusted quoted prices in active markets for identical assets or liabilities.
>
> Input Level 2—Fair values are based on inputs other than quoted price within Level 1 that are observable for the assets, either directly or indirectly.
>
> Input Level 3—Fair values are based on at least one significant unobservable input for the asset.

Note K—Fair Value Measurements-continue

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2008 and 2009.

> ***Separate Accounts***: *Common stocks, corporate bonds, international stocks, and US government securities* are valued at the closing price reported on the active market on which the individual securities are traded. Investments in *Mutual funds*—The fair value of the mutual fund is a publicly quoted pricing input (level 1) and is used in determining the net asset value (NVA) of the pooled separate account, which is not publicly quoted. The mutual fund's underlying assets are valued at NVA at the year end.
>
> ***Investment contracts***: Fair value is the amount plan participants would receive currently if they were to withdraw or transfer funds within the Plan prior to their maturity for an event other than death, disability, termination or retirement. This fair value represents contract value adjusted to reflect current market interest rates only to the extent such market rates exceed crediting rates.

The preceding methods may produce a fair value calculation that may not be indicative of net realizable value or reflective of future values. Furthermore, although the plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the plan's assets at fair value as of December 31, 2008 and 2009:

Investment Category	Assets at Fair Value as of December 31, 2008

Note L—Related Party Transactions
