Plan Administrator and Trustees
CBI Retirement Plan

We were engaged to audit the accompanying statements of net assets available for benefits of CBI Retirement Plan (the "Plan") as of December 31, 2009 and 2008, and the related statements of changes in net assets available for benefits for the years then ended. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financials statements based on our audits.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in NOTE 4, which was certified by FASCore, LLC and Great-West Life & Annuity Insurance Company, the trustees of the Plan, except for comparing such information with the related information included in the financial statements and the supplemental schedules. We have been informed by the plan administrator that FASCore, LLC held the Plan's investment assets and executed investment transactions from January 1, 2008 to December 4, 2009, and that Great-West Life & Annuity Insurance Company held the Plan's investment assets and executed investment transactions from December 4, 2009 to December 31, 2009. The plan administrator has obtained certifications from the trustees as of and for the years ended December 31, 2009 and 2008, that the information provided to the plan administrator by the trustees is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedules taken as a whole. The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by the trustees, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

1. DESCRIPTION OF PLAN

The following description of the CBI Retirement Plan (the "Plan") provides only general information. Reference to the Plan document should be made for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan allowing substantially all employees of Cliff Berry, Inc. (the "Employer") to participate as defined in the following paragraph.

Employees become eligible to participate in the Plan upon completing three consecutive months of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). The effective date of the original Plan was January 1, 1999. Effective December 2001, the Plan adopted the amended prototype plan developed by Boies, Schiller & Flexner, LLP.

Contributions

Contributions to the Plan are made by the participants and the Employer. Participants may elect to defer up to the applicable Internal Revenue Service limit. Additionally, participants may rollover or transfer to the Plan any portion or all of the property received from another qualified employee benefit trust (rollover contribution).

In addition, the Employer may make matching and/or discretionary contributions, at the option of the Employer's Board of Directors. For the 2008 plan year, the Employer made contributions of $124,191, which matched up to 4% of all eligible employee elective contributions to the Plan. For the 2009 plan year, there were no Employer contributions made to the Plan.

Participant Accounts

Each participant's account in the Plan is credited with the participant's contribution, an allocation of any Employer contribution and the Plan's earnings. Allocations of earnings are based on participants' account balances, as defined. Employer matching contributions are allocated proportionately to participant elective contributions for all eligible participants at the end of the year and funded in the successive year. Any additional discretionary Employer contributions are allocated based on the ratio of the participant's compensation to the total compensation of all eligible participants for the Plan year. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Forfeitures are used to reduce future Employer contributions to, and/or expenses of, the Plan. There were no material forfeitures in 2009 and 2008.

Vesting

All participants are immediately vested in their accrued benefits derived from their elective contributions and Employer safe harbor contributions plus earnings thereon. Vesting in the additional discretionary Employer contribution is based on years of service in accordance with the following:

Years of Service	Vested Percentage
1	0%
2	20%
3	40%
4	60%
5	80%
6	100%

1. DESCRIPTION OF PLAN (CONTINUED)

Payment of Benefits

Upon termination of service, depending on circumstances, participants may elect to receive payment with respect to a participant's vested account balance as a lump sum distribution of the entire vested account balance, single sum distribution of a portion of the participant's vested account balance, installments for a specified term, installments for required minimum distributions only, or annuity payments over a period not to exceed a participant's lifetime.

Loans to Participants

A participant may borrow from the Plan an aggregate amount not to exceed the lesser of: (a) $50,000 or (b) 50% of the participant's vested account balance. Interest on participant loans is based on comparable market rates. Loans are available to all participants with a minimum balance of $2,000, who request a minimum of $1,000.

Investment Options

A participant may direct employee contributions and any Employer safe harbor contribution into any of several investment options including money market, equity and fixed income mutual fund investments. Participants may change their investment options at their discretion.

