NOTES TO FINANCIAL STATEMENTS
December 31, 2009 and 2008

NOTE A - DESCRIPTION OF THE PLAN

The following brief description of the Strata Marketing, Inc. 401(k) Plan (the “Plan”) is provided for general information purposes only. Participants should refer to the Plan document or summary Plan description for more complete information.

General

The Plan is a defined contribution plan covering all non-union and non-leased employees of Strata Marketing, Inc. (the “Company”). Employees become eligible to participate in the 401(k) savings portion of the Plan and begin receiving matching contributions on the entry dates of either January 1 or July 1 coinciding with or following the date the employee reaches the age of 21. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (“ERISA”).

Contributions

Each year, participants may contribute between 1% and 80% of pretax annual compensation, up to the Internal Revenue Service (“IRS”) limit. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Contributions are subject to certain limitations. The Company may make discretionary pretax matching contributions. The amount would be equal to a percentage determined annually by Plan management. In 2009, the Company made matching contributions of approximately \$686,000.

Participant Accounts

Each participant’s account is credited with the participant’s contribution and an allocation of (1) Company match and (2) Plan earnings. Allocations of the Company’s discretionary profit-sharing contribution are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant’s vested account.

Payment of Benefits

Upon attaining normal retirement age or becoming disabled, or in the event of termination of employment or of the Plan for any reason, participants shall be eligible to receive a distribution of all amounts credited to their accounts. In general, an eligible participant’s account distribution can be deferred until a later date unless the vested balance is \$5,000 or less, in which case the balance will be distributed by the trustee as a lump-sum distribution.

NOTE A - DESCRIPTION OF THE PLAN - Continued

Payment of Benefits - Continued

At any time prior to retirement or other separation from service, it may be possible for a participant, in the event of a financial hardship, with the approval of the Plan administrator, to receive a hardship distribution. The Plan administrator will allow a hardship distribution only to enable a participant to meet immediate and material financial needs resulting from a hardship when those needs cannot be readily met by the participant's other financial resources.

Loans

Participants are allowed to borrow the lesser of 50% of his or her vested account balance or \$50,000, with a minimum amount of \$1,000. Personal loans have terms of up to five years. Principal residence loans may not extend beyond 10 years from the date of the loan. A fixed rate of interest is determined based on prevailing commercial rates for loans of similar types at the time new loans are requested. A participant may not have more than one loan outstanding at any time.

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Participants are 100% vested if they are employed on or after the normal retirement age.

Participants vest in the Company's contributions as follows:

<u>Years of service for vesting</u>	<u>Percentage</u>
1	33.33%
2	66.66
3	100.00

Investment Options

Participants may direct the allocation of their contributions and Company match to 22 investment options. Participants may change their investment options at any time.

Forfeitures

At December 31, 2009 and 2008, forfeited non-vested accounts totaled \$6,326 and \$4,101, respectively. In 2009, there were no forfeitures used to reduce employer contributions.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared under the accrual basis of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Plan invests in the Stable Principal Fund, which is a collective trust fund that invests in guaranteed investment contracts (“GICs”) and synthetic GICs. Accordingly, the statements of net assets available for benefits present the fair value of the investment in the collective trust as well as the adjustment of this investment from fair value to contract value as of December 31, 2009 and 2008. The statement of changes in net assets available for benefits is prepared on a contract-value basis.

Adoption of New Accounting Guidance

In April 2009, the Financial Accounting Standards Board (“FASB”) issued updates to the initial fair value measurements and disclosures guidance that covered determining fair value when the volume and level of activity for the asset or liability have significantly decreased and identifying transactions that are not orderly. This guidance expanded disclosures and required that major categories for debt and equity securities in the fair value hierarchy table be classified and presented according to the nature and risks of the investments.

In September 2009, the FASB amended the fair value measurements and disclosures guidance for investments in certain entities that calculate net asset per share (or its equivalent). The amended guidance is effective for the first reporting period ending after December 15, 2009, and expands the required disclosures for certain investments with a reported net asset value (“NAV”). The Plan has adopted both changes to the fair value measurements and disclosures guidance on a prospective basis for the year ended December 31, 2009. Adoption of this guidance did not have a material impact on the fair value determination of applicable investments. The effect of the adoption of this guidance had no impact on the statements of net assets available for benefits and statement of changes in net assets available for benefits. See note D for additional disclosures.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

Adoption of New Accounting Guidance - Continued

In January 2010, the FASB amended the fair value measurements and disclosures guidance by adding new disclosure requirements for Level 1 and Level 2, separate disclosures of purchases, sales, issuances and settlements relating to Level 3 measurements, and clarification of existing fair value disclosures. This amended guidance is effective for periods beginning after December 15, 2009, except for the requirement to provide Level 3 activity of purchases, sales, issuances and settlements on a gross basis, which will be effective for fiscal years beginning after December 15, 2010. The Plan is currently evaluating the impact that this amended guidance will have on the financial statements.

