Report of Independent Auditors

To the Administrator of New York University Retirement Plan
for Members of the Faculty, Professional Research Staff and Administration

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We were engaged to perform an audit of the financial statements of New York University Retirement Plan for Members of the Faculty, Professional Research Staff and Administration (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statement of net assets available for benefits as of December 31, 2022 and 2021, and the related statement of changes in net assets available for benefits for the years then ended, including the related notes (collectively referred to as the "financial statements").

Management, having determined it is permissible in the circumstances, has elected to have the audit of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audit need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from qualified institutions as of December 31, 2022 and 2021 and for the years then ended, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Disclaimer of Opinion

We do not express an opinion on the accompanying financial statements of the Plan. Because of the significance of the matter described in the Basis for Disclaimer of Opinion section of our report, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion on these financial statements.

Basis for Disclaimer of Opinion

The Plan sponsor's accounting records for contracts and custodial accounts issued to current or former employees prior to January 1, 2009 do not provide sufficient evidence supporting investments, benefit payments, investment income and net assets available for benefits to permit the application of adequate auditing procedures.

pwc

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America1, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Our responsibility is to conduct an audit of the Plan's financial statements in accordance with auditing standards generally accepted in the United States of America and to issue an auditors' report. However, because of the matter described in the Basis for Disclaimer of Opinion section of our report, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion on these financial statements.

We are required to be independent of the Plan, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit.

Supplemental Schedules Required by ERISA

Schedule H, Part IV, Line 4i - Schedule of Assets (Held at End of Year) as of December 31, 2022 and Schedule H, Part IV, Line 4a – Schedule of Delinquent Participant Contributions for the year ended December 31, 2022 ("supplemental schedules"), are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. Because of the significance of the matter described in the Basis for Disclaimer of Opinion section of our report, it is inappropriate to and we do not express an opinion on these supplemental schedules.

1. Description of Plan

The following description of the New York University Retirement Plan for Members of the Faculty, Professional Research Staff and Administration (the Plan) provides only general information. Participants should refer to the Plan Document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution 403(b) plan sponsored by New York University (NYU), the Plan Administrator, which was formed effective January 1, 1952. All eligible employees (as defined below) can participate. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA) as amended under the Pension Protection Act of 2006.

The Plan assets are held by the following Trustees:

- Teachers Insurance and Annuity Association of America – College Retirement Equities Fund (TIAA-CREF), as insurance companies. TIAA, FSB is the custodian/trustee for the nonannuity assets, including mutual funds. TIAA is a legal reserve life insurance and annuity company. CREF is an open-end diversified management investment company. The Plan allows participants to purchase unallocated insurance contracts through TIAA. The Plan also allows participants to purchase unallocated investments, notably mutual funds held in custodial accounts, through TIAA-CREF, and variable annuity contracts through TIAA-CREF.

- Corebridge Financial (Corebridge), formerly AIG Retirement Services – Corebridge Financial is the custodian for the Plan's investments in variable annuity contracts and other insurance contracts.

The balance in each participant's account is comprised of employee contributions, NYU contributions made on their behalf and Plan earnings less expenses. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Contributions

NYU makes nonelective employer contributions to eligible participant accounts at a rate of 5% of the participant's eligible pay per pay period and matching contributions based on participant contributions up to a maximum of 5% of the participant's eligible pay per pay period. NYU's nonelective and matching employer contributions are up to the annual limit of compensation set by the Internal Revenue Service (IRS). An employee elects to make participant contributions and NYU reduces the participant's pay accordingly.

The Plan includes an auto-enrollment provision whereby all newly eligible employees are automatically enrolled in the Plan unless they affirmatively elect not to participate in the Plan. Automatically enrolled participants have their deferral rate set at 5% of eligible compensation and their contributions invested in the default investment until changed by the participant.

An employee's total pre-tax deferrals made to all eligible plans may not exceed the pre-tax limit established by the IRS ($20,500 in 2022 and $19,500 in 2021). Participants age 50 and over are eligible to contribute additional pre-tax contributions (catch-up contributions) above the annual IRS limitations (up to $6,500 in both 2022 and 2021).

Vesting
Participants are fully vested in their account balances upon becoming an eligible participant. All employees are eligible to participate in the Plan, except for the following: (i) employees of a global site who are nonresident aliens with no U.S. source income, (ii) student employees whose employment is incidental to his or her education, (iii) leased employees, (iv) employees covered by another retirement plan sponsored by NYU or its affiliates, including the NYU Supplemental Tax-Deferred Annuity Plan (NYU STDA Plan), or (v) employees who are employed only by the NYU Grossman School of Medicine, NYU Long Island School of Medicine, or NYU Langone Hospitals.

