Report of Independent Auditors

To the Administrator of SWIFT 401(k) Savings Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed an audit of the accompanying financial statements of SWIFT 401(k) Savings Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2023 and 2022, and the related statement of changes in net assets available for benefits for the year ended December 31, 2023, including the related notes (collectively referred to as the "financial statements").

Management, having determined it is permissible in the circumstances, has elected to have the audit of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audit need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from qualified institutions as of December 31, 2023 and 2022 and for the year ended December 31, 2023, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audit and on the procedures performed as described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report

- the amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- the information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (US GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with US GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with US GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audit did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter – Supplemental Schedule Required by ERISA

Schedule H, Line 4i - Schedule of Assets (Held at End of Year) as of December 31, 2023 ("supplemental schedule"), is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with US GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the Department of Labor’s Rules and Regulations for Reporting and Disclosure under ERISA. In our opinion

- the form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with the Department of Labor’s Rules and Regulations for Reporting and Disclosure under ERISA.

- the information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

SWIFT 401(k) Savings Plan
Notes to Financial Statements
December 31, 2023 and 2022

1. Description of the Plan

The following description of the SWIFT 401(k) Savings Plan (the Plan) provides general information about the Plan's provisions. SWIFT – Society for Worldwide Interbank Financial Telecommunications (the Employer, Plan Sponsor and Administrator) is the plan sponsor. Participants should refer to the plan document and summary plan description for a more complete description of the Plan's provisions, copies of which may be obtained from the Plan Sponsor.

General and Eligibility

The Plan is a defined contribution savings plan covering U.S. employees of SWIFT. Employees are eligible to participate at age 21 or older, and can elect to contribute as of the first day of employment or upon reaching age 21, whichever is later. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

The Administrator's Human Resources department is responsible for the general administration of the Plan. The Plan's recordkeeper, is Empower Plan Services, LLC. The trustee and insurance company is Empower Trust Company, LLC and Empower Annuity Insurance Company of America (together, Empower). The annuity contract is provided by Empower Annuity Insurance Company of America.

Contributions

Participants may contribute on either a pretax or after-tax (the Roth feature) basis, or a combination of both. The contribution limit is the maximum dollar amount allowed under the Internal Revenue Code (IRC), which is currently $22,500. Participants who are age 50 or older are permitted to make catch-up contributions, currently limited by the IRC to an additional $7,500. Eligible employees are automatically enrolled with a 5% pretax contribution unless they affirmatively elect an alternative contribution rate or not to participate at all (the auto-enrollment feature). Participants may also roll over amounts representing distributions from other qualified defined benefit or defined contribution plans.

Employees receive an employer matching contribution equal to the sum of 100% of the portion of participant contributions, which do not exceed 3% of annual compensation, plus 50% of the portion of participant contributions between 3% and 5% of annual compensation. Employees hired after July 1, 2011, also receive a uniform employer discretionary contribution of 6%. The Plan also provides for an employer discretionary contribution for all participants who are employed as of the last day of the plan year and have worked at least 500 hours, unless the participant dies, retires, or becomes disabled during the year.

1. Description of the Plan (continued)

Discretionary contributions are allocated to participants based upon the ratio of each participant's compensation to the total compensation of all eligible participants. There was no employer discretionary contribution in 2023.

Participant Accounts

Each participant's account is credited with the participant's contributions and the Plan's matching contributions and allocations of plan earnings based on participant's account balances. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their individual contributions and employer contributions, plus actual earnings thereon; however, employer contributions may not be distributed for reasons of hardship.

Notes Receivable from Participants

Participants may borrow from their account a minimum of $1,000, subject to the maximum of the lesser of $50,000 or 50% of the participant's vested account balance. Loans are repayable over 1 to 5 years except for loans to purchase a primary residence, which may be repaid over a period of up to 15 years. Loans are secured by the balance in the participant's account and bear interest at a rate commensurate with local market rates for similar loans. For the year ended December 31, 2023, interest rates on outstanding loans range from 4.25% to 9.75% with a maturity date range from December 2024 to September 2038. Principal and interest are paid through payroll deductions.

Payment of Benefits

Upon separation from service with the Employer due to death, disability, retirement, or termination, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, a partial withdrawal of any amount, or installment payments of any amount on any periodic basis.

1. Description of the Plan (continued)

Effective January 1st, 2024, the mandatory rollover threshold will be increased from $5,000 to $7,000, pursuant to the Setting Every Community Up for Retirement Enhancement Act of 2022 ("Secure 2.0"), while the cash out for benefits of $1,000 or less will no longer be permitted.

The Plan also allows hardship withdrawals provided certain conditions are met, as well as in-service withdrawals once a participant reaches age 59½.

