Independent Auditors' Report

To the Trustees and Participants of
Booz Allen Hamilton Inc. Employees' Capital Accumulation Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of Booz Allen Hamilton Inc. Employees' Capital Accumulation Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2022 and 2021, and the related statement of changes in net assets available for benefits for the year ended December 31, 2022, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2022 and 2021, and for the year ended December 31, 2022, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditors' Responsibilities for the Audit of the Financial Statements section:

- The amounts and disclosures in the financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

- The information in the financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings and certain internal control-related matters that we identified during the audit.

Other Matter - Supplemental Schedule Required by ERISA

The supplemental schedule, Schedule H, Line 4(i) - Schedule of Assets (Held at End of Year) as of December 31, 2022, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

- The information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

1. Description of the Plan

The following description of the Booz Allen Hamilton Inc. Employees' Capital Accumulation Plan (the Plan or ECAP) provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General

The Plan was established as a defined contribution savings plan pursuant to the provisions of Section 401(k) of the Internal Revenue Code (IRC) that covers all regular, full-time and part-time employees of Booz Allen Hamilton Inc. (the Company or the Plan Sponsor). Refer to Note 8, Tax Status, for further discussion associated with the Plan's compliance with applicable requirements of the IRC. The Company is a wholly owned subsidiary of Booz Allen Hamilton Holding Corporation. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

The Plan is administered by the Benefits Plans Committee, in accordance with the duties and responsibilities set forth in the Benefits Plans Committee Charter. The Benefits Plans Committee, which includes employees from the Company, meets periodically to review and discuss plan policies, participant communications and other matters related to the Plan. The Benefits Plans Committee members, who have fiduciary responsibility for establishing investment policy, monitoring investment vehicles and regularly reviewing investment managers and fund performance, are appointed by the Chair of the Benefits Plans Committee, as set forth in the Benefits Plans Committee Charter. Voya Institutional Plan Services, LLC is the record-keeper of the Plan. State Street Bank and Trust Company (the Trustee) is the trustee of the Plan.

Plan Mergers

On May 6, 2022, assets previously held in the Insperity 401(k) Plan for participants employed by Liberty IT Solutions, LLC were merged into the Plan. The assets transferred into the Plan as a result of the merger are included in transfers in due to plan mergers on the accompanying Statement of Changes in Net Assets Available for Benefits.

Eligibility

All regular full-time and part-time United States employees and United States citizens employed abroad by the Company are eligible to make voluntary contributions to the Plan upon date of employment. All eligible employees who are actively employed at the end of the plan year as well as certain classes of participants who terminated during the plan year, as provided by plan provisions, are eligible to receive employer matching contributions made on an annual basis.

Contributions

Voluntary Employee Contributions

Participants in the Plan may make voluntary employee contributions, which may be tax deferred contributions or Roth contributions, in amounts from 1% up to an annual IRC maximum amount. Per the Internal Revenue Service (IRS), the maximum amount of employee contributions was $20,500 for the year ended December 31, 2022. Participants age 50 or above may elect to make additional catch-up contributions, which were limited to $6,500 for the year ended December 31, 2022.

The Plan includes an automatic enrollment provision where employees who first become eligible to contribute to the Plan and who do not actively elect to participate or waive participation in the Plan within 60 days of becoming eligible to contribute are enrolled in the Plan with a default rate of 6% of eligible compensation. Such contributions will be deducted during each pay period and invested in the BlackRock LifePath fund closest to the participant's anticipated retirement date. During the 30-day period after the automatic contributions are first withheld, a participant can elect to withdraw the automatic deferral election and request a reimbursement of the contribution made. Participants have the option of changing their deferral rate or investment choices at any time.

Employer Matching Contributions

Participants employed on the last day of the plan year as well as certain classes of participants who terminated during the plan year, as provided by plan provisions, are eligible to receive employer matching contributions equal to 100% of their voluntary employee contributions up to 6% of eligible compensation. These employer matching contributions are made on an annual basis. Vesting on these annual employer matching contributions is immediate.

Rollover Contributions

Participants in the Plan may also roll over all or part of the otherwise taxable portion of an eligible rollover distribution from a qualified pension, profit sharing, 401(k) or stock bonus plan or from an individual retirement account, annuity, tax-deferred annuity plan or contract, or eligible deferred compensation plan.

