Independent Auditor's Report

To the Plan Administrator
Yell Adworks, a Division of Yellowbook Sales and Distribution Company, Inc.
Retirement Plan
King of Prussia, Pennsylvania

We were engaged to audit the accompanying statements of net assets available for benefits of the Yell Adworks, a Division of Yellowbook Sales and Distribution Company, Inc. Retirement Plan (the "Plan") as of December 31, 2009 and 2008, and the related statement of changes in net assets available for benefits for the year ended December 31, 2009, and the supplemental schedule of assets (held at end of year) as of December 31, 2009. These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan Administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Notes 3, 4 and 5 which was certified or provided by State Street Bank and Trust Company, the trustee of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedule. We have been informed by the Plan Administrator that the trustee holds the Plan's investment assets and executes investment transactions. As disclosed in Note 3, the Plan Administrator has obtained certifications from the trustee regarding, to the best of their knowledge, the completeness and accuracy of the investment information provided to the Plan Administrator by the trustee as of and for the year ended December 31, 2009, and as of December 31, 2008.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and schedule taken as a whole. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified or provided by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Notes to Financial Statements

Note 1. Description of Plan

The following description of the Yell Adworks, a Division of Yellowbook Sales and Distribution Company, Inc. Retirement Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution plan adopted February 1, 2001 (as subsequently amended) covering all non-union employees of Yell Adworks, a Division of Yellowbook Sales and Distribution Company, Inc. (the "Company"), whose principal place of employment with the Company is the United States of America. The aforementioned employees are eligible to participate in the salary deferral portion of the Plan on the first day of the month after reaching the age of 18 and completing one month of service with the Company. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Contributions: Participants may defer up to 85% of their compensation and contribute it to the Plan; however, the total deferrals each year may not exceed the dollar limit set by law (\$16,500 for 2009). Participants age 50 or older may elect to defer additional amounts ("catch-up contributions") to the Plan. The maximum catch-up contribution in 2009 was \$5,500. Participants may also contribute amounts representing distributions from other qualified plans.

The Company makes matching contributions equal to 50% of each participant's elective contribution up to 6% of gross compensation. In addition to the match of elective contributions, the Company may also make a discretionary profit sharing contribution. Contributions are subject to certain limitations.

Participant Accounts: Each participant's account is credited with the participant's elective contribution, the Company match of the elective contribution and an allocation of (a) the Company's discretionary contributions, and (b) Plan investment earnings and charged with distributions and an allocation of Plan investment losses. Allocations are based on employee contributions, employee compensation, or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting: Participants are immediately vested in their contributions (including rollover contributions) plus actual earnings thereon. Company matching and discretionary contributions, including earnings thereon, become vested as follows:

Years of Participation in the Plan	Vesting Percentage for Company Contributions
Less than 1 years	0%
At least 1 year but less than :	33%
At least 2 years but less than	67%
3 or more	100%

Payment of Benefits: In general, participants withdrawing from the Plan may receive their balance in the form of a lump-sum cash distribution or a direct rollover distribution for an amount equal to the value of the participant's vested account.

Forfeitures: Forfeited balances of terminated participants' non-vested accounts are used to reduce the amount of the employer matching contributions. Forfeited non-vested accounts of \$24,156 were used to offset Company contributions during the year ended December 31, 2009. The total of forfeited non-vested accounts was \$761 and \$10,075 at December 31, 2009 and 2008, respectively.

Notes to Financial Statements

Note 1. Description of Plan (Continued)

Administrative Costs: All expenses of administration may be paid out of the Plan unless paid by the Company.

Investment Options: Upon enrollment in the Plan, a participant may direct employee and matching contributions into any of the various funds offered by the Plan as more fully described in the Plan's literature. Participants may change their allocation on a daily basis.

Participant Loans: Participants may borrow from their fund accounts a maximum equal to the lesser of (a) \$50,000, reduced by the participant's highest outstanding loan balance in the prior twelve months or (b) 50% of the value of the participant's vested benefit in the Plan. Loan terms range from one to five years or, for the purchase of a primary residence, a reasonable period of time. The loans are secured by the balance in the participant's account and bear interest at rates that range from 5.25% to 10.25%, which are commensurate with local prevailing rates at the time of the loan. Principal and interest are paid ratably through bi-weekly payroll deductions.

