Independent Auditor's Report

To the Plan Administrator
Gartner, Inc. Savings and Investment Plan

Opinion

We have audited the financial statements of Gartner, Inc. Savings and Investment Plan, (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 ("ERISA"), which comprise the statements of net assets available for benefits as of December 31, 2022 and 2021, and the related statement of changes in net assets available for benefits for the year ended December 31, 2022, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2022 and 2021, and the changes in its net assets available for benefits for the year ended December 31, 2022, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America ("GAAS"). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current Plan instrument, including all Plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedule Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental Schedule H, Part IV, Line 4(i) - Schedule of Assets (Held at End of Year) as of December 31, 2022 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedules is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

(1) Description of the Plan

The following description of the Gartner, Inc. Savings and Investment Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement, and any amendments thereto, for a more complete description of the Plan provisions.

(a) General

The Plan is a defined contribution retirement plan subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). The Plan has been amended and restated at various times in order to comply with regulatory guidance.

The Plan covers substantially all domestic employees of Gartner, Inc. and its wholly-owned subsidiaries (collectively, the "Company" or the "Employer"). Any employee who customarily works at least 20 hours per week (minimum of 1,000 hours per year) and is at least 18 years of age is eligible to participate in the Plan.

(b) Administration

The Plan is administered by the Gartner, Inc. Retirement Benefits Committee (the "Plan Committee") which is appointed by the Company's Board of Directors. The Plan Committee is responsible for all administrative aspects of the Plan, including selection of trustees and investment managers, establishment of investment alternatives, determination of benefit eligibility and benefit calculations and interpretation of Plan provisions. The Plan Committee has delegated certain administrative functions to officers of the Company.

(c) Contributions

The Plan automatically enrolls eligible Company employees with a 4% pre-tax salary deferral contribution rate that automatically increases 1% each year up to a maximum of 10%, unless the participants elect to opt out.

Participating employees may make annual contributions to the Plan in percentages of not less than 1% or more than 85% of total annual compensation (75% pre-tax and/or Roth deferrals, 10% after-tax), as defined in the Plan agreement, subject to Internal Revenue Code ("IRC") limitations. Participants who are eligible may make pre-tax, Roth and catch-up contributions subject to the IRC limitations. Participants may also contribute amounts representing distributions from other qualified defined contribution or defined benefit plans.

For 2022, the Company matched 100% of pre-tax or Roth deferral contributions up to the greater of 4% of a participant's total eligible compensation or $7,200. Although additional profit-sharing contributions may be made at the Company's discretion, there were no such contributions during 2022.

A participant may make after-tax contributions of up to 10% of the participant's eligible compensation, subject to a maximum contribution of $20,000 per year.

(d) Participants' Accounts

Separate accounts are maintained for each participant of the Plan through Fidelity Management Trust Company ("Fidelity"). The participants' accounts are adjusted to reflect contributions and investment earnings such as interest, dividends, and realized and unrealized investment gains and losses.

At December 31, 2022 and 2021, forfeited non-vested accounts totaled $116,627 and $78,504, respectively. These accounts will be used to reduce future Employer contributions or pay future Plan expenses. During 2022, no forfeited non-vested accounts were used to reduce Employer contributions or pay Plan expenses.

(e) Investments

Participants may elect to invest in a variety of investment funds and may make transfers among investment funds at their discretion in whole percentages. The Plan has designated Vanguard Target Retirement Trusts as its Qualified Default Investment Alternatives. The Company has authorized Fidelity to execute transactions upon direction from the participants within the framework of the trust instrument.

(f) Vesting

Participants are immediately vested in their own contributions and the Employer's matching contributions. Participants vest in any profit-sharing contributions ratably over a five-year period based on credited years of service from their date of hire. The date of hire for the employees of acquired companies continues to be their historical date of hire by the acquired company for vesting purposes.

