To the Plan Administrator of
Fullmer Construction 401(k) Profit Sharing Plan

We were engaged to audit the accompanying statement of net assets available for benefits of Fullmer Construction 401(k) Profit Sharing Plan as of December 31, 2009 and the related statement of changes in net assets available for benefits for the year ended December 31, 2009 and the supplemental Schedule H, line 4i-Schedule of Assets Held (At end of Year) as of or for the year ended December 31, 2009. These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified by Prudential Retirement Services, the custodian of the Plan, except for comparing such information with the related information included in the 2009 financial statements and supplemental schedule. We have been informed by the plan administrator that the custodian holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certificate from the custodian as of December 31, 2009 and for the year ended December 31, 2009, that the information provided to the plan administrator by the trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

PROFIT SHARING PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2009

Note 1 - Description of Plan:

The following description of the Fullmer Construction 401 (k) Profit Sharing Plan ("Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution plan covering all full-time employees of the Company. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions: Each year, participants may contribute a minimum of 2.5% up to a maximum of 15% of compensation, as defined in the plan. The Company has a discretionary matching percentage of the compensation you elect to defer, which percentage will be determined each year by the employer. The current year matching percentage is 2.5%. An additional discretionary profit sharing contribution may be contributed each year at the option of the employer. No additional discretionary profit sharing contributions were authorized. Contributions are subject to certain ERISA limitations.

Participant Accounts: Each participant's account is credited with the participant's contribution, and allocations of (a) the Company's contribution, (b) Plan earnings, and charged an allocation of administrative expenses. Allocations are based on participant earnings.

Vesting: Participant's are always 100% vested in contributions to the Plan plus actual earnings on the participant's contribution. Vesting in the Company's matching and discretionary contributions to the Plan plus actual earnings on the Company's matching and discretionary contribution is based on years of service of the participant. A participant is 100% vested after two years of credited service.

Investment Options: Upon enrollment in the Plan, a participant may direct employee contributions in any of various investment funds with a minimum of 10% in any fund and may increase the investment in any of the funds in 5% increments. Participants may change their investment options quarterly.

Participant Notes Receivable: Participants may borrow from their fund accounts an amount equal to the lesser of 50% of your vested account balance or $50,000. Loan terms range from one to five years or up to fifteen years if you use the loan to acquire your principal residence. The loans are secured by the balance in the participant's account and bear a reasonable rate of interest. Loans may be made for reason of hardship or financial necessity only.

Note 1 - Description of Plan (continued):

Payment of Benefits: On termination of service due to death, retirement, disability or other reasons the participant will receive the value of the vested interest in a lump sum distribution within 60 days of the latest of these events to occur.

Forfeited Accounts: Forfeitures are created when participants terminate employment before becoming entitled to their full benefits under the plan. At December 31, 2009, forfeited nonvested accounts totaled $6,476. Forfeitures of matching contributions will go to reduce the Employer's required matching contribution for the following Plan year. Forfeitures of profit sharing contributions are added to the Employer's profit sharing contribution and allocated to participants eligible to share in such contributions on compensation to total compensation basis for the Plan year.

Note 2 - Summary of Significant Accounting Policies:

Basis of Accounting

The financial statements of the Plan are prepared using the accrual method of accounting.

Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Shares of Prudential Investors Funds are valued at quoted market prices, which represent the net asset value of shares held by the Plan at year-end. Participant note receivable is valued at cost that approximates fair value.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Payment of Benefits

Benefits are recorded when paid.

Note 3 - Information Prepared and Certified by Trustee:

The following is a summary of investment information regarding the plan as of December 31, 2009, and for the year then ended, included in the Plan's financial statement that was prepared by or derived from information prepared by Prudential Retirement Insurance Company, the trustee of the plan, and furnished to the plan administrator. The Plan administrator has obtained certifications from the trustee that such information is complete and accurate. The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

Investments, at fair value:

Prudential Retirement Funds	$5,661,106
Prudential Guaranteed Fund	1,552,412
Receivables	-
Participants loan	64,589
Contributions received	560,502

During 2009, the Plans investments (including gains and losses on investments bought and sold, as well as held during the year) increased in value by $1,451,069 as follows:

Mutual funds	$1,451,069

Note 4 - Fair Value Measurements:

Financial Accounting Standards Board (FASB) Accounting Standards codification (ASC) 820, Fair Value Measurements and Disclosures, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quote prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2 - Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets, quoted prices for identical or similar assets and liabilities in inactive markets, inputs other than quoted prices that are observable for the asset or liability and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Note 4 - Fair Value Measurements (continued):

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of the observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2009.

