Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

INDEPENDENT AUDITOR'S REPORT

Board of Trustees
Local 1931 Pension Fund and Subsidiary

Opinion

We have audited the accompanying consolidated financial statements of Local 1931 Pension Fund and Subsidiary (the "Fund"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the consolidated statements of net assets available for benefits as of December 31, 2022 and 2021, and the related consolidated statements of changes in net assets available for benefits for the years then ended, and the related notes to the consolidated financial statements.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the net assets available for benefits of Local 1931 Pension Fund and Subsidiary as of December 31, 2022 and 2021, and the changes in its net assets available for benefits for the years then ended, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are required to be independent of Local 1931 Pension Fund and Subsidiary and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Local 1931 Pension Fund and Subsidiary's ability to continue as a going concern within one year after the date the consolidated financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments; administering the plan; and determining that the plan's transactions that are presented and disclosed in the consolidated financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements, including omissions, are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the consolidated financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the consolidated financial statements.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Local 1931 Pension Fund and Subsidiary's internal control. Accordingly, no such opinion is expressed.

- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the consolidated financial statements.

- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt Local 1931 Pension Fund and Subsidiary's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

Other Matter - Supplemental Schedules Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the consolidated financial statements as a whole. The consolidated and consolidating supplemental schedules on pages 22 through 29 are presented for purposes of additional analysis and are not a required part of the consolidated financial statements. The consolidated supplemental schedules on pages 22 through 25 represent supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the consolidated financial statements. The information has been subjected to the auditing procedures applied in the audits of the consolidated financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the consolidated financial statements or to the consolidated financial statements themselves, and other additional procedures in accordance with generally accepted auditing standards.

In forming our opinion on the consolidated and consolidating supplemental schedules, we evaluated whether the consolidated and consolidating supplemental schedules, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying consolidated and consolidating supplemental schedules are fairly stated, in all material respects, in relation to the consolidated financial statements as a whole, and the form and content are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

Note 1 - Description of the Fund

The following brief description of the Local 1931 Pension Fund and subsidiary (the "Fund") is provided for general information purposes only. Participants should refer to the Fund agreement and summary plan description for more complete information.

General

Local 1931 Pension Fund was established under agreements among individual employers and the labor union, Union Local 1931 (the "Union"). The Fund provides pension benefits to eligible employees of employers having collective bargaining agreements with the Union.

The Fund is a multi-employer, defined benefit pension plan established pursuant to various collective bargaining agreements. The Fund is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"), as amended.

The purpose of the Fund is to provide retirement benefits to eligible participants.

Benefits

The Fund provides normal, early, deferred vested, joint and survivor and death benefits to employees who have satisfied specific eligibility requirements relating to age and years of service.

Contributions

Contributions are made to the Fund in accordance with the terms of the collective bargaining agreements entered into among the Union and the employers. Funding is provided by employer contributions in accordance with the individual collective bargaining agreements between contributing employers and the Union. Employee participants are not required to contribute to the Fund.

Note 2 - Summary of Significant Accounting Policies

Basis of Accounting

The accompanying consolidated financial statements have been prepared on the accrual basis of accounting.

Note 2 - Summary of Significant Accounting Policies (Continued)

Basis of Consolidation

The consolidated financial statements include the accounts of the Fund and 420 West Merrick Road LLC. 420 West Merrick Road LLC was incorporated in 2017 for the purpose of acquiring, holding and operating investments in real property for the sole benefit of the Fund.

All significant transactions and balances between the entities have been eliminated in consolidation.

Cash Equivalents

The Fund considers all highly liquid investments available for current use with an initial maturity of three months or less to be cash equivalents.

Use of Estimates

The preparation of consolidated financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, disclosure of contingent assets and liabilities and the actuarial present value of accumulated fund benefits at the date of the consolidated financial statements. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The Fund's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See note 6 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Fund's gains and losses on investments bought and sold, as well as held during the year.