Participant Loans-Pre-April 1, 2021
For loans issued prior to April 1, 2021, participants could borrow amounts from both TIAA-CREF and Corebridge using the assets of the Plan as collateral, subject to certain restrictions. A maximum of two outstanding loans were permitted at any given time, and this two-loan limit applied to a participant's total number of loans under the Plan and the NYU STDA Plan. Previously, the amount borrowed was not to exceed the lesser of 45% of their individual vested account or $50,000. Loan terms could not exceed five years, except for loans used to acquire the participant's principal residence which could not exceed 10 years.

Plan loans with TIAA-CREF issued prior to April 1, 2021, were issued directly from funds owned by TIAA-CREF and not directly from a participant's account. For all plan loans, interest and principal are paid by the participant directly to TIAA-CREF. Adequate security is required, and a portion of the participant's account is reserved, or held in collateral, to cover 110% of the outstanding balance in case of default. Plan loans are not considered investments of the Plan and therefore are not reported in the statements of net assets available for benefits. While the plan loans themselves are not considered Plan assets, the collateral related to a defaulted loan is reportable as a plan asset. The interest rate is determined by TIAA-CREF and may be fixed or variable, and the initial interest rate is determined by the terms of the controlling contract, as is the rate adjustment details and frequency. For each of the years ended December 31, 2022 and 2021, the interest rates on outstanding loans issued prior to April 1, 2021, ranged from 4.00% to 6.85%, and loans mature through July 1, 2031. Plan loans with TIAA-CREF amounted to $2,652,221 and $4,051,005 at December 31, 2022 and 2021, respectively. These loans are fully secured by the participant's interest in their TIAA Traditional Annuity account. At December 31, 2022 and 2021, $2,917,443 and $4,456,106, respectively, of the TIAA Traditional Annuity balance was used to secure plan loans.

For plan loans with Corebridge issued prior to April 1, 2021, participants could borrow a minimum of $1,000 up to a maximum of the lesser of 50% of their individual vested account balance or $50,000. Loan collateral amounts are transferred from a participant's investment election into a loan collateral account which is disclosed separately in the investments section of the statements of net assets available for benefits as fixed collateral accounts. The interest rate is determined by Corebridge, as well as the rate adjustment details and frequency. The interest rate on outstanding loans ranged from 2.75% to 5.50% for the year ended December 31, 2022, and 2.50% to 5.50% for the year ended December 31, 2021. Loans mature through June 2030 for each of the years ended December 31, 2022 and 2021. Plan loans with Corebridge amounted to $64,076 and $94,039 at December 31, 2022 and 2021, respectively. At December 31, 2022 and 2021, $86,217 and $115,670, respectively, was held in the fixed collateral accounts to secure plan loans.

Participant Loans-Post April 1, 2021
Effective April 1, 2021, new loans issued are funded directly from the participant's TIAA-CREF account. Participants may borrow from their account balance a minimum of $1,000 up to a maximum of the lesser of 50% of their eligible account balance or $50,000 minus their highest outstanding balance of loans under the Plan and the NYU STDA Plan during the past 12 months. Loan repayments, with interest, are paid directly from the participant to TIAA-CREF. Loans are secured by the balance in the participant's account and bear interest at a fixed rate set at one percent above the prime rate. If a loan payment is missed, the participant will be considered in default on the entire outstanding loan balance. If the total overdue amount is not paid by the end of the calendar quarter after the calendar quarter in which repayment was due, the outstanding loan balance (including accrued interest) will be reported as a distribution to the participant. The statements of net assets available for benefits reflect loans receivable from participants. Interest income from loans receivable from participants is included in interest and dividend income within the statements of changes in net assets available for benefits.

Plan participants with account balances held with Corebridge may not borrow against their account balances.

Rollovers and Transfers
Rollover contributions to the Plan are permitted from non-Roth 401(k)'s, Roth 403(b)'s, or other nonqualified plan accounts. Eligible employees may transfer account balances from the NYU STDA Plan.

Hardships
Participants under age 59 ½ may make a withdrawal from employee and rollover contributions in the case of a financial hardship or permanent disability.

Payment of Benefits
On termination of service due to a participant's retirement, death, or termination of employment at NYU, plan benefits may be paid. Withdrawal options for participants include a lump sum withdrawal, a series of partial withdrawals, or an annuity payout.

Investments
Upon enrollment in the Plan, participants' contributions are allocated between the investment options in whole percentages to purchase accumulation units or annuity contracts. The number of units purchased is based on the net asset value (NAV) per unit on the day their contributions are received. Investment return is allocated to participants' accounts based upon the number of units the participant owns in each investment and the net (depreciation) appreciation of the assets in the investment.