Mutual Funds: Valued at net asset value of shares held by plan at year-end. This is considered a level 1 valuation.

Participant loans: Valued at amortized cost, which approximates fair value. This is considered a level 3 valuation.

Prudential Fixed Fund: Valued at net asset value of shares held by plan at year-end. This is considered a level 1 valuation.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note 5-Guaranteed Investment Contract Prudential Retirement Insurance Company:

In 2009, the plan entered into a benefit-responsive guaranteed investment contract with Prudential Retirement Insurance Company (PRIC). PRIC maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specific interest rate that if guaranteed to the plan.

Because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. The guaranteed investment contract is presented on the face of the statement of net assets available for benefits at fair value with an adjustment to contract value in arriving at net assets available for benefits. Contract value, as reported to the plan by ING, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct withdrawal or transfer of all or a portion of their investment at contract value.

Note 5-Guaranteed Investment Contract Prudential Retirement Insurance Company (continued):

There are no reserves against the contract value for credit risk of the contract insurer or otherwise. The fair value of the investment contract at December 31, 2009 is $1,552,412.

Note 6 - Plan Termination:

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

Note 7 - Tax Status:

The Internal Revenue Service has determined and informed the Company by a letter dated April 14, 1997, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). The plan has been amended since receiving the determination letter. However, the Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

Note 8 - Excess Contributions Refundable:

At December 31, 2009, net assets available for plan benefits included $4,514 for amounts refundable by the Plan to participants for contributions made in excess of amounts allowed by the Internal Revenue Service. The refunds were distributed on or about March 13, 2010.

Note 9 - Related-Party Transactions:

Certain plan investments are shares of mutual funds managed by Prudential Investments. Prudential Investments is the trustee as defined by the plan and, therefore, these transactions qualify as party-in-interest transactions. Fees paid by the plan for administrative fees amounted to $5,036 for the year ended December 31, 2009.

Note 10 - Risks and Uncertainties:

The plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

PROFIT SHARING PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2008

Note 1 - Description of Plan:

The following description of the Fullmer Construction 401 (k) Profit Sharing Plan ("Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution plan covering all full-time employees of the Company. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions: Each year, participants may contribute a minimum of 2.5% up to a maximum of 15% of compensation, as defined in the plan. The Company has a discretionary matching percentage of the compensation you elect to defer, which percentage will be determined each year by the employer. The current year matching percentage is 2.5%. An additional discretionary profit sharing contribution may be contributed each year at the option of the employer. No additional discretionary profit sharing contributions were authorized. Contributions are subject to certain ERISA limitations.

Participant Accounts: Each participant's account is credited with the participant's contribution, and allocations of (a) the Company's contribution, (b) Plan earnings, and charged an allocation of administrative expenses. Allocations are based on participant earnings.

Vesting: Participant's are always 100% vested in contributions to the Plan plus actual earnings on the participant's contribution. Vesting in the Company's matching and discretionary contributions to the Plan plus actual earnings on the Company's matching and discretionary contribution is based on years of service of the participant. A participant is 100% vested after two years of credited service.

Investment Options: Upon enrollment in the Plan, a participant may direct employee contributions in any of various investment funds with a minimum of 10% in any fund and may increase the investment in any of the funds in 5% increments. Participants may change their investment options quarterly.

Participant Notes Receivable: Participants may borrow from their fund accounts an amount equal to the lesser of 50% of your vested account balance or $50,000. Loan terms range from one to five years or up to fifteen years if you use the loan to acquire your principal residence. The loans are secured by the balance in the participant's account and bear a reasonable rate of interest. Loans may be made for reason of hardship or financial necessity only.

Note 1 - Description of Plan (continued):

Payment of Benefits: On termination of service due to death, retirement, disability or other reasons the participant will receive the value of the vested interest in a lump sum distribution within 60 days of the latest of these events to occur.