Participant Accounts

Individual accounts are maintained for each plan participant. Each participant's account is credited with the participant's contributions, the Company's contributions and plan earnings, and charged with withdrawals and applicable allocations of plan losses and expenses. Plan earnings are allocated to participants' accounts based on the investment funds in which the accounts are invested, using the ratio of each participant's account balance invested in the investment fund (less withdrawals, distributions and forfeitures from the previous business day). Participants may elect to invest their account balances in the investment options provided by the Plan and a self-directed account (SDA) brokerage option. Participants may elect to invest up to 50% of their vested account balance in the SDA brokerage option. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

All participants are immediately fully vested in their voluntary contributions and employer matching contributions and earnings thereon.

Forfeitures

Amounts not vested upon termination of employment are forfeited. Forfeitures are held for a period of time to restore accounts for eligible rehired participants. At December 31, 2022 and 2021, there was approximately $586,000 and $479,000, respectively, of unallocated forfeitures.

Payment of Benefits

Upon retirement or termination, the participants whose vested account balance exceeds $5,000 may elect to receive vested funds in a lump sum or in equal installments at least annually, and may designate a future date (the later of their 72nd birthday or retirement date) to receive their benefit payment.

A participant whose vested balance is at least $1,000 but less than $5,000 may elect to receive vested funds in a lump sum or in equal installments at least annually. If payments have not commenced and the participant has not provided direction, the balance will be transferred on behalf of the participant to an individual retirement account designated by the Plan. A participant whose vested account balance is less than $1,000 and has not commenced receiving installment payments or provided direction will automatically receive an immediate lump-sum distribution equal to their vested account balance.

The Plan allows employees who continue employment after their normal retirement date to make full or partial withdrawals from their accounts. Participants cannot make withdrawals from their employer contribution account while employed by the Company. However, participants, having attained normal retirement age of 60, may request a partial or total distribution from their accounts.

Participants that were formerly participants in the Aestix, Inc. 401(k) Plan may withdraw amounts from their tax-deferred contribution account, as defined by the Plan, at any time after attaining age 59½. Participants that were formerly participants in the BTS 401(k) Plan and whom were participants in the ASE, Inc. 401(k) Capital Accumulation Plan prior to January 1, 2015 (which became the BTS 401(k) Plan on January 1, 2015), after attaining age 59½ may withdraw part or all of the balance in their tax-deferred contribution account attributable to contributions made prior to January 1, 2015.

Notes Receivable From Participants

Notes receivable from participants represents participant loans that are recorded at their unpaid principal balance plus any accrued but unpaid interest. Interest income on notes receivable from participants is recorded when earned. Related fees are recorded as administrative expenses and are expensed when incurred. No allowance for credit losses has been recorded as of December 31, 2022 or 2021. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be a distribution, the participant loan balance is reduced and a benefit payment is recorded.

Participants are permitted to borrow from all of their voluntary contribution accounts up to a maximum of the lesser of $50,000 or the greater of $10,000 or 50% of their vested account balance for periods not to exceed five years, except for residential loans, which cannot exceed 30 years. Principal and interest are payable monthly. The interest rate is equal to the prime rate published by the Wall Street Journal as of the end of the month prior to the initiation date of the loan. The loans are secured by the vested balance in the participant's account.

2. Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements of the Plan are prepared on the accrual basis of accounting, in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP).

Use of Estimates

The preparation of financial statements in accordance with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Actual results could differ from those estimates.

Valuation of Investments and Income Recognition

Investments are reported at fair value, except for fully benefit-responsive investment contracts, which are reported at contract value in accordance with Accounting Standards Update No. 2015-12. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Contract value is the relevant measurement attributable to fully benefit-responsive contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The contract value represents contributions plus earnings, less participant withdrawals and administrative expenses (the amount available for benefits). The Plan's administrative committee determines the Plan's valuation policies utilizing information provided by the investment advisors, custodians and insurance companies. See Note 4 for discussion of fair value measurements.

