INDEPENDENT AUDITORS' REPORT

Plan Administrator
CTM North America 401(k) Plan
Omaha, Nebraska

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit
We have performed audits of the financial statements of CTM North America 401(k) Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2022 and 2021, the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from qualified institutions as of and for the years ended December 31, 2022 and 2021, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion
In our opinion, based on our audits and on the procedures performed as described in the Auditors' Responsibilities for the Audit of the Financial Statements section:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP).
- The information in the accompanying financial statements related to assets held by and certified to by qualified institutions agrees to, or is derived from, in all material respects, the information prepared and certified by institutions that management determined meet the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion on the Financial Statements
We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements
Management is responsible for the preparation and fair presentation of the financial statements in accordance with U.S. GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date that the financial statements are issued or available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements
Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certifications, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of U.S. GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with U.S. GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter – Supplementary Information Required by ERISA
The supplementary information as of and for the year ended December 31, 2022 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplementary information, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplementary information that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplementary information, we evaluated whether the supplementary information, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplementary information, other than the information in the supplementary information that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplementary information related to assets held by and certified to by qualified institutions agrees to, or is derived from, in all material respects, the information prepared and certified by institutions that management determined meet the requirements of ERISA Section 103(a)(3)(C).

1. Plan Description

The following brief description of the CTM North America 401(k) Plan (Formerly Travel and Transport, Inc. 401(k) Plan) (the Plan) is provided for general informational purposes only. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan was established to provide retirement benefits for the employees of Travel and Transport, Inc. (effective January 1, 2022, Corporate Travel Management North America, Inc.) (the Company).

Effective February 1, 2017, Data Visualization Intelligence, Inc. (DVI) was added as a participating employer of the Plan.

Effective December 1, 2017, the assets of the Ultramar Travel Management, Inc. 401(k) Plan were merged into the Plan, and Ultramar Travel Management, Inc. (Ultramar) was added as a participating employer of the Plan.

Effective February 3, 2020, the assets of the WTT, Inc./Radius Travel 401(k) Plan were merged into the Plan, and WTT, Inc. d/b/a Radius Travel (Radius) was added as a participating employer of the Plan.

Effective September 1, 2021, the assets of the Corporate Travel Management North America Inc. 401(k) Plan were merged into the Plan, and Corporate Travel Management North Management North America Inc. (Corporate Travel Management) was added as a participating employer of the Plan.

Employees are eligible to make pre-tax and after-tax Roth salary reduction contributions after attaining age 18 and completing one month of service. Eligible employees become participants on the first day of the calendar month following the date on which entry requirements were fulfilled.

Employees are also eligible for discretionary matching contributions if they are eligible to participate and are making contributions. To be eligible for any profit sharing contributions, a participant must also be employed on the last day of the Plan year and have worked at least 1,000 hours during the Plan year.

Contributions

Participants may make voluntary salary reduction contributions of not less than 1% up to 100% of their annual eligible compensation, subject to the maximum dollar amounts allowable by law. Employees are automatically enrolled in the Plan with an initial salary deferral of 4% unless the Company is informed otherwise. On January 1 of each year, the employee's deferral rate will be increased by one percentage point until it reaches a total of 12% of their eligible salary. Effective September 1, 2021, the automatic increase feature was suspended and was reinstated effective January 1, 2022. At any time, a participant can elect not to contribute or may increase or decrease the deferral rate to any rate allowed under Plan provisions. Participants may also contribute amounts representing distributions from other qualified plans. The Company may also make discretionary matching and profit sharing contributions. All participants who are eligible to make deferral contributions and who will attain age 50 before the close of the calendar year shall be eligible to make catch-up contributions.

Participant Accounts

Each participant's account is credited with the participant's contribution and an allocation of a) the Company's discretionary matching contribution, b) the Company's discretionary profit sharing contribution and c) Plan earnings or losses. The Company's discretionary matching contribution is allocated among participants based on each eligible participant's elected salary deferral. The Company's discretionary profit sharing contribution is allocated among participants based upon eligible compensation of participants. Plan earnings or losses are allocated on the basis of actual results of the investments selected by each participant. Effective September 1, 2021, investments are maintained in individual member accounts managed by Charles Schwab Trust Bank (Charles Schwab). Prior to September 1, 2021, investments were maintained in individual member accounts managed by Principal Trust Company (Principal).

