GENERAL TRUCK BODY 401(K) PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2009

Note 1 – Description of Plan

The following description of General Truck Body 401(k) Plan ("the Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan was formed and adopted by General Truck Body Manufacturing Company of Texas dba General Truck Body Manufacturing Company ("Company"), effective January 1, 1996. The Plan is a defined contribution plan covering all full-time employees of the Company who have one year of service and are age 21 or older. It is also a salary reduction plan or 401(k) plan and is subject to the provisions of the Employee Retirement Income Security Act (ERISA).

Contributions

Each year, participants may contribute a percentage of compensation not to exceed the dollar limit which is set by law. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers an insurance investment contract with Hartford Life Insurance Company ("Hartford" or "Custodian"), which includes a pooled separate investment account (mutual funds) as an investment option for participants. The Company will make a safe harbor matching contribution equal to 100% of salary deferrals that do not exceed 3% of compensation plus 50% of salary deferrals between 3% and 5% of compensation. At its discretion, the Company may make a discretionary profit sharing contribution.

Rollovers

Any employee may rollover funds from prior qualified employer retirement plans, after meeting eligibility requirements for participation in the Plan.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution and (b) Plan earnings. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Note 1 – Description of Plan (Continued)

Plan Investment Options

The Plan currently offers an insurance investment contract with Hartford Life Insurance Company (the "Hartford"), which includes a money market fund or a pooled separate investment account (mutual funds) as investment options for participants. In addition, participants have the option to invest in directed accounts, outside of the investment contract.

Vesting

Participants are immediately vested in their contributions and Company basic matching contributions plus actual earnings thereon. Vesting in the Company's discretionary profit sharing portion of their accounts plus actual earnings thereon is based on years of continuous service. A participant is 100% vested ratably over five years of credited service.

Forfeitures

Forfeitures represent the portion of non-vested benefits remaining from employees who have withdrawn from the Plan before becoming fully vested. Forfeitures are used to reduce Company contributions. In 2009, forfeitures from nonvested accounts of $2,999 were used to reduce Company contributions.

Administrative Expenses

Certain expenses incurred in the administration of the Plan are paid directly by the Company.

Participant Loans

Participants may borrow from their fund accounts to a maximum equal to the lesser of $50,000 or 50% of their vested account balance, whichever is less. A participant cannot have more than one outstanding loan at any given time. The loans are secured by the balance in the participant's account and bear interest at rates that range from 4.25% to 10.25%, which are commensurate with local prevailing rates as determined quarterly by the Plan administrator and fixed as of the loan origination date. Principal and interest is paid ratably, through monthly payroll deductions, over a period generally not extending five years from the date of the loan.

Plan Termination

Although it has not expressed any intent to do so, the Employer has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

Note 1 – Description of Plan (Continued)

Payment of Benefits

On termination of service due to death, disability, or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or in the form of a life or joint and survivor annuity. For termination of service for other reasons and for amounts less than $5,000, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

Note 2 – Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are presented on the accrual basis of accounting.

Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Quoted market prices and other available information are used to value investments. Shares of mutual funds are valued at the net asset value of shares held by the Plan at year-end. Participant loans are valued at their outstanding balances, which approximate fair value. Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date.

Contributions

Employee contributions are recorded in the period during which the Employer makes payroll deductions from participant earnings.

Benefit Payments

Benefits are recorded when paid.

Plan Expenses

A participant with a loan is directly charged a processing fee upon origination of the loan. Other administrative costs of the Plan charged by Hartford are generally paid by the Company.

Note 2 – Summary of Significant Accounting Policies (Continued)

Concentrations of Credit Risk

The Plan's investments potentially subject the Plan to concentrations of credit risk. The Plan has not experienced any credit losses associated with these instruments.

Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Note 3 – Investments

Information Prepared and Certified by the Plan Custodian

The December 31, 2009 and 2008 statements of net assets available for benefits, the investment activities included on the statement of changes in net assets available for benefits for the year ended December 31, 2009, and the accompanying notes to the financial statements were prepared in part or entirely from information certified by the Custodian in accordance with 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The information certified as complete and accurate includes total investments of $1,511,726 and $1,351,882 at December 31, 2009 and 2008, respectively, and related investment income of $136,554 for the year ended December 31, 2009.

Investments that represent 5% or more of Plan assets at December 31, 2009 and 2008 are as follows:

	2009	2008
Hartford Money Market	$ 589,529	$ 422,302
Davis New York Venture	147,734	385,660
Pioneer Growth Opportunities	121,641	-
Oppenheimer Main St. Small Cap	154,295	-
American Funds New Perspective	-	97,485
Mutual Funds with Baird	174,092	-
Other Loans	244,839	272,838

Note 4 – Fair Value Measurements

FASB ASC 820, Fair Value Measurements and Disclosures, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2 – Inputs to the valuation methodology include

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability; and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2009 and 2010.

Common stocks, corporate bonds and U.S. government securities: Valued at the closing price reported on the active market on which the individual securities are traded.
Mutual funds: Valued at the net asset value (NAV) of shares held by the plan at year-end.
Participant loans and other loans (real estate): Valued at amortization cost, which approximates fair value.

Note 4 – Fair Value Measurements (Continued)

The preceding methods may produce a fair value calculation that may not be indicative of net realizable value or reflective of future values. Furthermore, although the plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the plan's assets at fair value as of December 31, 2009 and 2008:

Assets at Fair Value as of December 31, 2009

Note 5 – Tax Status

The Plan is currently under a national Internal Revenue Service (IRS) approved prototype plan sponsored by the Hartford through SunGard Corbel LLC, M & P Sponsor, that has received a favorable determination letter dated October 5, 2001, under the applicable provisions of the Internal Revenue Code ("IRC"). Companies who adopted this plan without changes could rely on the sponsor's determination letter. The Company adopted the Hartford prototype plan without any changes.

However, the Plan has been amended since the latest determination letter. The plan administrator and tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Note 7 – Transactions with Parties-in-Interest

The Company provides to the Plan certain accounting and administrative services for which no fees are charged. The Hartford is considered a party-in-interest, as defined by ERISA, since it provides services to the Plan as investment custodian.

A trustee and officer of the Plan sponsor has directed his participant funds to be invested in short term loans to certain real estate partnerships, where he is also a partner.

Note 8 – Subsequent Events

For the year ended December 31, 2009, the Company has evaluated subsequent events for potential recognition and disclosure through October 8, 2010, the date of the auditor's report. Effective May 24, 2010, Plan adoption agreement was amended and notified the Plan participants that the Plan will not use a Safe Harbor method for employer matching contribution in the year 2010.