The Plan's investment in the Synthetic Guaranteed Investment Contract (SGIC), a fully benefit-responsive investment contract, is comprised of the bond portfolio and related wrapper held with Pacific Life Insurance Company, Prudential Life Insurance Company of America, Transamerica Life Insurance Company and Voya Retirement Insurance and Annuity Company. Investment policy guidelines such as the duration of the assets and their credit quality are designated at the time of purchase, and the wrap contract stipulates that book value benefits will only be paid as long as the contract guidelines are followed.

Net appreciation (depreciation) in fair value of investments in the accompanying Statement of Changes in Net Assets Available for Benefits includes realized gains or losses from the sale of investments and unrealized appreciation or depreciation in the fair value of investments, and fees, which are netted against or included with net appreciation (depreciation) in fair value of investments. These fees represent charges by the trustees for services provided in connection with recordkeeping and investment management. Net unrealized appreciation or depreciation in fair value of investments represents the net change in the fair value of the investments held during the period. The net realized gains or losses on the sale of investments represent the difference between the sale proceeds and the fair value of the investment as of the beginning of the period or the cost of the investment if purchased during the year. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Payment of Benefits

Benefit payments are recorded when paid. There were no amounts due to participants who have elected to withdraw from the Plan at December 31, 2022 and 2021.

Administrative Expenses

Administrative expenses directly attributable to the Plan are paid by either the Plan, the participants or the Company, as provided by the Plan's provisions. Administrative expenses are being paid primarily by the Company with certain fees for investment and recordkeeping, loans, SDAs, advice and mailings being paid through the respective participants' accounts.

Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Market risks include global events which could impact the value of investment securities, such as a pandemic or international conflict. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits.

Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the terms of the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants will become 100% vested in their accounts.

3. Information Certified by the Trustee

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA for 2022 and 2021. Accordingly, the Trustee of the Plan has certified to the completeness and accuracy of all investments and notes receivable from participants reported in the accompanying Statements of Net Assets Available for Benefits as of December 31, 2022 and 2021 and the supplemental Schedule H, Line 4(i) - Schedule of Assets (Held at End of Year) as of December 31, 2022, and the related investment activity reported in the Statement of Changes in Net Assets Available for Benefits for the year ended December 31, 2022, with the exception of $76,654,971 and $110,367,483 held in the self-directed brokerage accounts within the Plan as of December 31, 2022 and 2021, respectively, and $33,712,512 of net depreciation and $2,545,962 of interest and dividend income associated with those self-directed brokerage accounts for the year ended December 31, 2022.

4. Fair Value Measurements

Accounting Standards Codification (ASC) 820, *Fair Value Measurement* (ASC 820), establishes a framework for measuring fair value. The framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. As such, the Plan classifies investments into the following three-level hierarchy, in priority order, based on valuation inputs used to determine fair value:

Level 1 - Inputs to the valuation methodology are unadjusted quoted market prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly, such as:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 inputs must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observables and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value:

Interest-bearing cash includes investment in the State Street Institutional Money Market Fund, which invests in high-quality, U.S. dollar-denominated money market instruments with maturities of 397 calendar days or less. Fair value is based at the net asset value (NAV) of shares held by the Plan at year-end.

Self-directed brokerage accounts include cash and investments in interest-bearing cash, U.S. government securities, corporate bonds, common and preferred stocks and mutual funds. Interest-bearing cash is valued based on the NAV of shares held by the Plan at year-end. U.S. government securities are valued using pricing models maximizing the use of observable inputs for similar securities. Corporate bonds are valued using pricing models maximizing the use of observable inputs for similar securities. This includes basing value on yields currently available on comparable securities of issuers with similar credit ratings. When quoted prices are not available for identical or similar bonds, the bond is valued under a discounted cash flows approach that maximizes observable inputs, such as current yields of similar instruments, but includes adjustments for certain risks that may not be observable, such as credit and liquidity risks or a broker quote if available. Common and preferred stocks are valued at the closing price reported on the active markets on which the individual securities are traded. Mutual funds are valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the U.S. Securities and Exchange Commission. These funds are required to publish their daily NAV and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Registered investment companies' fair value is based on quoted NAV of the shares held by the Plan at year-end.