Forfeited Accounts: Forfeitures are created when participants terminate employment before becoming entitled to their full benefits under the plan. At December 31, 2008, forfeited nonvested accounts totaled $14,070. Forfeitures of matching contributions will go to reduce the Employer's required matching contribution for the following Plan year. Forfeitures of profit sharing contributions are added to the Employer's profit sharing contribution and allocated to participants eligible to share in such contributions on compensation to total compensation basis for the Plan year.

Note 2 - Summary of Significant Accounting Policies:

Basis of Accounting

The financial statements of the Plan are prepared using the accrual method of accounting.

Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Shares of Prudential Investors Funds are valued at quoted market prices, which represent the net asset value of shares held by the Plan at year-end. Participant note receivable is valued at cost that approximates fair value.

Payment of Benefits

Benefits are recorded when paid.

Note 1 - Description of Plan:

The following description of the Fullmer Construction 401 (k) Profit Sharing Plan ("Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution plan covering all full-time employees of the Company. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions: Each year, participants may contribute a minimum of 2.5% up to a maximum of 15% of compensation, as defined in the plan. The Company has a discretionary matching percentage of the compensation you elect to defer, which percentage will be determined each year by the employer. The current year matching percentage is 2.5%. An additional discretionary profit sharing contribution may be contributed each year at the option of the employer. No additional discretionary profit sharing contributions were authorized. Contributions are subject to certain ERISA limitations.

Participant Accounts: Each participant's account is credited with the participant's contribution, and allocations of (a) the Company's contribution, (b) Plan earnings, and charged an allocation of administrative expenses. Allocations are based on participant earnings.

Vesting: Participant's are always 100% vested in contributions to the Plan plus actual earnings on the participant's contribution. Vesting in the Company's matching and discretionary contributions to the Plan plus actual earnings on the Company's matching and discretionary contribution is based on years of service of the participant. A participant is 100% vested after two years of credited service.

Note 1 - Description of Plan (continued):

Payment of Benefits: On termination of service due to death, retirement, disability or other reasons the participant will receive the value of the vested interest in a lump sum distribution within 60 days of the latest of these events to occur.

Forfeited Accounts: Forfeitures are created when participants terminate employment before becoming entitled to their full benefits under the plan. At December 31, 2009, forfeited nonvested accounts totaled $6,476. Forfeitures of matching contributions will go to reduce the Employer's required matching contribution for the following Plan year. Forfeitures of profit sharing contributions are added to the Employer's profit sharing contribution and allocated to participants eligible to share in such contributions on compensation to total compensation basis for the Plan year.

Note 2 - Summary of Significant Accounting Policies:

Basis of Accounting

The financial statements of the Plan are prepared using the accrual method of accounting.

Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Shares of Prudential Investors Funds are valued at quoted market prices, which represent the net asset value of shares held by the Plan at year-end. Participant note receivable is valued at cost that approximates fair value.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Payment of Benefits

Benefits are recorded when paid.

Note 3 - Information Prepared and Certified by Trustee:

The following is a summary of investment information regarding the plan as of December 31, 2009, and for the year then ended, included in the Plan's financial statement that was prepared by or derived from information prepared by Prudential Retirement Insurance Company, the trustee of the plan, and furnished to the plan administrator. The Plan administrator has obtained certifications from the trustee that such information is complete and accurate. The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

Investments, at fair value:

Prudential Retirement Funds	$5,661,106
Prudential Guaranteed Fund	1,552,412
Receivables	-
Participants loan	64,589
Contributions received	560,502

During 2009, the Plans investments (including gains and losses on investments bought and sold, as well as held during the year) increased in value by $1,451,069 as follows:

Mutual funds	$1,451,069

Note 4 - Fair Value Measurements:

Financial Accounting Standards Board (FASB) Accounting Standards codification (ASC) 820, Fair Value Measurements and Disclosures, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quote prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2 - Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets, quoted prices for identical or similar assets and liabilities in inactive markets, inputs other than quoted prices that are observable for the asset or liability and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Note 4 - Fair Value Measurements (continued):

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of the observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2009.

Mutual Funds: Valued at net asset value of shares held by plan at year-end. This is considered a level 1 valuation.

Participant loans: Valued at amortized cost, which approximates fair value. This is considered a level 3 valuation.

Prudential Fixed Fund: Valued at net asset value of shares held by plan at year-end. This is considered a level 1 valuation.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note 5-Guaranteed Investment Contract Prudential Retirement Insurance Company:

In 2009, the plan entered into a benefit-responsive guaranteed investment contract with Prudential Retirement Insurance Company (PRIC). PRIC maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specific interest rate that if guaranteed to the plan.

