Independent Auditor's Report

The Plan Trustees
Acrisure 401(k) Savings Plan
Grand Rapids, Michigan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of Acrisure 401(k) Savings Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C). The financial statements comprise the statements of net assets available for benefits as of December 31, 2022 and 2021, the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA (ERISA Section 103(a)(3)(C) audit). As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency (qualified institution), provided that the investment information is prepared and certified to by the qualified institution in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

Management has obtained certifications from qualified institutions as of December 31, 2022 and 2021, and for the years then ended, stating that the certified investment information, as described in Note 4 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (GAAP).
- The certified investment information in the accompanying financial statements agrees to, or is derived from, in all material respects, the information prepared and certified by qualified institutions that management determined meet the requirements of ERISA Section 103(a)(3)(C).

BDO USA, P.C., a Virginia professional corporation, is the U.S. member of BDO International Limited, a UK company limited by guarantee, and forms part of the international BDO network of independent member firms.

BDO is the brand name for the BDO network and for each of the BDO Member Firms.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are issued or available to be issued.

Management is responsible for maintaining a current plan instrument, including all plan amendments. Management is also responsible for administering the Plan and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certifications, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter - Supplemental Schedules Required by ERISA

The supplemental Schedule of Assets (Held at End of Year) as of December 31, 2022 and Schedule of Delinquent Participant Contributions for the year ended December 31, 2022 are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves,

and other additional procedures in accordance with GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.
- The certified investment information in the supplemental schedules agree to, or is derived from, in all material respects, the information prepared and certified by qualified institutions that management determined meets the requirements of ERISA Section 103(a)(3)(C).

1. Plan Description

The following description of the Acrisure 401(k) Savings Plan (the Plan) provides only general information. Participants should refer to the Plan Agreement for a more complete description of the Plan's provisions.

General

The Plan was formed on January 1, 2016 as a single-employer defined contribution plan available to eligible employees of Acrisure Holdings, Inc. and related entities (collectively, the Company or Plan Sponsor). Acrisure, LLC is the Plan Administrator for the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Employees become eligible to participate on the first day of the calendar quarter after the employee completes 30 days of service and meets age-21 requirement. As the Company acquires entities that become either a related employer or a new division of the employer, the entity may enter a participation agreement with the Plan Sponsor and employees become eligible to participate in the Plan.

Effective April 1, 2022, the Plan transitioned its trustee services to Principal Trust Company and its recordkeeping services to Principal Financial Group. Plan assets and participant balances moved from Alerus Financial, N.A. in April 2022.

Contributions

Participants may contribute a percentage of their annual compensation, subject to certain limitations, up to the maximum allowable under the Internal Revenue Code (IRC), with the contributions and earnings thereon receiving favorable tax treatment as inherent to retirement plans. Matching formulas are determined by the employers based on provision elections. The Company may also make discretionary contributions to the Plan subject to the approval of the Board of Trustees. There were no discretionary contributions made by the employer for Plan years ended December 31, 2022 and 2021.

Vesting

Participants are fully vested in all accounts.

Participant Accounts

Each participant's account is credited with the participant's contributions, an allocation of the Company's contribution, and an allocation of the net Plan earnings and expenses. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Payment of Benefits

Prior to April 1, 2022, benefit payments were payable as a single lump-sum payment. Effective April 1, 2022, a participant may elect to receive a single lump-sum payment, payments in the amounts and at the times periodically elected, or a combination of these optional forms of payment. The full value of the participant's account is payable upon retirement, death, or disability. The

vested account balance is payable upon separation. In-service withdrawals are permitted upon attaining age 59½ and in cases of financial hardship. A participant may request a distribution from their rollover account or after-tax contribution account at any time.

Notes Receivable from Participants

The Plan allows participants to borrow from their accounts a maximum equal to the lessor of $50,000 or 50% of their vested account balance. The minimum loan amount is $1,000. The loans are secured by the balance in the participant's account and new loans bear a fixed rate of interest at the prime rate determined at origination. Outstanding loans, including transferred loans, have interest rates ranging from 2.00% to 9.25% at December 31, 2022. Principal and interest are paid ratably through regular payroll deductions. The loan must be repaid within five years or less. If the loan is for the purchase of a primary residence, the loan must be repaid within 15 years.

Investment Options

Participants may direct the investment of their account balances into various investment options offered by the Plan.

Forfeitures

Amounts forfeited primarily relate to unvested participant balances from prior plans that have transferred to the Plan. During 2022 and 2021, forfeitures of $2,087 and $28,348, respectively, were used to pay Plan expenses, and forfeitures of $14,597 and $9,012, respectively, were used to offset employer contributions. There were $7,433 and $0 unused forfeitures as of December 31, 2022 and 2021.