Vesting

Participants are vested immediately in their contributions plus actual earnings thereon. Vesting in the Company's contributions credited to participants' accounts is based on years of continuous service. A participant becomes 100% vested in Company contributions at normal retirement age, death, or disability. A participant is 25% vested after two years of credited service and vesting increases 25% per year until a participant is 100% vested after five years of credited service.

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 (prior to September 1, 2021, the maximum amount was $30,000) or 50% of their vested account balance. The notes are secured by the balance in the participant's account and bear interest at rates which are commensurate with local prevailing rates. The terms of the notes are limited to five years, unless the note is for the purchase of a primary residence, in which case a longer term may be permitted. Principal, interest, and note fees are paid through payroll deductions.

Payment of Benefits

Upon termination, retirement, disability, or death, the participant or beneficiary may elect to receive either a lump sum or installment payments equal to the value of the vested funds allocated to the participant's account. If a participant's balance is less than $1,000, the participant may only receive a lump sum payment. Distributions under $1,000 will be paid out to the participant in the event the participant does not elect a payout option. Distribution payments between $1,000 and $5,000 are directly rolled over to an individual retirement account designated by the plan administrator in the event the participant does not elect otherwise. Participants may also receive in-service and hardship distributions, as permitted in the Plan document. Benefits are recorded when paid.

Forfeitures

Upon a participant's termination of employment before normal retirement or death, the portion of their Company contributions not then vested shall be forfeited. Effective September 1, 2021, forfeitures are used to reduce Company contributions or reallocated, as elected by the Company. Prior to September 1, 2021, forfeitures related to matching contributions were to be re-allocated to remaining participants. Forfeitures related to profit sharing are to be used to reduce profit sharing contributions. At December 31, 2022 and 2021, forfeited non-vested accounts totaled $73,611 and $255,651, respectively. Forfeitures of $255,311 and $0, respectively, were reallocated to remaining participant accounts for the years ended December 31, 2022 and 2021. Forfeitures of $12,764 and $0, respectively, were used to reduce Company contributions for the years ended December 31, 2022 and 2021.

2. Summary of Significant Accounting Policies

A summary of the significant accounting policies consistently applied in the preparation of the accompanying financial statements is set forth below.

Basis of Presentation

The accompanying financial statements have been prepared on the accrual basis and in conformity with accounting principles generally accepted in the United States of America.

Presentation of Participant-Directed Funds

The Plan's presentation of participant-directed investments is in accordance with the Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 962, *Plan Accounting – Defined Contribution Pension Plans*.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to buy or sell an investment in an orderly transaction between market participants at the measurement date. The Company determines the Plan's valuation policies utilizing information provided by the investment advisors and custodians. See Note 4 for further discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes are reclassified as distributions based upon the terms of the Plan document.

Administrative Expenses

Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. All fees and expenses of the custodians which are incurred in connection with the Plan are paid by the Plan and recorded in administrative expenses. Other certain expenses specifically incurred by or attributable to individual participants are paid from the applicable participants' accounts. Investment related expenses are included in net appreciation (depreciation) in fair value of investments.

Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Subsequent Events

Subsequent events are events or transactions that occur after the statement of net assets available for benefits date but before the financial statements are available to be issued and may require potential recognition or disclosure in the financial statements. Management has considered such events or transactions through October 10, 2023, noting no items requiring disclosure.

3. Information Certified by Charles Schwab and Principal

The plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the plan administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the following information certified by Charles Schwab and Principal, except for comparing such information certified by the custodians to information included in the Plan's financial statements and supplementary information.

The following table presents the value of the participant-directed investments in this Plan that were certified by Charles Schwab and Principal at December 31:

	2022	2021
Investments at Fair Value	$ 97,553,854	$ 118,655,062
Notes Receivable from Participants	$ 981,958	$ 1,013,041

Charles Schwab and Principal also certified the completeness and accuracy of the following related to the aforementioned investments for the years ended December 31:

	2022	2021
Net Appreciation (Depreciation) in Fair Value of Investments	$ (19,969,283)	$ 8,847,330
Interest and Dividend Income	685,123	1,961,112
Net Investment Income (Loss)	$ (19,284,160)	$ 10,808,442
Interest Income on Notes Receivable from Participants	$ 42,330	$ 45,910

4. Fair Value Measurements

FASB ASC 820, *Fair Value Measurement and Disclosures*, provides a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;

- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The assets or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used as of December 31, 2022 and 2021.