Investment Options

Participants may direct their contributions and any employer contributions in any of the available investment options, which included 12 mutual funds, 11 collective trust funds, a group annuity contract, and 3 pooled separate accounts. Participants may change their investment options at any time.

Administrative Expenses

The Employer pays substantially all administrative expenses of the Plan. Expenses related to investment management, advisory fees, and custodial fees are charged to and reflected in the investment returns of the investment funds on the statement of changes in net assets available for benefits.

Plan Termination

Although it has not expressed any intent to do so, the Employer has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event the Plan terminates, participants will remain 100% vested in their accounts.

2. Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting.

Payment of Benefits

Benefits are recorded when paid.

Contributions

Contributions from Plan participants and the matching contributions from the Employer are recorded in the year in which participant compensation is earned.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates that affect the reported amounts of assets and changes therein, and disclosure of contingent assets. Actual results could differ from those estimates.

Notes Receivable from Participants

Notes receivable from participants represent participant loans that are recorded at their unpaid principal balance plus any accrued but unpaid interest. Interest income on notes receivable from participants is recorded when it is earned. Related fees are recorded as administrative expenses are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2023, or 2022. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be a distribution, the participant loan balance is reduced and a benefit payment is recorded.

Investment Valuation

The Plan's investments are stated at fair value, except for the group annuity contract, which is valued at contract value. Contract value is the contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (an exit price). Management determines the Plan's

2. Summary of Significant Accounting Policies (continued)

valuations policies utilizing information provided by its investment advisors. See Note 4 for further discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded as earned. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses, respectively, on investments bought and sold, as well as held, during the year.

3. Investment Information Certified by the Trustee and Insurance Company

All investment balances and related investment information presented and disclosed in the accompanying financial statements, notes to financial statements and supplemental schedule, including investments held and notes receivable from participants at December 31, 2023 and 2022, and net appreciation in fair value of investments, interest and dividends, and interest income on notes receivable from participants for the year ended December 31, 2023, was obtained or derived from information provided to the plan administrator and certified as complete and accurate by Empower Annuity Insurance Company of America, as insurance company, and Empower Trust Company, LLC, as trustee.

4. Fair Value Measurements

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (i.e., an exit price). The fair value hierarchy prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets and liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described below:

- Level 1 – Unadjusted quoted prices in active markets that are accessible to the reporting entity at the measurement date for identical assets and liabilities.

- Level 2 – Inputs other than quoted prices in active markets for identical assets and liabilities that are observable either directly or indirectly for substantially the full term of the asset or liability. Level 2 inputs include the following:

  – Quoted prices for similar assets and liabilities in active markets

4. Fair Value Measurements (continued)

- Quoted prices for identical or similar assets or liabilities in markets that are not active
- Observable inputs other than quoted prices that are used in the valuation of the asset or liabilities (e.g., interest rate and yield curve quotes at commonly quoted intervals)
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means

• Level 3 – Unobservable inputs for the asset or liability (i.e., supported by little or no market activity). Level 3 inputs include management's own assumption about the assumptions that market participants would use in pricing the asset or liability (including assumptions about risk).

The level in the fair value hierarchy within which the fair value measurement is classified is determined based on the lowest level of input that is significant to the fair value measurement in its entirety.

Following is a description of the valuation techniques and inputs used for such general type of asset measured at fair value.

Collective trust funds and pooled separate accounts : Valued at fair value estimated by Empower, the issuer, which has been determined based on the unit values of the underlying funds. Unit values are determined by dividing the Net Asset Value (NAV) by the total units held by the Plan at year-end. These investments are valued at the NAV established by the investment manager on a daily basis. The NAV is used as a practical expedient to estimate fair value and is based on the fair value of the underlying investments held by the investment product less its liabilities. This practical expedient is not used when it is determined to be probable that the investment will sell the for an amount different than the reported NAV. The investment strategy of the investments are based on the asset class to which the investments belong, including large and small/mid cap domestic equity, international equity, and fixed-income securities. There are no restrictions on the Plan for redeeming units of participation in these investments at its daily closing NAV, nor are is there a redemption notice period. Furthermore, there are no restrictions on the investments from redeeming the marketable securities in which they are invested at their daily closing market value.

4. Fair Value Measurements (continued)

Mutual funds: Valued at daily closing prices as reported by the funds. These funds are required to publish their daily net asset value and to transact at that price. The initial pricing input is the quoted price obtained for the underlying mutual fund which is then adjusted to apply the expense factor disclosed in the annuity contract. The formula-calculated unit value is then compared to an accounting-driven unit value the following morning. The accounting unit value is determined in a manner similar to a mutual fund NAV calculation: dividing the net assets by the number of units outstanding. Any discrepancies between the two unit values are resolved to ensure the recordkeeping system reflects the accurate value for the day.