Tax Status

The Plan obtained its latest determination letter on April 26, 2004, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. During 2004, the Plan was amended to allow forfeitures to be used to reduce future Employer contributions to, and/or expenses of, the Plan. This amendment was not included in the latest determination letter received. However, the plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

FASB Accounting Standards Codification

On July 1, 2009, the Financial Accounting Standards Board ("FASB") issued "The FASB Accounting Standards Codification and the Hierarchy of Generally Accepted Accounting Principles," which establishes the FASB Accounting Standards Codification (the "ASC") as the source of authoritative principles recognized by the FASB to be applied by nongovernmental entities in the preparation of financial statements in conformity with accounting principles generally accepted in the United States of America ("GAAP"). This standard is effective for financial statements issued for interim and annual periods ending after September 15, 2009.

Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting.

Valuation of Investments and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See NOTE 7 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Administrative Expenses

The Plan agreement allows for all administrative expenses to be paid by either the Employer or the Plan. For the years ended December 31, 2009 and 2008, these expenses were paid by both the Employer and the Plan. Only expenses incurred by the Plan are reflected in these financial statements.

Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Adoption of Accounting Pronouncements

Subsequent Events

In May 2009, the FASB issued an accounting standard which establishes general standards of accounting for and disclosure of events that occur after the statement of net assets available for benefits date but before financial statements are issued or available to be issued. The standard was adopted for the year ending December 31, 2009. The adoption did not have a material impact on the Plan's financial statements. The Plan has evaluated subsequent events through September 14, 2010 which is the date the financial statements were available to be issued.

Accounting for Uncertainty in Income Taxes

On January 1, 2009, the Plan adopted the provisions of an accounting standard, which clarifies the accounting for uncertainty in income taxes recognized in a plan's financial statements in accordance with existing accounting guidance on income taxes, and prescribes a recognition threshold and measurement process for financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return.

This standard also provides guidance on derecognition, classification, interest and penalties, accounting in interim periods, disclosure and transition. Interest and penalties on tax liabilities, if any, would be recorded in administrative expenses. No liability for unrecognized tax benefits was recorded as a result of implementing this standard.

Fair Value Measurements

In September 2009, the FASB issued an accounting standard update which amends existing guidance on fair value measurements and disclosures. The update allows an entity to measure the fair value of an investment that has no readily determinable fair market value, on the basis of the net asset value per share as provided by the investee. The update is effective for annual and interim periods beginning after December 15, 2009, with early adoption permitted, and is not expected to have an effect on the Plan's financial statements.

Recently Issued Accounting Pronouncements

Improving Disclosures about Fair Value Measurements

In January 2010, the FASB issued an accounting standard update on fair value measurements and disclosures. The update requires more robust disclosures about (1) the different classes of assets and liabilities measured at fair value, (2) the valuation techniques and inputs used, (3) the activity in Level 3 fair value measurements, and (4) the transfers between Levels 1, 2, and 3. The new disclosures and clarifications of existing disclosures are effective for interim and annual reporting periods beginning after December 15, 2009, except for the disclosures about purchases, sales, issuances, and settlements in the roll forward of activity in Level 3 fair value measurements. Those disclosures are effective for fiscal years beginning after December 15, 2010, and for interim periods within those fiscal years. This update is not expected to have an effect on the Plan's financial statements.

3. INVESTMENTS

The following presents investments that represent 5 percent or more of the Plan's net assets.

	2009	2008
Pooled separate investment accounts:		
Alliance Bernstein 2030 Retirement	$ 694,695	$ *
Alliance Bernstein 2025 Retirement	323,002	*
Alliance Bernstein 2000 Retirement	209,915	*

T. Rowe Price Mid-cap Growth NEF Account	*	105,735
T. Rowe Price Equity Income NEF Account	*	198,602
Western Asset Mgmt U.S. Government	*	96,579

* Investment balance did not represent five percent or more of the Plan's net assets as of year end.

During 2009 and 2008, the Plan's investments in pooled separate investment accounts (including gains and losses on investments bought and sold, as well as held during the year) appreciated (depreciated) in value by $379,405 and ($748,219), respectively.

