LITCHFIELD CAVO LLP 401(K) PLAN
NOTES TO FINANCIAL STATEMENTS

1. Description of Plan

The following description of the Litchfield Cavo 401(k) Plan (the Plan) is provided for general information purposes only. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General – The Plan is a defined contribution plan covering all employees of Litchfield Cavo LLP (the Firm) who have completed six months of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended by subsequent legislation.

Central Bank and Trust Company is the trustee of the Plan under a contractual agreement with the Firm, and manages all investments. CPI Qualified Plan Consultants, Inc. (CPI) is the recordkeeper. The recordkeeping agreement provides that the recordkeeper shall keep account of all receipts and disbursements, benefit payments and other transactions, and shall provide annually a report setting forth such transactions and the status of the fund at the end of the period. The amounts in the accompanying statements were accumulated from the reports of the recordkeeper.

Contributions – Each year participants may contribute up to 50% of pre-tax annual compensation, as defined in the Plan. Contributions can be made on a before-tax basis only and cannot exceed $16,500 in 2009. Age 50 and over participants can contribute an additional $5,500 in 2009. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans.

The Firm will contribute a safe-harbor non-elective contribution of 3%, based on a participant's limited gross compensation for the plan year, to those who have completed the eligibility requirements and/or contribute to the Plan.

Participant Accounts – Each participant's account is credited with the participant's contribution and allocations of (*a*) the Firm's contribution and (*b*) Plan earnings, including increases or decreases in the fair value of investments. Allocations are based on participant earnings or account balances, as defined in the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting – Participants are vested immediately in their contributions and the Firm match plus actual earnings thereon.

Investments – Participants self-direct the investment of contributions into various investment options offered by the Plan. Investment options include various registered investment companies. Participants may change their selection of investments at any time.

Participant Loans – Participants may borrow from their fund account a minimum of $1,000 up to a maximum amount equal to the lesser of $50,000 or 50% of their vested account balance. The loans are secured by the balance in the participant's account and bear interest at rates that are commensurate with local prevailing rates. Principal and interest are paid ratably through payroll deductions.

Payment of Benefits – On termination of service due to death, disability or retirement, a participant may receive the value of their account balance in a lump sum.

2. Summary of Significant Accounting Policies

Basis of Accounting – The financial statements of the Plan have been prepared under the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Estimates – The preparation of financial statements in conformity with generally accepted accounting principles requires the Plan's management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition – The Plan's investments are stated at fair value. Shares of registered investment companies are valued at quoted market prices which represent net asset value of shares held by the Plan. The money market account and participant loans are stated at cost, which approximates fair value.

Purchases and sales of securities are reflected on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits – Benefits are recorded when paid.

Administrative Expenses – Administrative and trustee fees related to the general administration of the Plan are paid directly by the Firm.

3. Investments

The following presents investments that represent 5% or more of the Plan's net assets at December 31:

The Plan's investments (including investments bought, sold, and held during the year) appreciated as follows:

Registered investment companies	$ 2,560,792

4. Fair Value Measurements

Generally accepted accounting principles provide a uniform framework for the definition, measurement and disclosure of fair value measurements. Fair value is defined as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. The financial accounting standards establish a fair value hierarchy which requires the plan to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. The financial accounting standards describe three levels of inputs that may be used to measure fair value:

Level 1: Quoted market prices (unadjusted) for identical assets or liabilities in active markets that the plan has the ability to access as of the measurement date.

Level 2: Significant other observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities, quoted market prices in markets that are not active, and other inputs that are observable or can be corroborated by observable market data.

Level 3: Significant unobservable inputs that reflect the plan's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

The asset's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2009 and 2008.

Money market funds are carried at cost, which approximates fair value (Level 2 inputs).

The fair value of registered investment companies and publicly traded equities is determined by obtaining quoted prices on nationally recognized securities exchanges (Level 1 inputs).

Participant loans are carried at amortized cost based upon the outstanding principal balance, which approximates fair value (Level 3 inputs).

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

4. Fair Value Measurements (Cont.)

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2009 and 2008:

		Fair Value Measurements at Reporting Date Using		
	Fair Value	Quoted Prices in Active Markets for Identical Assets/ Liabilities (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
December 31, 2009:				
Money market fund	$ 1,205,681	$ -	$ 1,205,681	$ -
Registered investment companies	11,847,519	11,847,519	-	-
Participant loans	373,450	-	-	373,450
Total	$ 13,426,650	$ 11,847,519	$ 1,205,681	$ 373,450
December 31, 2008:				
Money market fund	$ 1,241,768	$ -	$ 1,241,768	$ -
Registered investment companies	6,930,070	6,930,070	-	-
Participant loans	209,923	-	-	209,923
Total	$ 8,381,761	$ 6,930,070	$ 1,241,768	$ 209,923

Changes in fair value of participant loans measured on a recurring basis using significant unobservable inputs (Level 3) for the year ended December 31, 2009 are as follows:

Beginning balance	$ 209,923
Purchases, sales, issuances and settlements (net)	163,527
Ending balance	$ 373,450

5. Risks and Uncertainties

The Plan invests in investment securities. Investment securities are exposed to various risks such as changes in interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investments will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

6. Related Party Transactions

Plan investments are managed by Central Bank and Trust Company. Central Bank and Trust Company is the trustee, as defined by the Plan; therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Firm during 2009 for legal, accounting, and other professional services rendered by parties in interest were based on customary and reasonable rates for such services.

7. Plan Termination

Although it has not expressed any intent to do so, the Firm has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA as amended by subsequent legislation.

8. Tax Status

The Firm adopted a Prototype Non-standardized 401(k) Profit Sharing Plan sponsored by CPI, which received a favorable opinion letter from the Internal Revenue Service on August 30, 2001, stating that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

9. Subsequent Events

Management has evaluated subsequent events through September 28, 2010, the date which the financial statements were available to be issued.

INDEPENDENT AUDITOR'S REPORT ON SUPPLEMENTAL SCHEDULE

The Trustees
Litchfield Cavo LLP 401(k) Plan
Chicago, Illinois

Our audits were performed for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental schedule of assets held at December 31, 2009, is presented for the purpose of additional analysis and is not a required part of the basic financial statement but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The supplemental schedule is the responsibility of the Plan's management. The supplemental schedule has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.