The Plan allows participants to direct the investment of their accounts into the TIAA Traditional Annuity, the TIAA Real Estate pooled separate account, CREF variable annuities, Corebridge variable annuities and insurance contracts, and various mutual funds. Effective April 1, 2021, participants can also direct the investment of their accounts into a TIAA-CREF self-directed brokerage account. Participants may change their investment options at their discretion.

2. Summary of Significant Accounting Policies

Basis of Presentation

The financial statements of the Plan are prepared on the accrual basis of accounting in conformity with accounting principles generally accepted in the United States of America (U.S. GAAP).

Use of Estimates

The preparation of the Plan's financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingencies at the date of the financial statements and the reported amounts of changes in net assets available for benefits during the reporting period. Actual results could differ from these estimates and such differences could be material.

Investment Valuation and Income Recognition

The Plan's investments are held with the Trustees of the Plan. Shares of mutual funds are stated at fair value based upon quoted prices in actively traded markets as of December 31, 2022 and 2021, where a quoted market exists. Where no quoted market exists, fair value is determined by the Trustee or independent appraisers. Investments in pooled separate accounts and variable annuities are valued at the net asset value for units held at year end. Investments in nonfully benefit responsive investment contracts are valued at fair value based on discounted cash flows as more fully described in Note 4. Investments in fully benefit responsive investment contracts are valued at contract value which equals the accumulated cash contributions and interest credited to the contracts less any withdrawals.

Contributions to the TIAA Traditional Annuity are used to purchase a guaranteed amount of future retirement benefits. TIAA provides annuities, which are considered unallocated contracts. The TIAA Traditional Annuity is a guaranteed annuity which guarantees principal and pays a guaranteed minimum interest of 3.00% during the accumulation and payout phases. Additional amounts above the guaranteed minimum interest rate may be declared at the discretion of the TIAA Board of Trustees on an annual basis. When declared, the additional amounts remain in effect for the declaration year beginning each March 1, and are not guaranteed for future years. Together the guaranteed minimum and additional amounts make up the crediting rate in the accumulation phase. TIAA groups premium dollars received over defined periods for the purpose of determining the crediting rate for the applicable declaration year during the accumulation period. The average monthly crediting rate for regular annuities in the accumulation phase for nonfully benefit responsive contracts was 5.06% and 3.13% during 2022 and 2021, respectively. The average monthly crediting rate for fully benefit responsive contracts was 4.27% and 3.00% during 2022 and 2021, respectively.

The TIAA Traditional Annuity is offered through Retirement Annuity (RA) contracts ($841,996,038 and $827,594,652 at December 31, 2022 and 2021, respectively) and Group Supplemental Retirement Annuity (GSRA) and Supplemental Retirement Annuity (SRA) contracts ($84,459,833 and $70,974,610 at December 31, 2022 and 2021, respectively). The TIAA Traditional Annuity holdings within the RA contracts have liquidity restrictions and are nonfully benefit responsive. Distributions, withdrawals, and transfers out of the RA contracts can only be made in 10 annual installments through Transfer Payout Annuities. The TIAA Traditional Annuity holdings within the GSRA and SRA contracts contain no liquidity restrictions and are fully benefit responsive.

The Plan presents the net (depreciation) appreciation in the fair value of its investments in the statements of changes in net assets available for benefits, which consists of the realized gains or losses and the net unrealized appreciation or depreciation on those investments less expenses. Interest credited on the TIAA Traditional Annuity is classified as interest income.

Purchases and sales of securities are recorded on a trade-date basis. Dividend income is recorded on the ex-dividend date and interest income is recorded on the accrual basis.

Payment of Benefits
Benefits are recorded when paid.

Expenses of the Plan
Trustee-related expenses are deducted from the net assets of each account each valuation day for investment management, administration and distribution services. Investment management and operating expenses charged to the Plan for investments in mutual funds are deducted from income earned on a daily basis. Expenses are not separately reflected within the statements of changes in net assets available for benefits but are included as an offset to net (depreciation) appreciation in fair value of investments.

Risks and Uncertainties
The Plan invests in various types of investment securities including registered investment companies, insurance contracts, variable annuity contracts, a pooled separate account and a fixed dollar annuity contract. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the value of participant account balances and the amounts reported in the statements of net assets available for benefits and the statements of changes in net assets available for benefits.