The following tables sets forth, by fair value hierarchy level, the Plan's assets carried at fair value as of December 31:

Assets at Fair Value as of December 31, 2023

	Level 1	Level 2	Level 3	Total
Investments measured at fair value:				
Mutual funds	**$113,296,976**	**–**	**–**	**$113,296,976**
Investments measured at net asset value as a practical expedient:				
Collective trust funds				**$96,243,829**
Pooled separate accounts				**$17,321,210**
Total assets at fair value				**$226,862,015**

4. Fair Value Measurements (continued)

Assets at Fair Value as of Decei

	Level 1	Level 2	Level 3	Total
Investments measured at fair value:				
Mutual funds	**$115,322,306**	**–**	**–**	**$115,322,306**
Investments measured at net asset value as a practical expedient:				
Collective trust funds				**$78,411,867**
Total assets at fair value				**$193,734,173**

The Plan does not have any level 3 investments. There were no transfers of investments into or out of level 3 during the year ended December 31, 2023.

5. Fully Benefit-Responsive Investment Contracts

The Plan holds a group annuity contract with Empower Annuity Insurance Company of America. Empower Annuity Insurance Company maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. This contract meets the fully benefit-responsive investment contract criteria and therefore is reported at contract value. Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value as reported to the Plan by Empower Annuity Insurance Company of America represents contributions made under the contract, plus earnings, less participant withdrawals and

5. Fully Benefit-Responsive Investment Contracts (continued)

administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or portion of their investment at contract value.

The group annuity contract crediting interest is reset quarterly in advance of the period to which it relates and has no minimum. Participants receive the declared crediting rate for all deposits and current assets for the quarter. Crediting rates are based on the actual yield, minus the investment management fee, of the current portfolio; plus the impact of anticipated deposits and withdrawals for the upcoming quarter; plus (or minus) any adjustments required for crediting more (or less) interest to participants than the portfolio yielded in prior quarters. Additionally, although most securities are anticipated to be held to maturity, if securities are sold, an adjustment is made to amortize any realized gains (or losses).

The contract provides payment options of the contract value upon termination as either selling the assets at market value or providing assets in kind. The plan administrator has no plans to terminate the contract and believes it more likely than not that the transactions will continue at contract value.

Certain events limit the ability of the Plan to transact at contract value with the insurance company and the financial institution issuer. Such events include (1) amendments to the plan documents (including complete or partial plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan Sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA or (5) premature termination of the contract. The plan administrator does not believe that the occurrence of any such events that would limit the Plan's ability to transact at contract value with participants is probable.

The average yield from the group annuity contract earned by the Plan and credited to participants was 2.08% and 1.23% for 2023 and 2022, respectively.

6. Reconciliation of Financial Statements to the Form 5500

The following is a reconciliation of the net assets available for benefits per the financial statements at December 31 to the Form 5500:

	2023	2022
Net assets available for benefits per the financial statements	**$ 262,121,850**	$ 227,476,629
Less: employer contributions receivable	**(245,775)**	(262,663)
Less: deemed distributed loan	**(29,927)**	(36,419)
Net assets available for benefits per Form 5500	**$ 261,846,148**	$ 227,177,547

The following is a reconciliation of the changes in net assets available for benefits per the financial statements to the Form 5500:

	Year Ended December 31, 2023
Change in net assets available for benefits per financial statements	$ 34,645,222
Change in employer contributions receivable	16,887
Change in benefits paid to participants	6,491
Change in net assets available for benefits per Form 5500	$ 36,668,600

7. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market volatility, and credit risks. Market risks include global events which could impact the value of investment securities, such as a pandemic or international conflict. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported on the statements of net assets available for benefits.

8. Related Party and Party-in-Interest Transactions

The Plan holds a fully benefit-responsive unallocated group annuity contract and a pooled separated accounts contract sponsored by Empower Annuity Insurance Company of America, the insurance company of the Plan. Transactions involving these investments are considered to be party-in-interest transactions for which a statutory exemption exists. Administration fees paid by Swift during 2023 totaled $138,119.

9. Income Tax Status

The underlying prototype plan has received an opinion letter from the Internal Revenue Service (IRS) dated June 30, 2020, stating that the written form of the underlying prototype document is qualified under Section 401 of the IRC. Any employer adopting this form of the plan will be considered to have a plan qualified under Section 401 of the IRC and, therefore, the related trust is tax-exempt. Once qualified, the Plan is required to operate in conformity with the IRC to maintain its qualified status. The plan administrator believes the Plan is being operated in compliance with the applicable requirements of the IRC and, therefore, believes the Plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. Plan management has analyzed the tax positions taken by the Plan, and has concluded that there are no uncertain positions taken or expected to be taken. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is not subject to income tax examinations for years prior to 2020.

10. Subsequent Events

Management evaluated subsequent events for the Plan through September 12, 2024, the date the accompanying financial statements were available to be issued.
