Independent Auditor's Report

The Audit Committee
The College of Idaho 403(b) Retirement Plan
Caldwell, Idaho

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of The College of Idaho 403(b) Retirement Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit. The financial statements comprise the statements of net assets available for benefits as of December 31, 2023 and 2022, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from qualified institutions as of December 31, 2023 and 2022 and for the years then ended, stating that the certified investment information, as described in Note 4 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section:

- the amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

- the information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of The College of Idaho 403(b) Retirement Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about The College of Idaho 403(b) Retirement Plan's ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor’s Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of The College of Idaho 403(b) Retirement Plan's internal control. Accordingly, no such opinion is expressed.

- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about The College of Idaho 403(b) Retirement Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter – Supplemental Schedule Required by ERISA

The supplemental Schedule H, line 4i-schedule of assets held at end of year as December 31, 2023, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is

derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- the form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

- the information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Note 1 - Description of Plan

The following brief description of The College of Idaho 403(b) Retirement Plan (the Plan) is provided for general information purposes only. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering qualified employees of The College of Idaho (the Sponsor). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

The Retirement Advisory Committee determines the appropriateness of the Plan's investment offerings and monitors investment performance.

Eligibility

Employees, who are not considered students, leased employees, or nonresident alien employees who receive no U.S. source earned income, are eligible to participate in the Plan immediately. If employees work 20 hours a week or more, they are further eligible for employer contributions after a year of service with at least 1,000 hours during a 12-month consecutive period.

Entry Date

Employees may enter the Plan on the first day of the first payroll period commencing after the date the eligibility requirements are satisfied. Effective January 1, 2024, the Plan was amended to automatically enroll new hires in the Plan. Under the auto-enroll provision, participants would begin contributing at 3%, with a 1% annual auto-escalation and 1-year cliff vesting schedule. As the Qualified Default Investment Alternative, participant contributions are invested in a Target Maturity Fund that coincides with the participant's date of birth, unless the participant elects a different investment option.

Contributions

Each year, participants may contribute up to the Internal Revenue Code (IRC) limitations of their pretax annual compensation, as defined in the Plan. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Participants who have worked for the Sponsor for at least 15 years are eligible for a special 403(b) catch-up contribution. The Sponsor's contribution, which is discretionary, traditionally matches the employee's contribution up to 7% of base compensation consistent with eligibility provisions. Additional amounts may be contributed at the discretion of the Sponsor's Board of Trustees. No such additional discretionary contributions were made for the years ended December 31, 2023 and 2022. Participants may also contribute amounts representing distributions from other qualified plans (rollover).

Participant Accounts

Each participant's account is credited with the participant's contribution, as well as allocations of the Sponsor's discretionary contributions and Plan earnings. Participant accounts are charged a fixed fee reflecting an allocation of administrative expenses that are paid by the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Investment Options

Upon enrollment to the Plan, a participant may direct deferrals and employer contributions in any of the funds offered by the Plan. Participants may change their investment options daily.

Vesting

Participants are vested immediately in all contributions, plus actual earnings thereon, subject to the auto-enroll provision effective January 1, 2024.

Notes Receivable from Participants

Participants investing through Teachers Insurance and Annuity Association of America and College Retirement Equities Fund (TIAA-CREF) may use their vested balance to collateralize loans directly from TIAA-CREF to the participant, outside of the Plan. The balances of these plan loans are not paid through payroll deductions, are not included in the Plan, and are thus not reported in the statements of net assets available for benefits. There are no loan balances collateralized by the Plan's assets as of December 31, 2023 and 2022.

Participants investing through Corebridge Financial, formerly referred to as AIG Retirement Services (AIG), may use their vested balance to collateralize loans directly from Corebridge Financial outside the Plan. The balances of these policy loans are not paid through payroll deductions and are not included in the Plan assets. However, upon commencement of the loan, an amount equal to the principal amount loaned by Corebridge Financial is transferred from the participant's investment account to the Loan Collateral Fund and Loan Escrow Fund. These Funds are fixed income investments that earn a stated rate of interest that is allocated to the individual participant. As payments are made to Corebridge Financial outside the Plan, the collateral is released from the Loan Collateral and Loan Escrow Funds and reinvested according to participant elections for contributions. A policy loan is considered to be in default when no payments are made within 45 days after the due date of the payment. Upon default, Corebridge Financial will foreclose on the loan and remove the collateral from the Plan if the participant has a right to a current distribution. If the participant is not eligible for a current distribution, the collateral will remain in the Plan until the loan is paid in full or the participant becomes eligible for a distribution. The loan balance collateralized by the Plan's assets as of December 31, 2023 and 2022, was $18,172 and $37,569, respectively.

