Independent Auditors' Report

The Plan Administrator and Plan Participants
The Duke University Faculty and Staff Retirement Plan:

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of The Duke University Faculty and Staff Retirement Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2022 and 2021, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from qualified institutions as of and for the years ended December 31, 2022 and 2021, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditors' Responsibilities for the Audit of the Financial Statements section:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with U.S. generally accepted accounting principles.
- The information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

KPMG LLP, a Delaware limited liability partnership and a member firm of the KPMG global organization of independent member firms affiliated with KPMG International Limited, a private English company limited by guarantee.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with U.S. generally accepted accounting principles, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of U.S. generally accepted accounting principles.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with U.S. generally accepted accounting principles.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedule Required by ERISA

The supplemental schedule of Schedule H, line 4i - Schedule of Assets (Held at End of Year) as of December 31, 2022 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

(1) Description of Plan

(a) General

The following description of The Duke University Faculty and Staff Retirement Plan (the Plan) provides general information only. Participants should refer to the Summary Plan Description for a more complete description of the Plan's provisions.

The Plan is a defined contribution plan, sponsored and administered by Duke University (the University). This Plan is intended to comply with Section 403(b) of the Internal Revenue Code (IRC), which includes provisions allowing an eligible participant to direct the employer to contribute a portion of the participant's compensation to the Plan on a pre-tax or Roth after-tax basis through payroll deductions. Eligible employees, as defined by the Plan, who perform services for the University and Duke University Health System (collectively referred to herein as Duke) are eligible to participate in the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

(b) Investment Carrier Agreements

As of December 31, 2022 and 2021, the Plan has three (3) investment carriers: Fidelity Investments Institutional Operations Company, Inc. (Fidelity), AIG Retirement Services (AIG) (formerly the Variable Life Insurance Company, or VALIC), and Teachers Insurance and Annuity Association – College Retirement Equities Fund (TIAA-CREF) (collectively referred to as the custodians). Under the terms of agreements, the custodians hold, manage, and invest contributions to the Plan and earnings from investments to the extent directed by participants in the Plan. The custodians provide their own banker's blanket bond insuring against losses caused, among other things, by dishonesty of employees, burglary, robbery, misplacement, forgery, and counterfeit money.

(c) Contributions

Participants may contribute up to 80% of eligible earnings, as defined by the Plan, subject to certain limitations. For 2022 and 2021, the IRC limited the total salary deferral contributions of any participant to $20,500 and $19,500, respectively, for participants under age 50, and an additional $6,500 for participants age 50 and over. Employees who have had 15 years or more of service with Duke may be eligible for an additional catch-up contribution amount of up to $3,000. For eligible participants, the 2022 University nonelective safe harbor contributions were determined on the basis of 8.9% of a participant's salary, up to $72,000, and 13.2% of salary up to the statutory compensation limit of $305,000. For eligible participants, the 2021 University nonelective safe harbor contributions were determined on a basis of 8.9% of a participant's salary, up to $69,400, and 13.2% of salary up to the statutory compensation limit of $290,000.

(d) Participant Accounts and Vesting

The custodians maintain an account for each participant, including participant-directed allocations to each investment fund. Each participant's account is credited with the participant's contribution, the employer contribution, and the associated investment earnings, less withdrawals, based on the direction of the participant. Participants in the Plan hired prior to January 1, 2012 are immediately vested in their voluntary contributions and employer contributions, plus earnings thereon. Participants in the Plan hired on or after January 1, 2012, with no prior service to Duke, are immediately vested in

their voluntary contributions plus earnings thereon and are vested in their employer contributions after three years of credited service.