Note 2 - Summary of Significant Accounting Policies (Continued)

Contributions Receivable

Employer contributions due and not paid prior to the year end are recorded as employer contributions receivable. All balances are considered collectable so an allowance for uncollectable accounts is not provided.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Subsequent Events

The Fund has evaluated subsequent events and transactions through October 5, 2023, the date that the consolidated financial statements were available to be issued.

Note 3 - Concentrations of Credit Risk

Financial instruments that subject the Fund to concentrations of credit risk include cash, and employers' contributions receivable. The Fund maintains accounts at a high quality financial institution. While the Fund attempts to limit any financial exposure its deposits may, at times, exceed federally insured limits. The Fund has not experienced any losses on such accounts.

Contributions from five employers represent approximately 82% and 97% of the total contributions balance at December 31, 2022 and 2021, respectively. The contributions receivable balance from three employers represents 84% of the total contributions receivable balance at December 31, 2022. The contributions receivable balance from four employers represents 97% of the total contributions receivable balance at December 31, 2021.

Note 4 - Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments that are attributable under the Fund provisions to the service that employees have rendered. Accumulated plan benefits include benefits expected to be paid to: (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries.

Note 4 - Actuarial Present Value of Accumulated Plan Benefits (Continued)

Benefits under the Fund are accumulated based on years of credited service. Benefits payable under all circumstances, i.e., retirement, death, and termination of employment are included, to the extent they are deemed attributable to employee service rendered to the valuation date.

The actuarial present value of accumulated plan benefits is determined by the Fund's consulting actuary, and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest), and the probability of payment (by means of decrements such as for death, disability, withdrawal or retirement) between the valuation date and the expected date of payment.

The significant actuarial assumptions used in the valuation as of January 1, 2022 were as follows:

Mortality:	Pri-2012 Blue Collar Retiree Mortality Table for Males and Females, respectively, adjusted with Scale MP-2021 and RP-2014 Annuitant Mortality Table for Males and Females, respectively, adjusted with Scale MP-2020 for PPA Current Liabilities (2021 - IRS 2008 Combined Static Mortality Table for funding and 2018 Generational Mortality Table used for PPA Current Liabilities).
Interest:	7.0% interest rate was used for funding. 2.22% rate used for calculating PPA Current Liability (2.43% in 2021).
Retirement age:	Age 65 and 5 years of participation.
Administrative expenses:	$336,760 per annum (2021 - $196,300)
Actuarial cost method:	Union Credit Cost.
Asset valuation method:	5-Year Smoothing Method.

Note 4 - Actuarial Present Value of Accumulated Plan Benefits (Continued)

Withdrawal: Rates of termination vary with age. Sample rates are as follows:

Age	Rate
25	14.57%
30	12.15%
35	10.10%
40	8.32%
45	6.58%
50	4.84%
55	2.97%
60	0.57%
65	0.00%

The actuarial present value of accumulated plan benefits as of January 1, 2022 was as follows:

Vested benefits:	
Retired members and beneficiaries	$ 11,829,253
Terminated vested members	7,468,126
Active vested members	1,067,972
	20,365,351
Active non-vested benefits	96,639
Total actuarial present value of accumulated plan benefits	$ 20,461,990
Total actuarial present value of accumulated plan benefits at beginning of year	$ 15,784,500
Increase (decrease) during the year attributable to:	
Benefits accumulated and experience losses	61,480
Joint Board 18 Pension merger	4,666,239
Decrease in discount period	1,056,202
Change in assumption	178,306
Benefits paid	(1,284,737)
Net increase	4,677,490
Total actuarial present value of accumulated plan benefits at end of year	$ 20,461,990

Note 4 - Actuarial Present Value of Accumulated Plan Benefits (Continued)

Under the provisions of ERISA, the Plan is subject to minimum funding requirements. At January 1, 2022, there was a credit balance. The existence of a credit balance indicates that employer contributions have been more than sufficient to meet the minimum funding requirements.

The Plan's actuary has certified the Plan is neither endangered nor critical status at January 1, 2022.