Payment of Benefits

Participants may elect to receive either a lump-sum amount equal to the value of their vested interest or annual installments as defined in the Plan document upon retirement, termination of service, death, or disability. A terminated participant with a balance of less than $1,000 may be automatically paid out by the Plan upon

termination. Any terminated participants with a balance between $1,000 and $5,000 can elect an automatic payout, or roll the balance into a qualified individual Retirement Account. Distributions may be made at the participant's election prior to termination upon attainment of age 59 ½ or hardship as defined in the Plan document.

Plan Termination

The Sponsor has not expressed any intent to terminate the Plan, the Sponsor has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA.

Note 2 - Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of the financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Actual results may differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value except for the fully benefit-responsive investment contracts, which are reported at contract value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Contract value is the relevant measure for the portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the Plan. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Interest income is recorded on an accrual basis. Net increase (decrease) includes the Plan's gains and losses on investments bought and sold as well as those held during the year.

The classification of investment earnings reported in the statements of changes in net assets available for benefits may differ from the classification of earnings on Form 5500 due to different reporting requirements on Form 5500.

Contributions

Participant contributions and the related Company matching contributions are recorded in the year in which the employee contributions are withheld from compensation.

Payments of Benefits

Benefit payments to participants are recorded upon distribution.

Expenses

The Plan's expenses are paid by either the Plan or the Sponsor, as provided by the Plan document. Expenses that are paid directly by the Sponsor are excluded from these financial statements. Certain expenses incurred in connection with the general administration of the Plan that are paid by the Plan are recorded as deductions in the accompanying statements of changes in net assets available for benefits. In addition, certain investment related expenses are included in net increase (decrease) of the fair value of investments presented in the accompanying statements of changes in net assets available for benefits.

Note 3 - Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under the Financial Accounting Standard Board (FASB) Accounting Standards Codification (ASC) 820 are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:
- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used on December 31, 2023 and 2022.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-ended mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Pooled separate accounts: The fair value of an investment is measured using an income approach and discounting the related cash flows based on current yields of similar instruments with comparable durations considering the creditworthiness of the issuer.

Annuity contract (TIAA): Valued at fair value by the insurance company by discounting the related cash flows based on current yields of similar investments with comparable durations considering the creditworthiness of the issuer (see Note 6). Contract value is considered to approximate fair value. In determining the reasonableness of the methodology, the plan advisory committee in conjunction with the committee's plan consultant reviews the investment information provided by the vendor.

Annuity contract (Ameriprise and Corebridge Financial): Valued at the NAV of accumulation units held by the Plan at year end. The underlying assets within the annuity contract are valued at the market value; however, the annuity contract is not valued by independent sources. Participant transactions (purchases and sales) may occur daily. Were the Plan or individual investors to initiate a full redemption of the account, the investment would be subject to surrender charges.

Policy loan collateral and escrow fixed interest contracts: Valued at fair value by discounting the related cash flows based on the stated rate. Contract value is considered to approximate fair value.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2023 and 2022:

	2023			
	(Level 1)	(Level 2)	(Level 3)	Total
Mutual funds	$ 36,934,835	$ -	$ -	$ 36,934,835
Annuity contracts	3,115,424	-	4,402,200	7,517,624
Pooled Separate Account	-	-	354,146	354,146

Total investments in the fair value hierarchy	$ 40,050,259	$ 27,858	$ 4,756,346	44,834,463
Investments at net asset value (a)				1,123,074
Total investments at fair value				$ 45,957,537

	2022			
	(Level 1)	(Level 2)	(Level 3)	Total
Mutual funds	$ 31,406,830	$ -	$ -	$ 31,406,830
Annuity contracts	2,630,610	-	5,288,883	7,919,493
Pooled Separate Account	-		557,657	557,657
Policy loan collateral and escrow fixed interest contracts	-	46,705	-	46,705
Total investments in the fair value hierarchy	$ 34,037,440	$ 46,705	$ 5,846,540	39,930,685
Investments at net asset value (a)				1,181,021
Total investments at fair value				$ 41,111,706

(a) In accordance with FASB ASC Subtopic 820-10, certain investments that were measured at net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statements of net assets available for benefits.

