Independent Accountants' Report

Plan Administrator
North Florida Sales 401(k) Profit-sharing Plan
Jacksonville, Florida

We were engaged to audit the accompanying statements of net assets available for benefits of the North Florida Sales 401(k) Profit-sharing Plan (Plan) as of December 31, 2009 and 2008, and the related statements of changes in net assets available for benefits for the years then ended and the accompanying supplemental schedule. These financial statements and schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under the *Employee Retirement Income Security Act of 1974* (ERISA), the Plan administrator instructed us not to perform, and we did not perform, auditing procedures with respect to the information summarized in Note 3, which was certified by Hartford Life Insurance Company, the custodian of the Plan, except for comparing such information with the related information included in the financial statements and supplemental schedule. We have been informed by the Plan administrator that the custodian holds the Plan's investment assets and executes investment transactions. The Plan administrator has obtained certifications from the custodian as of and for the years ended December 31, 2009 and 2008, that the information provided to the Plan administrator by the custodian is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and schedule taken as a whole. The form and content of the information included in the financial statements and schedule, other than that derived from the information certified by the custodian, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

Notes to Financial Statements

December 31, 2009 and 2008

Note 1: Description of the North Florida 401(k) Profit-sharing Plan

The following description of the North Florida Sales 401(k) Profit-sharing Plan (Plan) provides only general information. Participants should refer to the Plan Document and *Summary Plan Description* for a more complete description of the Plan's provisions, which are available from the Plan administrator.

General

The Plan is a defined contribution plan sponsored by North Florida Sales (Company) for the benefit of its employees who have at least one year of service and are age 21 or older. The Plan is subject to the provisions of the *Employee Retirement Income Security Act of 1974* (ERISA). V. G. Pelham and M. Gregory Flowers are the trustees of the Plan. The Hartford Life Insurance Company (Hartford) serves as Plan custodian.

Contributions

The Plan permits eligible employees through a salary deferral election to have the Company make annual contributions of eligible compensation. Contributions are subject to certain limitations. Employee rollover contributions are also permitted. The Company contributes to the Plan a discretionary matching contribution in an amount or percentage up to the first 15% deferred under the participant's salary deferral. Additional amounts may be contributed at the discretion of the Company's board of trustees. Forfeitures are used to reduce administrative costs, restore previously forfeited accounts then allocated to eligible participants who made elective deferrals during the year.

Participant Investment Account Options

Investment account options available include various funds. Each participant has the option of directing their contributions into any of the separate investment accounts and may change the allocation daily.

Participant Accounts

Each participant's account is credited with the participant's contribution, the Company's contribution and Plan earnings. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their voluntary contributions plus earnings thereon. Vesting in the Company's contribution portion of their accounts, plus earnings thereon is based on years of continuous service. A participant is fully vested after five years of continuous service. The nonvested balance is forfeited upon termination of service. The administrator may elect to use forfeitures to pay administration costs of the Plan or to restore previously forfeited account balances.

Payment of Benefits

Upon termination of service, an employee will receive a lump-sum amount equal to the value of his or her account.

Forfeited Accounts

At December 31, 2009 and 2008, forfeited nonvested accounts totaled $275 and $1,859, respectively. These accounts will be used as additional employer contributions. During 2009 and 2008, additional employer contributions were $1,830 and $1,640, respectively, from forfeited nonvested accounts.

Participant Loans

The Plan document includes provisions authorizing loans from the Plan to active eligible participants. Loans are made to any eligible participant demonstrating a qualifying need. The minimum amount of a loan shall be $1,000. The maximum amount of a participant's loan is determined by the available loan balance restricted to the lesser of $50,000 or 50% of the participant's vested account balance. All loans are covered by demand notes and are repayable over a period not to exceed five years (except for loans for the purchase of a principal residence) through payroll withholdings, unless the participant is paying the loan in full. Interest on the loans is based on local prevailing rates as determined by the Plan administrator.

Plan Termination

Although it has not expressed an intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan, subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

Note 2: Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. Contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan invests in investment contracts through guaranteed investment contracts within a stable asset value fund held by a pooled separate account. As required by the FSP, the statements of net assets available for benefits present the fair value of the Plan's interest in the underlying guaranteed investment contracts, as well as the adjustment of the interest in the guaranteed investment contracts from fair value to contract value relating to the investment contracts. The statements of changes in net assets available for benefits are prepared on a contract value basis.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets and changes in net assets and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

Valuation of Investments and Income Recognition

Quoted market prices, if available, are used to value investments. Participant loans are valued at amortized cost, which approximates fair value. Pooled separate accounts are valued at estimated fair value as provided by Hartford Life Insurance Company.