(e) Withdrawals

Subject to Internal Revenue Service (IRS) rules, participants who are age 59½ or older may make withdrawals of employee contributions, rollover contributions, and investment earnings on these contributions. Participants who are age 67 or older may make withdrawals of all contributions and the associated earnings. Participants are eligible to make withdrawals from all vested sources upon termination, subject to IRS and custodian rules. Additionally, any participants who are employed by Duke may withdraw from the employee contribution and rollover contribution portion of their account balance for "financial hardship," as defined by federal regulations or for disability, as defined by the Plan. Withdrawals are also permitted pursuant to a qualified domestic relations order or in the event of retirement or death.

Effective January 1, 2020, the Plan adopted the Setting Every Community Up for Retirement Enhancement Act (SECURE) provisions. The SECURE Act changes the Required Minimum Distribution age from age 70½ to age 72.

(f) Notes Receivable from Participants

Generally, participants may borrow from their account a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of the assets held with Fidelity, subject to certain restrictions. Loans bear interest at 1.0% above the prime rate of interest at the date of issuance and range from 4.25% to 7.25% at December 31, 2022 and 2021. Loans used to purchase a primary residence may be repaid over 15 years. Loans for all other purposes must be repaid within 5 years.

Participant loans are issued by Fidelity and are secured by the balance in the participant's account. Participant loans are considered assets of the Plan and, therefore, are reported in the statements of net assets available for benefits as notes receivable from participants.

(g) Loans with TIAA-CREF and AIG

Prior to January 14, 2019, participants could borrow from their account a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of the assets held with AIG or TIAA-CREF, subject to certain restrictions. Participants could only borrow from voluntary and rollover contributions plus earnings in the manner specified by, and subject to the approval of, the vendor. Loans used to purchase a primary residence may be repaid over 10 years. Loans for all other purposes must be repaid within 5 years. Adequate security is required and a portion of the participant's account is reserved, or held in collateral, to cover 110% of the outstanding loan in case of default. Interest rates are variable and can increase or decrease once a year. Loans were issued directly from funds owned by AIG or TIAA-CREF, and loan proceeds were not removed from the participant's account balance. For loans from TIAA-CREF, the participant's account balance in the TIAA Traditional Annuity Account is used as collateral. For loans from AIG, the participant's account balance in the AIG Loan Collateral Fund is used as collateral. Interest and principal are paid by the participant directly to TIAA-CREF or AIG.

(Continued)

The loans are not considered assets of the Plan and, therefore, are not reported in the statements of net assets available for benefits as loans. As of December 31, 2022, outstanding loans to AIG and TIAA-CREF were $2,748,263 and $1,052,227, respectively. As of December 31, 2021, outstanding loans to AIG and TIAA-CREF were $3,517,805 and $1,590,711, respectively. Effective January 14, 2019, no new loans are issued through TIAA-CREF and AIG. Existing loans remain at TIAA-CREF and AIG until they are fully repaid.

(h) Nondiscrimination Testing

The Plan, as required by the IRC, performs nondiscrimination tests. If the Plan fails the tests, Duke will make an additional qualified non-elective contribution to pass the non-discrimination tests. The Plan was compliant with the nondiscrimination testing rules for the 2022 and 2021 plan years without making any refunds of excess contributions.

(i) Forfeited Accounts

At December 31, 2022 and 2021, forfeited nonvested accounts totaled $242,650 and $1,035,702, respectively. These accounts will be used to reinstate any employer contributions required if the participant is rehired prior to five consecutive years of termination and then any residual amount may be used to pay plan expenses or reduce future employer contributions. The amount of forfeitures that were used to reduce employer contributions for 2022 and 2021 totaled $2,482,007 and $7,067,093, respectively.

(2) Summary of Significant Accounting Policies

(a) Basis of Presentation

The accompanying financial statements of the Plan have been prepared on the accrual basis of accounting.

(b) Use of Estimates

The preparation of financial statements requires Plan management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein, and disclosure of any contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

(c) Related-Party Transactions

The custodians are parties-in-interest with respect to the Plan since they manage certain Plan investments. In the opinion of the University, transactions between the Plan and the custodians are exempt from being considered as prohibited transactions under ERISA Section 408(b).

