Independent Auditor's Report

The Plan Administrator and Plan Management
ruralMED 401(k) Plan
Holdrege, Nebraska

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of ruralMED 401(k) Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2022 and 2021, and the related statement of changes in net assets available for benefits for the year ended December 31, 2022, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from qualified institutions as of December 31, 2022 and 2021 and for the year ended December 31, 2022, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

- The information in the accompanying financial statements related to assets held by and certified to by qualified institutions agrees to, or is derived from, in all material respects, the information prepared and certified by institutions that management determined meet the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current Plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor’s Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.

- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certifications, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matters - Supplemental Schedules Required by ERISA

The supplemental schedule H, line 4i-schedule of assets held at end of year and schedule H, line 4a-schedule of delinquent participant contributions as of or for the year ended December 31, 2022, are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

- The information in the supplemental schedules related to assets held by and certified to by qualified institutions agrees to, or is derived from, in all material respects, the information prepared and certified by institutions that management determined meet the requirements of ERISA Section 103(a)(3)(C).

Note 1 - Description of Plan

The following description of the ruralMED 401(k) Plan (the Plan) is provided for general information purposes only. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all employees, as defined by the Plan, of Nebraska Provider Alliance LLC dba Rural Med Management Resources. Holdrege Medical Clinic P.C., a related entity, is also a participating employer in the Plan. Rural Med Management Resources and Holdrege Medical Clinic P.C. are collectively referred to as the Employers. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Governing Members of the Employers are responsible for oversight of the Plan. The Retirement Committee determines the appropriateness of the Plan's investment offerings, monitors investment performance and reports to the Governing Members.

Eligibility

Employees are eligible to participate for purposes of elective deferrals on their first day of employment. The Plan entry dates for the purpose of elective deferrals is the date the eligibility requirements are met. Employees, other than those classified as part-time, temporary or seasonal (except if such employee is credited with 1 year of service as defined by the Plan), become eligible to receive the Employers' contributions after completing 1 year of service (at least 1,000 hours of service) and attaining age 18. Effective August 1, 2022, employees must attain age 18 for all contribution types, including electing deferrals, in order to be eligible to participate. The Plan entry dates for the purpose of Employers discretionary matching contributions is the first day of the first and seventh month of the Plan year.

Contributions

Contributions made to the Plan are as follows:

Participant Contributions – Participants may elect to make contributions of their pre-tax and post-tax (Roth) compensation, as defined by the Plan. The Plan includes an auto-enrollment provision. Employees are automatically enrolled in the Plan unless they affirmatively choose not to participate in the Plan. Automatically enrolled employees have their deferral rate set at 4% of compensation and their contributions invested in a designated fund until changed by the employee. The automatic deferral rate will automatically escalate by 1% each year up to a maximum of 10% of compensation. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions.

Employers Discretionary Matching Contributions – The Employers may make discretionary matching contributions to each participant based on his or her elective deferrals in a percentage set by the Employers. For the Plan year 2022, the Employers elected a discretionary tiered matching contribution of 100% of the participant's contributions that do not exceed 3% of the participant's eligible compensation for participants with less than 5 years of service and 100% of the participant's contributions that do not exceed 4% of the participant's eligible compensation for participants with greater than 5 years of service.

Employers Discretionary Profit-Sharing Contributions – The Plan allows for a discretionary profit sharing contribution to be determined at Plan year end by the Employers. There was no discretionary profit sharing contribution contributed to the Plan during 2022.

Participants may also rollover amounts representing distributions from other qualified plans. Participants direct the investment of their contributions and the Employers contributions into various investment options offered by the Plan. Participants may change their investment options at any time. Contributions are subject to certain Internal Revenue Service (IRS) limits.

Participant Accounts

Each participant's account is credited with the participant's contribution, rollover contributions, the Employers' contributions as well as allocations of Plan earnings (losses). Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings (losses), account balance, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

A participant shall always be 100% vested in the participant's elective deferral contributions, any catch-up contributions and rollover contributions made by the participant to the Plan.

The vested portion of any Employers discretionary matching or discretionary profit sharing contributions shall be a percentage of the total amount credited to the participant's account determined on the basis of the participant's number of years of service (1,000 hours of service in a Plan year) according to the following schedule:

Completed Years of Service	Percentage Vested
Less than 1	0%
1	20%
2	40%
3	60%
4	80%
5	100%

Notwithstanding the above vesting schedule, the Employers discretionary matching contributions and discretionary profit sharing contributions shall be non-forfeitable and fully vested at normal retirement age, death or disability, if earlier.

