NOTE A - DESCRIPTION OF THE PLAN

The following description of the Union Tank Car Company Hourly Employees' (Valdosta, Georgia) Retirement Plan (the "Plan"), which is a defined contribution plan, is provided for general information purposes only. Participants should refer to the Plan document for more complete information.

General

All non-union hourly paid employees of Union Tank Car Company (the "Company") at its Valdosta, Georgia facility are eligible to participate in the Plan. Eligibility to participate in the Plan commences after one hour of service for the purpose of the Company retirement contribution and after 31 days for purposes of participant and match contributions. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA").

Effective August 1, 2008, Reliance Trust Company was appointed successor trustee of the Plan, replacing Merrill Lynch Bank & Trust Co., FSB.

Contributions

Participants are permitted to make pretax contributions to the Plan in whole percentages not to exceed 10% of the participant's eligible compensation, as defined by the Plan, for the Plan year subject to Internal Revenue Service ("IRS") limitations.

The Company makes two types of contributions to the Plan - the retirement contribution and the matching contribution. Retirement contributions are made based on rates per Participant Share, as defined by the Plan. Matching contributions are made in an amount equal to 25% of the participant's pretax contributions eligible for matching up to 6% of the participant's compensation.

Investment Options

Participants can select from various fund options offered by the Plan. Participants may change their investments daily, subject to transfer restrictions that may be imposed by the investment fund companies.

NOTE A - DESCRIPTION OF THE PLAN - Continued

Participant Accounts

A separate account is maintained for each participant. Each participant's account is credited with the participant's contributions and the Company's matching contributions and an allocation of (1) Company retirement contributions and (2) Plan earnings (losses), and charged with an allocation of administrative expenses. Allocations are based on participant compensation or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

A participant's portion of employer contributions and net income (loss) thereon will not vest until the completion of three years of service (five years of service prior to January 1, 2002), as defined by the Plan, at which time the participant becomes 100% vested. Participant contributions and earnings thereon are always fully vested.

Payment of Benefits

The Plan offers three types of withdrawals: non-hardship (retirement or termination of service), hardship and age 59-1/2. Each withdrawal type has specific requirements for eligibility, as defined in the Plan.

Forfeitures

Forfeitures related to Company contributions (retirement and matching) are first used to restore the accounts of eligible participants who had breaks in service of less than five years. The remaining forfeitures in participants' matching and retirement accounts are used to reduce the Company contributions. As of December 31, 2009 and 2008, forfeited non-vested accounts totaled $3,304 and $2,295, respectively. During 2009, $2,298 of forfeitures were used to reduce Company contributions.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The accompanying financial statements of the Plan have been prepared on an accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America ("US GAAP").

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

New Accounting Guidance

In May 2009, Accounting Standards Update ("ASU") No. 2009-01 was issued, which establishes principles and requirements for subsequent events. The adoption during 2009 had no financial impact on the Plan's financial statements, but expanded disclosures.

In June 2009, ASU No. 2009-02 was issued, which identifies the sources of accounting principles and the framework for selecting the principles used in the preparation of financial statements of non-governmental entities that are presented in conformity with US GAAP. The adoption did not have a material impact on the Plan's financial statements.

In September 2009, new accounting guidance was issued for reporting fair value measurements and disclosures of investments in certain entities that calculate net asset value ("NAV") per share (or its equivalent). The Plan adopted this new guidance effective December 31, 2009, and determined that it had no effect on the Plan's financial statements.

In January 2010, additional guidance was issued to improve the disclosures related to fair value measurements. This guidance requires expanded fair value disclosures, including the reasons for significant transfers between Level 1 and Level 2. In addition, clarification is provided about existing disclosure requirements, such as fair value measurement disclosures for each class of assets and liabilities that are determined based on their nature and risk characteristics and their placement in the fair value hierarchy (that is, Level 1, Level 2 or Level 3), as opposed to each major category of assets and liabilities, as required in the previous guidance.

Use of Estimates

The preparation of financial statements in conformity with US GAAP requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are reported at fair value.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

Investment Valuation and Income Recognition - Continued

The value of the Plan's investments was determined as follows:

- Interest in collective trust funds - The fair value of the participation units owned in the collective trust funds is based on the NAV of the collective trust funds on the last business day of the Plan year. The NAV of the collective trust funds is based on the fair value of the underlying investments held by the funds. Participant transactions (issuances and redemptions) may occur daily. There were no unfunded commitments and no redemption limitations or notice periods, but the investment advisor reserves the right to temporarily delay withdrawals from the collective trust funds in order to ensure that the securities liquidations will be carried out in an orderly business manner.