Because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. The guaranteed investment contract is presented on the face of the statement of net assets available for benefits at fair value with an adjustment to contract value in arriving at net assets available for benefits. Contract value, as reported to the plan by ING, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct withdrawal or transfer of all or a portion of their investment at contract value.

Note 5-Guaranteed Investment Contract Prudential Retirement Insurance Company (continued):

There are no reserves against the contract value for credit risk of the contract insurer or otherwise. The fair value of the investment contract at December 31, 2009 is $1,552,412.

Note 6 - Plan Termination:

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

Note 7 - Tax Status:

The Internal Revenue Service has determined and informed the Company by a letter dated April 14, 1997, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). The plan has been amended since receiving the determination letter. However, the Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

Note 8 - Excess Contributions Refundable:

At December 31, 2009, net assets available for plan benefits included $4,514 for amounts refundable by the Plan to participants for contributions made in excess of amounts allowed by the Internal Revenue Service. The refunds were distributed on or about March 13, 2010.

Note 9 - Related-Party Transactions:

Certain plan investments are shares of mutual funds managed by Prudential Investments. Prudential Investments is the trustee as defined by the plan and, therefore, these transactions qualify as party-in-interest transactions. Fees paid by the plan for administrative fees amounted to $5,036 for the year ended December 31, 2009.

Note 10 - Risks and Uncertainties:

The plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

FULLMER CONSTRUCTION 401 (K)
PROFIT SHARING PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2008

Note 1 - Description of Plan:

The following description of the Fullmer Construction 401 (k) Profit Sharing Plan ("Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution plan covering all full-time employees of the Company. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions: Each year, participants may contribute a minimum of 2.5% up to a maximum of 15% of compensation, as defined in the plan. The Company has a discretionary matching percentage of the compensation you elect to defer, which percentage will be determined each year by the employer. The current year matching percentage is 2.5%. An additional discretionary profit sharing contribution may be contributed each year at the option of the employer. No additional discretionary profit sharing contributions were authorized. Contributions are subject to certain ERISA limitations.

Participant Accounts: Each participant's account is credited with the participant's contribution, and allocations of (a) the Company's contribution, (b) Plan earnings, and charged an allocation of administrative expenses. Allocations are based on participant earnings.

Vesting: Participant's are always 100% vested in contributions to the Plan plus actual earnings on the participant's contribution. Vesting in the Company's matching and discretionary contributions to the Plan plus actual earnings on the Company's matching and discretionary contribution is based on years of service of the participant. A participant is 100% vested after two years of credited service.

Investment Options: Upon enrollment in the Plan, a participant may direct employee contributions in any of various investment funds with a minimum of 10% in any fund and may increase the investment in any of the funds in 5% increments. Participants may change their investment options quarterly.

Participant Notes Receivable: Participants may borrow from their fund accounts an amount equal to the lesser of 50% of your vested account balance or $50,000. Loan terms range from one to five years or up to fifteen years if you use the loan to acquire your principal residence. The loans are secured by the balance in the participant's account and bear a reasonable rate of interest. Loans may be made for reason of hardship or financial necessity only.

Note 1 - Description of Plan (continued):

Payment of Benefits: On termination of service due to death, retirement, disability or other reasons the participant will receive the value of the vested interest in a lump sum distribution within 60 days of the latest of these events to occur.

Forfeited Accounts: Forfeitures are created when participants terminate employment before becoming entitled to their full benefits under the plan. At December 31, 2008, forfeited nonvested accounts totaled $14,070. Forfeitures of matching contributions will go to reduce the Employer's required matching contribution for the following Plan year. Forfeitures of profit sharing contributions are added to the Employer's profit sharing contribution and allocated to participants eligible to share in such contributions on compensation to total compensation basis for the Plan year.

Note 2 - Summary of Significant Accounting Policies:

Basis of Accounting

The financial statements of the Plan are prepared using the accrual method of accounting.

Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Shares of Prudential Investors Funds are valued at quoted market prices, which represent the net asset value of shares held by the Plan at year-end. Participant note receivable is valued at cost that approximates fair value.

Payment of Benefits

Benefits are recorded when paid.