(g) Notes Receivable from Participants

Loans to participants are permitted, with the Trustee's consent, in accordance with the limits provided by the IRC. Loans bear interest at a fixed rate equal to prime plus 1% at the time of issuance. Interest rates of loans outstanding at December 31, 2022 ranged from 4.25% to 11.50%. Participants receiving loans from the Plan must execute an interest-bearing promissory note in the amount of the loan. The terms of the promissory note require that all participants repay their loans based upon a fixed repayment schedule not to exceed a five-year period, except in the case of a primary residence loan for which the repayment period is extended. Participant loans are subject to a $1,000 minimum amount and limited to 50% of a participant's vested account balance, not to exceed $50,000. Historically, losses on defaulted loans have not been material; therefore, no allowance for losses is maintained.

(h) Payment of Benefits

Benefits are paid upon retirement (on or after age 55), death or termination of employment, and may also be distributed prior to termination of employment upon reaching age 59-1/2 or because of financial hardship. Participant benefits are paid in a lump sum equal to the vested value of the participant's account at the time of payment. Effective March 1, 2015, the Plan was amended to allow for partial distributions of a participant's vested account balance.

(i) Plan Termination

Although it has not expressed any intent to do so, the Company reserves the right to fully or partially terminate the Plan at any time by action of the Board of Directors. In such an event, all participants will become fully vested in their account balances as of the date of full or partial termination.

(2) Summary of Significant Accounting Policies

(a) Basis of Accounting

The financial statements of the Plan have been prepared on the accrual basis of accounting.

(b) Valuation of Investments

The Plan's investment in mutual funds and the money market fund are valued at the daily closing price as reported by the fund. The funds held by the Plan are open-end funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value ("NAV") and to transact at that price. The mutual funds and money market fund held by the Plan are deemed to be actively traded. The Plan's investment in collective trusts are valued at the NAV of units held. The NAV, as provided by the Trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. Participant transactions may occur daily. Were the Plan to initiate a full redemption of the collective trusts, the issuer reserves the right to temporarily delay withdrawal in order to ensure that securities liquidation will be carried out in an orderly business manner. There have been no changes in the valuation methodologies used at December 31, 2022 and 2021. All Plan investments are participant-directed, where participants determine the percentage in which contributions are to be invested in each fund.

(c) Fair Value Measurement

The Plan's fair value disclosures are included in Note 5 - Fair Value Measurements.

(d) Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2022 or 2021. If a participant ceases to make loan repayments and the Plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

(e) Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make significant estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosures of contingent assets and liabilities at the date of the financial statements, and the reported amounts of additions to and deductions from net assets during the reporting period. Actual results could differ from those estimates.

(f) Risks and Uncertainties

The Plan provides for various investment options. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the risk associated with investment securities and the uncertainty related to changes in the value of such securities, it is at least reasonably possible that changes in risks in the near-term could materially affect participant account balances and the amounts reported in the statements of net assets available for benefits.

(g) Investment Transactions and Related Income

Purchases and sales of interests in investment funds, along with realized gains and losses, are accounted for on the trade date. Dividends represent the Plan's share in dividend income of the investment funds in which the Plan participates. Dividends are recorded on the ex-dividend date. Interest income is recorded on the accrual basis. Net depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

(h) Payments of Benefits

Generally, benefits are recorded when paid.

(i) Expenses

Investment expenses charged by the collective trusts, mutual funds and money market fund in which the Plan invests are paid directly from the underlying assets of the respective investment and are included in interest and the net depreciation in fair value of investments in the statement of changes in net assets available for benefits. Quarterly fees related to the administration of participant account balances are charged directly to the participant's account and are included in administrative expenses. Certain expenses of maintaining the Plan are paid through a revenue sharing credit agreement with the Trustee, rather than a direct payment. Fees that are not paid by the revenue sharing credit agreement are paid by the Plan unless the Company elects to pay such expenses.

