Independent Auditors' Report

To: The Plan Management of
Andonian Enterprises, Inc. 401(k) Plan
Anaheim, California

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of Andonian Enterprises, Inc. 401(k) Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statement of net assets available for benefits as of December 31, 2022 and 2021, and the related statement of changes in net assets available for benefits for the year ended December 31, 2022, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audit of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2022 and 2021 and for the year ended December 31, 2022, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditors' Responsibilities for the Audit of the Financial Statements section:

- the amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- the information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date that the financial statements are issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audit did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified durng the audit.

Other Matter — Supplemental Schedules Required by ERISA

The supplemental schedules of Assets (Held at End of Year) and Delinquent Participant Contributions are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, have been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- the form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

- the information in the supplemental schedules related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

ANDONIAN ENTERPRISES, INC. 401(K) PLAN
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2022

1. DESCRIPTION OF PLAN

The following description of the Andonian Enterprises, Inc. 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General. The Plan covers substantially all employees of Andonian Enterprises, Inc. (DBA Discount Tire Centers) and its affiliated companies TireNetwork Group, Inc, AA Tire & Auto, Inc., A & S Tire Inc. (dba Globe Tire & Motorsports), and 144 N. Tustin, LLC. (collectively, the Company or Plan Sponsor). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan is a defined contribution plan under the provision of Section 401(a) of the Internal Revenue Code (IRC), which includes a qualified cash or deferred arrangement as described in Section 401(k) of the IRC. The Plan became effective on January 1, 2016.

Administration. The Plan Sponsor serves as the Plan Administrator. The Plan Administrator is responsible for oversight of the Plan as well as determining and reviewing the appropriateness of the Plan's investment offerings, and investments performance. Certain administrative costs are paid, and certain administrative functions are performed by the officers or employees of the Company, without compensation from the Plan. The Plan administrator has designated American United Life Insurance Company, a OneAmerica Company (AUL), to serve as the Custodian of the Plan's assets and to provide Plan recordkeeping and administrative services. The Custodian receives all contributions made under the Plan, holds Plan assets, pays benefits to participants and executes other transactions directed by the Plan administrator. The Plan administrator has engaged Millennium Pension Services, Inc. and Firm Foundation HR as the third-party administrators to assist in the Plan administration.

Eligibility. Generally, an employee is eligible to participate in the Plan after completing a year of service defined as 1,000 hours of service during 12-month period immediately following date of hire. The Plan does not have a minimum age requirement for participation. Plan entry dates are on the first date of the calendar month following the date eligibility requirements are met.

Participant Contributions. Participants may contribute any amount of their annual compensation into a pre-tax deferral account and/or after-tax Roth account up to the maximum allowed by Internal Revenue Service (IRS) limitations. Participants may also contribute amounts representing distributions (rollovers) from other qualified plans.

Employer Contributions. The Company may make an annual matching contribution to eligible participants based on a percentage of salary deferrals made by participants. For the year ended December 31, 2022, the Company made $2,046 in employer matching contributions and $541 in qualified non-elective contributions (QNECs) related to the 2021 plan year. For the year ended December 31, 2021, the Company made no employer matching contributions nor did the Company make any QNECs.

1. DESCRIPTION OF PLAN (CONTINUED)

Participant Accounts. Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contributions, (b) plan earnings or losses, and (c) charged with an allocation of any administrative expenses. Allocations are based on participant account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting. Participants are immediately 100% vested in their elective contributions plus net earnings (losses) thereon. They become vested in matching employer contributions plus earnings (losses) thereon at a rate of 20% per full year of vesting service, beginning with the second year of service. An employee must have worked at least twelve months during the Plan year in order to earn a year of vesting service. Rollover contributions are 100% vested at all times.

Investments. Participants direct the investment of all assets attributable to their account. Each participant designates the percentage of any one or more of their accounts that is to be invested in each of several authorized investment funds designated by the Plan's Trustee.