4. INFORMATION PREPARED AND CERTIFIED BY THE TRUSTEE

The plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, FASCore, LLC and Great-West Life & Annuity Insurance Company, the trustees for the Plan have certified that the following data included in the accompanying financial statements and supplemental schedules is complete and accurate.

	As of December 31, 2009	As of December 31, 2008
Pooled separate investment accounts	$ 1,957,269	$ 1,577,260
Participant loans	82,573	85,567
	$ 2,039,842	$ 1,662,827

	Year Ended December 31, 2009	Year Ended December 31, 2008
Investment income (loss):		
Net appreciation (depreciation) in fair value of investments	$ 379,405	$ (748,219)

The Plan's independent accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedules.

5. PLAN TERMINATION

Although it has not expressed any intent to do so, the Employer has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. Whether all participants receive their benefits, should the Plan terminate at some future time, will depend on the sufficiency, at that time, of the Plan's net assets to provide those benefits.

6. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

7. FAIR VALUE MEASUREMENTS

The FASB ASC 820, *Fair Value Measurements and Disclosures*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows.

- Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

- Level 2 Inputs to the valuation methodology include:
  - quoted prices for similar assets or liabilities in active markets;
  - quoted prices for identical or similar assets or liabilities in inactive markets;
  - inputs other than quoted prices that are observable for the asset or liability;
  - inputs that are derived principally from or corroborated by observable market data by correlation or other means.

  If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

- Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The assets or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2009.

7. FAIR VALUE MEASUREMENTS (CONTINUED)

Pooled separate investment accounts: Valued at fair value. Fair value of shares of an underlying fund equals the number of shares of the respective underlying fund multiplied by the closing net asset value per share quoted by that fund and held by the Plan at year end.

Participant loans: Valued at amortized cost, which approximates fair value.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2009.

		Fair Value Measurements at Reporting Date Using:		
Description	Fair Value 12/31/2009	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)

CBI Retirement Plan

We were engaged to audit the accompanying statements of net assets available for benefits of CBI Retirement Plan (the "Plan") as of December 31, 2009 and 2008, and the related statements of changes in net assets available for benefits for the years then ended. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financials statements based on our audits.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in NOTE 4, which was certified by FASCore, LLC and Great-West Life & Annuity Insurance Company, the trustees of the Plan, except for comparing such information with the related information included in the financial statements and the supplemental schedules. We have been informed by the plan administrator that FASCore, LLC held the Plan's investment assets and executed investment transactions from January 1, 2008 to December 4, 2009, and that Great-West Life & Annuity Insurance Company held the Plan's investment assets and executed investment transactions from December 4, 2009 to December 31, 2009. The plan administrator has obtained certifications from the trustees as of and for the years ended December 31, 2009 and 2008, that the information provided to the plan administrator by the trustees is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedules taken as a whole. The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by the trustees, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

1. DESCRIPTION OF PLAN

The following description of the CBI Retirement Plan (the "Plan") provides only general information. Reference to the Plan document should be made for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan allowing substantially all employees of Cliff Berry, Inc. (the "Employer") to participate as defined in the following paragraph.

Employees become eligible to participate in the Plan upon completing three consecutive months of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). The effective date of the original Plan was January 1, 1999. Effective December 2001, the Plan adopted the amended prototype plan developed by Boies, Schiller & Flexner, LLP.

Contributions

Contributions to the Plan are made by the participants and the Employer. Participants may elect to defer up to the applicable Internal Revenue Service limit. Additionally, participants may rollover or transfer to the Plan any portion or all of the property received from another qualified employee benefit trust (rollover contribution).

In addition, the Employer may make matching and/or discretionary contributions, at the option of the Employer's Board of Directors. For the 2008 plan year, the Employer made contributions of $124,191, which matched up to 4% of all eligible employee elective contributions to the Plan. For the 2009 plan year, there were no Employer contributions made to the Plan.

