To the Investment Fiduciary Committee of

SPECTRUM HEALTHCARE TAX DEFERRED SAVINGS PLAN AND TRUST

Scope and Nature of the ERISA Section 103(a)(3)(C) Audits

We have performed the audits of the financial statements of ***Spectrum Healthcare Tax Deferred Savings Plan and Trust*** (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 ("ERISA"), as permitted by ERISA Section 103(a)(3)(C) ("ERISA Section 103(a)(3)(C) audit"). The financial statements comprise the statements of net assets available for benefits as of December 31, 2022 and 2021, and the related statement of changes in net assets available for benefits for the year ended December 31, 2022, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan ("investment information") by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA ("qualified institution").

Management has obtained certifications from qualified institutions as of December 31, 2022 and 2021, and for the year ended December 31, 2022, stating that the certified investment information, as described in Note 5 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditors' Responsibilities for the Audit of the Financial Statements section:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- The information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (“GAAS”). Our responsibilities under those standards are further described in the Auditors’ Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are issued or available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors’ Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audits section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors’ report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on these financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter - Supplemental Schedules Required by ERISA

The supplemental schedules of delinquent participant contributions and assets (held at end of year) as of and for the year ended December 31, 2022 are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedules related to assets held and certified by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

SPECTRUM HEALTHCARE TAX DEFERRED SAVINGS PLAN AND TRUST

NOTES TO FINANCIAL STATEMENTS

December 31, 2022 and 2021

(1) Description of the Plan

The following description of the ***Spectrum Healthcare Tax Deferred Savings Plan and Trust*** (the "Plan") is provided for general information purposes only. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

A. General - The Plan was established July 1, 2006 and is a defined contribution plan sponsored by Spectrum Healthcare Group, Inc. (the "Plan Sponsor") for the benefit of all employees. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

B. Eligibility - Employees become eligible to participate in the Plan on the first day of the month coinciding with or following the first day in which one hour is worked. Employees become eligible to participate in the safe harbor non-elective contributions on the first day of the month coinciding with the completion of 6 months of service with 500 hours of service. If the 500 hours is not met in the first 6 months of employment, then the eligibility requirement reverts to a year of eligibility service with 1,000 hours of service. Employees may enter into safe harbor non-elective contributions on January 1st or July 1st following satisfaction of eligibility requirements. Employees become eligible to participate in the non-safe harbor non-elective contributions on the first day of the month coincident with or following the date of being credited with 2 years of service based on the employees' anniversary date of hire.

C. Contributions - Participants may make pre-tax contributions up to 90% of eligible compensation, as defined by the Plan, subject to maximum amounts allowed under the Internal Revenue Code ("IRC"). Those participants age 50 and over are permitted additional "catch-up" contributions under the Plan. Upon becoming eligible to make salary deferrals under the Plan, a participant will automatically be entered into a salary deferral election equal to 2% of eligible compensation. Employees are able to opt out or change the contribution to another percentage or flat amount at any time. The Plan also allows for rollover contributions from other qualified plans.

The Plan Sponsor is authorized to make employer safe harbor non-elective contributions equal to 3% of eligible compensation beginning January 1st or July 1st following satisfaction of the eligibility requirements. Non-safe harbor non-elective contributions are based on the following contribution scale:

Years of Service	Percent Of Compensation
2 years	2%
4 years	3%
6 years	4%
8 years	5%
10 years	6%
12 years	7%

D. Participant accounts - All investment options are participant-directed. A separate account is maintained for each investment option of a participant by type of contribution. Each participant's account is credited with the participant's salary deferral and rollover contributions, employer safe harbor non-elective contributions, non-safe harbor non-elective contributions, and Plan earnings/losses. Plan earnings/losses are allocated based on account balances, as defined in the Plan document. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

(1) Description of the Plan (continued)

E. Notes receivable from participants - The Plan permits a participant to borrow up to the lesser of $50,000 or 50% of his/her vested account balance (but not less than $1,000) from the Plan. Loans are secured by the participant's account and bear interest at a fixed rate set at 1% higher than the prime lending rate of a commercial U.S. bank available within a reasonable geographic vicinity at the time the loan is made. Loans are generally to be repaid over a maximum of five years, unless used for a principal residence then ten years, and are due in full if a participant terminates employment.

F. Payment of benefits - Benefits begin upon the earliest of retirement, termination of employment, total and permanent disability or death of the participant. The Plan permits hardship distributions under certain circumstances. The Plan also provides for age 70 ½ required minimum distributions of a specified percentage of an employee's benefits be paid each year once that age is reached. Benefits may be paid in one lump-sum or in the form of an annuity or installments. Benefits are paid as soon as administratively feasible following the date on which a distribution is requested or is otherwise payable.

G. Vesting - Each participant is immediately vested in his/her salary deferral, catch-up, and rollover contributions, plus any earnings or losses on those contributions as well as employer safe harbor non-elective and non-safe harbor non-elective contributions; therefore, forfeitures do not occur under the Plan.

H. Plan termination - Although it has not expressed any intent to do so, the Plan Sponsor has the right under the Plan to discontinue contributions at any time, withdraw from the Plan, and to terminate the Plan subject to the provisions of ERISA.