In April 2018, an eight-day trial in the United States District Court for the Southern District of New York was held in Sacerdote et. al. v. NYU, in which plaintiffs, a class of NYU employees, alleged that NYU had breached its fiduciary obligations under ERISA. The Plaintiffs sought several hundred million dollars in damages. Following trial, on July 31, 2018 the Court issued its opinion dismissing all claims in their entirety. On September 11, 2018, the Plaintiffs filed a Notice of Appeal and on October 1, 2018, the plaintiffs filed a motion for a new trial. On July 1, 2019, the Court issued its decision and order denying the Plaintiffs' motion for a new trial. The Plaintiffs appealed this decision to the United States Court of Appeals for the Second Circuit on November 19, 2019; NYU submitted their response brief in March 2020; oral argument was held in October 2020. On August 16, 2021, the Second Circuit issued its opinion. The Second Circuit affirmed the District Court's findings in favor of NYU on the claims that were tried in April 2018. The Second Circuit found, however, that the District Court erred in dismissing one of Plaintiffs' claims prior to trial and in denying Plaintiffs' motion to amend the complaint to add additional defendants. Specifically, the Second Circuit found that the District Court should not have dismissed Plaintiffs' claim that NYU allegedly breached ERISA's fiduciary duty of prudence by offering certain share classes of some of the investments made available to participants in NYU's pension plans and that the District Court should have considered Plaintiffs' motion to amend using a different standard. The case was remanded to the District Court. Plaintiffs sought leave to amend the Second Amended Complaint to add two Defendants, renewing a motion they had filed in September 2017, and to expand plaintiffs' Count V claim alleging a breach of ERISA's duty of prudence regarding the offering of certain investments that were not the least expensive share

class. NYU opposed Plaintiffs' motion for leave on multiple grounds, including that leave to amend should not be granted under Civil Rule of Procedure 15(a)(2)'s liberal standard because an amendment would be futile and because of Plaintiffs' undue delay, bad faith, and dilatory motives in seeking leave to amend. On October 24, 2022, the Court granted Plaintiffs leave to amend their complaint to: 1) reallege the claim in Count III (recordkeeping) against only two Defendants, 2) add two Defendants and the Retirement Plan Committee as Defendants in Count V, 3) reallege claims in Count V (share class claim) against two Defendants, and 4) reallege their claim in Count VII (failure to monitor claim) as against NYU. On November 7, 2022, NYU filed a motion for reconsideration which was denied on August 1, 2023. On August 1, 2023, Plaintiffs filed a Second Amended Complaint naming two Defendants and expanding their Count V claim. The parties are conducting discovery on Plaintiffs' remaining claims. There is currently no trial date. NYU will continue to aggressively defend this case.

3. Certified Financial Data

The following is a summary of the financial information included in the Plan's financial statements and supplemental schedule which was certified by TIAA-CREF and Corebridge as of December 31, 2022 and 2021, and for each of the years then ended. TIAA-CREF and Corebridge have certified the data as complete and accurate in accordance with 29 CFR Section 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

Plan assets certified at December 31, 2022 and 2021, are summarized as follows:

4. Fair Value Measurements

Authoritative guidance on fair value measurements, Accounting Standards Codification (ASC) Topic 820, *Fair Value Measurement and Disclosures*, establishes a hierarchy of valuation methodologies based on the extent to which asset valuation are observable in the marketplace. The following describes the hierarchy of methodologies used to measure fair value of investments:

- Fair value for Level 1 is based upon quoted prices in actively traded markets that the Plan has the ability to access for identical assets and liabilities. Market price data is generally obtained from exchange or dealer markets. The Plan does not adjust the quoted price for such assets and liabilities.

- Fair value for Level 2 is based on quoted prices for instruments similar to those held by the Plan in actively traded markets, quoted prices for identical instruments similar to those held by the Plan in markets that are not actively traded and model-based valuation techniques for which all significant assumptions are observable in the market or can be corroborated by observable market data. Inputs are obtained from various sources including market participants, dealers and brokers.

- Fair value for Level 3 is based on valuation techniques used to assess prices that are unobservable as the assets trade infrequently or not at all.

The asset's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different estimate of fair value at the reporting date. There have been no changes in the methodologies used as of December 31, 2022 and 2021.

The following tables summarize the investments held at fair value at December 31, 2022 and 2021:

	Active Markets (Level 1)	Observable Inputs (Level 2)	Unobservable Inputs (Level 3)	Total 2022
Variable annuities [1]	$ 2,771,999	$ 957,324,132	$ -	$ 960,096,131

(1) This category includes investments in CREF variable annuities. In an effort to reduce market timing and excessive trading, shareholders are not permitted to make electronic transfers back into the same account with a purchase or exchange for 90 calendar days, if a purchase, sale or repurchase within the account is made within a 60-day period.