(3) Plan Tax Status

The Internal Revenue Service ("IRS") has determined and informed the Company by a letter dated May 19, 2017, that the Plan and related trust are designed in accordance with the applicable sections of the IRC. The Plan has been amended since receiving the determination letter; however, the Company and the Plan's tax counsel believe that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, the Plan qualifies under Section 401(a) and the related trust is tax-exempt as of December 31, 2022. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

(4) Related Party Transactions

Certain Plan investments are managed by affiliates of Fidelity Management Trust Company, the Trustee as defined by the Plan, and, therefore, these qualify as party-in-interest transactions. Expenses paid directly from Plan assets to the Trustee or its affiliates, net of revenue sharing credits, were $476,920 for the year ended December 31, 2022. The Plan allows participants to take loans against their account balances, which are also considered party-in-interest transactions.

(5) Fair Value Measurements

The framework for measuring fair value provides a valuation hierarchy based upon the transparency of inputs used in the valuation of an asset or liability. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between participants at the measurement date.

Classification within the hierarchy is based upon the lowest level of inputs that is significant to the resulting fair value measurement. The valuation hierarchy contains three levels:

Level 1: Valuation inputs are unadjusted quoted market prices for identical assets or liabilities in active markets.

Level 2: Valuation inputs are quoted prices for identical assets or liabilities in markets that are not active, quoted market prices for similar assets and liabilities in active markets and other observable inputs directly or indirectly related to the assets or liabilities being measured.

Level 3: Valuation inputs are unobservable and significant to the fair value measurement.

The following tables summarize the Plan's investments, carried at fair value on a recurring basis, as of December 31, 2022 and 2021, based on the inputs used to value them. Classification within the fair value hierarchy table is based on the lowest level of any input that is significant to the fair value measurement.

	2022			
	Level 1	**Level 2**	**Level 3**	**Total**
Mutual Funds	$ 200,045,259	$ -	$ -	$ 200,045,259

Total investments at fair value				$ 1,765,131,557

	2021			
	Level 1	**Level 2**	**Level 3**	**Total**

(a) In accordance with Subtopic 820-10, certain investments that were measured at NAV per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statements of net assets available for benefits.

Independent Auditor's Report

To the Plan Administrator
Gartner, Inc. Savings and Investment Plan

Opinion

We have audited the financial statements of Gartner, Inc. Savings and Investment Plan, (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 ("ERISA"), which comprise the statements of net assets available for benefits as of December 31, 2022 and 2021, and the related statement of changes in net assets available for benefits for the year ended December 31, 2022, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2022 and 2021, and the changes in its net assets available for benefits for the year ended December 31, 2022, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America ("GAAS"). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current Plan instrument, including all Plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedule Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental Schedule H, Part IV, Line 4(i) - Schedule of Assets (Held at End of Year) as of December 31, 2022 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedules is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

(1) Description of the Plan

The following description of the Gartner, Inc. Savings and Investment Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement, and any amendments thereto, for a more complete description of the Plan provisions.

(a) General

The Plan is a defined contribution retirement plan subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). The Plan has been amended and restated at various times in order to comply with regulatory guidance.

The Plan covers substantially all domestic employees of Gartner, Inc. and its wholly-owned subsidiaries (collectively, the "Company" or the "Employer"). Any employee who customarily works at least 20 hours per week (minimum of 1,000 hours per year) and is at least 18 years of age is eligible to participate in the Plan.

(b) Administration

The Plan is administered by the Gartner, Inc. Retirement Benefits Committee (the "Plan Committee") which is appointed by the Company's Board of Directors. The Plan Committee is responsible for all administrative aspects of the Plan, including selection of trustees and investment managers, establishment of investment alternatives, determination of benefit eligibility and benefit calculations and interpretation of Plan provisions. The Plan Committee has delegated certain administrative functions to officers of the Company.

(c) Contributions

The Plan automatically enrolls eligible Company employees with a 4% pre-tax salary deferral contribution rate that automatically increases 1% each year up to a maximum of 10%, unless the participants elect to opt out.