I. Administrative expenses - Plan participants pay costs associated with certain investment expenses such as fund withdrawal fees, which are deducted from the respective participant's account. Also, fees are paid by the account of the participant taking a loan. Investment management related expenses and fees related to the administration of notes receivable from participants are included in administrative expenses as described in Note 6.

(2) Summary of significant accounting policies

The significant accounting policies followed by the Plan are as follows:

Basis of accounting - The accompanying financial statements of the Plan are prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) using the accrual basis of accounting. Accordingly, income and contributions are recognized when earned and expenses are recorded when incurred.

Investments valuation and income recognition - Investments are reported at fair value (except for the group annuity contract, which is reported at contract value). Fair value is the price that would be received to sell an asset in an orderly transaction between market participants at the measurement date. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net depreciation includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

(2) Summary of significant accounting policies (continued)

Following is a description of the valuation methodologies used for the investments held by the Plan. There have been no changes in the methodologies used at December 31, 2022 and 2021.

- Mutual funds - Investments in shares of mutual funds are stated at net asset value, which are readily determinable fair values of those shares as they are published daily and are the basis for current transactions.
- Group annuity contract - Investments in a fully benefit-responsive investment contract are required to be reported at contract value rather than fair value. Contract value is the relevant measure for the portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the Plan.

Management's use of estimates - The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of net assets and the reported amounts of additions to and deductions from net assets. Actual results may differ from those estimates.

Notes receivable from participants - Notes receivable from participants are measured at their unpaid principal balance plus accrued interest. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2022 or 2021. If a participant ceases to make loan repayments and the Plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Risk and uncertainties - The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risk. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Benefits paid to participants - Benefits paid to participants are recorded in the period in which they are paid.

Subsequent events - Plan management has evaluated subsequent events through October 16, 2023, which is the date the financial statements of the Plan were available to be issued.

(3) Investment in group annuity contract

The Plan holds a group annuity contract (the "Contract") with Nationwide Life Insurance Company. The Contract meets the fully benefit-responsive investment contract criteria and therefore is reported at contract value. The Contract is included in investments in the financial statements at contract value as reported to the Plan by Nationwide Life Insurance Company. Contract value represents the contributions made under the annuity, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. There are no reserves against contract value for credit risk of the contract issuer.

(3) Investment in group annuity contract (continued)

Crediting interest rates are generally reset quarterly with the reset based on formulas which may use market value, book value, duration and yield. The Contract does not specify any events which would limit the ability of the Plan to transact at contract value with the issuer or any events which would allow the issuer to terminate the contract and settle for an amount different from contract value. The Contract provides payment options of the contract value for surrendering the Contract; however, the Plan does not intend to surrender the Contract.

(4) Fair value measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include quoted prices for similar assets and liabilities in active markets; quoted prices for identical or similar assets and liabilities in inactive markets; inputs other than quoted market prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2022:

	Level 1	Level 2	Level 3	Total
Mutual funds	$ 5,695,186	$ -	$ -	$ 5,695,186

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2021:

	Level 1	Level 2	Level 3	Total
Mutual funds	$ 6,972,146	$ -	$ -	$ 6,972,146

(5) Information certified by the Plan's custodians

The Plan Administrator has elected the method of annual reporting compliance permitted by ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Nationwide Trust Company, FSB, and Nationwide Life Insurance Company, the custodians of the Plan's assets, have certified that the following data included in the accompanying financial statements and supplemental schedules is complete and accurate:

- Investments
- Interest and dividends
- Net depreciation in fair value of investments
- Schedule of assets (held at end of year)

The Plan's independent public accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedules.

(6) Party-in-interest transactions

Certain investments are a group annuity contract and mutual funds managed by Nationwide Trust Company and Nationwide Life Insurance Company. Both companies are custodians as defined by the Plan and, therefore, these transactions represent party-in-interest transactions. The Plan paid fees to another entity that provided advisory services to the Plan, which also qualify as party-in-interest transactions. Administrative and advisory service fees paid by the Plan amounted to $70,167 for the year ended December 31, 2022.

(7) Income tax status

The Plan received an opinion letter from the Internal Revenue Service dated June 30, 2020, stating that the Plan was designed in accordance with applicable sections of the IRC. Management has not obtained an individual determination letter for the Plan. The Volume Submitter Plan has been amended since receipt of the opinion letter. Management and the Plan administrator believe that the Plan is currently designed and is being operated in compliance with the applicable requirements of the IRC and that the Plan was qualified and the related trust remains tax-exempt at December 31, 2022 and 2021. Accordingly, no provision for income taxes has been made in the accompanying financial statements.

(8) Delinquent participant contributions

Plan management determined that certain participant contributions withheld during the 2022 and 2021 Plan years were remitted late based upon guidelines established by the DOL. These late contributions amounted to $14 and $31 for the years ended December 31, 2022 and 2021, respectively. The 2021 late contributions were corrected in 2022. Management is working with its consultant in correcting the 2022 late contributions. Any related lost earnings were de minimis.

(9) Reconciliation of financial statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500 as of December 31, 2022 and 2021:

	2022	2021