(2) This category includes an investment in a pooled separate account investing in real estate and real estate related investments. Although the underlying assets of the pooled separate account cannot be quickly sold and converted to liquid assets, the TIAA General Account provides a liquidating guarantee to meet participants' redemption, transfer or cash withdrawal requests varying from one to three days. Redemptions out of this investment are limited to one per quarter. Internal transfers into the TIAA Real Estate account are prohibited if the transfer causes the value of the participant's total accumulation in the account to exceed $150,000. The purpose of this limitation is to ensure more predictable account inflows and outflows, which is expected to facilitate efficient portfolio management over the long term.

(3) This category includes investments in TIAA-CREF self-directed brokerage accounts. The accounts are valued based on the fair value of the underlying investments which include mutual funds and money market funds.

There are no redemption notice periods required by nor significant fees imposed by the insurance companies should the Plan choose to no longer allow Plan assets to be invested in a particular variable annuity or pooled separate account. Trade settlement terms are 1-3 day(s).

Level 3 Investments
The Level 3 investment assets consist of fixed income annuity investments in the TIAA Traditional Annuity RA contracts. The Plan had Level 3 purchases in the amount of $76,930,673 and $76,925,530 for the years ended December 31, 2022 and 2021, respectively. There were no transfers into or out of Level 3 during 2022 or 2021.

The following tables present information about significant unobservable inputs related to the Plan's investment in assets categorized as Level 3 in the ASC 820 fair value hierarchy at December 31, 2022 and 2021:

	2022			
Type	Fair Value	Valuation Technique	Significant Unobservable Inputs	Crediting Rate Range
TIAA Traditional Annuity - RA	$ 841,996,038	Discounted cash flow theoretical transfer (exit value)	Risk-adjusted discount rate applied	3.70% – 6.25%

	2021			
Type	Fair Value	Valuation Technique	Significant Unobservable Inputs	Crediting Rate Range
TIAA Traditional Annuity - RA	$ 827,594,652	Discounted cash flow theoretical transfer (exit value)	Risk-adjusted discount rate applied	3.00% – 3.80%

5. Plan Termination

NYU has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. NYU has not expressed any intent to discontinue the Plan.

6. Tax Status

The Plan has been designed to qualify for tax-exempt status under Section 403(b) of the Internal Revenue Code (the Code). The Plan Administrator believes that the Plan is currently designed and operating in accordance with the applicable requirements of Section 403(b) of the Code and, therefore, believes the Plan is qualified and the related custodial accounts and tax-deferred annuities are tax-exempt. Therefore, no provision for income taxes has been included in the Plan's financial statements.

U.S. GAAP requires an evaluation of tax positions taken by the Plan and recognition of a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan Administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2022, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to 2019.

7. Party-in-Interest and Related Party Transactions

The Plan's investments are managed by the Trustees (TIAA-CREF and Corebridge). Therefore, these transactions qualified as party-in-interest. The total fair value of investments managed by the Trustees was $2,010,536,412 and $2,305,974,347 at December 31, 2022 and 2021, respectively. The total value of participant loans managed by TIAA-CREF was $6,607,015 and $3,361,213 at December 31, 2022 and 2021, respectively.

8. Reconciliation of the Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500 as of December 31, 2022 and 2021:

	2022
Net assets available for benefits per the financial statements	$ 4,222,438,876
Deemed distributions of participant loans	(121,428)
Net assets available for benefits per the Form 5500	$ 4,222,317,448

	2021
Net assets available for benefits per the financial statements	$ 4,819,966,746
Deemed distributions of participant loans	(2,657)
Net assets available for benefits per the Form 5500	$ 4,819,964,089

The following is a reconciliation of the (decrease) increase in net assets available for benefits per the financial statements to the net (loss) income and transfers of assets per the Form 5500 for the years ended December 31, 2022 and 2021:

	2022
Net decrease in net assets available for benefits per the financial statements	$ (597,527,870)
Less: Deemed distributions of participant loans at December 31, 2022	(121,428)
Add: Deemed distributions of participant loans at December 31, 2021	2,657
Net loss and transfers of assets per the Form 5500	$ (597,646,641)

	2021
Net increase in net assets available for benefits per the financial statements	$ 538,091,981
Less: Deemed distributions of participant loans at December 31, 2021	(2,657)
Net income and transfers of assets per the Form 5500	$ 538,089,324

9. Subsequent Events

The Plan Administrator has evaluated subsequent events through September 19, 2023, the date the financial statements were available to be issued. There have been no subsequent events that occurred during this period that would require recognition or disclosure in the financial statements as of December 31, 2022 or for the year then ended.
