INDEPENDENT AUDITOR'S REPORT

To the Plan Administrator and Management of the
E.L. Farmer and Company 401(k) Plan

I was engaged to audit the accompanying financial statements of the E.L. Farmer and Company 401(k) Plan (the Plan) as of December 31, 2009, and for the year then ended, and the supplemental schedule as of and for the year ended December 31, 2009 as listed in the accompanying table of contents. These financial statements and schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed me not to perform, and I did not perform, any auditing procedures with respect to the information summarized in Note 5, which was certified by Hartford Life Insurance Company, the custodian of the Plan, except for comparing the information with the related information included in the 2009 financial statements and supplemental schedule. I have been informed by the plan administrator that the custodian holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the custodian as of and for the year ended December 31, 2009, that the information provided to the plan administrator by the custodian is complete and accurate.

Because of the significance of the information in the Plan's 2009 financial statements and schedule that I did not audit, I am unable to, and do not, express an opinion on the accompanying 2009 financial statements and schedule taken as a whole. The form and content of the information included in the 2009 financial statements and schedule, other than that derived from the information certified by the custodian, have been audited by me in accordance with auditing standards generally accepted in the United States of America and, in my opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

I have compiled the accompanying statement of net assets available for benefits of the Plan as of December 31, 2008 in accordance with the Statements on Standards for Accounting and Review Services issued by the American Institute of Certified Public Accountants.

A compilation is limited to presenting in the form of financial statements information that is the representation of management. I have not audited or reviewed the accompanying statement of net assets available for benefits and, accordingly, do not express an opinion or any other form of assurance on it.

E.L. FARMER AND COMPANY 401(K) PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2009

NOTE 1: DESCRIPTION OF PLAN

The following description of the E.L. Farmer and Company 401(k) Plan (the Plan) provides only general information. The plan is sponsored by E.L. Farmer and Company, (the Company or Employer). The custodian of the plan's assets is Hartford Life Insurance Company. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution benefit plan covering eligible employees as defined in the plan document. To become a participant in the plan, an employee must be 21 years old and is eligible to contribute to the plan after six months of service. Enrollment dates are semi-annually on January 1 and July 1. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA) and regulations issued by the Department of Labor. This plan is not integrated with Social Security.

Contributions

For 2009, eligible employees may contribute up to \$16,500; participants age 50 and over may contribute up to an additional \$5,500 as "catch-up" contributions. The Company permits rollover contributions into the Plan. At their discretion, the Company matches 25% of employee's contributions. The Company may also make discretionary profit sharing contributions and Qualified Non-Elective Contributions.

Participant Accounts

The Plan allows participants to choose their investments from several investment options. Each participant's account is managed by the Plan and credited with (a) the participant's contributions, (b) company matching contributions and (c) allocation of Plan earnings, and (d) charged with an allocation of administrative expenses. The earnings allocated to a participant are based on the performance of the investments selected by the participant. The benefit to which a participant is entitled is the vested balance in the participant's account.

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts is based on years of continuous service. A participant is 100% vested after six years of credited service (20% per year after the second year of credited service) A participant immediately becomes 100% vested upon death, disability, or attainment of normal retirement age (65).

Investment Options

Participants direct the investment of their contributions into various investment options offered by the Plan. Contributions are invested according to the participant's direction. The Plan currently offers several mutual funds (through pooled separate accounts) and a fixed income account through an investment contract with an insurance company.

Participant Loans

The Plan does not permit loans.

Payment of Benefits.

Upon retirement, death, disability, or termination of employment, a participant (or beneficiary, if applicable) may receive a lump-sum distribution. Neither in-service distributions nor hardship distributions are permitted by the Plan.

NOTE 1: DESCRIPTION OF PLAN (continued)

Forfeitures.

