As permitted by 29 CFR Section 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 4, which was certified by Cullen/Frost Bankers, Inc., the trustee of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedules. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of and for the years ended December 31, 2009 and 2008, that the information provided to the plan administrator by the trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedules taken as a whole. The form and content of the information included in the financial statements and schedules, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

R.E. SWEENEY COMPANY, INC.
STOCK BONUS PROFIT SHARING PLAN AND TRUST
NOTES TO FINANCIAL STATEMENTS

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

General

The R.E. Sweeney Company, Inc. Stock Bonus Profit Sharing Plan and Trust (the Plan) is a Tax Reform Act Stock Bonus Profit Sharing Plan and Trust sponsored by R.E. Sweeney Company, Inc. (the Company). The Plan is a defined contribution plan covering substantially all employees of the Company. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Basis of Accounting

The accompanying financial statements of the Plan are prepared using the accrual method of accounting.

Valuation of Investments

Common stock of the Company is stated at fair value based on the estimated market value as determined by an independent appraisal. All other investments are valued using quoted market prices or at fair values as otherwise determined by the custodian. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Income Taxes

The Plan obtained its latest determination letter on October 31, 2007, in which the Internal Revenue Service stated that the Plan, after adoption of proposed amendments, was in compliance with the applicable requirements of the Internal Revenue Code.

The latest amendment does not affect net assets available for benefits. The Plan administrator and the Plan's tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, they believe that the Plan was qualified and the related trust was tax-exempt as of the financial statement date.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of the contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – CONTINUED

Subsequent Events

During the fiscal year ended December 31, 2009, the Plan implemented new general standards for accounting and for disclosure of events that occur after the financial statement date but before the financial statements are available to be issued. However, this did not impact the Plan's financial position or results of operations. The Plan evaluated all events or transactions that occurred after December 31, 2009 through October 8, 2010, the date these financial statements were available to be issued.

NOTE 2. THE PLAN

The R.E. Sweeney Company, Inc. Stock Bonus Profit Sharing Plan and Trust was established January 1, 1977 for the exclusive benefit of eligible employees of R.E. Sweeney Company, Inc. and other associated companies who qualify for participation. Subsequently, the trust instrument has been revised for the purpose of complying with the provisions of changes in government regulations. The effective date of the trust's latest revision was January 1, 2009. The trust is administered by the trustee (consisting of one or more members) as selected and designated by the Board of Directors of R.E. Sweeney Company, Inc.

For each of its taxable periods, the employer shall contribute to the Plan (from its current or accumulated profits) an amount determined by its Board of Directors, provided, however, that the amount contributed shall not exceed the amount constituting an allowable deduction under Section 404(a)(3) of the Internal Revenue Code of 1986, as amended.

At each valuation date (December 31) the net income of the Plan is allocated to the participants in the ratio which the participant's interest in the Plan assets other than company stock, determined as of the beginning of the year, bears to the total interest of all participants. At the end of each year the employer contribution to the trust and forfeitures are prorated among all participants having completed at least 1,000 hours of service and who are employed by the Company on December 31, in the ratio which the total aggregate compensation of each such participant for the Plan year bears to the sum of the total aggregate compensation of all such participants for the Plan year. On December 31 all net assets available for benefits are allocated to participants as defined above. Each participant shall have a further vested interest in the proportionate share of employer contributions, net income and forfeitures as follows:

a. Upon completion of two years of service, the participant shall have a vested interest of 20%. This vested interest shall increase 20% for each additional year of service so that at the end of six years of service the participant shall be 100% vested.

NOTE 2. THE PLAN – CONTINUED

b. In the event of the death or disability of a participant such amounts shall be fully vested.

Under the terms of the Plan, participants must commence distribution of their account (as defined by the Plan) within sixty days after the close of the Plan year in which the latest occurs: (1) participant reaches normal retirement age; (2) participant terminates employment; or (3) the fifth anniversary of the year in which the participant commenced participation in the Plan. The participant may elect to receive benefits in cash or R.E. Sweeney Company, Inc. common stock.

Administrative expenses include investment management fees, plan administration fees and legal fees.