Notes Receivable from Participants. The Plan allows participants to borrow against their vested account balances. A loan can be for an amount of at least $1,000, with the maximum being the lesser of 50% of the participant's vested interest or $50,000. The interest rate on a participant's note receivable is the prime rate (3.25% at December 31, 2022 and 2021) plus 1% at the time the loan is processed. Principal and interest are paid ratably through quarterly payroll deductions. Loans must be fully repaid within 60 months, or 5 years, unless the loan is used for the purchase of a primary residence, which must be repaid within 30 years. Loans not paid within a timely manner will be considered in default and taxed on the outstanding loan balance accordingly. As of December 31, 2022 and 2021, the interest rates on the outstanding notes receivable from participants was 4.25%.

The Plan classifies participant loans as notes receivable from participants in the statements of net assets available for benefits and measures them at their unpaid principal balance plus any accrued interest.

Payment of Benefits. In the event of death, disability, retirement, or other termination of employment, the vested portion of a participant's account may be paid to the participant or his beneficiaries as a lump-sum payment or rolled over to an individual retirement account (IRA) or another tax-qualified plan. The Plan may, upon termination of service of a participant for any reason, automatically distribute the benefits owed if no alternative election has been made and the account balance is $5,000 or less, as defined in the Plan document. In-service distributions are permitted for participants who have attained normal retirement age.

Distributions from the Plan will normally be subject to income taxes and, in certain circumstances, may also be subject to Internal Revenue Service (IRS) penalties, unless the distribution is transferred to another qualified plan or individual retirement account.

Subject to certain conditions, participants may make hardship withdrawals of all or a portion of their vested balance not to exceed the amount necessary to meet the financial need resulting from the hardship.

1. DESCRIPTION OF PLAN (CONTINUED)

Active employees that have reached the age of 70 ½ will begin to receive a distribution from their account on April 1st following the calendar year in which they reached the age 70 ½ or the calendar year in which he/she retires unless a participant is a 5% owner.

Forfeitures. When participants terminate employment, any nonvested portions of their matching employer contributions are forfeited and may be applied to pay administrative expenses or reduce future employer contributions. The balance in the forfeiture account was $0 and $27 as of December 31, 2022 and 2021. During the year ended December 31, 2022, no forfeitures were used.

Administrative Expenses. Administrative expenses of the Plan are deducted from participant accounts or non-vested forfeiture accounts and are included in these financial statements. Fees related to the administration of loans are deducted from the borrowing participant's account and are included in administrative expenses. All other administrative expenses are paid directly by the Company; therefore, excluded from these financial statements.

Certain investment management fees and other charges paid to the investment providers are offset against fund performance in the net appreciation section of the Statement of Changes in the Net Assets Available for Benefits and are not, therefore, separately reflected as investment expenses.

Plan Termination Provision. Although it has not expressed any intent to do so, the Company has the right to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, all participants become fully vested in their accounts.

2. SUMMARY OF ACCOUNTING POLICIES

The following are the significant accounting policies followed by the Plan:

Basis of Accounting. The financial statements of the Plan are prepared under the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP).

Use of Estimates. The preparation of financial statements in conformity with U.S. GAAP requires the Plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Actual results may differ from those estimates.

Investment Valuation and Income Recognition. The Plan provides participants the choice of investment options in a variety of mutual funds and common collective investment trusts that invest in stocks, bonds, fixed-income securities, and other investment securities. The Plan's investments are reported at fair value. Fair value is the price between market participants at the measurement date. The Plan administrator determines the Plan's valuation policies utilizing information provided by the investment advisors and Trustee.

2. SUMMARY OF ACCOUNTING POLICIES (CONTINUED)

Purchases and sales of investments are recorded on a trade date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation or depreciation includes the Plan's gains and losses on investments bought and sold, as well as, held during the year.

Notes Receivable from Participants. Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. Delinquent participant notes are reclassified as distributions based upon the terms of the Plan document. No allowance for credit losses has been recorded as of December 31, 2022 and 2021.

Payment of Benefits. Benefits are generally recorded when paid.

Concentrations, Risks, and Uncertainties. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risks in the near term could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits. The Plan invests substantially all of its assets with a single institution. In the event of the institution's failure, the Plan could be subject to substantial losses.