(d) Investment Valuation and Income Recognition

The custodians are responsible for managing the Plan’s investments. Investments are required to be recorded at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. Certain TIAA-CREF Traditional Annuity

contract types, including the Supplemental Retirement Annuities (SRA), and the Group Supplemental Retirement Annuities (GSRA) are considered fully benefit-responsive, and are presented at contract value as of December 31, 2022 and 2021.

The TIAA Traditional Annuity is a guaranteed fixed annuity contract available as an investment option to Plan participants. Each contract is fully and unconditionally guaranteed by TIAA-CREF. The Traditional Annuity is offered through a variety of contract types, including Retirement Annuities (RA), Retirement Choice (RC), SRA, and GSRA. The type of contract through which a participant invests in the TIAA Traditional Annuity determines the applicability of certain account features, such as the guaranteed minimum interest rate, additional interest declarations, the degree of liquidity of the participant's account, and the options for receiving income upon retirement.

When participants choose to allocate a portion of their retirement savings to the TIAA Traditional Annuity during the accumulation phase of the contract, their contributions purchase a specific amount of lifetime income based on the contractual rate schedule in effect at the time the premium is paid. The participant's principal, plus a specified minimum rate of interest, are guaranteed by TIAA-CREF's claims-paying ability. The TIAA Traditional Annuity also provides the potential for additional interest if declared by TIAA-CREF's board of trustees. Additional interest, when declared, remains in effect for the declaration year, which begins each March 1 for accumulating annuities, and January 1 for lifetime payout annuities. Additional interest is not guaranteed for future years. Together, the guaranteed minimum and additional amounts make up the crediting interest rate. The average yield was 3.46% and 3.11% for the years ended December 31, 2022 and 2021, respectively.

The RA contract does not allow lump-sum cash withdrawals and transfers must be spread over 10 annual installments. All other withdrawals and transfers from RA contracts must be spread over 10 annual installments (five annual installments for withdrawals after termination of employment). The RC contract allows lump-sum withdrawals from the TIAA Traditional account only within 120 days after termination of employment and are subject to a 2.5% surrender charge. All other withdrawals and transfers from the account must be paid in 84 monthly installments (7 years). If the participant elects to remove TIAA Traditional, the contract's entire TIAA Traditional accumulation will be paid out in 60 monthly installments without any surrender charge. The SRA and GSRA contracts provide for full participant-directed liquidity. When a participant's accumulation in the TIAA Traditional Annuity is converted to a lifetime payout annuity, the present value of the stream of payments is equal to the accumulated balance, and the entire amount is recorded as a distribution in the statements of changes in net assets available for benefits.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (i) amendments to the Plan documents, including complete or partial Plan termination or merger with another plan or (ii) bankruptcy of the Plan Sponsor or other Plan Sponsor events, e.g., divestitures of a subsidiary, which cause a significant withdrawal from the Plan. The plan administrator does not believe that the occurrence of any such event, which would limit the Plan's ability to transact at contract value with participants, is probable.

Net realized gains or losses are recognized by the Plan upon the sale of its investments or portions thereof on the basis of average cost to each investment program. Purchases and sales of securities are recorded on a trade date basis. Dividends are recorded on the ex-dividend date. Interest is

recognized when earned. Unrealized gains or losses are recognized by the Plan based upon changes in the fair value of Plan investments during the Plan's fiscal year.

(e) Fair Value Measurements

The fair value hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1 Unadjusted quoted or published prices in active markets that are accessible to the Plan at the measurement date for identical assets.

Level 2 Quoted prices for instruments that are identical or similar in markets that are not active and model-derived valuations for which all significant inputs are observable, either directly or indirectly, in active markets.

Level 3 Prices or valuations that require inputs that are both significant to the fair value measurement and unobservable.

The hierarchy requires the use of observable market data when available. Assets and liabilities are classified in their entirety based on the lowest level of input that is significant to the fair value measurements. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for investments measured at fair value.