Note 2. Summary of Significant Accounting Policies

Basis of Accounting: The financial statements of the Plan are prepared under the accrual method of accounting.

Use of Estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts of net assets available for benefits and changes therein. Actual results could differ from those estimates.

Investment Contracts: Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were initiate permitted transactions under the terms of the Plan. The Statement of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Investment Valuation and Income Recognition: Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Benefit Payments: Benefit payments are recorded when paid.

Recently Issued Accounting Pronouncements: The Financial Accounting Standards Board ("FASB") issued new guidance on accounting for uncertainty in income taxes. The Plan adopted this new guidance for the year ended December 31, 2009. Management evaluated the Plan's tax positions and concluded that the Plan had maintained its tax exempt status and had taken no uncertain tax positions that required adjustments to the financial statements. Therefore, no provision or liability for income taxes has been included in the financial statements.

Note 2. Summary of Significant Accounting Policies (Continued)

Recently Issued Accounting Pronouncements (Continued): FASB Staff Position 157-4, *Determining Fair Value When the Volume and Level of Activity for the Asset or Liability Have Significantly Decreased and Identifying Transactions That Are Not Orderly*, amended Accounting Standards Codification ("ASC") Topic 820, and had significant impact on investment disclosures effective for years ended after June 15, 2009. It requires disclosure of inputs and valuation techniques used to measure fair value and discussion of changes in valuation techniques and related inputs, if any, and includes guidance on determining major security type ("category") for debt and equity securities required to be disclosed on the basis of "nature and risks" of the investments. See Note 4 for the impact of our adoption.

In September 2009, FASB issued Accounting Standards Update ("ASU") 2009-12, *Investments in Certain Entities That Calculate Net Asset Value per Share (or its Equivalent)*, which provides guidance on how entities should estimate fair value of certain alternative investments. The fair value of investments within the scope of this guidance can now be determined using net asset value ("NAV") per share as a practical expedient, when the fair value is not readily determinable, unless it is probable the investment will be sold at something other than NAV. It also requires disclosure of certain attributes by major category of alternative investments, regardless of whether the practical expedient was used. This amendment was effective for periods ending after December 15, 2009, with early adoption permitted. See Note 4 for the impact of our adoption.

In January 2010, FASB issued ASU 2010-06, *Fair Value Measurements and Disclosures – Improving Disclosures About Fair Value Measurements*, which requires new disclosures and reasons for transfers of financial assets and liabilities between Levels 1 and 2. This amendment also clarifies that fair value measurement disclosures are required for each class of financial assets and liabilities, and those disclosures should include a discussion of inputs and valuation techniques. It further clarifies that the reconciliation of Level 3 measurements should separately present purchases, sales, issuances, and settlements instead of netting these changes. With respect to matters other than Level 3 measurements, the amendment is effective for periods beginning on or after December 15, 2009. Management has determined that the adoption of this amendment with respect to matters other than Level 3 measurements had no impact on the financial statements. The guidance related to Level 3 measurements is effective for periods beginning on or after December 15, 2010 and has not yet been adopted. The Plan is currently evaluating the impact of the guidance related to Level 3 measurements on the disclosures.

In September 2010, FASB issued ASU 2010-25, *Plan Accounting - Defined Contributions Pension Plans*, which provides guidance on how loans to participants by defined contribution retirement plans should be classified and measured. This amendment requires that participant loans be classified as notes receivable from participants, which are segregated from plan investments and measured at their unpaid principal balance plus any accrued but unpaid interest. The amendment should be applied retrospectively to all prior periods presented, effective for plan years ending after December 15, 2010. Early adoption is permitted. Plan management has not yet adopted this amendment.