- Interest in registered investment companies - The fair value of the shares owned in the registered investment companies is based on the NAV of the registered investment companies on the last business day of the Plan year. The NAV of the registered investment companies is based on the fair value of the underlying investments held by the funds, which are traded on an active market. There were no unfunded commitments and no redemption limitations or notice periods, but the investment advisor reserves the right to temporarily delay withdrawals from the registered investment companies in order to ensure that the securities liquidations will be carried out in an orderly business manner.

Guaranteed investment contracts ("GICs") in the INVESCO Stable Value Fund, which includes security-backed investment contracts, are valued at contract value. Contract value represents the principal balance of the investment contracts, plus accrued interest at the stated contract rate, less payment received and contract charges by the insurance company. The fair value of the investment contracts is based on the present value of the contract's expected cash flows, discounted by current market interest rates of similar instruments with comparable durations. Under the terms of the investment contracts, the crediting interest rates are determined based on each insurance company's applicable rate schedule. The investment fund's objective is to seek preservation of capital and maintain a stable interest rate. To achieve this investment objective, the fund invests in investment contracts offered by major insurance companies and other approved financial institutions and in certain types of high-quality fixed income securities. The fund invests in both traditional GICs and wrapper contracts, also known as synthetic GICs. In a traditional GIC, the contract issuer takes a deposit from the fund and purchases investments. The contract issuer is contractually obligated to repay the principal and a guaranteed rate of interest to the fund.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

Investment Valuation and Income Recognition - Continued

Income from investments, including interest income, is recorded as earned on an accrual basis. Dividends are recorded on the ex-dividend date. Purchases and sales of securities are recorded on a trade-date basis.

Net Appreciation in Fair Value of Investments

Net realized and unrealized appreciation (depreciation) is recorded in the accompanying statement of changes in net assets available for benefits as net appreciation in fair value of investments.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

The Plan provides that expenses related directly to the Plan may be charged to the Plan or paid by the Company at the Company's discretion.

Subsequent Events

The financial statements and related disclosures include an evaluation of events up through and including October 3, 2010, which is the date the financial statements were available to be issued.

NOTE C - INVESTMENTS

Significant investments at year-end are as follows:

	2009	2008
INVESCO Stable Value Fund*	$336,140	$296,815
American Funds Growth Fund of America	217,211	154,390
Vanguard Employee Benefit Index Fund	216,129	153,709
American Funds Europacific Growth	142,640	91,350
Dodge & Cox Common Stock Fund	67,717	47,515
PIMCO Total Return Fund	95,664	65,916

* Represents contract value. Fair value is $342,870 and $283,231 as of December 31, 2009 and 2008, respectively.

The Plan's investments appreciated in value for the year ended December 31, 2009, as follows:

Registered investment companies	$140,780
Collective trust funds	47,693
Net appreciation	$188,473

The Plan invests in various investment securities. Investment securities, in general, are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

NOTE D - FAIR VALUE MEASUREMENTS

Accounting standards require certain assets and liabilities be reported at fair value in the financial statements and provides a framework for establishing that fair value. The framework for determining fair value is based on a fair value hierarchy that prioritizes the inputs and valuation techniques used to measure fair value.

The following tables present information about the Plan's assets measured at fair value on a recurring basis at December 31, 2009 and 2008, and the valuation techniques used by the Plan to determine those fair values.

NOTE D - FAIR VALUE MEASUREMENTS - Continued

Level 1 - In general, fair values determined by Level 1 inputs use quoted prices in active markets for identical assets that the Plan has the ability to access.

Level 2 - Fair values determined by Level 2 inputs use other inputs that are observable, either directly or indirectly. These Level 2 inputs include quoted prices for similar assets and liabilities in active markets, and other inputs such as interest rates and yield curves that are observable at commonly quoted intervals.

Level 3 - Inputs are unobservable inputs, including inputs that are available in situations where there is little, if any, market activity for the related asset. These Level 3 fair value measurements are based primarily on management's own estimates using pricing models, discounted cash flow methodologies, or similar techniques taking into account the characteristics of the asset. Significant Level 3 inputs include original transaction price, quoted prices for similar securities or assets in active markets, completed or pending third-party transactions in the underlying investment or comparable issuers, and changes in financial ratios or cash flows.

In instances where inputs used to measure fair value fall into different levels in the above fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. The Plan's assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset.

NOTE E - TAX STATUS

The Plan has received a determination letter from the IRS dated June 21, 2002, stating that the Plan is qualified in accordance with applicable sections of the Internal Revenue Code ("IRC") and, therefore, the related trust is exempt from taxation. Subsequent to the issuance of the determination letter, the Plan was amended. Once qualified, the Plan is required to operate in conformity with the IRC to maintain its qualification. The Plan administrator believes that the Plan is being operated, in all material respects, in compliance with the applicable requirements of the IRC and, therefore, believes that the Plan, as amended, is qualified and the related trust is tax exempt.