In July 2009, the FASB established the FASB Accounting Standards Codification ("ASC") as the source of authoritative accounting principles recognized by the FASB to be applied by non-governmental entities in the preparation of financial statements in conformity with accounting principles generally accepted in the United States of America ("US GAAP"). The use of the ASC was effective for financial statements issued for periods ending after September 15, 2009.

In May 2009, new accounting and disclosure requirements for subsequent events were incorporated into US GAAP. These requirements introduce new terminology, define a date through which management must evaluate subsequent events, and list the circumstances under which an entity must recognize and disclose events or transactions occurring after the statement of financial position date.

Use of Estimates

The preparation of financial statements in conformity with US GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See note D for discussion of fair value measurements.

Purchases and sales of investments are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains or losses on investments bought and sold, as well as held during the year.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

Administrative Expenses

Administrative expenses are paid by the Company. However, certain administrative costs related to the administration of loans to participants are paid by those participants.

Payment of Benefits

Benefit payments are recorded when paid.

NOTE C - INVESTMENTS

As of December 31, 2009 and 2008, investments that represent 5% or more of net assets at the end of the Plan year were as follows:

	<u>2009</u>	<u>2008</u>
Vanguard 500 Index Fund	N/A	\$ 372,177
T. Rowe Price International Funds Inc. Emerging Markets	\$ 656,842	N/A
T. Rowe Price Retirement 2020 Fund	1,142,691	875,385
T. Rowe Price Retirement 2030 Fund	2,071,085	1,405,306
T. Rowe Price Retirement 2040 Fund	1,777,551	1,063,413
PIMCO Total Return Funds	558,733	379,107

In general, the investments provided by the Plan are exposed to various risks, such as interest rate, credit and overall market volatility risks. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the values of investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

NOTE D - FAIR VALUE MEASUREMENTS

The FASB has issued guidance that establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The fair value hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under the FASB guidance are described below:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology, including the following:

- Quoted prices for similar assets or liabilities in active markets.
- Quoted prices for identical or similar assets or liabilities in inactive markets.
- Inputs other than quoted prices that are observable for the asset or liability.
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2009 and 2008.

Mutual funds - Valued at the NAV of shares held by the Plan at year-end based on the active market on which the individual securities are traded.

Collective trust - Valued at the NAV provided by the administrator of the fund. The NAV is based on the value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of units outstanding.

NOTE D - FAIR VALUE MEASUREMENTS - Continued

Participant loans - Valued at amortized cost, which approximates fair value.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31:

	2009			
	Level 1	Level 2	Level 3	Total
Mutual funds				
Small capital equity funds	\$ 513,379	\$ -	\$ -	\$ 513,379

Total assets at fair value	<u>\$9,560,284</u>	<u>\$324,320</u>	<u>\$167,465</u>	<u>\$10,052,069</u>

- (a) The objective of the fund is to maintain safety of the principal while generating a level of current income generally exceeding that of a money market fund. The fund primarily invests in short-term securities, including traditional and synthetic investment contracts. Participant-directed redemptions have no restrictions; however, the Plan is required to provide a one-year redemption notice to liquidate its entire share in the fund.

NOTE F - INCOME TAX STATUS

The Plan is a Defined Contribution Volume Submitter Prototype Plan (“Prototype Plan”) sponsored by Marshall & Ilsley Trust Company, N.A. (“M&I”) and adopted by the Company. The Prototype Plan obtained its latest opinion letter on March 31, 2008, in which the IRS stated that the Prototype Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code (“IRC”). The Plan has not requested its own determination letter from the IRS. Although the Plan has been amended since receiving the opinion letter, the Plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC.

NOTE G - RELATED-PARTY TRANSACTIONS

Certain Plan investments are managed by M&I. M&I is the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions.

NOTE H - INFORMATION CERTIFIED BY THE TRUSTEE

The Plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor’s Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, M&I, the Plan’s trustee, has certified that the following data included in the accompanying financial statements and supplemental schedule is complete and accurate:

- Investments and accrued income, as shown in the statements of net assets available for benefits as of December 31, 2009 and 2008, except for the adjustment from contract value to fair value for interest in collective trust relating to fully benefit-responsive investment contracts as of December 31, 2009 and 2008.
- Investment income, as shown in the statement of changes in net assets available for benefits for the year ended December 31, 2009.
- Schedule H, line 4i - schedule of assets (held at end of year) as of December 31, 2009.

The Plan’s independent accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.