Mutual funds: Investments in mutual funds are valued using daily NAV calculations performed by the funds for shares held by the Plan at year end. These unadjusted prices are quoted in active markets and accordingly are considered Level 1.

Annuity contracts: The fair values of accumulation units held by the Plan in CREF accounts (registered investment companies) are based on each account's daily NAV, which is considered by Plan management to be the best estimate of fair value. CREF accounts are not exchange traded and are classified within Level 2 of the fair value hierarchy. Data for NAVs are available daily to plan administrators and client investors on TIAA-CREF's website, and provides sufficient corroborative evidence to ascertain the relationship between each fund's NAV and the values of individual underlying holdings. Underlying holdings are primarily valued using market quotations or prices obtained from independent pricing sources. There are no unfunded commitments from participants in the Plan who invest in these accounts.

The fair value of the Plan's interest in the TIAA Real Estate Account (a pooled separate account) is based on the fund's daily NAV, which is considered by Plan management to be the best estimate of fair value. This investment is classified within Level 2 of the fair value hierarchy. The unit value of the fund is calculated daily and available to plan administrators and client investors on TIAA-CREF's website. Underlying holdings are primarily valued using independent appraisals or independent pricing sources. There are no unfunded commitments from participants in the Plan who invest in this account.

Investments in TIAA Traditional Annuity contracts: non-fully benefit-responsive are reported at contract value, which approximates fair value. As these investments are contract-based, observable prices for identical or similar investments do not exist, and accordingly, these investments are valued using unobservable inputs (Level 3). The contract value equals the accumulated cash contributions and interest credited to the contract, less any withdrawals. Liquidity restrictions apply to certain types of contracts that could impact the value realized upon exiting the contract. See also note 2(d) for discussion of the TIAA Traditional Annuity.

Investments in AIG Variable Annuity contracts are reported at unit value, which approximates fair value. Investments in the funds are valued based on the market approach, at the NAV per share at the close of each business day as reported by each fund, which is then adjusted for dividends and separate account fees. Accordingly, these contracts are considered Level 2.

Investments in AIG Fixed Annuity contracts are reported at contract value, which approximates fair value. The fair value is the amount, which is payable on demand as of the reporting date, assuming all participants were eligible for a distribution of their full accounts from the Plan. This is considered the "contract value." In the event that full value of the account could not be paid upon demand, the fair value estimates are based upon "demand value" for the contract; i.e., the amount due to the contract holder under the surrender provisions of the contract. As these investments are contract-based, observable prices for identical or similar investments do not exist, and accordingly, these investments are valued using unobservable inputs (Level 3). The contract value equals the accumulated cash contributions and interest credited to the contract, less any withdrawals. Liquidity restrictions apply to certain types of contracts that could impact the value realized upon exiting the contract. The AIG Fixed Annuity is offered through a variety of contract types, including Portfolio Director Group Fixed and Variable Deferred Annuity Contract (PD), Group Fixed Unallocated Annuity Contract (GFUA), Independence Plus Group Fixed and Variable Annuity Contract (IP), V-Plan Group Fixed Annuity Contract (VP), and Group Unit Purchase Fixed and Variable Annuity Contract (GUP).

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

(f) Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes receivable from participants are recorded as a distribution based upon the terms of the Plan document.

(g) Payment of Benefits

Benefits are recorded when paid.

(h) Costs and Expenses

Fidelity participants pay costs and expenses of maintaining the Plan, which are deducted from the participant's account. The Plan pays costs and expenses of maintaining Plan balances at TIAA and

AIG. Other administrative costs such as participant loan origination fees, processing of qualified domestic relations orders, and redemption fees, are paid by participants via deduction from the individual participant's account.

(3) Certification – Investment and Plan Financial Information

The custodians manage funds on behalf of the Plan. The custodians' primary responsibilities include receiving, holding, and investing contributions on behalf of the participants and distributing to participants and their beneficiaries the assets as provided in the Plan.