The amount of forfeitures allocated to the eligible plan participants was $11,873 and $0 in 2009 and 2008, respectively.

Amounts allocated to persons who have elected to withdraw from the plan but had not been paid were $0 and $5,740 for fiscal years 2009 and 2008, respectively.

Although it has not expressed any intent to do so, the Plan sponsor has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, Plan participants will become 100% vested in their accounts.

NOTE 3. COMPANY CONTRIBUTIONS

The Company's directors have authorized $0 in contributions to the Plan for 2009 and 2008.

NOTE 4. INFORMATION CERTIFIED BY TRUSTEE

Information regarding the investments held as of December 31, 2009 and 2008 and related investment income for the years then ended included in the financial statements and schedule of assets (held at end of year) was obtained from Cullen/Frost Bankers, Inc., the trustee of the Plan’s assets held in the collective trust, and certified by the trustee as being complete and accurate.

NOTE 4. INFORMATION CERTIFIED BY TRUSTEE – CONTINUED

NOTE 5. INVESTMENTS REPRESENTING MORE THAN 5% OF PLAN'S NET ASSETS

The following table presents the fair value of the Plan's investments, all of which are non-participant – directed, that represent more than 5% of the Plan's net assets.

	2009	2008
Common stock of R. E. Sweeney Company, Inc.	$ 4,351,390	$ 3,584,341

NOTE 6. CONCENTRATION OF CREDIT RISK

The Plan maintains its cash in bank accounts which, at times, may exceed federally insured limits. The Plan has not experienced any losses in such accounts. The trustee believes the Plan is not exposed to any significant credit risk on cash and cash equivalents.

NOTE 7. CONCENTRATION OF ASSETS

The Plan's assets are highly concentrated in securities of R.E. Sweeney Company, Inc. This concentration increases the Plan's vulnerability to the risk of a near-term severe impact. In addition, the fair value of R.E. Sweeney Company, Inc. securities was determined by independent appraisal. It is reasonably possible that the estimated value of the securities could change in the near term.

NOTE 8. FAIR VALUE MEASUREMENTS

In September 2006, the Financial Accounting Standards Board issued guidance that clarified the definition of fair value for financial reporting, established a framework for measuring fair value and required additional disclosures about the use of fair value measurements. The Plan adopted these provisions effective January 1, 2008.

These provisions establish a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 inputs) and the lowest priority to unobservable inputs (level 3 inputs). The three levels of the fair value of hierarchy are described below:

NOTE 8. FAIR VALUE MEASUREMENTS – CONTINUED

Level 1: Assets that have observable inputs that reflect quoted prices (unadjusted) for identical assets or liabilities in active markets (NYSE, NASDAQ or the Chicago Board of Trade). Observable inputs reflect the assumptions market participants would use in pricing the asset or liability developed based on market data obtained from sources independent of the reporting entity.

Level 2: Assets that have inputs other than quoted prices included within Level 1 that are either directly or indirectly observable for the asset. Inputs are observable but do not solely rely on quoted market prices to establish fair value.

Level 3: Assets with unobservable inputs. Unobservable inputs reflect the reporting entity's own assumptions about the assumptions market participants would use in pricing the asset or liability developed based on the best information available in the circumstances.

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. The following is a description of the valuation methodologies used for instruments measured at fair value, including the general classification of such instruments pursuant to the valuation hierarchy. There have been no changes in the methodologies used at December 31, 2009 and 2008.

Cash and cash equivalents: Fair value of cash is measured at its carrying amount. Fair value of cash equivalents is measured at the closing price of the security reported on the major market on which the security is traded.

Common stock of R.E. Sweeney Company, Inc.: Valuation by independent appraisal at the reporting date, by a qualified expert.

Capital stock and mutual funds: Valued at the closing price reported on the active market on which the individual securities are traded.

Cash value of life insurance: Valued at cash surrender value, which approximates fair value.

Government and corporate bonds: Government bonds are generally valued using quoted prices of securities with similar characteristics. Corporate bonds are generally valued by using pricing models (such as discounted cash flows), quoted prices of securities with similar characteristics or broker quotes.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumption to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE 8. FAIR VALUE MEASUREMENTS – CONTINUED

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2009 and 2008.