Common collective trusts, these investments, which include fixed income and equity indexed investments, are valued at the NAV of units of the respective collective trusts. The NAV, as provided by the Trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchases and sales) may occur daily. If the Plan were to initiate a full redemption of a collective trust, the investment adviser reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

The following table sets forth by level within the fair value hierarchy a summary of the Plan's investments measured at fair value as of December 31, 2022 and 2021:

	2022			
	Level 1	**Level 2**	**Level 3**	**Total**
Interest-bearing cash	$ 106,248,758	$ -	$ -	$ 106,248,758
Self-directed brokerage accounts	76,200,760	454,211	-	76,654,971
Registered investment companies	338,528,586	-	-	338,528,586
Total assets in the fair value hierarchy	$ 520,978,104	$ 454,211	$ -	521,432,315
Common collective trusts measured at NAV as a practical expedient [(a)]				5,393,344,989
Total investments at fair value				$ 5,914,777,304

	2021			
	Level 1	Level 2	Level 3	Total
Interest-bearing cash	$ 109,708,754	$ -	$ -	$ 109,708,754
Self-directed brokerage accounts	110,367,483	-	-	110,367,483
Registered investment companies	447,158,355	-	-	447,158,355
Total assets in the fair value hierarchy	$ 667,234,592	$ -	$ -	667,234,592
Common collective trusts measured at NAV as a practical expedient [(a)]				6,571,308,838
Total investments at fair value				$ 7,238,543,430

(a) In accordance with Subtopic 820-10, certain investments that are measured at NAV per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line item presented in the Statements of Net Assets Available for Benefits.

The Plan Sponsor is responsible for the determination of fair value. Accordingly, the Plan Sponsor engages a third-party investment advisor to perform quarterly analyses of prices and investment performance based on information received from the pricing services used to determine whether the prices are reasonable estimates of fair value. The Plan Sponsor reviews these analyses on a quarterly basis. As a result of these reviews, the Plan Sponsor has not historically adjusted the prices obtained from the pricing services. The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Investments Measured Using NAV per Share Practical Expedient

The following table summarizes investments held in the Plan for which fair value is measured using NAV per share practical expedient as of December 31, 2022 and 2021. There are no participant redemption restrictions for these investments; the redemption notice period is applicable only to the Plan.

	2022			
	Fair Value	Unfunded Commitments	Redemption Frequency (if Currently Eligible)	Redemption Notice Period
Lifecycle funds	$ 1,976,816,130	N/A	Daily	None
Domestic stock index funds	2,744,532,944	N/A	Daily	0-30 days
International stock index funds	268,660,080	N/A	Daily	None

	2021			
	Fair Value	Unfunded Commitments	Redemption Frequency (if Currently Eligible)	Redemption Notice Period
Lifecycle funds	$ 2,317,377,952	N/A	Daily	None
Domestic stock index funds	3,505,349,974	N/A	Daily	0-30 days
International stock index funds	295,476,776	N/A	Daily	None
Bond index funds	453,104,136	N/A	Daily	None

5. Investment Contracts With Insurance Companies

The Plan invests in a SGIC with underlying investments in a bond portfolio. This SGIC meets the fully benefit-responsive investment contract criteria, and therefore, is reported at contract value. The contract value of the Plan's interest in the SGIC at December 31, 2022 and 2021 was $502,600,066 and $422,661,080, respectively.

The SGIC credits a stated rate for a specified period of time. Investment gains and losses are amortized over the expected duration through the calculation of the interest rate applicable to the Plan on a prospective basis. The SGIC provides for a variable crediting rate that resets quarterly, and the issuers of the wrap contracts provide assurance that future adjustments to the crediting rate cannot result in a crediting rate less than zero.

The crediting rate is primarily based on the current yield-to-maturity of the bond portfolio, plus or minus amortization of the difference between the market value and the contract value of the covered investments over the duration of the covered investments at the time of computation. The crediting rate is most affected by the change in the annual effective yield to maturity of the underlying securities, but it is also affected by the difference between the contract value and the market value of the covered investments. Depending on the change in duration from reset period to reset period, the magnitude of the impact of the crediting rate of the contract to market is heightened or lessened.