Note 5 - Procedure on Termination of the Fund

In the event the Fund is terminated, or partially terminated, pursuant to the provisions of the Indenture of Trust, the rights of all the then participants to accrued benefits at the date of such termination, to the extent then funded, shall become non-forfeitable and the Trustees shall allocate funds exclusively for the benefit of participants, retired participants and beneficiaries of participants in accordance with the procedures set forth in ERISA pertaining to the allocation of plan assets in the event of termination.

In no event, shall any of the assets of the Fund revert, or be paid to, any employer or to the Union.

Benefits under the Fund are insured by the Pension Benefit Guaranty Corporation (the "PBGC") if the Fund terminates. Generally, PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivors' pensions. However, PBGC does not guarantee all types of benefits under covered plans, and the amount of benefit protection is subject to certain limitations.

Note 6 - Fair Value Measurements

Financial Accounting Standards Board ("FASB") *Accounting Standards Codification* ("ASC") *820, Fair Value Measurements and Disclosures,* provides the framework for measuring fair value. It defines fair value as an exit price, which is the price that would be received for an asset or paid to transfer a liability in the Fund's principal or most advantageous market for the asset or liability, in an orderly transaction between market participants on the measurement date.

The fair value hierarchy generally requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. Observable inputs reflect the assumptions market participants would use in pricing the asset or liability and are developed based on market data obtained from sources independent of the reporting entity. Unobservable inputs reflect the entity's own assumptions based on market data and the entity's judgments about the assumptions that market participants would use in pricing the asset or liability, and are to be developed based on the best information available in the circumstances.

Note 6 - Fair Value Measurements (Continued)

The Fund determines the fair market value of its investment in securities based on the established fair value definition and hierarchy levels. The three levels within the hierarchy that may be used to measure fair value are:

Level 1: Unadjusted quoted prices in active markets for identical assets or liabilities.

Level 2: Observable inputs, including Level 1 prices that have been adjusted; quoted prices for similar assets or liabilities; quoted prices in markets that are less active than traded exchanges; and other inputs that are observable or can be substantially corroborated by observable market data.

Level 3: Unobservable inputs that are supported by little or no market activity and that are a significant component of the fair value of the assets or liabilities.

The lowest level of input that is a significant component of the fair value measurements determines the placement of the entire fair value measurement in the hierarchy. The Fund's assessment of the significance of a particular input to the fair value measurement requires judgment, and may affect the classification of fair value assets and liabilities within the fair value hierarchy levels.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2022.

Common collective trust and real estate investment fund:

The common collective trust and real estate investment fund are valued at the net asset value ("NAV") as determined by the custodians and real estate investment fund of the trusts. The NAV, as provided by the custodians and real estate investment fund, is used as a practical expedient to estimate fair value. The NAV is based upon the fair value of the investments in the common collective trust and real estate investment fund less any liabilities. Transactions may occur daily. If the Fund were to initiate a full redemption of the common collective trust and real estate investment fund, the investment advisors reserve the right to temporarily delay withdrawal from the common collective trust and real estate investment fund to ensure that securities liquidations will be carried out in an orderly business manner.

Note 6 - Fair Value Measurements (Continued)

Common stocks:

Common stocks are primarily comprised of domestic equities. Securities in these funds are typically priced using the closing price for quoted market prices in active markets.

Guaranteed interest account:

The Great-West Life and Annuity Insurance Company provides this investment as a guaranteed interest account. The guaranteed interest account is valued by the insurance company and is estimated based on the market value of the underlying investments of the stable value fund. Where there is no readily available market value for the investment, the insurance company approximates the market value of underlying investments by discounting expected future investment cash flow for both investment income and repayment of principal for each investment purchased directly for the general account segment used for defined benefit contracts.

Mutual fund:

The mutual fund is valued at the daily closing price as reported by the fund. Mutual funds held by the Fund are open-end mutual funds that are registered with the U.S. Securities and Exchange Commission. These funds are required to publish their daily net asset value (“NAV”) and to transact at that price. The mutual fund held by the Fund is deemed to be actively traded.

Money market fund:

The money market fund is stated at cost which approximates fair value.

Real estate:

The real estate value was determined by an independent real estate appraiser principally based upon the market and income approach.