Participant Accounts

Each participant's account in the Plan is credited with the participant's contribution, an allocation of any Employer contribution and the Plan's earnings. Allocations of earnings are based on participants' account balances, as defined. Employer matching contributions are allocated proportionately to participant elective contributions for all eligible participants at the end of the year and funded in the successive year. Any additional discretionary Employer contributions are allocated based on the ratio of the participant's compensation to the total compensation of all eligible participants for the Plan year. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Forfeitures are used to reduce future Employer contributions to, and/or expenses of, the Plan. There were no material forfeitures in 2009 and 2008.

Vesting

All participants are immediately vested in their accrued benefits derived from their elective contributions and Employer safe harbor contributions plus earnings thereon. Vesting in the additional discretionary Employer contribution is based on years of service in accordance with the following:

Years of Service	Vested Percentage
1	0%
2	20%
3	40%
4	60%
5	80%
6	100%

1. DESCRIPTION OF PLAN (CONTINUED)

Payment of Benefits

Upon termination of service, depending on circumstances, participants may elect to receive payment with respect to a participant's vested account balance as a lump sum distribution of the entire vested account balance, single sum distribution of a portion of the participant's vested account balance, installments for a specified term, installments for required minimum distributions only, or annuity payments over a period not to exceed a participant's lifetime.

Loans to Participants

A participant may borrow from the Plan an aggregate amount not to exceed the lesser of: (a) $50,000 or (b) 50% of the participant's vested account balance. Interest on participant loans is based on comparable market rates. Loans are available to all participants with a minimum balance of $2,000, who request a minimum of $1,000.

Investment Options

A participant may direct employee contributions and any Employer safe harbor contribution into any of several investment options including money market, equity and fixed income mutual fund investments. Participants may change their investment options at their discretion.

Tax Status

The Plan obtained its latest determination letter on April 26, 2004, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. During 2004, the Plan was amended to allow forfeitures to be used to reduce future Employer contributions to, and/or expenses of, the Plan. This amendment was not included in the latest determination letter received. However, the plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

FASB Accounting Standards Codification

On July 1, 2009, the Financial Accounting Standards Board ("FASB") issued "The FASB Accounting Standards Codification and the Hierarchy of Generally Accepted Accounting Principles," which establishes the FASB Accounting Standards Codification (the "ASC") as the source of authoritative principles recognized by the FASB to be applied by nongovernmental entities in the preparation of financial statements in conformity with accounting principles generally accepted in the United States of America ("GAAP"). This standard is effective for financial statements issued for interim and annual periods ending after September 15, 2009.

Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting.

Valuation of Investments and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See NOTE 7 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Administrative Expenses

The Plan agreement allows for all administrative expenses to be paid by either the Employer or the Plan. For the years ended December 31, 2009 and 2008, these expenses were paid by both the Employer and the Plan. Only expenses incurred by the Plan are reflected in these financial statements.

Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Adoption of Accounting Pronouncements

Subsequent Events

In May 2009, the FASB issued an accounting standard which establishes general standards of accounting for and disclosure of events that occur after the statement of net assets available for benefits date but before financial statements are issued or available to be issued. The standard was adopted for the year ending December 31, 2009. The adoption did not have a material impact on the Plan's financial statements. The Plan has evaluated subsequent events through September 14, 2010 which is the date the financial statements were available to be issued.

Accounting for Uncertainty in Income Taxes

On January 1, 2009, the Plan adopted the provisions of an accounting standard, which clarifies the accounting for uncertainty in income taxes recognized in a plan's financial statements in accordance with existing accounting guidance on income taxes, and prescribes a recognition threshold and measurement process for financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return.

This standard also provides guidance on derecognition, classification, interest and penalties, accounting in interim periods, disclosure and transition. Interest and penalties on tax liabilities, if any, would be recorded in administrative expenses. No liability for unrecognized tax benefits was recorded as a result of implementing this standard.