Notes Receivable from Participants

Participants may borrow from their fund accounts, a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their account balance. The notes are secured by the balance in the participant's account and bear interest at a reasonable rate as determined by the Plan Administrator. Principal and interest is paid ratably through payroll deductions over a period not to exceed five years, unless the proceeds of the note were used to acquire the participant's residence, in which case the note terms can range up to ten years. A participant may have no more than one outstanding note at any one time. At December 31, 2022 the interest rates on outstanding notes ranged from 4.25% to 7.25% and maturities ranged from September 2025 to July 2032.

Payment of Benefits

On termination of service due to death, disability or retirement, a participant or a beneficiary may elect to receive either a lump-sum amount or installment payments equal to the value of the participant's vested interest, reduced by the balance of any outstanding notes receivable, in his or her account. Annuities are not allowed, except for distribution of transferred pension assets. For termination of service for other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution or installment payments. If the participant's account balance is less than $1,000, the Plan can automatically cash out the account at the participant's termination. In the event of a mandatory distribution greater than $1,000 made in accordance with the small amounts payment provisions of the Plan, if the participant does not elect to have such distribution paid directly to an eligible plan specified by the participant or to receive the distribution directly, the Plan Administrator will pay the distribution in a direct rollover to an individual retirement plan. For account balances greater than $5,000, a participant must elect to receive the distribution, or the vested benefit will continue to be invested in the Plan's assets. Distributions may be made at the participant's election prior to termination upon attainment of age 59 ½ or hardship as defined in the Plan document.

Forfeited Accounts

Forfeited amounts are used to reduce the future Employers contributions. Forfeited nonvested amounts of $12,685 and $29,792, respectively, were available to reduce the Employers contributions as of December 31, 2022 and 2021. The Employers contributions were reduced by $34,221 and Plan expenses of $1,902 were paid from forfeited nonvested accounts in 2022.

Note 2 - Summary of Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value (except for the fully benefit-responsive investment contract, which is reported at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Retirement Committee determines the Plan's valuation policies utilizing information provided by the investment advisers, custodian and insurance company. See Note 4 for discussion of fair value measurement.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

The classification of investment earnings (losses) reported in the statement of changes in net assets available for benefits may differ from the classification of earnings (losses) on Form 5500 due to different reporting requirements on Form 5500.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Delinquent participant notes are reclassified as distributions based upon the terms of the Plan document.

Payments of Benefits

Benefit payments to participants are recorded upon distribution.

Administrative Expenses

Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Employers. Expenses that are paid by the Employers are excluded from these financial statements. Certain expenses incurred in connection with the general administration of the Plan that are paid by the Plan are recorded as deductions in the accompanying statement of changes in net asset available for benefits. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative fees. Certain administrative functions are performed by officers or employees of the Employers. No such officer or employee receives compensation from the Plan.

Subsequent Events

The Plan has evaluated subsequent events through September 7, 2023, the date the financial statements were available to be issued.

Note 3 - Certified Information

Certain information related to investments and notes receivable from participants disclosed in the accompanying financial statements and ERISA-required supplemental schedules, including investments and notes receivable from participants held at December 31, 2022 and 2021, and net depreciation in fair value of investments, interest and dividends, and interest income on notes receivable from participants for the year ended December 31, 2022, was obtained by management and agreed to or derived from information certified as complete and accurate by Empower Trust Company LLC (as of December 31, 2021 and from January 1, 2022 through July 31, 2022) and John Hancock Trust Company LLC (as of December 31, 2022 and from August 1, 2022 through December 31, 2022) the custodian and trustee, respectively, of the Plan. Effective August 1, 2022, Great-West Trust Company, LLC was renamed Empower Trust Company, LLC.

Note 4 - Fair Value Measurement

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) Topic 820, Fair Value Measurement, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2022 and 2021.

Mutual funds (including money market mutual funds): Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-ended mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Collective trust funds: Valued at NAV of its underlying investments held at year end adjusted for any dividends or distribution received and the daily equivalent of any fee charged pursuant to the contract. The NAV, as provided by custodian and trustee, is used as a practical expedient to estimate fair value.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes it valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2022 and 2021:

	2022			
	Level 1	Level 2	Level 3	Total
Money market mutual fund	$ 12,685	$ -	$ -	$ 12,685
Mutual funds	7,753,530	-	-	7,753,530
	$ 7,766,215	$ -	$ -	7,766,215
Investments at net asset value (a)				278,061
Total investments at fair value				$ 8,044,276

	2021			
	Level 1	Level 2	Level 3	Total
Mutual funds	$ 9,364,019	$ -	$ -	$ 9,364,019

(a) In accordance with FASB ASC Subtopic 820-10, certain investments that were measured at NAV per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statements of net assets available for benefits.