Certain events might limit the ability of the Plan to transact at contract value with the contract issuer. Such events include the following: (1) material plan amendments (including partial or complete termination of the Plan or merger of the Plan with another plan); (2) the failure of the Plan to qualify for exemption from federal income taxes or any required prohibited exemption under ERISA; (3) changes in the Plan's prohibition on competing investment options; (4) premature termination of the contract by the Plan; (5) insolvency of the Plan Sponsor; (6) the closing of a unit, plant or facility by the Plan Sponsor; (7) the sale, spin-off or merger of a subsidiary or division of the Plan Sponsor; (8) a group termination or layoff by the Plan Sponsor, and (9) the exclusion by the Plan Sponsor of a group of employees from eligibility in the Plan that was eligible to participate in the Plan prior to such action. The plan administrator does not believe that the occurrence of any such event, which would limit the Plan's ability to transact at contract value with participants, is probable of occurring.

The investment contracts impose certain conditions on both the Plan and the issuer. If an event of default occurs and is not cured, the nondefaulting party may terminate the contract. The following may cause the Plan to be in default:

- Breach of material obligation under the contract;
- A material misrepresentation;
- Termination of the Plan.

The issuer may be in default if it makes a material misrepresentation or fails to pay when due any amount owed by the issuer. If, in the event of default of an issuer, the Plan was unable to obtain a replacement investment contract, participants may experience losses if the value of the Plan's assets no longer covered by the contract is below contract value and the defaulting payment obligation goes unfilled. The Plan may seek to add additional issuers over time to diversify the Plan's exposure to such risk, but there is no assurance the Plan may be able to do so. The combination of the default of an issuer and an inability to obtain a replacement agreement could render the Plan unable to achieve its objective of maintaining a stable contract value. The terms of an investment contract generally provide for settlement of payments only upon termination of the contract or total liquidation of the covered investments. Generally, payments will be made pro rata, based on the percentage of investments covered by each issuer. Contract termination occurs whenever the contract value or market value of the covered investments reaches zero or upon certain events of default. If the contract terminates due to issuer default, the issuer will generally be required to pay the Plan the excess, if any, of contract value over market value on the date of termination. If the contract terminates when the market value equals zero, the issuer will pay the excess of contract value over market value to the Plan to the extent necessary for the Plan to satisfy outstanding contract value withdrawal requests. Contract termination may also occur by either party upon election and notice.

The average yield rates for 2022 and 2021 were (7.80)% and (1.34)%, respectively. The average crediting interest rates for 2022 and 2021 were 2.45% and 2.20%, respectively. The crediting interest rates are based on formulas agreed upon with the issuer. Such interest rates are typically reviewed on a quarterly basis for resetting.

6. Concentrations

As of December 31, 2022 and 2021, the Plan had investments of $1,164,627,838 and $2,242,112,545, respectively, that were concentrated in one and two funds, respectively.

7. Related-Party and Party in Interest Transactions

Certain of the Plan's investments are managed by the Trustee, and therefore, these transactions qualify as party in interest transactions. Fees incurred by the Plan for the investment manager services are included in net appreciation (depreciation) in the fair value of the investment, as they are paid through revenue sharing, rather than a direct payment. Additionally, the Plan issues loans to participants, which are secured by the participant's account balances. These transactions qualify as party in interest transactions.

Certain administrative functions of the Plan are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan.

8. Tax Status

The Plan received its latest determination letter on February 13, 2018, in which the IRS stated that the Plan was in compliance with the applicable requirements of the IRC. Although the Plan has been amended since receiving the determination letter, the plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC, and therefore, believes that the Plan is qualified and the related trust is tax-exempt at the financial statement date.

U.S. GAAP requires the Plan Sponsor to evaluate tax positions taken by the Plan and to recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the taxing authorities. The Plan Sponsor has determined that, as of both December 31, 2022 and 2021, there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits in progress.

9. Subsequent Events

In preparing these financial statements, the Plan has evaluated events and transactions for potential recognition or disclosure through October 9, 2023, the date the accompanying financial statements were available to be issued.

The Secure 2.0 Act of 2022 was signed into law on December 29, 2022. This legislation includes a vast array of provisional changes to retirement plans, becoming effective in 2023 and beyond. Plan management is evaluating the impact of the adoption and implementation of this legislation on the Plan.

10. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500 for the years ended December 31, 2022 and 2021:

	2022	2021
Net assets available for benefits per the financial statements	$ 6,601,575,347	$ 7,832,214,339