Fair Value Measurements

In September 2009, the FASB issued an accounting standard update which amends existing guidance on fair value measurements and disclosures. The update allows an entity to measure the fair value of an investment that has no readily determinable fair market value, on the basis of the net asset value per share as provided by the investee. The update is effective for annual and interim periods beginning after December 15, 2009, with early adoption permitted, and is not expected to have an effect on the Plan's financial statements.

Recently Issued Accounting Pronouncements

Improving Disclosures about Fair Value Measurements

In January 2010, the FASB issued an accounting standard update on fair value measurements and disclosures. The update requires more robust disclosures about (1) the different classes of assets and liabilities measured at fair value, (2) the valuation techniques and inputs used, (3) the activity in Level 3 fair value measurements, and (4) the transfers between Levels 1, 2, and 3. The new disclosures and clarifications of existing disclosures are effective for interim and annual reporting periods beginning after December 15, 2009, except for the disclosures about purchases, sales, issuances, and settlements in the roll forward of activity in Level 3 fair value measurements. Those disclosures are effective for fiscal years beginning after December 15, 2010, and for interim periods within those fiscal years. This update is not expected to have an effect on the Plan's financial statements.

3. INVESTMENTS

The following presents investments that represent 5 percent or more of the Plan's net assets.

	2009	2008
Pooled separate investment accounts:		
Alliance Bernstein 2030 Retirement	$ 694,695	$ *
Alliance Bernstein 2025 Retirement	323,002	*

T. Rowe Price Mid-cap Growth NEF Account	*	105,735
T. Rowe Price Equity Income NEF Account	*	198,602
Western Asset Mgmt U.S. Government	*	96,579

* Investment balance did not represent five percent or more of the Plan's net assets as of year end.

During 2009 and 2008, the Plan's investments in pooled separate investment accounts (including gains and losses on investments bought and sold, as well as held during the year) appreciated (depreciated) in value by $379,405 and ($748,219), respectively.

4. INFORMATION PREPARED AND CERTIFIED BY THE TRUSTEE

The plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, FASCore, LLC and Great-West Life & Annuity Insurance Company, the trustees for the Plan have certified that the following data included in the accompanying financial statements and supplemental schedules is complete and accurate.

	As of December 31, 2009	As of December 31, 2008
Pooled separate investment accounts	$ 1,957,269	$ 1,577,260
Participant loans	82,573	85,567
	$ 2,039,842	$ 1,662,827

	Year Ended December 31, 2009	Year Ended December 31, 2008
Investment income (loss):		
Net appreciation (depreciation) in fair value of investments	$ 379,405	$ (748,219)

The Plan's independent accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedules.

5. PLAN TERMINATION

Although it has not expressed any intent to do so, the Employer has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. Whether all participants receive their benefits, should the Plan terminate at some future time, will depend on the sufficiency, at that time, of the Plan's net assets to provide those benefits.

6. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

7. FAIR VALUE MEASUREMENTS

The FASB ASC 820, *Fair Value Measurements and Disclosures*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows.

- Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

- Level 2 Inputs to the valuation methodology include:
  - quoted prices for similar assets or liabilities in active markets;
  - quoted prices for identical or similar assets or liabilities in inactive markets;
  - inputs other than quoted prices that are observable for the asset or liability;
  - inputs that are derived principally from or corroborated by observable market data by correlation or other means.

  If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

- Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The assets or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2009.

7. FAIR VALUE MEASUREMENTS (CONTINUED)

Pooled separate investment accounts: Valued at fair value. Fair value of shares of an underlying fund equals the number of shares of the respective underlying fund multiplied by the closing net asset value per share quoted by that fund and held by the Plan at year end.

Participant loans: Valued at amortized cost, which approximates fair value.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2009.

		Fair Value Measurements at Reporting Date Using:		
Description	Fair Value 12/31/2009	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