Forfeitures are the non-vested portion of the employer matching contributions of a terminated participant's account balance. These may be used to reduce matching contributions or to pay administrative expenses of the Plan. Forfeitures totaled \$3,769 in 2009. Forfeited non-vested account balances totaled \$4,723 as of December 31, 2009.

NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared under the accrual basis of accounting. As described in FASB ASC 962-325-35-5 through 35-12, *Reporting of Fully Benefit-Responsive Investment Contracts Held by Certain Investment Companies Subject to the AICPA Investment Company Guide and Defined-Contribution Health and Welfare and Pension Plans* (the FSP), investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Statement of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles in the United States of America requires the plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets at the date of the financial statements and the reported amounts of revenues and expense during the reporting period. Actual results may differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. A pooled separate account (PSA) is an account which consists of the assets of two or more participating entities and is maintained for the collective investment and reinvestment of assets contributed thereto. PSAs consist of shares of mutual funds that are valued at the net asset value of shares held by the Plan at year-end.

The Fixed Income Account (included in the Group Annuity Contract in the statement of net assets available for benefits) is valued at fair value as determined by application of the market value adjustment factor of the Fixed Income Account Rider under the Group Annuity Contract. The market value adjustment factor formula under the Contract that governs the calculation includes variable components. This investment option is further explained in Note 10. Fair value measurements are explained in Note 3.

NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Investment Valuation and Income Recognition (continued)

The net appreciation (depreciation) in fair value of investments is reported in the statement of changes in net assets available for benefits and consists of interest, dividends, realized and unrealized gains and losses as well as capital gain distributions. Realized gains and losses on the disposal of securities are determined on the average cost basis of securities sold. Unrealized gains and losses are determined on the cost basis of securities held at year-end. Interest income is recorded on the accrual basis. Transactions are recorded on a trade date basis.

Operating expenses

Although the Plan permits the payment of operating expenses, the Company absorbed the operating expenses associated with administering the plan in 2009.

Payment of Benefits

Benefits are accounted for when paid.

NOTE 3: FAIR VALUE MEASUREMENTS

The Plan's investments are reported at fair value in the accompanying statement of net assets available for benefit.

		Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
December 31, 2009	<u>Fair Value</u>		
Pooled Separate Accounts (Mutual Funds)	\$ 439,309	\$ 439,309	\$ -
Group Annuity Contract (Fixed Income Account)	42,035	-	42,035
	<u>\$ 481,344</u>	<u>\$ 439,309</u>	<u>\$ 42,035</u>
December 31, 2008			
Pooled Separate Accounts (Mutual Funds)	\$ 264,972	\$ 264,972	\$ -
Group Annuity Contract (Fixed Income Account)	32,675	-	32,675
	<u>\$ 297,647</u>	<u>\$ 264,972</u>	<u>\$ 32,675</u>

FASB ASC 820 (formerly FASB Statement No. 157, Fair Value Measurements), establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

E.L. FARMER AND COMPANY 401(K) PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2009

NOTE 3: FAIR VALUE MEASUREMENTS (continued)

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2: Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability. The pooled separate accounts are fall into this category as they are accounts that consist of the assets of two or more participating entities and are maintained for the collective investment and reinvestment of assets contributed thereto.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement. The group annuity contract (fixed income account) with an insurance company is not actively traded and significant other observable inputs are not available. Thus, the fair value of the group annuity contract is determined by discounting the related cash flows based on current yields of similar instruments with comparable durations. Specifically, fair value is determined by application of the market value adjustment factor under Option B under Section F(1)(b) of the Fixed Income Account Rider under the Group Annuity Contract. The market value adjustment factor formula under the Contract that governs the calculation includes variable components. The table below provides further details of the Level 3 fair value measurements.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs. There have been no changes in the methodologies used at December 31, 2009 and 2008.

American Funds Growth Fund	Pooled Separate Account	27,447
American Funds American Mutual	Pooled Separate Account	19,498
Eaton Vance WW Health Sciences	Pooled Separate Account	25,158

The Plan held no single investment in common stock which amounted to five or more percent of the Plan's net assets as calculated at year-end.