Participating employees may make annual contributions to the Plan in percentages of not less than 1% or more than 85% of total annual compensation (75% pre-tax and/or Roth deferrals, 10% after-tax), as defined in the Plan agreement, subject to Internal Revenue Code ("IRC") limitations. Participants who are eligible may make pre-tax, Roth and catch-up contributions subject to the IRC limitations. Participants may also contribute amounts representing distributions from other qualified defined contribution or defined benefit plans.

For 2022, the Company matched 100% of pre-tax or Roth deferral contributions up to the greater of 4% of a participant's total eligible compensation or $7,200. Although additional profit-sharing contributions may be made at the Company's discretion, there were no such contributions during 2022.

A participant may make after-tax contributions of up to 10% of the participant's eligible compensation, subject to a maximum contribution of $20,000 per year.

(d) Participants' Accounts

Separate accounts are maintained for each participant of the Plan through Fidelity Management Trust Company ("Fidelity"). The participants' accounts are adjusted to reflect contributions and investment earnings such as interest, dividends, and realized and unrealized investment gains and losses.

At December 31, 2022 and 2021, forfeited non-vested accounts totaled $116,627 and $78,504, respectively. These accounts will be used to reduce future Employer contributions or pay future Plan expenses. During 2022, no forfeited non-vested accounts were used to reduce Employer contributions or pay Plan expenses.

(e) Investments

Participants may elect to invest in a variety of investment funds and may make transfers among investment funds at their discretion in whole percentages. The Plan has designated Vanguard Target Retirement Trusts as its Qualified Default Investment Alternatives. The Company has authorized Fidelity to execute transactions upon direction from the participants within the framework of the trust instrument.

(f) Vesting

Participants are immediately vested in their own contributions and the Employer's matching contributions. Participants vest in any profit-sharing contributions ratably over a five-year period based on credited years of service from their date of hire. The date of hire for the employees of acquired companies continues to be their historical date of hire by the acquired company for vesting purposes.

(g) Notes Receivable from Participants

Loans to participants are permitted, with the Trustee's consent, in accordance with the limits provided by the IRC. Loans bear interest at a fixed rate equal to prime plus 1% at the time of issuance. Interest rates of loans outstanding at December 31, 2022 ranged from 4.25% to 11.50%. Participants receiving loans from the Plan must execute an interest-bearing promissory note in the amount of the loan. The terms of the promissory note require that all participants repay their loans based upon a fixed repayment schedule not to exceed a five-year period, except in the case of a primary residence loan for which the repayment period is extended. Participant loans are subject to a $1,000 minimum amount and limited to 50% of a participant's vested account balance, not to exceed $50,000. Historically, losses on defaulted loans have not been material; therefore, no allowance for losses is maintained.

(h) Payment of Benefits

Benefits are paid upon retirement (on or after age 55), death or termination of employment, and may also be distributed prior to termination of employment upon reaching age 59-1/2 or because of financial hardship. Participant benefits are paid in a lump sum equal to the vested value of the participant's account at the time of payment. Effective March 1, 2015, the Plan was amended to allow for partial distributions of a participant's vested account balance.

(i) Plan Termination

Although it has not expressed any intent to do so, the Company reserves the right to fully or partially terminate the Plan at any time by action of the Board of Directors. In such an event, all participants will become fully vested in their account balances as of the date of full or partial termination.

(2) Summary of Significant Accounting Policies

(a) Basis of Accounting

The financial statements of the Plan have been prepared on the accrual basis of accounting.

(b) Valuation of Investments

The Plan's investment in mutual funds and the money market fund are valued at the daily closing price as reported by the fund. The funds held by the Plan are open-end funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value ("NAV") and to transact at that price. The mutual funds and money market fund held by the Plan are deemed to be actively traded. The Plan's investment in collective trusts are valued at the NAV of units held. The NAV, as provided by the Trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. Participant transactions may occur daily. Were the Plan to initiate a full redemption of the collective trusts, the issuer reserves the right to temporarily delay withdrawal in order to ensure that securities liquidation will be carried out in an orderly business manner. There have been no changes in the valuation methodologies used at December 31, 2022 and 2021. All Plan investments are participant-directed, where participants determine the percentage in which contributions are to be invested in each fund.