The Plan had two investments that accounted for approximately 37% and 36% of total investments as of December 31, 2022 and 2021, respectively.

Subsequent Events. Management of the Plan has evaluated subsequent events through October 13, 2023, the date on which the accompanying financial statements were available to be issued, and concluded that no material subsequent events have occurred since December 31, 2022 that require recognition or disclosure in the financial statements.

3. INVESTMENT INFORMATION CERTIFIED BY THE TRUSTEE (UNAUDITED)

The plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the plan administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the following information certified by American United Life Insurance Company, the custodian, as complete and accurate, except for comparing such information certified by the custodian to information included in the Plan's financial statements and supplemental schedule:

		December 31, 2022	December 31, 2021
a)	Investments		
	Pooled separate accounts, at fair value	$ 1,094,031	$ 1,224,727
	Guaranteed investment contract, at contract value	$ 232,634	$ 243,675
b)	Notes receivable from participants *	$ 2,492	$ 9,363

		Year Ended December 31, 2022
c)	Net depreciation in fair value of investments	$ 202,765
	Interest and dividends	$ 67
	Interest income on notes receivable from participants	$ 183

d) Supplemental Schedule:
From 5500 Schedule H, Line 4i -- Schedule of Assets (Held at End of Year) *

*Notes receivable from participants are participant loans allowed under the related regulations. The participant loans are certified by the investment contract issuer, and are included as investments on the supplemental schedule, Form 5500 Schedule H, Line 4i -- Schedule of Assets (Held at End of Year) as required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

4. FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs. Valuation techniques used to measure fair value are defined as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2 - Inputs to the valuation methodology include: (a) quoted prices for similar assets or liabilities in active markets; (b) quoted prices for identical or similar assets or liabilities in inactive markets; (c) inputs other than quoted prices that are observable for the asset or liability; and (d) inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in methodologies used as of December 31, 2022.

Pooled separate accounts: Valued by the insurance company at the separate accounts unit value of shares held by the Plan utilizing third party pricing vendors and observable market information.

Guaranteed investment contract: Funds allocated to the guaranteed investment account (GIC) are placed in the AUL general account where they are invested in accordance with AUL's general account investment policy. The objective of that investment policy is to maximize long-term, risk-adjusted returns. AUL's general account assets are predominately fixed-income investments (bonds, mortgages, and private placements). The average maturity for these assets is nearly 10 years, and the average duration is between 5 and 6 years. Following are some features and characteristics of the guaranteed investment account:

- Interest rates are established and declared for new contributions that will be received in a calendar quarter. The rate is based on the return AUL expects on new investments made by it and held within the AUL general account, and it will always equal or exceed the contractually guaranteed rate.
- All contributions received during the quarter will earn that declared interest rate until the end of the calendar year next following the current year. Contributions and the corresponding interest rate are tracked together.
- At the beginning of each year, a new interest rate is established and declared annually. This rate is based on past general account investments, adjusted for portfolio turnover and withdrawals for benefit payments.

4. FAIR VALUE MEASUREMENTS (CONTINUED)

- For the GIC, the contract value is equal to the principal invested plus interest earned. Pursuant to ASC 962 - Plan Accounting - Defined Contribution Pension Plans, AUL believes contract value is an appropriate determination of fair value for the GIC.
- Participant-initiated benefit responsive Plan withdrawals from the GIC and transfers between the GIC and the variable investment options, as allowed under the terms of the Plan and the Contract, are performed at contract value. The Contract's GIC has no liquid market value because it is not tradable or assignable, and there are no defined maturities of the cash flows. The reported values for the GIC are reported daily based on the valuation formula disclosed in the Contract, as calculated by AUL.
- Liquidation of the entire Contract may cause a one-time adjustment to the aggregate contract value of the GIC, resulting in a fair value different from the contract value. This total liquidation is a contingent event, which cannot be initiated by the Plan participants, and can only be initiated by the Plan Trustee upon termination of the Plan or complete termination of the Contract.