The preceding valuation methods may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Fund believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Quantitative Information About Significant Unobservable Inputs Used in Level 3 Fair Value Measurements

The following table presents the Fund's Level 3 investments, the valuation techniques used to measure the fair value of those investments, and the significant unobservable inputs and ranges of values for those inputs:

	Fair Value December 31, 2022 & 2021	Valuation Technique	Significant Unobservable Inputs	Range of Significant Input Values	Median Value
420 West Merrick Road, LLC	$ 2,750,000	Income Approach	Rental Common Unit Value Indicator per sq. ft.	$333 - $592	$371.00

Note 6 - Fair Value Measurements (Continued)

Quantitative Information About Significant Unobservable Inputs Used in Level 3 Fair Value Measurements (Continued)

The income approach used in 2022 and 2021 typically involves projecting the income and expenses of a property over a period or periods of time, into a cash flow projection before debt service and depreciation. This approach to value is applied to income producing properties, as these types of properties are traded based on quality and durability of their income stream (rental income).

The following is a brief description of the investment objectives of the Fund's investments in the common/collective trust and real estate investment fund:

Prudential Core Plus Bond

Prudential Core Plus Bond Fund's objective is to outperform Barclays U.S. Aggregate Bond Index by 150 basis points over a full market cycle by investing primarily in fixed-income securities in U.S. investment grade sectors, as well as U.S. fixed income securities below investment grade, the debt of developed international markets, and the debt of emerging markets. Redemptions are available on a daily basis and there are no unfunded commitments as of December 31, 2022. The fair market value was $1,471,224 and $2,149,582 as of December 31, 2022 and 2021, respectively.

U.S. Real Estate Investment Fund

The U.S. Real Estate Investment Fund is a balanced portfolio of yield-driven real estate related assets that are broadly diversified by geography and product type. The objectives of the fund are to preserve and protect investors' capital, provide potential for capital appreciation, and produce income on invested capital. Redemptions are available on a quarterly basis and there are no unfunded commitments as of December 31, 2021. The fair market value was $2,991,608 and $2,123,200 as of December 31, 2022 and 2021, respectively.

The Longview Core Plus Fixed Income Fund

The Longview Core Plus Fixed Income Fund is a tax-exempt, nonregistered, diversified quantitative index fund. The fund's investment objective is to seek to deliver excess return relative to the taxable fixed-income universe embodied by the Barclays Capital U.S. Aggregate index. The Fund can redeem its investment on a daily basis and does not have any unfunded commitments. Fair market value as of December 31, 2022 was $1,534,577.

Note 7 - Equity in 420 West Merrick Road LLC

420 West Merrick Road LLC operates a building located at 420 West Merrick Road, Valley Stream, New York.

The property assets of 420 West Merrick Road LLC as of December 31, 2022 are as follows:

	2022	2021
Land, building and improvements	$ 2,790,739	$ 2,793,871
Less: accumulated depreciation	(166,072)	(102,774)
Net property assets	2,624,667	2,691,097
Increase in fair value	125,333	58,903
Property assets at fair value	$ 2,750,000	$ 2,750,000

Depreciation expense amounted to $66,429 and $66,429 during 2022 and 2021, respectively. Depreciation is reported as a component of rental expenses in the consolidated statements of changes in net assets available for benefits.

Note 8 - Related Party Transactions

To effectuate cost savings, the Fund's administrative office is occupied by the Fund, the Union, and the following related parties: Local 298 Health Benefit Fund I and II, Local 298 Pension Fund, Local 298 Annuity Fund, Local Union 1931, Eastern States Joint Board, Novelty and Production Workers Local 223, Local 223 Sick Benefit Funds, and Local 223 Pension Fund. These entities are related by common management. Beginning in May 2017, shared administrative expenses were reimbursed directly to Eastern States Joint Board. Expenses charged to the Fund by Eastern States Joint Board for payroll and shared administrative expenses amounted to $101,703 and $48,775 during the years ended December 31, 2022 and 2021, respectively.