Changes in Fair Value of Level 3 Assets

The table below sets forth certain changes in the fair value of the Plan's Level 3 assets for the years ended December 31, 2023 and 2022:

	2023	2022
Transfers in	$ 353,877	$ 645,817
Transfers out	$ (360,246)	$ (586,961)
Purchased	$ 180,678	$ 268,557
Issuances	$ (627,974)	$ (481,816)

The following table sets forth the disclosure for the fair value measurement of investments that are measured at Net Asset Value per share (or its equivalent) as a practical expedient as of December 31, 2023 and 2022:

	Fair Value December 31, 2023	Fair Value December 31, 2022	Unfunded Commitments	Redemption Frequency	Redemption Notice Period
Annuity Contracts (i)	$ 1,123,074	$ 1,181,021	$ -	Daily	Daily

(i) The Ameriprise and Corebridge Financial Annuity Contracts offers the opportunity to take advantage of market gains over time. A variable annuity's rate of return changes along with the market, making it a valuable long-term investment tool. Variable annuities offer unique optional living benefit riders for an added fee, that may allow the funds to grow their savings, lock in market gains, and guarantee income for life.

Quantitative Information about Significant Unobservable Inputs Used in Level 3 Fair Value Measurements

The following table represents the Plan's Level 3 financial instruments, the valuation techniques used to measure the fair value of those financial instruments, the significant unobservable inputs, and the ranges of values for those inputs.

Note 4 - Certified Information

Certain information related to investments disclosed in the accompanying financial statements and ERISA-required supplemental schedule, including investments and notes receivable from participants held at December 31, 2023 and 2022, and net increase (decrease) in fair value of investments, interest and dividends, and interest income on notes receivable from participants for the years then ended December 31, 2023 and 2022, was obtained by management and agreed to or derived from information certified as complete and accurate by TIAA-CREF, VALIC (doing business as Corebridge Financial), and, Ameriprise Trust Company and RiverSource Life Insurance Company (referred to together as Ameriprise), the Custodians of the Plan.

Note 5 - Tax Status

The Plan has been designed to qualify under Section 403(b) of the Internal Revenue Code (IRC). The Plan uses a pre-approved plan document sponsored by the Custodians, which received an advisory letter from the Internal Revenue Service (IRS), dated April 5, 2018, stating that the pre-approved document satisfies the applicable provisions of the IRC. The Plan's management believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service (IRS). The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 6 - Guaranteed Investment Contracts

The Plan entered into a fully benefit-responsive guaranteed investment contracts (GIC) with Corebridge Financial and TIAA-CREF. Corebridge Financial and TIAA-CREF maintain the contributions in a general account, which is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The GIC issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan. The crediting interest rate is based on a formula agreed upon by the issuer, but it may not be less than 3% for accounts set up prior to December 1, 2003, and 2% for accounts established since December 1, 2003, and 1% for the short-term fund. Such interest rates are reviewed on a quarterly basis for resetting. The GIC does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

Because the GIC is fully benefit-responsive, contract value is the relevant measure for the GIC, as this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value as reported to the Plan by Corebridge Financial and TIAA-CREF represents contributions made under the contract, plus earnings, less participant withdrawals, and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. The contract value of the investment contract at December 31, 2023 and 2022, was $2,061,325 and $1,527,960, respectively.

The Plan's ability to receive amounts due is dependent on the issuer's ability to meet financial obligations. The issuer's ability to meet its contractual obligations may be affected by future economic and regulatory developments. No events are probable of occurring that might limit the ability of the Plan to transact at contract value with the contract issuers and that would limit the ability of the Plan to transact at contract value with the participants.

The Plan entered into an investment contract with TIAA-CREF. As part of the contract, TIAA-CREF maintains a portion of the contributions in a guaranteed account. The account is credited with earnings on the underlying investments and charged for Plan withdrawals and administrative expenses charged by TIAA-CREF. The guaranteed account is included in the financial statements at fair value.

Note 7 - Related Party and Party-in-Interest Transactions

Certain Plan investments are shares of investments managed by the custodians as defined by the Plan. As described in Note 2, the Plan paid certain expenses related to Plan operations and investment activity to various service providers. These transactions are exempt party-in-interest transactions under ERISA.

Note 8 - Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Market risks include global events that could impact the value of investment securities, such as a pandemic or global conflict. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 9 - Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements at December 31, 2023 and 2022 to Form 5500.

	2023	2022

Plan loans in default and deemed distributed	(20,995)	(20,087)
Net assets per the Form 5500	$47,997,867	$42,619,579

The following is a reconciliation of the change in net assets available for benefits per the financial statements at December 31, 2023 and 2022 to form 5500:

	2023	2022
Net increase/(decrease) per the financials	$ 5,379,196	$ (7,304,469)
Plan loans in default and deemed distributed	(908)	(866)
Net increase per the Form 5500	$ 5,378,288	$ (7,305,335)

Note 10 - Subsequent Events

The plan sponsor has evaluated subsequent events through July 10, 2024, the date which the financial statements were available to be issued.