Administrative Expenses

Certain custodian fees, transaction fees, and other administrative expenses are paid by the Plan and are based on reasonable and customary rates. Certain other costs and expenses incurred in connection with the operation of the Plan are paid by the Company.

2. Significant Accounting Policies

Basis of Accounting

The accompanying financial statements have been prepared under the accrual method of accounting.

Use of Estimates

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America (GAAP) requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Risks and Uncertainties

The Plan provides for investment options in various mutual funds. These investment securities are exposed to various risks, such as interest rate, market, liquidity, and credit risks. Due to the level of risk associated with certain investment securities and the sensitivity of certain fair value estimates to changes in valuation assumptions, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits and participants' individual account balances.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value, except for the guaranteed investment contract noted below. Fair value is the price that would be received to sell an asset (an exit price) in the principal or most advantageous market for the asset in an orderly transaction between market participants on the measurement date. See Note 3 for discussion of fair value measurements.

Guaranteed investment contracts held by a defined contribution plan that are fully benefit responsive are reported at contract value. Contract value is the relevant measurement because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the contract. Contract value represents net contributions plus interest at the contract rate. See Note 5 for a discussion of guaranteed investment contracts.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Divided income is recorded on the ex-dividend date. Net (depreciation) appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Participant notes receivable are recorded at their unpaid principal balances plus any accrued interest. Participant notes receivable are written off when deemed uncollectible and are recorded as benefits paid to participants in the statements of changes in net assets available for benefits.

Payment of Benefits

Benefits are recorded when paid.

3. Investments

In accordance with Accounting Standards Codification 820, *Fair Value Measurements and Disclosures,* the Plan utilizes a fair value hierarchy for valuation inputs that gives the highest priority to quoted prices in active markets for identical assets (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

The three levels of the fair value hierarchy are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets in active markets.

Level 2 - Inputs to the valuation methodology include quoted prices for similar assets in active markets, quoted prices for identical or similar assets in inactive markets, and other inputs that are observable or can be corroborated by observable market data.

Level 3 - Inputs to the valuation methodology are both significant to the fair value measurement and unobservable.

The following valuation methodologies were used to measure the fair value of the Plan's investments:

Collective Investment Trust - The Plan invests in the Galliard Stable Return Fund, a collective investment trust. The fair value of the Plan's interest in the fund is based on net asset value (NAV) as determined by the fund manager based on the underlying investments of the fund (primarily guaranteed investment contracts and fixed-income securities) and as supported by the unit prices of actual purchases and sales transactions occurring as of or close to the financial statement date. The NAV is used as a practical expedient to estimate fair value. This practical expedient would not be used if it is determined to be probable that the fund will sell the investment for an amount different from the reported NAV. The fund provides for daily redemptions by the Plan at reported NAV with no advance-notice requirement. The Plan is permitted to redeem investment units at NAV on the measurement date. There are no unfunded commitments related to this investment.

Money Market Fund – These funds are valued at the NAV of the shares held by the Plan at year-end and are determined based on the value of the underlying investments of the fund. The money market fund seeks to maintain a $1.00 NAV.

Mutual Funds – These funds are valued at quoted market prices in an exchange and active market, which represents the NAV of shares held by the Plan. The mutual funds held by the Plan are deemed to be actively traded.

Pooled Separate Account (PSA) - Units held in the PSA are valued based on the underlying investments (i.e., common stock, mutual funds, and short-term securities). While the majority of the underlying asset values are based on quoted prices, the NAV of the PSA is not publicly quoted. The NAV is reported by the fund managers as of the financial statement date based on recent transaction prices and is used as a practical expedient to estimate fair value. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. The PSA held by the Plan provides for daily redemptions by the Plan at the reported NAV with no advance-notice requirement. The Plan is permitted to redeem investment units at the NAV on the measurement date. There were no unfunded commitments as of December 31, 2022.

Guaranteed Interest Account (GIA) - The GIA is a fixed return product with annual interest rate guarantees and is credited on a net daily basis at annual effective rates. Fair value is determined based on a discounted cash flow model by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the creditworthiness of the issuer or the theoretical exit price. Principal Life Insurance Company values the GIA based on the amount

paid when funds are withdrawn prior to its maturity for an event other than death, disability, termination, or retirement. The fair value represents contract value adjusted to reflect current market interest rates only to the extent such market rates exceed crediting rates.