The Fund makes other benefit contributions to the related funds on behalf of its office employees. Contributions to the other funds amounted to $21,783 and $8,704 for the years ended December 31, 2022 and 2021, respectively.

At December 31, 2022 and 2021, the Fund has a receivable in the amount of $17,632 and $7,976, respectively, due from Eastern States Joint Board.

Note 8 - Related Party Transactions (Continued)

Exempt Party-in-Interest Transactions

Certain fund investments are held by the manager of the investment; therefore, transactions relating to those investments qualify as exempt party-in-interest transactions and are identified as such on the supplemental consolidated schedule of investments.

Note 9 - Pension Plan

The Fund participates in the Local 1931 Pension Fund (the "Pension Fund"), a defined benefit multiemployer pension plan which covers its employees. The risks of participating in multiemployer plans are different from single-employer plans in the following aspects:

- Assets contributed to the multiemployer plan by one employer may be used to provide benefits to employees of other participating employers.

- If a participating employer stops contributing to the Fund, the unfunded obligations of the Fund may be borne by the remaining participating employers.

- If the Fund chooses to stop participating in the multiemployer plan, the Fund may be required to pay the multiemployer plan an amount based on the underfunded status of the Fund, referred to as a withdrawal liability.

The Plan's participation in the Pension Fund for the years ended December 31, 2022 and 2021 is outlined in the table below. The "EIN/Pension Plan Number" row provides the multiemployer plan's Employee Identification Number ("EIN") and the three-digit plan number. The most recent Pension Protection Act ("PPA") zone status available in 2022 and 2021 is for the Pension Fund's year end at December 31, 2021 and 2020. The zone status is based on information that the Fund received from the Pension Fund and is certified by the Pension Fund's actuary. Among other factors, plans in the red zone are generally less than 65 percent funded, plans in the yellow zone are less than 80 percent funded, and plans in the green zone are at least 80 percent funded. The "FIP/RP Status Pending/ Implemented" row indicates whether a financial improvement plan ("FIP") or a rehabilitation plan ("RP") is either pending or has been implemented. The "Surcharge imposed" row indicates whether a surcharge was imposed by the Pension Fund. The last row lists the expiration date of the collective-bargaining agreement to which the Fund is subject.

Fund contributions are more than 5% of total plan contributions	No	No
Surcharge imposed	N/A	N/A
Expiration date of collective bargaining agreement	N/A	N/A

In addition, the Fund participates in the Local 298 Annuity Fund (the "Annuity Fund"). Contributions to the Annuity Fund for the years ended December 31, 2022 and 2021 amounted to $6,815 and $3,662, respectively.

Note 10 - Rental Revenue Under Operating Leases

The Fund leased premises located at 420 West Merrick Road, Valley Stream, New York from 420 West Merrick Road LLC, which is a wholly owned subsidiary of the Local 1931 Pension Fund, an entity related through common membership. The lease is on a year-to-year continuing basis until the landlord or tenant terminates the tenancy (the "Term").

Total rent expense for the years of December 31, 2022 and 2021 was $9,091 and $3,480, Respectively.

Note 11 - Tax Status

The Fund is a qualified pension trust under Section 401(a) and is exempt from federal income taxes under Section 501(a) of the Internal Revenue Code. The Internal Revenue Service has determined and informed the Fund by a letter dated July 6, 2015 that the Fund and related trust are designed in accordance with applicable sections of the Internal Revenue Code. 420 West Merrick Road LLC is exempt from federal income tax under the provisions of Section 501(c)(2) of the Internal Revenue Code.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Fund and recognize a tax liability (or asset) if the Fund has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The fund administrator has analyzed the tax positions taken by the Fund, and has concluded that as of December 31, 2022, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the consolidated financial statements. Employee benefit plans are subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress for the Fund. The fund administrator believes it is no longer subject to income tax examinations for years prior to 2019.

Note 12 - Risks and Uncertainties

The Fund invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and such changes could materially affect the amounts reported in the consolidated statements of net assets available for benefits.

Fund contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the consolidated financial statements.

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.
