NOTES TO FINANCIAL STATEMENTS

1. Description of Plan

The following description of the Day Group, Inc. 401(k) Profit Sharing Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution plan covering all employees of The Day Group, LLC (the Employer) who have one year of service, 1,000 hours of service, and are age twenty-one or older. The Plan was established on February 14, 2003 and is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions: Each year, participants may contribute up to 18% of their compensation, as defined in the Plan document. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers twenty-five mutual funds and one common/collective trust account. The Employer reserves the right to determine the percentage of matching contributions it will make on behalf of the participants. During the year ended December 31, 2009, the Employer did not contribute to the Plan.

Participant Accounts: Each participant's account is credited with the participant's contribution and allocations of (a) the Employer's contribution and (b) Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting: Participants are vested immediately in their contributions plus actual earnings thereon. Vesting in the Employer's contribution portion of their accounts is based on years of continuous service. A participant is 100% vested after 6 years of credited service, with vesting percentages as follows:

1 year	0%
2 years	20%
3 years	40%
4 years	60%
5 years	80%
6 years	100%

Participant Loans: Participant loans are not permitted by the Plan.

NOTES TO FINANCIAL STATEMENTS

1. Description of Plan (continued)

Payment of Benefits: On termination of service due to death, disability, or retirement, a participant may elect to receive a lump-sum amount equal to the value of the participant's vested interest in their account, or annual installments over a ten-year period. For termination of service for other reasons, a participant may receive the value of the vested interest in their account as a lump-sum distribution.

Forfeitures: At December 31, 2009 and 2008, forfeited nonvested accounts totaled \$1,345 and \$1,332 respectively. These accounts will be used to pay Plan expenses. Any remaining forfeitures will be used to reduce future Employer contributions or pay administrative Plan expenses.

2. Summary of Significant Accounting Policies

Basis of Accounting: The financial statements of the Plan are prepared under the accrual method of accounting.

Investment Valuation and Income Recognition: Investments are reported at estimated fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for further discussion of fair value measurements.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Statements of Net Assets Available for Benefits presents the fair value of the investment contract as well as the adjustment of the fully-benefit responsive investment contract from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on the investments bought and sold as well as investments held during the year.

Payment of Benefits: Benefits are recorded when paid.

Use of Estimates: The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from these estimates.

Operating Expenses: A significant portion of expenses of maintaining the Plan are paid by the Employer.

NOTES TO FINANCIAL STATEMENTS

2. Summary of Significant Accounting Policies (continued)

Recent accounting pronouncements

Effective July 1, 2009, the Plan adopted the Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) as the single source of authoritative accounting principles generally accepted in the United States of America (U.S. GAAP). All guidance in the Codification carries an equal level of authority. After the effective date of the Codification, all nongrandfathered accounting literature not included in the Codification is superseded and deemed nonauthoritative. FASB will issue Accounting Standards Updates (ASUs), which will serve to update FASB ASC, provide background information about the guidance and provide the basis for conclusions on the changes to FASB ASC. FASB ASC is not intended to change U.S. GAAP. This guidance is effective for the Plan as of December 31, 2009.

3. Investments (unaudited)

The fair value of investments that represented 5% or more of the Plan's net assets available for benefits as of the end of the year are as follows:

	<u>2009</u>	<u>2008</u>
FA Stable Value Fund	\$ 225,197	\$ 200,516
FA Freedom 2010 A	148,866	93,586
FA Freedom 2030 A	282,675	211,066
FA Freedom 2015 A	121,768	182,282
FA Freedom 2025 A	231,415	151,264
Am Cent Heritage A	<u>394,044</u>	<u>279,153</u>
	<u>\$ 1,403,964</u>	<u>\$ 1,117,867</u>

During the year ended December 31, 2009 the Plan's investments (including investments bought, sold, and held during the year) appreciated in value by \$394,071 as follows:

Common/collective trust	\$ 8,936
Mutual funds	<u>379,341</u>
	388,277
Adjustment from fair value to contract value for fully benefit responsive investment contracts	<u>5,794</u>
	<u>\$ 394,071</u>

NOTES TO FINANCIAL STATEMENTS

3. Investments (unaudited) (continued)

Certain events limit the ability of the Plan to transact at contract value with the issuer related to the common/collective trust. Such events include the following: (1) amendments to the Plan documents (including complete or partial plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan administrator does not believe that any events which would limit the Plan's ability to transact at contract value with participants are probable of occurring.