The Plan's valuation methods may result in a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Although Plan management believes the valuation methods are appropriate and consistent with the market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

There have been no significant transfers into or out of Levels 1, 2, or 3. The following tables set forth the Plan's investments by level within the fair value hierarchy:

4. Information Certified by Qualified Institutions

The Plan Administrator has elected the method of annual reporting compliance permitted by ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Alerus Financial, N.A. and Principal Trust Company, qualified institutions, have certified that the following investment information included in the accompanying financial statements and ERISA-required supplemental schedule are complete and accurate:

- Investments, due to/due from broker and notes receivable from participants, as shown in the statements of net assets available for benefits as of December 31, 2022 and 2021.
- Investment (loss) income and interest income on notes receivable from participants, as shown in the statements of changes in net assets available for benefits for the years ended December 31, 2022 and 2021.
- Investment information included in the Schedule of Assets (Held at End of Year) as of December 31, 2022, as shown on the ERISA-required supplemental schedule.

At the request of the Plan Administrator, the Plan's independent auditors did not perform auditing procedures with respect to this certified investment information, except for comparing such certified investment information to the related investment information included in the financial statements and ERISA-required supplemental schedule, including reading the disclosures related to the investment information to assess whether they are in accordance with the presentation and disclosure requirements of GAAP, and, in the ERISA-required supplemental schedule, including assessing whether the supplemental schedule is in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

5. Guaranteed Investment Contract

The Plan invests in a benefit-responsive investment contract with Principal Life Insurance Company, the Principal Fixed Income Guaranteed Option (PFIGO). Principal Life Insurance Company maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses.

Contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the contract. Participants ordinarily may direct the withdrawal or transfer of all or a portion of their investment at contract value. The contract has a 5% surrender fee should the Plan discontinue without proper notification, as prescribed in the contract.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan Sponsor or other Plan Sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan Administrator believes that any events that would limit the Plan's ability to transact at contract value with participants are not probable of occurring.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest rate is a blended rate determined using a dollar-weighted average of all the guaranteed interest rates of the guaranteed interest funds under this contract. Under the terms of the existing contract, the crediting rate is currently reset on a semi-annual basis. The PFIGO is a single group annuity contract with a fixed rate of interest. Changes in future crediting interest rates will not affect the amount reported as an adjustment from fair value to contract value on the statements of net assets available for benefits.

6. Related Party and Party-in-Interest Transactions

Certain Plan investments are units of a guaranteed investment contract, guaranteed interest account, and a PSA, which are managed by Principal Life Insurance Company and Principal Trust Company, the contract holder and trustee, respectively, of the Plan. Therefore, these transactions qualify as party-in-interest transactions. Fees paid to Principal Life Insurance Company were $272,932 for the year ended December 31, 2022.

The Plan Sponsor provides certain accounting, recordkeeping, and administrative services for the Plan for which no compensation is received. Administrative expenses for legal, accounting, and

other services are rendered by parties-in-interest and are paid by the Plan Sponsor. Notes receivable from participants also qualify as party-in-interest transactions.

In 2022 and 2021, the Plan paid administrative expenses of $375,236 and $781,449, respectively, to Alerus Financial Services for investment advisory, asset management, and recordkeeping services.

7. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

8. Income Tax Status

On June 30, 2020, the Internal Revenue Service (IRS) stated that the volume-submitter plan adopted by the Plan, as then designed, qualifies under Section 401(a) of the IRC. The Plan has been amended since receiving the opinion letter. However, the Plan Administrator believes the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions, however, there currently are no audits for any tax periods in progress.

9. Plan Transfers

As a result of Company acquisitions during 2022 and 2021, certain legacy plans of acquired entities were transferred into the Plan, resulting in $33,959,590 and $70,141,008 transferred in from other qualified plans during 2022 and 2021, respectively.

10. Delinquent Participant Contributions

The Company failed to remit certain contributions and loan repayments to the Plan in the amount of $10,971,440 for the year ended December 31, 2022 in a timely manner, according to the DOL's regulations. The Company is in the process of calculating the lost earnings.

The Company failed to remit certain contributions and loan repayments to the Plan in the amount of $711,659 for the year ended December 31, 2020 in a timely manner, according to the DOL's regulations. The Company calculated lost earnings of $481, which were remitted to the Plan in 2021 through the Voluntary Fiduciary Correction Program (VFCP). On January 19, 2023, the DOL issued a No Action Letter in response to the VFCP filing.

11. Subsequent Events

Subsequent events have been evaluated by management through June 18, 2024, the date these financial statements were available to be issued.

As a result of Company acquisitions during 2023 and 2024, certain legacy plans of acquired entities were transferred into the Plan, resulting in approximately $95,500,000 transferred in from other qualified plans from January 1, 2023 through June 18, 2024.