(c) Fair Value Measurement

The Plan's fair value disclosures are included in Note 5 - Fair Value Measurements.

(d) Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2022 or 2021. If a participant ceases to make loan repayments and the Plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

(e) Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make significant estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosures of contingent assets and liabilities at the date of the financial statements, and the reported amounts of additions to and deductions from net assets during the reporting period. Actual results could differ from those estimates.

(f) Risks and Uncertainties

The Plan provides for various investment options. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the risk associated with investment securities and the uncertainty related to changes in the value of such securities, it is at least reasonably possible that changes in risks in the near-term could materially affect participant account balances and the amounts reported in the statements of net assets available for benefits.

(g) Investment Transactions and Related Income

Purchases and sales of interests in investment funds, along with realized gains and losses, are accounted for on the trade date. Dividends represent the Plan's share in dividend income of the investment funds in which the Plan participates. Dividends are recorded on the ex-dividend date. Interest income is recorded on the accrual basis. Net depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

(h) Payments of Benefits

Generally, benefits are recorded when paid.

(i) Expenses

Investment expenses charged by the collective trusts, mutual funds and money market fund in which the Plan invests are paid directly from the underlying assets of the respective investment and are included in interest and the net depreciation in fair value of investments in the statement of changes in net assets available for benefits. Quarterly fees related to the administration of participant account balances are charged directly to the participant's account and are included in administrative expenses. Certain expenses of maintaining the Plan are paid through a revenue sharing credit agreement with the Trustee, rather than a direct payment. Fees that are not paid by the revenue sharing credit agreement are paid by the Plan unless the Company elects to pay such expenses.

(3) Plan Tax Status

The Internal Revenue Service ("IRS") has determined and informed the Company by a letter dated May 19, 2017, that the Plan and related trust are designed in accordance with the applicable sections of the IRC. The Plan has been amended since receiving the determination letter; however, the Company and the Plan's tax counsel believe that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, the Plan qualifies under Section 401(a) and the related trust is tax-exempt as of December 31, 2022. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

(4) Related Party Transactions

Certain Plan investments are managed by affiliates of Fidelity Management Trust Company, the Trustee as defined by the Plan, and, therefore, these qualify as party-in-interest transactions. Expenses paid directly from Plan assets to the Trustee or its affiliates, net of revenue sharing credits, were $476,920 for the year ended December 31, 2022. The Plan allows participants to take loans against their account balances, which are also considered party-in-interest transactions.

(5) Fair Value Measurements

The framework for measuring fair value provides a valuation hierarchy based upon the transparency of inputs used in the valuation of an asset or liability. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between participants at the measurement date.

Classification within the hierarchy is based upon the lowest level of inputs that is significant to the resulting fair value measurement. The valuation hierarchy contains three levels:

Level 1: Valuation inputs are unadjusted quoted market prices for identical assets or liabilities in active markets.

Level 2: Valuation inputs are quoted prices for identical assets or liabilities in markets that are not active, quoted market prices for similar assets and liabilities in active markets and other observable inputs directly or indirectly related to the assets or liabilities being measured.

Level 3: Valuation inputs are unobservable and significant to the fair value measurement.

The following tables summarize the Plan's investments, carried at fair value on a recurring basis, as of December 31, 2022 and 2021, based on the inputs used to value them. Classification within the fair value hierarchy table is based on the lowest level of any input that is significant to the fair value measurement.

	2022			
	Level 1	**Level 2**	**Level 3**	**Total**
Mutual Funds	$ 200,045,259	$ -	$ -	$ 200,045,259

Total investments at fair value				$ 1,765,131,557

	2021			
	Level 1	**Level 2**	**Level 3**	**Total**
Mutual Funds	$ 768,246,417	$ -	$ -	$ 768,246,417

(a) In accordance with Subtopic 820-10, certain investments that were measured at NAV per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statements of net assets available for benefits.