Mutual Funds: Valued at the daily closing price as reported by the funds. Funds held by the Plan are open-end funds that are registered with the Securities and Exchange Commission. These funds are required to publish their net asset value (NAV) and to transact at that price. Funds held by the Plan are deemed to be actively traded.

Common/Collective Trusts: Valued at the NAV based on the market value of its underlying investments, FASB ASC 820, *Fair Value Measurements and Disclosures*, allows NAV per share to serve as a practical expedient to estimate the fair value as long as certain requirements are met. It is the Plan's assessment that this fund meets those requirements. Were the Plan to initiate a full redemption of the applicable collective trust, the investment advisor reserves the right to temporarily delay withdrawal from the trusts in order to ensure that security liquidations will be carried out in an orderly business manner.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table presents by level, within the fair value hierarchy, the Plan's investments at fair value at December 31, 2022:

	Level 1	Level 2	Level 3	Total
Mutual Funds	$ 20,739,283	$ -	$ -	$ 20,739,283
Common/Collective Trusts**	-	-	-	76,814,571
Total Investments at Fair Value	$ 20,739,283	$ -	$ -	$ 97,553,854

The following table presents by level, within the fair value hierarchy, the Plan's investments at fair value at December 31, 2021:

	Level 1	Level 2	Level 3	Total
Mutual Funds	$ 26,899,978	$ -	$ -	$ 26,899,978
Common/Collective Trusts**	-	-	-	91,755,084
Total Investments at Fair Value	$ 26,899,978	$ -	$ -	$ 118,655,062

**The Plan follows ASU 2015-07; therefore, investments measured at fair value using NAV per share (or its equivalent) as a practical expedient have not been classified in the fair value hierarchy above. The fair value amounts presented in the hierarchy tables for such investments are intended to permit reconciliation of the fair value hierarchy to the investments at fair value line item presented in the statements of net assets available for benefits.

The following table summarize investments measured at fair value based on the NAV per share as of December 31, 2022 and 2021:

December 31, 2022	Fair Value	Unfunded Commitments	Redemption Frequency	Redemption Notice Period
Common/Collective Trust	$ 76,814,571	None	Daily	Daily

December 31, 2021	Fair Value	Unfunded Commitments	Redemption Frequency	Redemption Notice Period
Common/Collective Trust	$ 91,755,084	None	Daily	Daily

5. Transfer from Corporate Travel Management North America Inc. 401(k) Plan

The Board of Directors of the Company voted on August 15, 2021 to merge the Corporate Travel Management North America Inc. 401(k) Plan (the Corporate Travel Management Plan) into the Plan effective September 1, 2021. The assets of the Corporate Travel Management Plan totaling $29,094,801 were transferred into the Plan effective September 1, 2021.

6. Tax Status

The Plan is qualified as a profit sharing plan under Section 401(a) of the Internal Revenue Code and is exempt from federal income taxation under Section 501(a) of the Internal Revenue Code.

The plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the applicable taxing authority. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2019.

7. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue their contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested. Distribution to participants of the account balances would be made as soon as practicable after the termination date.

8. Change to Charles Schwab and Plan Name Change

Effective September 1, 2021, in connection with the merger of the Corporate Travel Management Plan into the Plan (see Note 5), the plan was re-named the CTM North America 401(k) Plan. Additionally, effective September 1, 2021, Charles Schwab was appointed as the new custodian of the Plan. Plan assets transferred to Charles Schwab were transferred into funds comparable, where available, to those offered by Principal. The conversion initiated a “blackout” period beginning August 24, 2021 and continued through September 19, 2021. During this period, funds could not be applied to the employee selected funds with Principal or withdrawn from the Plan until Charles Schwab had time to accurately complete the conversion. During the period, employee contributions continued to be made through payroll deductions, and the contributions were wired to Charles Schwab and held in a trust account until the completion of the blackout period, at which time these funds were invested in funds comparable to those offered by Principal.