The crediting interest rate for the common/collective trust is based on a formula agreed upon with the issuer. Guaranteed interest rates are announced annually and are guaranteed against change for the year. The crediting interest rate and average yield was approximately 1.35% and 2.70%, respectively, for the year ended December 31, 2009. There are no reserves against contract value for credit risk of the contract issuer or otherwise.

4. Fair Value Measurements

The Fair Value Measurements and Disclosures topic of FASB ASC provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under the framework are described as follows:

- Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
- Level 2 – Inputs are based upon quoted prices for similar instruments in active markets; quoted prices for identical or similar instruments in markets that are not active, and model-based valuation techniques for which all significant assumptions are observable in the market or can be corroborated by observable market data for substantially the full term of assets or liabilities.
- Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

4. **Fair Value Measurements** (continued)

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2009 and 2008.

Mutual funds: Valued at the net asset value (NAV) of shares held by the Plan at year end.

Common/collective trust: Valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan administrator believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2009:

	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>

4. Fair value measurements (continued)

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2008:

	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>
Mutual funds	\$ 1,246,623	\$ -	\$ -	1,246,623

	<u>\$ 1,246,623</u>	<u>\$ 200,516</u>	<u>\$ -</u>	<u>\$ 1,447,139</u>

5. Income Tax Status

The Plan is exempt from income taxes under Section 401(a) of the Internal Revenue Code. The Plan has executed an adoption agreement using the Prototype Non-standardized Profit Sharing Plan with CODA and relies on the determination letter issued for the prototype plan dated October 9, 2003. Although the Plan has been amended since receiving the determination letter, the Plan administrator believes the Plan is designed and is currently being operated in compliance with the applicable requirements of the Internal Revenue Code.

On January 1, 2009, the Plan adopted the recent accounting guidance related to accounting for uncertainty in income taxes, which sets out a consistent framework to determine the appropriate level of tax reserves to maintain for uncertain tax positions. Plan administration recognizes the effect of income tax positions only if the positions are more likely than not of being sustained. Recognized income tax positions are recorded at the largest amount that is greater than 50% likely of being realized. Changes in the recognition or measurement are reflected in the period in which the change in judgment occurs. The Plan administration has evaluated its position regarding the accounting for uncertain income tax positions. Plan administration does not believe that it has any material uncertain tax positions. With few exceptions, the Plan is no longer subject to federal, state, or local tax examinations by tax authorities for years before 2006.

6. Plan Termination

Although it has not expressed any intent to do so, the Employer has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. Upon termination, participants would become 100% vested in their Employer contributions.

NOTES TO FINANCIAL STATEMENTS

7. Related Party Transactions

Fidelity Management Trust Company is the trustee and administers the assets of the Plan. Therefore, they are a party-in-interest. The Plan pays administrative fees to Fidelity Management Trust Company. The amount of fees paid during the year ended December 31, 2009, totaled \$5,803.

8. Information Certified by the Plan's Trustee

Pursuant to CFR 2520.103-8, the Plan qualified for a limited scope audit. Information relating to investment assets, investment transactions, investment earnings, and schedule of assets held for investment purposes was certified as complete and accurate by the trustee, Fidelity Management Trust Company, as of December 31, 2009 and 2008 and for the year ended December 31, 2009.

9. Risks and Uncertainties

The Plan provides for various instruments in insurance contracts containing mutual funds and a common collective trust. Investment securities, in general, are exposed to various risks, such as interest rate, credit and overall market volatility risk. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term, and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

10. Subsequent Event

Management has evaluated subsequent events through the date that the financial statements were available to be issued, October 7, 2010, and determined that no subsequent events occurring after this date have been evaluated for inclusion in these financial statements.