The method described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following are the Plan's financial instruments carried at fair value categorized by the fair value hierarchy as of December 31, 2022:

	Fair Value Measurements Using Input Type			
December 31, 2022	**Level 1**	**Level 2**	**Level 2**	**Total**
Pooled separate accounts	$ -	$ 1,094,031	$ -	$ 1,094,031
Total investments, fair value	$ -	$ 1,094,031	$ -	$ 1,094,031
Investments measured at net asset value *				
Fully Benefit-Responsive Investment Contract				232,634
Total investments				$ 1,326,665

4. FAIR VALUE MEASUREMENTS (CONTINUED)

Investments measured at net asset value *				
Fully Benefit-Responsive Investment Contract				243,675
Total investments				$ 1,468,402

5. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate or amend the Plan at any time, subject to the provisions of ERISA.

6. TAX STATUS

The Plan follows the provisions of the ADP, Inc. Prototype Standardize Profit Sharing Plan. The IRS has determined and informed the Company by a letter dated June 30, 2020 that the Plan is designed in accordance with applicable sections of the IRC. The Plan administrator believes that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believes that the Plan is qualified and tax-exempt.

Generally accepted accounting principles requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2022 and 2021, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

7. RELATED PARTY AND PARTY-IN-INTEREST TRANSACTIONS

Parties-in-interest are defined under the Department of Labor's (DOL) regulations as any fiduciary of the Plan, any party rendering service to the Plan, the employer, and certain others.

Certain administrative expenses of the Plan are paid directly by the Plan Sponsor. Any direct or indirect expenses paid for by the Plan are considered party-in-interest transactions.

Fees incurred by the Plan for investment management services are included in net appreciation (depreciation) in fair value of investments. These fees are paid to the investment fund manager and

may include certain revenue sharing fees that are paid to Principal, other investment custodians and investment advisors.

Certain Plan investments are shares of mutual funds managed by the Trustee. Therefore, these transactions qualify as party-in-interest transactions. Fees incurred by the Plan for the investment management services are included in the administrative expenses in the accompanying statement of changes of net assets available for benefits. Fees incurred and paid directly by the Plan for the investment management services were $2,525 for the year ended December 31, 2022.

The Plan Sponsor pays directly any other fees related to the Plan's operations. The Plan allows for the issuance of notes receivable to participants in accordance with the related regulations. The transactions qualify as party-in-interest transactions for which there are statutory exceptions.

8. PROHIBITED TRANSACTIONS

During the year ended December 31, 2022, the Plan Sponsor failed to properly calculate and deposit participant deferrals within the required time frame as stated by the DOL for certain pay periods. The DOL considers late deposits to be prohibited transactions. The Plan Sponsor corrected these errors and submitted the loss earnings in August 2022. The total amount of delinquent participant contributions totaled to $8,658 as of December 31, 2022.

9. QUALIFIED NON-ELECTIVE CONTRIBUTION

During the year ended December 31, 2022, missed deferral opportunities were discovered for a certain participant. The Plan Sponsor calculated the QNEC and lost earnings on the missed deferral opportunities and will deposit a total of $338 to the participant's account in the 2023 Plan year, within the time frame as stated by the IRS.

The Plan Sponsor has corrected these prohibited transactions and does not believe that these issues will have a material impact on the Plan's net assets available for benefits or the Plan's tax status.

10. RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

The following is a reconciliation of net assets available for benefits per the financial statements as of December 31, 2022 to Form 5500:

Revenue Sharing Formula:

The investment options of the Plan include various portfolios within an AUL separate account. The separate account in turn invests in investment portfolios of certain open-end management investment companies. AUL receives indirect compensation from these investment companies for the services provided by AUL.

The compensation received by AUL is computed by each investment company by multiplying the daily account balance of the AUL separate account's interest in a particular portfolio by a predetermined percentage rate negotiated with the investment company. This indirect compensation is not charged to the plan or participants accounts but is paid directly by the investment company.

The investment company, the underlying investment portfolio, and the annual compensation percentages are shown below.