NOTE 5: INFORMATION PREPARED AND CERTIFIED BY CUSTODIAN

The following information included in the accompanying financial statements and supplemental schedule of assets (held at end of year) were obtained from data that has been prepared and certified to as complete and accurate by the custodian as of December 31:

<u>Investments, at fair value:</u>	<u>2009</u>
Pooled Separate Accounts (mutual funds)	\$439,309
Group Annuity Contract (fixed income account)	42,035
Net appreciation in fair value of investments	\$85,471

NOTE 6: PARTIES-IN-INTEREST

A party in interest is defined in IRC Sec. 4975(e)(2) as follows: a) a fiduciary (including, but not limited to, any administrator, officer, trustee, or custodian), counsel, or employee of the plan, b) a person providing services to the plan, and c) an employer, any of whose employees are covered by the plan. Commissions, fees, and administrative costs paid to parties-in-interest totaled \$2,433 in 2009. The Plan Sponsor absorbed substantially all of these costs.

E.L. FARMER AND COMPANY 401(K) PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2009

NOTE 7: PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time so as to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

NOTE 8: INCOME TAX STATUS

The Internal Revenue Service has determined and informed the Company by a letter dated August 7, 2001, that by adopting a prototype standardized profit sharing plan, the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code and are not subject to tax under present regulations. The Company itself has not applied for tax exemption status for the Plan. However, the Plan administrator and Plan's tax counsel believe that by adopting the prototype standardized plan referenced above, that the Plan is being operated in compliance with applicable requirements of the Internal Revenue Code.

NOTE 9: RISKS AND UNCERTAINTIES

The Plan invests in various investment securities (mutual funds). These securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits. Economic conditions affecting the labor market also have a direct effect on the Plan. The availability of jobs directly affects the number of participants enrolling in the Plan and therefore directly affects the Plan's existence.

NOTE 10: INVESTMENT CONTRACT WITH INSURANCE COMPANY

The Plan has a benefit-responsive investment contract with Hartford Life Insurance Company. Hartford maintains the contributions in a Fixed Income Account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

As described in Note 2, because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract.

Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

E.L. FARMER AND COMPANY 401(K) PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2009

NOTE 10: INVESTMENT CONTRACT WITH INSURANCE COMPANY (continued)

The crediting interest rate is based on a formula agreed upon with the issuer, but cannot be less than the declared interest rate. Such interest rates are reviewed periodically for resetting. The declared interest rate for the Fixed Income Account was as follows:

3.00% for the period 01/01/2009 to 01/31/2009
3.00% for the period 02/01/2009 to 12/31/2009
3.25% for the period 01/01/2008 to 01/31/2008
3.25% for the period 02/01/2008 to 04/30/2008
3.00% for the period 05/01/2008 to 12/31/2008

The contract includes a market value adjustment factor (MVA). The MVA is intended to make up certain losses for having to prematurely sell the investments that support the guaranteed rates. The MVA reflects the interest rates prevailing at the time of early withdrawal. The MVA may reduce or add to the amount received upon surrender. The MVA is designed to compensate Hartford for potential lost investment opportunities associated with premature surrenders. Hartford invests in various fixed income investments and hedging strategies to support guaranteed interest rates.

Certain events, would limit the Plan's ability to transact at contract value. Such events include but may not be limited to the following: 1) temporary absence; 2) change in position or other occurrence qualifying as a temporary break in service under the Plan; 3) transfer or other change of position resulting in employment by an entity controlling, controlled by, or under other common control with the employer; or, 4) cessation of an employment relationship resulting from a reorganization, merger, layoff or the sale or discontinuance of all or any part of the Plan sponsor's business. The Plan administrator believes the occurrence of any such events that would limit the Plan's ability to transact at contract value with Plan participants is not likely.