Note 5 - Fair Value of Instruments in Certain Entities that Calculate NAV per Share (or its Equivalent)

The following table sets forth additional disclosures of the Plan's investments whose fair value is estimated using NAV per share (or its equivalent) as of December 31, 2022 and 2021:

	2022 Fair Value	2021 Fair Value	Unfunded Commitments	Redemption Frequency	Redemption Notice Period
Collective trust funds	$ 278,061	$ -	-	Daily	None

Note 6 - Fully Benefit-Responsive Investment Contract

The Plan had entered into a traditional fully benefit-responsive investment contract with Empower Annuity Insurance Company of America (Empower). This contract met the fully benefit-responsive investment contract criteria and therefore is reported at contract value. Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value, as reported to the Plan by Empower, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. The contract value of the investment contract at December 31, 2022 and 2021, was $0 and $218,571, respectively.

Empower maintained the contributions from all contracts in a separate account that was insulated from any potential claims of Empower's creditors or general account. The guaranteed investment contract issuer was contractually obligated to repay the principal and a specified interest rate that was guaranteed to the Plan.

The Plan's ability to receive amounts due in accordance with the fully benefit-responsive investment contract was dependent on the third-party issuer's ability to meet its financial obligations. The issuer's ability to meet its contractual obligations may be affected by future economic and regulatory developments. There were no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest rate was based on a formula agreed upon with the issuer but may not be less than 0%. Such interest rates were reviewed on a quarterly basis for resetting.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) premature termination of the contract; (2) Employer closure or layoffs; (3) Plan termination; (4) bankruptcy; (5) mergers and (6) early retirement incentives. The Plan Administrator does not believe that any events which would limit the Plan's ability to transact at contract value with participants are probable of occurring.

Note 7 - Party-in-Interest Transactions

Plan investments included a guaranteed investment contract managed by Empower Annuity Insurance Company of America, a related party of Empower Trust Company, LLC. Empower Trust Company, LLC was the custodian as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan to parties-in-interest amounted to $40,087 for the year ended December 31, 2022. These transactions are exempt party-in-interest transactions under ERISA.

Note 8 - Plan Termination

Although it has not expressed any intent to do so, the Employers have the right under the Plan to discontinue their contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, all amounts credited to the participants' accounts will become 100% vested and nonforfeitable.

Note 9 - Tax Status

Effective August 1, 2022, the Plan adopted a non-standardized form of a prototype plan sponsored by John Hancock Retirement Plan Services LLC. The prototype plan provider has received an opinion letter from the IRS dated June 30, 2020, as to the prototype plan's qualified status. The prototype plan opinion letter has been relied upon by this Plan. The Plan Administrator believes the Plan is designed and is being operated in compliance with the applicable provisions of the Internal Revenue Code (IRC).

Prior to August 1, 2022, the plan utilized a non-standardized form of prototype plan sponsored by Benefit Plans Inc. which received an opinion letter from the IRS, dated March 31, 2014 stating the pre-approved document satisfied the applicable provisions of the IRC.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the organization has taken an uncertain position that more likely than not would not be sustained upon examination. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 10 - Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Market risks include global events which could impact the value of investment securities, such as a pandemic or global conflict. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 11 - Prohibited Transactions

During Plan years ended December 31, 2022 and 2021, the Employers inadvertently failed to deposit approximately $12,272 and $291 of participant contributions within the required timeframe as stated by Department of Labor regulations. The Employers deposited lost earnings related to 2021 during the 2022 Plan year. The Employers intend to deposit lost earnings pertaining to 2022 to correct this failure in 2023. The Employers will file Form 5330 and pay applicable excise tax to the IRS. The correction and any excise taxes, if applicable will be made from the Employers' assets and not from assets of the Plan.

Note 12 - Plan Amendments and Restatement

Effective January 1, 2022, the Plan was amended and restated to comply with recent legislative and regulatory changes. With this amendment and restatement, the Plan name was changed to ruralMed 401(k) Plan.

Effective August 1, 2022, the Plan was amended and restated, and the trustee was changed to John Hancock Trust Company LLC.