Note 3. Information Certified by State Street Bank and Trust Company

The following is a summary of the investment information as of December 31, 2009 and 2008, and for the year ended December 31, 2009, included in the Plan's financial statements and supplemental schedule, that was prepared by or derived from information provided by the trustee and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from the trustee that the information provided to the Plan Administrator by the trustee related to the following investments is complete and accurate to the best of their knowledge. Accordingly, as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information which appears throughout the financial statements and supplemental schedule related to the following investments:

	2009	2008
Registered investment companies, at fair value	\$ 4,682,240	\$ 3,317,128
Common/Collective trust fund, at contract value	301,801	344,517
Participant loans, at amortized cost	63,297	56,125
	<u>\$ 5,047,338</u>	<u>\$ 3,717,770</u>

State Street Bank and Trust Company also certified to the completeness and accuracy of \$1,119,960 of net appreciation in fair value of investments and \$90,361 of interest and dividends related to the aforementioned investments for the year ended December 31, 2009.

Note 4. Fair Value Measurements

Accounting guidance on fair value measurements and disclosures defines fair value, establishes a framework for measuring fair value of assets and liabilities using a hierarchy system, and expands disclosures about fair value measurement. It clarifies that fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants in the market in which the reporting entity transacts business.

The Plan's statement of net assets available for benefits contains Plan investments and participant loans that are recorded at fair value on a recurring basis. The three-level valuation hierarchy for disclosure of fair value is as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

Yell Adworks, a Division of Yellowbook Sales and Distribution Company, Inc. Retirement Plan

Notes to Financial Statements

Note 4. Fair Value Measurements (Continued)

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

An asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2009.

Registered investment companies: Valued at fair value based on the quoted market price of the fund.

Common/Collective trust fund: Valued based on the fair value of the underlying securities and investment contracts, including security backed contracts, held by the Morgan Stanley Stable Value Fund.

Participant loans: Valued at amortized cost, which approximates fair value.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2009 and 2008:

The table below sets forth a summary of changes in the fair value of the Plan's Level 3 assets for the year ended December 31, 2009:

	Participant Loans
Balance, beginning of year	\$ 56,125
Issuances and settlements, net	7,172
	<u>\$ 63,297</u>

The fair value of the common/collective trust fund is estimated using net asset value per share (or its equivalent). The common/collective trust invests in a variety of investment contracts such as guaranteed investment contracts ("GICs") issued by insurance companies and other financial institutions and other investment products ("synthetic GIC's") with similar characteristics. The common/collective trust expects that each unit will have a constant value of \$1.00. Unanticipated events such as a GIC issuer's or contract issuer's inability to meet its obligations or significant withdrawal requests by plan participants in the common/collective trust, could affect the recoverability of assets including the underlying investment securities of synthetic GICs. Therefore, as provided in the common/collective trust's Declaration of Trust, there can be no assurance that a unit's value will remain constant at \$1.00. The value of each unit is determined at the close of business each business day by adding the value of all the common/collective trust's assets, subtracting all accrued expenses and liabilities, and dividing by the number of units outstanding. As of April 21, 2010 (the date the common/collective trust's audited financial statements were available to be issued), the common/collective trust had received notice of non-benefit related withdrawals totaling approximately \$17 million, which will be funded by the common/collective trust within twelve months of initial receipt of the withdrawal request. There were no unfunded commitments as of December 31, 2009. At December 31, 2009, the crediting interest rate was 1.12%.

Davis New York Venture Fund - A	672,159	452,972
Alliance High Income Fund - A	471,134	307,603

* Balance represents contract value for this investment.

Note 6. Risks and Uncertainties

Investment securities are exposed to various risks such as credit, interest rate, and market risks.

Credit risk arises from the potential for an issuer or other counterparty to default on its contractual obligations to the Plan. Investments are recorded at fair value. This represents the maximum credit risk exposure to the Plan.

Interest rate risk refers to the impact of interest rate changes on the Plan's financial position. Interest rate changes directly impact the fair value of fixed income securities held in the Plan. Interest rate changes will also have an indirect impact on the other investments of the Plan.

Market risk is the risk that the market value of an investment will fluctuate as a result of changes in market price.

Due to the level of risk associated with certain investment transactions, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits.

Note 7. Income Tax Status

The Internal Revenue Service has determined and informed the Company by a letter dated March 31, 2008 that the Plan is designed in accordance with applicable sections of the Internal Revenue Code ("IRC"). The Plan has been amended since receiving the determination letter. However, the Plan administrator believes that the Plan is designed and is being operated in compliance with the applicable requirements of the IRC.

Note 8. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants will become 100% vested in their accounts.