The plan administrator has elected the alternative method of compliance permitted by ERISA section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the plan administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the investment information certified by TIAA; TIAA, as agent for TIAA Trust Company FSB, Fidelity, and AIG as the custodians or agent on behalf of a custodian of the Plan, except for comparing such information to the information included in the financial statements, notes thereto, and the supplemental schedule. The plan administrator has obtained certifications from the custodians or the agent on behalf of a custodian that such information is complete and accurate.

The following is a summary of the information included in the Plan's financial statements as of and for the years ended December 31, 2022 and 2021 that was certified as complete and accurate:

The following table presents additional information about Level 3 assets measured at fair value. Both observable and unobservable inputs may be used to determine the fair value of positions that the Plan has classified within the Level 3 category. As a result, the unrealized gains and losses for assets within the Level 3 category in the table below may include changes in fair value that were attributable to both observable and unobservable inputs:

	Balance as of December 31, 2021	Contributions, rollovers, and transfers in	Net realized and unrealized gains, interest, and dividends	Withdrawals, distributions, settlements, and transfers out	Balance as of December 31, 2022

Quantitative Information about Significant Unobservable Inputs Used in Level 3 Fair Value Measurements

The following table represents the Plan's Level 3 financial instruments, the valuation techniques used to measure the fair value of those financial instruments, and the significant unobservable inputs and values as of December 31, 2022:

Type	Valuation techniques	Unobservable inputs	Significant unobservable input values
TIAA Traditional Annuity	Contract value	Risk-adjusted discount rate applied	RA 3.70% to 6.25% GRA 3.70% to 6.25% RC 3.95% to 6.50%
AIG Fixed Annuity Accounts	Contract value	Risk-adjusted discount rate applied	PD 1.54% GFUA 1.96% IP 4.50% VP 4.50% GUP 3.50%

(5) Plan Termination

Although it has not expressed any intent to do so, the University has the right under the Plan to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants are 100% vested in their accounts. Any unallocated net assets of the Plan shall be allocated to participant accounts and distributed in such manner as the University may determine.

(6) Income Tax Status

The Plan is intended to comply with the applicable requirements of Section 403(b) of the IRC. A tax determination letter program is not yet available for IRC Section 403(b) plans through the IRS. The Plan administrator believes that the Plan is currently designed and being operated in compliance with applicable requirements of the IRC and as such is exempt from federal income taxes.

U.S. generally accepted accounting principles require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2022 and 2021, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan administrator believes it is no longer subject to income tax examinations for years prior to December 31, 2018.

The Plan is subject to routine audits by taxing jurisdictions. By letter dated September 20, 2018, the DOL notified the Plan Sponsor that it was initiating an examination of the Plan. The examination was closed on September 27, 2022.

(7) Risks and Uncertainties

The Plan's investments are exposed to certain risks such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, changes in the value of investment securities could occur in the near term, and these changes could materially and adversely affect the amounts reported in the statements of net assets available for benefits and the statement of changes in net assets available for benefits.

(8) Subsequent Events

Plan administration evaluated subsequent events through October 13, 2023, the date the financial statements were available to be issued.

Effective January 1, 2023, the Plan was amended to: (1) include the SECURE Act 2.0 provisions related to the Required Minimum Distribution Age and Tribal Court Domestic Relations Orders; (2) designate the Associate Vice President of Total Rewards as plan administrator; and (3) update the job codes immediately eligible for Duke contribution.

Effective July 1, 2023, the Plan was amended to add Duke Health Integrated Practice, Inc. (DHIP) as an "Employer" under the Plan, and to reflect the crediting of prior service and accommodate the rollover of loans for former participants in the Private Diagnostic Clinic, PLLC (PDC), Profit-Sharing and 401k Savings Plan (PDC Plan) who became employees of Duke University, Duke University Health System or DHIP as of July 1, 2023.
