Note 1. DESCRIPTION OF PLAN

The following description of Johnson & Johnson, Inc. 401(k) Profit Sharing Plan & Trust (the "Plan") provides only general information. Users of the financial statements and supplemental schedule should refer to the Plan documents for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution plan established to provide for contributions made under salary deferral agreements pursuant to Section 401(k) of the internal Revenue Code (the "Code"). The Plan covers substantially all eligible employees of Johnson & Johnson, Inc., The Kinjac Corp., Inc., Johnson & Johnson Transport, Inc. and Madison Environ-mental Services, Inc. (hereafter collectively referred to as the "Company"). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Eligibility: Employees may participate in the Plan once they are age 21 and have one year of service (1,000 hours of service in a 12 consecutive month period).

Contributions: Eligible employees may contribute a specified dollar amount or a percentage of their pretax annual compensation to limits as defined in the Plan and other limits according to the Code.

The Company may make matching contributions, at its discretion, equal to a specified percent of each participant's deferral amounts as defined in the Plan. In addition, the Company may make an additional discretionary contribution to participants of the Plan as deemed appropriate by the Company. Contributions are subject to limitations as provided in the Code and as defined in the Plan.

Participant Accounts: Each participant's account is credited with the participant's contributions, the Company's matching contribution, an allocation of the Company's additional discretionary contribution, if any, and Plan earnings. Each participant's account is charged with Plan losses and expenses, if any. Allocations are based on participant account balances, as defined. The benefit to which a participant is entitled to is the benefit that can be provided from the participant's vested account.

Note 1. DESCRIPTION OF PLAN (continued…)

Investment Options: Upon enrollment in the Plan, a participant may direct contributions to one or more investment options. Participants may change their investment options at any time. See the accompany schedule of assets held for a list of investment options currently available.

Vesting: Participants are immediately vested in their salary redirection, voluntary rollovers, and the actual allocated earnings thereon. Vesting in the Company's matching and discretionary contributions plus actual earnings thereon occurs under the following schedule:

Years of Service	Vested Percentage
Less than 2	0 %
2	20 %
3	40 %
4	60 %
5	80 %
6	100 %

Forfeitures: Upon termination of employment the non-vested portion of a participant's account is forfeited. Forfeitures are returned to the Company or used to reduce the Company's matching contributions.

Benefit Payments: Upon normal retirement, termination of employment, death or disability, or termination of the Plan, the participant or beneficiary may elect to receive an amount equal to the value of the participant's vested interest in his or her account under several options. A participant may defer paying tax on some taxable payments by electing a rollover distribution.

Withdrawals may also be made in conjunction with IRS hardship distribution regulations.

Note 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting: The financial statements of the Plan are prepared using the accrual method of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Statements of Net Assets Available for Benefits and The Statements of Changes in Net Assets Available for Benefits are presented using the fair values of investments.

Fair Value Measurements: The Statement of Financial Accounting Standard No. 157, *Fair Value Measurements* (SFAS 157). SFAS 157 establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB Statement No. 157 are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable market data by correlation or other means;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means;

If the assets or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

Note 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued…)

Fair Value Measurements (continued…): The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs. There have been no changes in the valuation methodologies used at December 31, 2009 and 2008.

Accounting Estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Accordingly, actual results could differ from those estimates.

Valuation of Investments: The plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Investments in the insurance company general account are valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering credit worthiness of the issuer. Investments in the pooled separate accounts are valued indirectly based on observable prices for the underlying assets.

The preceding methods described may produce a fair value calculation that may not be indicative of the net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Purchases and sales of investments are recorded on the trade date. Income from investment in units of participation is recorded as earned and reinvested in the accounts. Income earned from investments and gains or losses on disposal of investments are recorded using the accrual method. Participant loans are valued at cost.

Payment of benefits: Benefits are recorded when paid.

Administrative Expense: The cost and expense of administering the Plan shall be paid, at the discretion of the Company, either directly by the Company or by the Plan through fees deducted from participant accounts.

Note 3. CERTIFICATION OF INVESTMENT INFORMATION

Hartford Life Insurance Company, the custodian of the Plan, has supplied the Plan administrator with a certification as to the completeness and accuracy of all investment information reflected on the accompanying statements of net assets available for benefits as of December 31, 2009 and 2008, the statements of changes in net assets available for benefits for the years then ended, and the supplemental schedule of assets held as of December 31, 2009 and 2008.

Note 7. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan. In the event of Plan termination, participants will become immediately 100% vested in their accounts.

Note 8. TAX STATUS

Although the Plan has not received a determination letter from the Internal Revenue Service, it has adopted a pre-approved Prototype Plan. The Plan Administrator believes that the Plan is designed and is being operated in compliance with the applicable provisions of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the plan's financial statements

Note 9. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near-term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Note 10. PARTIES-IN-INTEREST TRANSACTIONS

Administrative fees include investment fees, third party administrative fees, and other professional services, and are based on customary charges as shall be agreed to from time to time. Certain of these expenses are absorbed by the Plan sponsor. Certain administrative functions are performed by officers or employees of the Plan's sponsor. No such officer or employee receives compensation from the Plan.