The fair value of the guaranteed investment contracts held by a pooled separate account is calculated by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the creditworthiness of the issuer.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Plan Tax Status

The Plan operates under a volume submitter Plan Document sponsored by AccuDraft. The volume submitter Plan Document has been filed with the appropriate agency. The volume submitter plan received its latest determination letter on January 11, 2002, in which the Internal Revenue Service stated that the form of the Plan is acceptable under Section 401 of the Internal Revenue Code (IRC). The Plan has been amended since receiving the determination letter. However, the Plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC and that the Plan was qualified and the related trust was tax-exempt as of the financial statement date. With a few exceptions, the Plan is no longer subject to U.S. federal, state and local or non-U.S. income tax examinations by tax authorities for years before 2006.

Note 3: Investments

The following table presents the Plan's investments. Investments that represent 5% or more of total Plan assets are separately identified.

	2009	2008
Pooled separate accounts		
American Funds AMCAP	$ 245,168	$ 192,745

	$ 2,373,515	$ 1,885,699

* Did not meet 5% criteria at respective financial statement date.

During the years ended December 31, 2009 and 2008, the Plan's investments (including gains and losses on investments bought, sold and held during the year) appreciated (depreciated) in value by $275,611 and $(575,893), respectively. Interest realized on the Plan's investments for the years ended December 31, 2009 and 2008, were $13,279 and $16,717, respectively.

Information on the fully benefit-responsive investment contract carried at fair value is as follows:

	2009	2008
Average yield	3.69%	6.44%
Credited interest rate at December 31	1.40%	3.27%

Note 4: Party-in-Interest Transactions

Party-in-interest transactions include those with fiduciaries or employees of the Plan, any person who provides services to the Plan, an employer whose employees are covered by the Plan, an employee organization whose members are covered by the Plan, a person who owns 50% or more of such an employer or employee association or relatives of such persons.

The Plan invests in certain funds of the Plan custodian. The Company provides certain administrative services at no cost to the Plan.

Note 5: Fair Value of Plan Assets and Liabilities

ASC Topic 820, *Fair Value Measurements*, defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Topic 820 also specifies a fair value hierarchy which requires a plan to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. The standard describes three levels of inputs that may be used to measure fair value:

Level 1 Quoted prices in active markets for identical assets or liabilities

Level 2 Observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities, quoted prices in markets that are not active, or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities

Level 3 Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities

Following is a description of the valuation methodologies and inputs used for assets and liabilities measured at fair value on a recurring basis and recognized in the accompanying statements of net assets available for benefits, as well as the general classification of such assets and liabilities pursuant to the valuation hierarchy.

Investments

Where quoted market prices are available in an active market, securities are classified within Level 1 of the valuation hierarchy. There are no Level 1 securities. If quoted market prices are not available, then fair values are estimated by using pricing models, quoted prices of securities with similar characteristics or discounted cash flows. Level 2 securities include mutual funds of pooled separate accounts. In certain cases where Level 1 or Level 2 inputs are not available, securities are classified within Level 3 of the hierarchy and include a stable asset value fund of pooled separate accounts and participant loans.

The following table presents the fair value measurements of assets and liabilities recognized in the accompanying statements of net assets available for benefits measured at fair value on a recurring basis and the level within the fair value hierarchy in which the fair value measurements fall at December 31:

	2009			
		Fair Value Measurements Using		
	Fair Value	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observ-able Inputs (Level 2)	Significant Unobserv-able Inputs (Level 3)

Note 7: Risks and Uncertainties

Investment Securities

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the participants' account balances and the amounts reported in the statements of net assets available for benefits.

Current Economic Conditions

The current protracted economic decline continues to present employee benefit plans with difficult circumstances and challenges, which in some cases has resulted in large and unanticipated declines in the fair value of investments. The financial statements have been prepared using values and information currently available to the Plan.

Given the volatility of current economic conditions, the values of assets recorded in the financial statements could change rapidly, resulting in material future adjustments in investment values that could negatively impact the Plan.

Note 8: Plan Amendment

Effective January 1, 2009, the Plan Document was amended to conform to regulations under the *Pension Protection Act of 2006* (PPA '06)

Note 9: Subsequent Events

Subsequent events have been evaluated through October 7, 2010, which is the date the financials statements were available to be issued.
